DAY SCHOOL RETURN

I HEREBY CERTIFY that the within return is a true and faithful statement of the attendance and tuition at the Indian Day School for the Quarter ended June 30 1931.

Teacher J. E. Simenelle
P. O. Address J. P. Marcano

Dated June 30 1931.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

H. Raham
Indian Agent

Dated at Duncan B.C.

this 3rd July 1931.

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return must be added and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names other than those of Indian children are to be included in this return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

Form No. 144

INDIAN DAY SCHOOL REGULATIONS

All Indian schools shall be kept open for not less than 200 days in each year.

Schools shall be opened after the summer holidays on September 1, unless this date should be Labour Day, and shall close for Christmas holidays on December 22.

The winter term will commence on January 3, and end on June 30 in each year.

The following holidays will be allowed during the year:—All Saturdays, Labour Day, all local, municipal, Dominion or Provincial, public fast or thanksgiving days, Victoria Day, the King's Birthday, Good Friday, Easter Monday, the remainder of the week following Easter Monday.

In addition to the above, the Roman Catholic Schools will be allowed as holidays a limited number of holy days of obligation, not exceeding five in all, which will be accounted as teaching days and for which payment of salary will be allowed.

Where in the interest of the school work such action may be desirable, the holidays allowed during the summer (two months) may, upon the recommendation of the local Agent, be taken at some other time of the year; but no change is to be made without the express approval of the Department.

The morning session shall be from 9 a.m. to 12 noon, and the afternoon session from 1 p.m. to 4 p.m., with a recess during each session of not less than 15 and not more than 20 minutes.

Salaries of teachers will be paid on a basis of ten (10) teaching months in each school year. Salaries will be paid at the end of each quarter, upon receipt of quarterly return. As school is open during one month in the quarter ending September 30 (unless special permission has otherwise been granted), payment of salary for that quarter will be for one month only. During each of the other quarters in the school year—if school is regularly taught—three months' salary will be paid at the end of the quarter.

Summer holidays are not taken into account in payment of yearly salaries. Each school year shall begin and end on the dates mentioned above, and the yearly salary allowed will be paid for the period taught between those dates only, unless, as heretofore stated, special provision has been granted for a change in the holiday period.

All teachers will be required to give at least one month's notice of their intention to resign.

All questions relating to the day school should be referred to the local Indian Agent.

NOTE—READ CAREFULLY AND COMPLY WITH "INSTRUCTIONS TO TEACHERS" ON FRONT OF THIS FORM

Sir:

As soon as possible after March 31st next, I would appreciate if you would arrange to have Mr. J. G. Sommerville, manual training instructor at the Nanaimo Indian Day School, forward to the Department a detailed report regarding the vocational training that is given at the Nanaimo Indian Day School. This report should contain the following information:

- (a) Instruction: Name age and qualifications of instructor or instructors.
- (b) Industries: Under this heading you should specify the industries taught, the number of pupils in each industry, number of hours weekly that each pupil is engaged, and list of work accomplished during the period April 1, 1933, to March 31, 1934.
- (c) General Remarks: Under this heading you should state if the pupils are interested, and if you consider the results that are being obtained justify the expenditure that is being made.

If you feel that the value of the course could be improved, you should state in what manner you believe this could be done.

Your obedient servant,

A. F. MacKenzie,
Secretary.

Report of Manual Training Department
At Indian Day School

Nanaimo Reserve

Name of Instructor: John C. Somerville.

Age: 61

Qualifications: Certificates: High School Technical First Class.
Junior High Manual Training First Class.

Special Cer- Metal Work.
tificates in: Wood Turning.
Mechanical Drawing.

Technical Training: Regent Street Technical School,
London, England.

Industries.

It should be fully understood that this is an Indian Day School with limited room and equipment, and the work is therefore governed by these facts. The work however, is planned so that the pupils will gain a full knowledge of construction and wood-working joints that will be useful to them in after life.

The classes are held for one day of each week and although this is a one day school, the amount of work accomplished compares favorably with that in any school carrying it in periods for a whole week. Besides wood construction; sheet metal and metal are co-related with the projects and in some cases plan drawing is also taught.

Before appending the number of pupils and the work they have been engaged in, taken from the register, from April 1, 1933, to March 31, 1934 it might be advisable to state that a great deal of repair work is also being done. During the last two months the following are some of the articles which have been repaired: spinners; tubs; lamps; table; chair; bicycle; drag-saw; gun; and axes and hammers shaited etc. In addition to this, the pupils are encouraged to bring any tools which they may have at home and put them in working order.

examination of the files, when this school was started, it is noted that the instructor was asked to find room and equipment for ten boys. The register now shows an enrollment of over twenty pupils; the morning session as much as possible being given over to the seniors, and the afternoon to the juniors. The school, especially for the last two months, has been a little over crowded, the February attendance percentage showing 98%. The attendances in Winter and Spring however, are generally much higher than the Summer and Autumn.

<u>Name:</u>	<u>Some of the work accomplished:</u>
McLean, S.	Cedar chest, spinning-stand and frame, fishing boat model to scale, repairs.
White, W.	Fence gate, table, various Day School repairs, chest of drawers
White, E.	Plan Drawing, frames for hose, sanitary fittings.
Eli, B.	Complete frame for power saw. (This boy is at the present time cutting wood with his saw.)
Jones, E.	Kitchen table, kitchen fittings and cupboard.
White, D.	Table and chairs repaired, paddles, medicine cupboard, seat.
Mattice, H.	Towel fitting and shell, medicine cupboard.
Peters, E.	Fishing tackle box, stool, repairs.
Trimball, E.	Table, drawing board stand and "T" square, wall shelves.
Bob, S.	Fishing box, boot box, stool, etc.
Good, C.	Stool, small cupboard, tool holder.
Seward, B.	Tool box, stool, small chest.
Peters, B.	Hanging shelf, ink stand, brush holder, etc.
Point, I	Paper rack, stool.
White, D.	Stool, plant stand, tie holder.
White, A.	Sledge, stool.
Good P.	Book rack, hanging shelf, towel roller.
Johnny E.	Cupboard, stool, plant stand, nail box.

Joe, G.	Small cupboard, tool holder, stool.
Joe, J.	Hat and coat rack, stool.
Good, G.	Tool box, small cupboard, plant stand tooth brush holder,
Johnny, H.	New boy.

Besides the above list, the small boys have made many toys such as model planes, boats, windmills, gameboards, etc, bringing in various tool exercises.

A complete list of all the activities of the Juniors has not been kept.

General Remarks

(i) I am quite sure the pupils are interested; and the projects are laid out so that their interest will be held. The Instructor has found that there is an innate love amongst the Indian boys, to work with wood-working tools.

(ii) The trend to-day is for more and more practical education in our schools; and, judging from results and observances of the boys taught this particular branch of training; I would say that the money spent is more than justified. If anything, this training should be extended; results cannot be measured by dollars and cents.

(iii) In the first place, let me say that the Instructor would welcome constructive criticism from any competent inspector, and is quite willing to stand aside at any time if the boys can be better helped. Mr. John Kyle, Organiser of Technical Education for B.C. has visited this school once or twice and has had nothing but praise for the work being done and its practical nature. The tragedy of youth to-day is that after school training, no positions are available. I should like to suggest that some of these lads be given an opportunity to further develop an outlet for the practical training which they have received.

As has been suggested by the Department, the boys might make caskets. This could be done, not only for our own Reserve, but for the whole Island extending up from Duncan. This project could be tried out at no expense to the Department, excepting the cost of material. If specifications were available, we could estimate the amount of costs etc.

Secondly, so many of the Indians are fishermen and live at the sea-side that a course in boat building (small boats) would fill an urgent need. Again here, as above, it would be a matter of first cost.

There is an old shed here that is available and that would be suitable for such work.

If these two courses could be worked out and started, the writer is confident that the school would soon pay its own costs, which on the whole, are very low.

Your No.152-11-11

Dear Sir:-

Having reference to your letter of February 28th. asking for a report from Mr. J.G. Sommerville, Manual Training Instructor at Nanaimo Indian Day School. I now have much pleasure in enclosing Mr. Sommerville's report which is very comprehensive, and I do not think that he overestimates the work that these pupils are doing.

We have had examples of the work that can be done by ex-pupils in the building of the houses that have been recently built on this reserve. The boys are taught very practically and it is really hard to improve very much upon the work that is being done, with the exception that perhaps if the department supplied material that coffins could be made and kept in stock it would save the department on various occasions when these have to be purchased. The classes are so well attended that the building is often found to be a little too small.

Dear Sir:-

I am writing this letter to you as my application for the position of Manual Training Instructor to the Indian School in Nanaimo.

I am a married man, twenty-nine years old and have taught Manual Training since 1929. In all, considering a lay-off during the depression, I have taught over five years including some experience with Indian work.

Since Mr. Sommerville's retirement this April past, I have been employed by the Nanaimo City School Board, a position which I held for three years prior to the depression.

If successful in securing this position I will endeavor to carry on the good work which has been done in the past.

Hoping this meets with your approval,
I remain.

Yours truly,

(Signed) Warner J. Huddlestone.

Dear Sir:

I beg to refer to Departmental letter 152-11-11 dated November 3rd, 1937, in the case of Mr. Warner J. Huddleston whose employment as Manual Training Instructor at the Nanaimo Indian Day School has been recommended to the Indian Affairs Branch by Indian Agent Graham in place of Mr. Sommerville who contemplates resigning on account of ill-health. Mr. Huddleston was previously employed as Manual Training Instructor at St. George's Indian Residential School and his work there has been adversely reported on by Principal Lett. Inspector Barry also informs me that Mr. Huddleston lacks the necessary qualifications and should not be appointed. Under these circumstances I would suggest that action with respect to this appointment be deferred until after the forthcoming inspection of the Indian Day School which is to be made by Capt. Barry early in December.

Yours faithfully,

Major D. M. MacKay,
Indian Commissioner,
P. O. Box 8,
Vancouver, B.C.

Dear Major MacKay:-

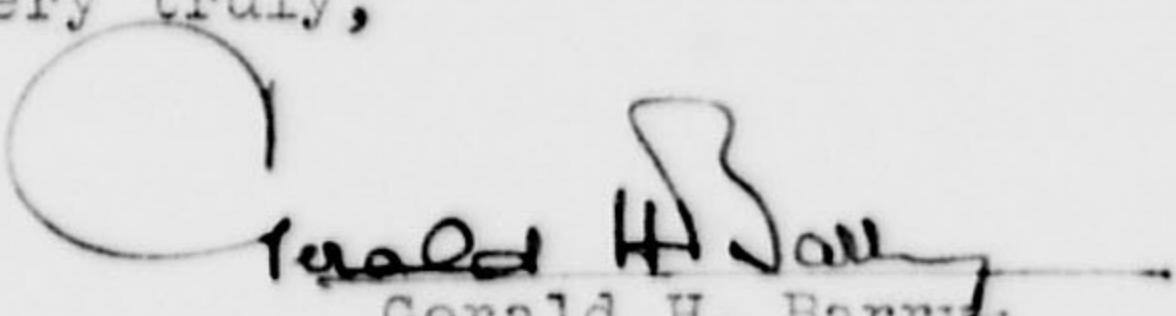

With reference to the vacant position of Manual Training Instructor in the Nanaimo Indian Day School, I may say that when last in Nanaimo on inspection duties I had a short conference with Mr. Indian Agent Graham and Mr. J.G. Sommerville in the hope that we could find a suitable candidate. I asked Mr. Sommerville whether he considered an Indian would be able to undertake the duties with any hope of success. It will be remembered that Mr. Sommerville has been the Provincial Manual Training Instructor for the Nanaimo Schools for many years and has also been in charge of the work in the Indian Day School. Mr. Sommerville promised to consider the matter and said he would later suggest a candidate for the vacant position. He rather favoured the employment of one of the Indians.

Edison Whyte, an Indian of the Nanaimo Band, is now applying for the position of Manual Training Instructor at the Indian Day School. While I do not remember this boy passing through the Day School, I am very glad to know that Mr. Sommerville can recommend his employment. I notice that Mr. Indian Agent Graham suggests that Edison Whyte be employed in a temporary way till the end of the present school year on June 30th 1938.

I would recommend that Edison Whyte be appointed Manual Training Instructor at the Nanaimo Indian Day School, the appointment to be a temporary one till I have an opportunity to inspect the work done by his class. There is a new teacher at the Nanaimo Indian Day School this term and I shall make a point of visiting the school before the end of June, possibly just before Easter. At that time help will be given to Edison Whyte, should the Department make the appointment recommended above, and his work reported on in the usual manner.

In forwarding this recommendation may I draw your attention to paragraph 2 of Departmental letter 152-11-11 dated December 7, 1937.

Yours very truly,

Gerald H. Barry:
Inspector of Indian Schools, B.C.

Nanaimo, B.C.,

January 22, 1938.

TO WHOM IT MAY CONCERN:

This is to certify that I have known Mr. Edison White for the past ten years, during which time he was trained under me. He is a splendid type of a young man and I am sure that he would make a success of teaching the younger boys.

Mr. White is an expert craftsman and as a student showed marked ability in his work. In addition to this he took many prizes in open competition with other schools.

I have no hesitation in recommending this young man for this position, and if he is successful in his application I will keep in touch with the school until it is in good running order again. Mr. White is quiet, industrious, and anxious to better his position.

Yours very truly,

"J. G. Sommerville"

Dear Mr. Graham:

I wish to make application for the position of
Manual Training Instructor at the Nanaimo Indian Day School.
I am a resident at the Nanaimo Indian Reserve, and am 25
years of age.

Mr. Somerville, who recently retired from this
position knows me personally, and as one of his pupils. A
letter from him is enclosed.

If my application is favorably considered I shall
think of this as a permanent position and not as something
of a temporary nature.

Yours very truly,

Dear Sir:-

Enclosed you will find an application from Edison Whyte, Indian of the Nanaimo Band, for the position of Manual Training Instructor at the Nanaimo Indian Day School, supported by a recommendation from Mr. J. G. Sommerville, former Manual Training Instructor at this school.

I may say that I discussed this application with Mr. Graham, who is still in hospital, and he asked that I forward the application on to you, and to say that he considered this man did real good workmanship, and he would suggest that he be given a trial till the Summer holidays- and holding one session a week.

Yours obediently,

Dear Sir:

Reference your file 152-11-11.

The Department was advised in October, last, by Indian Agent Graham that Mr. J.G. Sommerville, Manual Training Instructor at Nanaimo Indian Day School, found it necessary to give up his duties because of ill-health, and that Mr. W.J. Huddleston applied for the position but was not recommended for the reasons set out in my letter of November 30th, file 15/3/1198.

An application has now been received from Edison Whyte, a young man 25 years of age and a member of the Nanaimo Band. Mr. Sommerville, late Manual Training Instructor, is of the opinion that Whyte has the necessary qualifications, and recommends him for the position. A copy of Whyte's application, together with copies of letters from Mr. Sommerville, Inspector Barry, and Miss Robertson, Acting Agent in the absence of Mr. Graham who is ill, in support of the application is forwarded herewith.

I would recommend the temporary appointment of Edison Whyte as Manual Training Instructor, and that a report on his work be submitted by Inspector Barry before the close of the current school year, when such further action as is considered necessary can be taken.

Yours faithfully,

D. M. MacKay

Dear Sir:

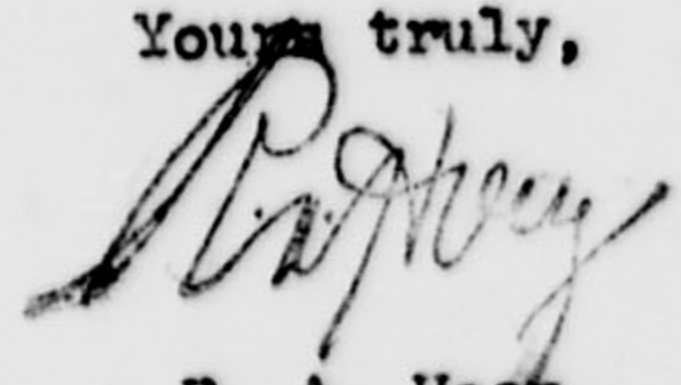

I am in receipt of your letter of the 7th instant enclosing correspondence with reference to the application of Edison Whyte for appointment as manual training instructor at the Nanaimo Indian Day School.

It has been decided to approve the temporary appointment of Mr. Whyte to June 30, 1938. It is noted from your letter that before that date Inspector Barry will visit the school and report on Mr. Whyte's work. The retention of his services for the academic year 1938-39 will depend on the success he achieves between now and the end of June.

He will be allowed payment at the rate of \$4.00 for a three hour session and it is understood that there will be two three hour sessions each week.

You should inform the Indian Agent of Mr. Whyte's appointment and request him to give Mr. Whyte every possible assistance.

Yours truly,

The second item on the account read: "90 ft. B.M. clear spruce at .50" and the extension read \$5.40. The correct extension is \$4.50. This means that the total of the account should have been \$5.00 instead of \$5.90. A cheque for the former amount is being forwarded to the company.

The small boys are making good progress in the making of toys and small articles. A few of the older boys have made satisfactory articles. The class has not been operating to allow me to judge in any sort of final way whether the Department is justified in continuing this work, under the guidance of an Indian.

I would recommend that the Manual Training Shop be put into good repair, a heater supplied as mentioned above, the necessary new tools purchased, and the experiment continued for the school year 1938-39. Edison Whyte in my opinion might well be informed that he has to show during the next School Year that the expenditure of the Department's funds on his salary and the Manual Training Shop in general is worth while. The Indians are at present trying to get as much for themselves out of the Department as possible and it is obvious that those boys not attending the Day School should be excluded.

I believe that it would be well to retain the services of this young Indian as instructor for another year but that he be informed that his salary will only be paid monthly and that if considered necessary the arrangement may be terminated at any time with a month's notice.

present pupils of the school are given instruction in very elementary Manual Training. The older school pupils, the four mentioned above are in the afternoon employed on school repair work etc. Some of the ex pupils have been coming in the afternoon also but I have asked that this be not allowed as all the time and space is required by the small boys.

At the six single benches and the long bench for three pupils only about nine or ten pupils can be properly accommodated. It is necessary to exclude the ex pupils of the Day School in the afternoon, as the little people require great attention in learning to work with sharp tools if we are to avoid accidents.

A register has been kept in a rough exercise book since April. From this I have been able to extract the following information

Total Morning Attendance 21 for 6 lessons
Average attendance in Morning Class 3.5

Total afternoon attendance 63 for 6 lessons
Average attendance in afternoon class 10.5

At first the ex pupils gave trouble and had to be warned by the Acting Indian Agent. The worst of these older boys have left.

I do not consider that the Department should permit those Indians who are not attending the Nanaimo Indian Day School to receive Manual Training instruction here. The three or four older boys with perhaps a few more from the lower Grades later will make a Morning Class.

The whole of the work done should remain the property of the school and not the pupil. It should be exhibited and sold and at least half of the money so obtained should be retained for purchase of materials and other articles for the school and particularly the Manual Training Class. Most of the articles made should be for the definite use of the school however. A number of small articles are required now by the teacher. The boys must be instructed that though they make articles from school lumber, with school tools, and in school time, these articles will not in future become their personal property as in the past.

A Singer sewing machine is badly needed by the girls to enable them to learn to make their own clothes. Such machines are used in the Indian homes, and the older girls need this training. I would recommend that such a sewing machine as is used in the Residential Schools be supplied to this Day School.

I wish to strongly recommend the granting of the sum of \$100.00 to the school for the purpose of starting the above mentioned native wool work. This would cover cost of material and salary of Indian woman for the coming school year. After this the school might be able to carry on the work on the money obtained from the sale of articles.

As reported in December 1937 the old school now used as a Manual Training Shop is some 20 feet by 30 feet. There are four windows, one of which needs repair and all need wire mesh screens to protect from damage by balls. A new door which will lock is urgently needed. The outside walls of the room in one place at least need renewal.

As mentioned in my previous report a new coal burning heater is required if this room is to be used.

A fairly large number of tools are urgently needed if any worth while Manual Training is to be carried on here. It must be possible to lock the Manual Training Shop door, and there should be a locked cupboard for the new tools and the few now in the room. The list of what is required will be prepared by the present teacher of this subject and sent to the Acting Indian Agent at Duncan.

In accordance with instructions from the Department I wish to report on the work of Edison Whyte (Indian) a young man of about 25 years of age and a member of the Nanaimo Band.

Edison Whyte holds a temporary appointment as Manual Training Instructor here. In the morning class on Fridays three or four of the older school boys and seven of the ex-pupils of the school make under guidance articles for themselves, for which they appear to use Department lumber. With reference to Departmental letter 152-11-11 dated February 18yh 1938 with regard to the temporary appointment of Edison Whyte (Indian) as Manual Training Instructor at Nanaimo Indian Day School, I would recommend that the present temporary arrangement be continued for the present. All Indian youths other than those attending the Day School should be excluded from the Manual Training Classes.

The construction of a small row boat has been suggested but the boys have not had sufficient training as yet to undertake this. Edison Whyte has been given some help and advice, and I have asked him to send the Acting Indian Agent a list of any tools which he may require, so that the matter may be taken up with the Department.

Miss Creighton wishes to arrange for the girls to learn to knit "Cowichan Sweaters" with native wool, which would be carded and spun in the school. It would be necessary to have a local Indian woman good in this sort of work give instruction for a few months possibly a year. One afternoon a week would be sufficient, and this should not cost more than \$1.00 a week. The wool costs a considerable sum now. Articles made in school should be sold after exhibition and at least half the proceeds kept back by the teacher to purchase more wool. Miss Creighton has learned something of the work when this plan was put into operation at her last school, Koksilah, in this Agency. "I would recommend that the Manual Training Shop be put into good repair, a heater supplied as mentioned above, the necessary new tools purchased, and the experiment continued for the school year 1938-39. Edison Whyte in my opinion might well be informed that he has to show during the next School Year that the expenditure of the Department's funds on his salary and the Manual Training Shop in general is worth while. The Indians are at present trying to get as much for themselves out of the Department as possible and it is obvious that those boys not attending the Day School should be excluded.

"I believe that it would be well to retain the services of this young Indian as instructor for another year but that he be informed that his salary will only be paid monthly and that if considered necessary the arrangement may be terminated at any time with a month's notice."

You will note that the above refers to the vocational training work at this school.

You should advise Edison Whyte that we are prepared to retain his services for another year but that his salary will only be paid on a monthly basis and

if considered necessary his employment may be terminated at any time by giving one month's notice. No doubt you will forward for our consideration a list of the tools that are necessary.

Inspector Barry mentions \$100.00 to cover the cost of material also the salary of the Indian woman to teach knitting. Provided the material does not cost over \$50.00 you may arrange for its purchase and you may engage a qualified Indian woman to teach knitting as suggested by the Inspector. You will note that he considers that one afternoon a week should be sufficient and that not more than \$1.00 a lesson should be allowed.

Please let me know the approximate cost of the heater recommended by the Inspector. Full particulars should be given regarding this as it may be necessary to arrange purchase through our Purchasing Branch.

Philip Phelan,

Dear Sir:-

In reply to your letter of the 15th. instant, File No. 152-11-11, I beg to say, a # 14 Albion Oak Heater, suitable to heat the manual training room of the Nanaimo Indian Day School, can be purchased from the McLennan, McFeely & Prior Company, F. O. B. Victoria, for \$17.50. Freight charges and necessary pipe and floor board to install the same would be approximately \$3.50; making a total cost of approximately \$21.00.

I would recommend the purchase of this stove.

Your obedient servant,

Dear Mr. Graham,

Mr. Manson and I would like to organize a rhythm band in the Nanaimo Indian School. On enquiring we found that instruments could be purchased for eight dollars and fifteen cents (\$8.15).

We were wondering if the Department would help us by supplying the instruments.

Sir,

Sir,-

With reference to your instructions of October 15th. to make an inspection of Kamloops, B.C. Agency, I have to report as follows,-

Schools.

It would appear to me that a day school at the head of Okanagan Lake would be a great boon to these people. A settlement is fast surrounding them. Two bright young girls about thirteen years of age, appeared before Dr. McDougal and myself and asked that they might be assisted to learn to read and write like the white people. The band desires the school which I think should be a public school and would strongly recommend a school being established in this district.

Re Education- I found in the Kamloops and Okanagan Agency two boarding or industrial schools, one at Kamloops and the other at or near Lytton, these being full to their utmost capacity, yet falling far short of the needs of the people. The Indians themselves brought this matter to me and repeatedly importuned for schools. "Day schools, on or near the Reserve" "Secular Day Schools" these were what they asked for, and after going over the Districts I would recommend that Day schools with competent teachers be established at Enderby and at the head of the Okanagan Lake, and also in the Lower Similkineen Country, also at Bonaparte near Ashcroft, and also at Spencer's Bridge, further down the Thompson. This would give this District five day schools, which in my judgment, are very much needed and for which, as above stated, the Indians have most earnestly asked for.

Sir,

The establishment of schools for the Indians of the Lower Similkameen, Bonaparte and Okanagan reserves has been recommended and the Department is disposed to favourably consider the requests of these Indians.

There are several matters in connection with these propositions on which the Department desires full information. The first is the site in each case. Is there a suitable site available within reach of the majority of the Indians, affording drainage facilities and suitable soil for gardening purposes, if desired, and a good water supply? If a school is to be erected, what style of building would you recommend; what material should be used in construction; how many children should be provided for and how ought it to be heated? You should also give an approximate cost of material and labour, and give your opinion as to the best means of construction, whether by contract or day labour.

You will recollect that at Enderby it was decided to utilize the Council building for a time; but the Department is not aware of any buildings at the localities now under consideration that might provide temporary accommodation. If there are such you will be good enough to so state.

The Department will expect you to give this matter your immediate attention, so that operations may

be undertaken at an early date, if it is finally decided to build. In addition to the information asked for anything else that occurs to you as being of importance should be dealt with in your report.

Sir:-

I have the honor to acknowledge the receipt of your letter of 7th. instant, No. 344551, in reference to the proposed establishment of schools for the Indians of ³⁵⁷⁶⁵⁵Lower Similkameen, ³⁵⁶⁴²¹Benaparte and Okanagan reserves. It is presumed that Day Schools are intended. A personal inspection with this object in view would involve 800 miles of travel by train, boat and stage, and would occupy considerable time. I can, I think, off-hand, with data at my disposal and an intimate knowledge of conditions, give the Department full and accurate information.

A separate Report on each of these bands is herewith appended.

Okanagan.

The great majority of these Indians live on the ne.I. reserve, which surrounds the head arm of Okanagan Lake. The principal village is situated at the head of this arm, and is always referred to as Head-of-the-Lake. Within and tributary to this village there could be collected a school population of 15 children, and possibly some might come for a greater distance for a portion of the time.

There is no building suitable for school purposes. The water supply is distant and not good in summer. A garden plot might be secured, though a crop would be uncertain near the village. But I might say that half-a-mile distant from the village there is a good spring creek, and this would be the most suitable spot for school and garden.

The school building could best be constructed of lumber, and heated by a stove. By contract would be the most satisfactory means of construction, as I would not look for these Indians to unite on any undertaking. I estimate a building would cost \$700.00.

I have to acknowledge the receipt of your report upon the application for the establishment of a school on the reserve at the head of Okanagan Lake, in which you state that 15 children live in or near the village and that others at a distance might attend during a portion of the year.

In reply I beg to say that the Department is disposed, under these circumstances, to erect a small school building and would be glad to have further details from you as to the style, size, etc., of building you would suggest. You might also give the approximate cost of materials that would enter into the construction. You should also state whether it would be possible to obtain board and lodging for a teacher or whether it would be necessary to provide some accommodation.

It will be necessary for me to first visit the locality in order to fully answer the requirements of your letter. I am hoping to do this month, but I am very much hindered in such work by lack of means to defray my travelling expenses.

I might say in connection with the intention to start a school among these Indians that I don't consider the locality should be singled out as ~~place~~ to make a test case as to the success or otherwise of Indian Day Schools. Plans for school building were being prepared by a competent man at Enderby when a building was first considered, but afterwards, when it was decided to use the council house, preparation of plans was discontinued. I saw this man at Enderby on the 2nd instant and asked him to complete plans as soon as possible, as they would answer for the Head-of-Lake school as well. Why I have to date not received them I am at a loss to understand.

354351
In this connection I found conditions at Head-of-Lake even better for the establishment of a school than I had reported. The band as a whole is not as enthusiastic as one would wish to see, but there ought not to be any difficulty in procuring sufficient children.

Board at both place could be procured for teacher within easy distance.

Sir,

It has been represented to the Department that it would be well to establish a day school for the Indians on the reserve at the head of Okanagan Lake. There would appear to be a sufficiently large number of children to justify the Department in making provision for a day school and you will be good enough to report as to the style and size of building that you would suggest, forwarding at the same time a sketch and an estimate of the approximate cost of the materials and labour and stating whether the work should be let by tender or performed by some reputable contractor under direct supervision of an officer of the Department. Inquiries should also be made with a view to securing a teacher.

The following letter was sent to the late Inspector Cummiskey on March 1, 1913:- "In the year 1909 the question of the erection of a school at the head of Okanagan Lake for the Indians of the Okanagan Band was brought to the attention of the Department and given consideration. There were reported at that time to be fifteen children of school age living in or near the village at the head of the lake, but no building for school purposes was available.

The late agent, Mr. Irwin, was not prepared to make a definite recommendation that a school be opened here, although at a later date he was more favourable. The late inspector was then asked to look into the question of the erection of a building and the opening of a school and he finally reported on February 1st, 1911, that he and Mr. Agent Brown had discussed the question thoroughly and were convinced that it would be useless to open a school then as the Indians were divided as to the desirability of a school and the location of the same. Sir,-

I beg to acknowledge receipt of yours of above file and date with reference to school at the head of Okanagan Lake for the Indians of the Okanagan Band.

In reference thereto I may say that this matter has come up at various times during the past year when it was discussed with the Indians and on two different occasions a vote was taken, but an adverse decision was given on both of them.

Nevertheless there is a growing sentiment for a school among those who have children to attend and there is no doubt that the number of children of school age living within reach of the village is over twenty, for they could easily ride horseback to school for a distance of five or six miles and that would take in Blacktown. It appears that there were more than half the Indians at the last meeting in favour of the school, but some of them refrained from voting when the vote was taken. The old Indians were the most opposed and the freest in expressing their opposition, and the younger men who favour the school

have not the courage to oppose old reactionaries like Komasket. Another thing that affected the vote on the last occasion was the proximity of the time for re-election of the Chief. Pierre Michel is really in favour of the school, but he is afraid of the opposition and refrained from voting on that account. Had there been no election in sight he would doubtless have voted in favour of the school, and others who held back as well, would have been sure to follow his example.

I think it would have been better if the last vote had been deferred. The prospects for the return of Bierre Michel as Chief do not appear to be very bright, but it is possible that Pierre may decide to drop out of the running and throw his weight in with Jimmy Joseph who was his best ^uConcilman, and there is a possibility that Jimmy Joseph might carry it. He appears to be the best man in sight, and if he should be successful it would be an opportune time to revive the school propoganda. Until the Chiefship is disposed of it would seem to be better to allow the school to remain in abeyance.

I have the honour to be,

The attention of the Department has again been called to the lack of educational facilities for the education of the Indian children of the Okanagan tribe, and the Department would like you to state what, in your opinion, would be the best means of meeting this deficiency.

The question of establishing a school at Enderby was under consideration up to the year 1915, and you were written to on the 10th of March of that year and asked to advise the Department of the quantity of lumber reserved for the purpose of building a school out the permit granted the Enderby Indians on the 16th of February, 1915, as it was considered that the 400,000 feet they were allowed to cut would leave a sufficient quantity for that purpose after meeting all their indebtedness. No reply has yet been received to the letter above referred to.

MS

If a school were started at Enderby there would still be a number of children unprovided for in the neighbourhood of Penticton. The last census shows that there are about 140 Indian children from Osoyoos to Enderby along the Okanagan valley, and the Department would like to know where would be the most suitable places to establish schools for these children and the probable cost of erecting suitable buildings.

I visited our one school in the Agency (Inkameep) during the month and will shortly make a report with a view to having schools at the Head of the Lake and Penticton. There are over fifty children of school age at the Head of the Lake, scattered over a wide area and two schools may be necessary, these fifty children will otherwise receive no education at all which I believe is not the wish of the Department.

Sir,-

I beg to acknowledge the receipt of your letter of 27th ultimo in regard to schools in Okanagan Agency.

In reply I beg to say that the situation in this Agency with regard to Indian education has always been deplorable. The only Indian school in the Agency is in Osoyoos band at Inkameep village, and the building in which it is being conducted is the merest excuse in the way of accommodation, while the teacher is living in a tent on the bank of Inkameep Creek, summer and winter.

Attempt has been made at various times to induce the Indians of Spallumcheen, Okanagan and Penticton bands to establish schools at suitable points on their reserves, and votes to that end were taken by the former Indian Agent, J. R. Brown, but in every case the Indians voted it down. At one time previous to my connection with the Department the Spallumcheen Indians did think of having a day school opened on Spallumcheen reserve No. 2 at Enderby and school furniture was procured, but for some reason the school was never opened and the furniture was shipped to Penticton for the Osoyoos school and hauled by Osoyoos Indians to Inkameep. Nothing was ever done about a building for the school at Enderby, and it is perhaps fortunate, in a measure, that no special building was erected for the purpose, in view of the possibility that Spallumcheen reserve No. 2 may be given up for a soldiers' settlement and the Indians

Indians moved over to reserve No. 1 on Salmon River. In that event the new church at Enderby would be moved over to Salmon River and the new church at Salmon River would serve admirably as a school building.

In regard to the Okanagan band an enumeration has shown that there are over 50 Indian children of school age on the Head of the Lake reserve, but unfortunately from the configuration of the reserve it would be impossible for one school to accommodate them, as they are scattered along a shore line of about 22 miles at the Head of the lake and down the east and west sides. To accommodate all these there ~~there~~ should be a school at either Siwash Creek or Six Mile Creek, which could serve for Whiteman's Creek, Siwash Creek, Six Mile Creek and Blacktown. Then there should be a school for those at the Head of the ^{lake} which children from the east side could attend, although some of them would have to go 5 or 6 miles. The Council House at the Head of the Lake might be used for a school, but a building would have to be provided at Siwash Creek at a cost of about \$500.00 or thereabout.

At Penticton an Indian school could easily be maintained and no building would have to be provided, for the Council house could be used. The older Indians are opposed to a school and most of the younger men and women are indifferent. Unfortunately, too, most of the clergy of the Roman Catholic Church which is the only church concerned in Indian mission work in this Agency, are opposed to Indian day schools. With one exception, Father John, who was in charge at Penticton in 1917, none of them have given encouragement to the establishment of a day school on the Penticton reserve; and had he remained there a year longer, I believe we could have had one started. There may be something in their contention that Indian children require the discipline that is more easily attainable in the industrial school or boarding school, but where institutions of that

that kind are not always available where there are Indian children to educate, it seems unreasonable to maintain this opposition to the day school which in so many cases is the *only* means within reach, and Indian parents want their children at home with them while they are being educated in day schools, as well as white parents.

A difficulty often connected with the day school is to find living accommodations for the teacher where the services of white teachers will have to be depended upon, and there will be some difficulty of that kind in a school at Siwash Creek where there is no white habitation near enough in which a white teacher could board; but no difficulty of that kind would be experienced either for the Spallumcheen Indians at Enderby or for the reserve at Penticton. In this connection also it is desirable where possible, but not essential, that the teacher should have knowledge of the Indian language, and it is singular that the boarding schools for Indian girls in some of the other Agencies do not seem to turn out Indian girl teachers.

After all the main thing requisite in all these Indian communities where reactionary tendencies on the part of the older members of the band, sets them against schools of any kind, is a firm hand for compulsory education. It is a mistake to allow a group of reactionary Indians in any band to dominate the situation and deprive Indian children of the education they should have. Also, if the church is to be entrusted with Indian education, it is desirable that its educational policy be sufficiently elastic to embrace day schools where industrial or boarding schools are clearly unattainable. There are instances where Indian day schools are doing excellent work in Agencies where there are industrial schools as well.

The Indian day school at Boothroyd in the Lytton Agency is a notable example, and the interest taken by Indian parents in the education of their children in that case, is most marked. Compulsory education was necessary at one time among the whites and is still provided for by statute, although it is now rarely necessary to employ it. From the attitude maintained by these bands in the Okanagan Agency towards education of their children, there should be no hesitation about putting in force compulsory education in Indian communities like Enderby, Head of the Lake and Penticton, where there appears to be no other way of obtaining education for these children.

MONTHLY REPORT FOR JULY, 1920.
INDIAN AGENT Ball, VERNON. B. C.

x x x x

The head of the Lake Reserve which only receives a visit from the priest two or three times a year, and where no children attend school, is badly in need of education, and will need first attention. The standard of morale there is the lowest in this agency and is a by-word among the Indians of other reserves. Here the young chief, about twenty-five years old with several children, says "no school will be allowed on the reserve and no children will go to school" as it spoils Indians to educate them. If this is the attitude of the chief it is easy to understand the state of the remainder. Schools being closed during July no report is made this month.

Sir,

Copy of the letter given Deputy who must discuss with agt

I beg to bring to the Department's attention the matter of building a day school on the Okanagan Reserve No 1. There is only one school in this Agency at present, it being on the Inkameep Reserve at Osoyoos where there are only seven pupils attending.

On the Okanagan Reserve there are over 50 children of school age who could attend a school at a central point, and having looked the situation over very carefully, I find that 6-Mile creek would be the best location although another school will be necessary at the Head-of-the-Lake later on.

The cost of the school and teacher's house would not exceed \$3000 as the lumber is easily obtained at present on account of a saw-mill being in operation on the Reserve. The difficulty of finding a suitable place for a teacher to live would be overcome as there are white people living near this locality at 6-Mile creek. There are several families of the better class of Indians living around there, and they are anxious for the School now.

On account of the distance from the nearest public school there are no children on this Reserve attending, and a school is therefore an absolute necessity.

Your advice and instructions in this matter are respectfully requested as soon as possible, so that early action can be taken.

I have to acknowledge the receipt of your letter of the 21st ultimo, with reference to arranging temporary accommodation for the purpose of providing educational facilities for the children of school age on the Penticton and Okanagan Reserves.

In reply I beg to say, with reference to Penticton, that it is noted the Band desire to use the priest's house as a temporary school and that you consider it would be satisfactory for the purpose until such time as a new day school building can be erected.

It is also noted that you are advertising for a teacher, and that it will be necessary for this Department to supply 50 desks and the school material required. If you are able to obtain the services of a suitable teacher and can arrange with the priest for the use of his house on the Reserve, you may arrange to have it fitted up for school purposes.

Regarding the desks required, it is noted that you consider 50 will be needed. These desks, if purchased now, could be used when the new day school is erected. The Department will approve of the purchase of the number of desks considered necessary by you. You should be careful to ascertain the probable attendance and only that quantity of desks required should be purchased. It is noted in former communications that you state it would be necessary to arrange for temporary accommodation for 25 or 30 pupils of the Penticton Band and if this is all that would be likely to attend it will not be necessary to obtain desks for a larger number. We will leave this matter in your hands, and expect that there will be no unnecessary desks secured.

It will be necessary, in compliance with the requirements of the Purchasing Commission of Canada, to obtain competitive prices before making the purchase of these desks. They have directed us to authorize you to obtain quotations from the following firms, in addition to any others you wish, viz: -

E. N. Moyer Co. Ltd.,
10187 - 104th St., Edmonton, Alta.,

E. G. Parnell,
567 Hamilton St., Vancouver, B.C.,

Clarke & Stuart Co. Ltd.,
550 Seymour St., Vancouver, B.C.

In asking for quotations, you should state that the desks required are "Single Silent Sanitary Desks", "OR EQUAL". The contract should be given to the firm from whom you obtain the lowest price.

Properly certified accounts, in duplicate, covering the expenditure incurred, together with a memorandum showing the names of the firms asked to quote a price and the prices quoted, should be forwarded to the Department when payment will be made.

You will be careful to obtain these desks in the sizes and quantities of each size required.

Regarding the teacher, you should submit for the consideration of the Department the name, qualifications and experience of the teacher secured by you. If a properly qualified teacher is secured, we would be prepared to pay a salary at the rate of \$350 per annum, plus any bonus provided by law.

We will provide a blackboard, school books, stationery etc., as soon as a teacher is secured and a requisition forwarded for the school material required. The size of the blackboard should be given, both length and width of same.

I will be pleased if, at a later date, you will inform me as to the amount of rent, if any, that will be charged for the use of the priest's house during the time it is used for temporary school purposes.

Regarding a school for the Okanagan Reserve, it is noted that it is difficult to find a suitable building in which to carry on the work.

I have received your letter of the 4th instant, enclosing a resolution of certain members of the Okanagan Reserve No. 1 Indian Band, relative to the erection of a building to be known as the Okanagan Indian Day School. I have noted that five members of the band have protested on the grounds that they do not wish to incur this expense until such time as the major B. C. Indian problems have been solved.

I wish to assure you and your clients that the present intention is to meet all initial and current expenses in connection with the Okanagan Day School from Parliamentary Appropriation. \$4,500 has already been provided in the Vote for Indian Education for the purpose of erecting a building.

The Okanagan school building is well under way, the concrete work being completed. One of the Indians, Gasto Louie, went to the school site when building operations were commenced and attempted to prevent work going on. I thought it best to attend to him right away and went over there at once and gave him distinctly to understand that any interference with the building would be severely dealt with. I have had no complaints since from the contractors. The Mounted Police also saw him after his attempt and I think in future his opposition to the school will take the form of letters to the Department. I understand that he has a coterie who have been signing a petition about this school, but other Indians have come in recently and said that they are satisfied to see it on the Reserve and have taken their names off the petition. The instigator of this is Jimmie Antoine, an Indian who was educated at the Kamloops Industrial School and apparently wishes to deprive every other Indian of the same advantage. He is opposing the school whereas he was one of the appointees to the Allied Tribes Association meeting at Vancouver, although, I believe, he got lost in North Vancouver and did not attend the meeting with the Minister of the Interior. I cannot quite follow this man's reasoning as I believe the Allied Tribes were asking for better educational facilities for Indians so apparently he is trying to curry favour with both ends on the Reserve with a view to being elected chief whenever such an election is held.

I have the honour to report on instructions received from the N.C.O. in charge Penticton Detachment, I patrolled to the Okanagan Indian Reserve near Vernon, B.C., on the 20th. Inst.

There is a school being built on the Okanagan Indian Reserve, near Whiteman's Creek on the upper Okanagan lake, and some of the members of this Band are opposed to a school being built on the Reserve, the reason for this is that they do not want their children educated.

When Mr. W. Duckring and his men started building this school, an Indian from this Reserve named Gaston Louie went to where they were working and told them to get off the Reserve, when he saw that they were not going to pay any attention to him, he said he would move them off, Gaston Louie then went away and has not bothered them since.

On Monday Oct. 23rd. I saw Mr. Ball Indian Agent and decided to give this Indian Gaston Louie a good talking too which I did.

I do not think this Indian or any of the others will try to interfere with these men building the School.

Dear Sir:- re Head-O-The-Lake Okanagan Reserve No. 1.

I am greatly obliged by your communication of the 13th instant re the Okanagan Day School for which an appropriation of \$4500. has been provided by the Dominion Government.

I note the expression in your letter of "five members of the Band have protested". The word "five" is, I suppose, a clerical error because nearly the whole Band to the number of twenty five subscribed to the protest, the original of which I mailed to you. Five of the members, however, travelled all the way from the Head-o-the-Lake to my office, some seventy miles, to instruct me to lodge this protest.

I have forwarded a copy of your letter to the Chairman of the Indian Meeting. I assure you that it will give the Band the utmost satisfaction.

I ask you to note also the stupid and needless irritation caused by Inspector McGraw in withholding from the Indians the information which you have kindly given. They reside within a few miles of the town of Vernon, in the heart of the Okanagan Valley, and, having known them and their affairs for 23 years, I am in a position to say that until the appointment of McGraw there has been comparatively no friction whatever between them and the local Indian agents.

Sir,—

I beg to advise that I am experiencing some difficulty in obtaining the services of a teacher for the new Okanagan Indian Day School. Advertisements were placed with the leading papers both in this Valley and at the Coast, but only three replies were received from Roman Catholics, one of these applicants required nearly twice the salary offered, one was from a youth without any experience in teaching and the third appeared to be suitable in every way, judging from the references given, but after delaying for two weeks her decision as to accepting the position, I have just received a wire refusing it. I am therefore writing to inquire whether it is imperative that the teacher of this Day School should be of the same religious denomination as the Band, even though the school is undenominational. None of the Indians object to a Protestant teacher. They say they will be satisfied with any teacher selected for them. As neither council nor chief have made any regulations or desire to make any in regard to this matter, I presume the school does not come under Sections 97 (2) and 194 of the Indian Act. A teacher from the St. George's Industrial School, Lytton, has applied for the position, she is an Anglican and as her services will not be required after this year on account of her class at that school being abolished, she would be available.

May I be advised by wire please as to whether there is any objection to the Lytton teacher being engaged, if her references are satisfactory and Mr. Lett will recommend her? If a Roman Catholic teacher can be found, of course she will be given preference, but I do

Ottawa, Dec. 29, 1922.

Sir:-

I have to acknowledge receipt of your letter of the 22nd instant, advising the Department as to the difficulty of obtaining the services of a Catholic teacher for the new Okanagan Indian Day School, and requesting to be informed as to whether you might engage a Protestant teacher from the Lytton Industrial School.

In reply I beg to confirm the following night letter-gram to you of today's date:-

"Telegraph Rev. John Welch, Fifty-nine Blackwood Street, New Westminster, that only applicant for Okanagan Indian Day School is Protestant and as Indians there are Roman Catholic, you would like either a nomination from him or his concurrence to employ teacher from Lytton Industrial School."

Providing the Roman Catholic Church authorities have no objection to the engaging of a Protestant teacher, you may do so. Although this school is to be classed as undenominational, yet the Indians for whom it will provide educational facilities are Roman Catholic and it might be advisable - in order to prevent any friction - to obtain a teacher of that faith in the future, if possible. If Father Welch, who takes a direct interest in the work of the Roman Catholic schools in British Columbia, is satisfied at the present time with the engaging of the teacher from the Lytton Industrial School, we will confirm the appointment.

You will be good enough to inform the Department later as to the action taken and also give the name of the teacher, qualifications and salary as well as the date the school opened.

Your obedient servant,

J. D. McLean,
Asst. Deputy & Secretary.

Sir:—

FILE 164-5-1.

I beg to acknowledge receipt of your letter of the 29th ultimo, also night lettergram of the same date with reference to teacher for the Okanagan Indian Day School. I took this up with the Rev. John Welch who wrote to me to defer the opening of the school until he could secure a teacher. He has nominated a man who has a family, but as he has had no qualifications as a teacher, having been employed on a newspaper previously, I advised him that this man could not be accepted as the Indians of the Okanagan Reserve are strongly advising the securing of a woman teacher on account of the ages of the children who will be attending.

As Rev. John Welch apparently objects to the Lytton Industrial School teacher being employed even temporarily, I am endeavouring to secure the services of Mr. and Mrs. Marsden who have been teaching a Roman Catholic School in another Agency and believe they will be able to arrive here next week. As these people are Roman Catholic there will be no objection from any quarter.

As soon as possible I will forward the full name of the teacher and qualifications, etc. for your approval. I presume the salary will be as stated previously, \$850.00 per annum.

Rev. John Welch requests me to apply to the

Sir: -

I have to acknowledge the receipt of your letter of the 6th instant, regarding the obtaining of a teacher for the Okanagan Indian Day School.

In reply I beg to say we note that the Rev. Father Welch objects to the employing of the teacher from the Lytton Industrial School, and, also, that the teacher nominated by him is not satisfactory. We further note that you are endeavouring to secure the services of Mr. and Mrs. Marsden, who are at present teacher and field matron, respectively, at the Homalco Indian Day School in the Vancouver Agency.

In this connection, I beg to confirm our night lettergram to you of yesterday's date: -

"If Mr. and Mrs. Marsden transferred from present positions to Okanagan school the services of former only will be paid for at rate of \$850 per annum. Field matron not required and salary cannot therefore be paid Mrs. Marsden".

I may say that Mr. Marsden is in receipt of salary at the rate of \$800 per annum as teacher of the Homalco school, while his wife is paid at the rate of \$40.00 per month for her services as field matron. Besides this, they have both received bonus as provided by law. We have had no intimation that it is their intention to give up duties at this school, and, as stated in our night lettergram, if they are transferred to the Okanagan school, we would only require the services of Mr. Marsden. It would be necessary, before a field matron could be appointed, to have the position created by the Civil Service Commission. We do not intend to appoint a field matron at Okanagan and, therefore, you will observe, if both the above named are transferred to take charge of the Okanagan school, that it would be at a considerable pecuniary loss to them. We consider that it would be advisable for them to remain in their present positions. However, it is noted that you expected them to arrive during the present week, and, if so, we would approve of the appointment of Mr. Marsden as teacher, but we do not require the services of his wife as field matron, and cannot allow her salary.

I may say, further, that we do not pay travelling expenses of teachers and cannot, therefore, arrange to pay any part of the expenses of the above named from their present school to the Okanagan school.

Your obedient servant,

J. D. McLEAN

FIDE 164-5-1.

I beg to acknowledge receipt of your letter of the 12th instant with reference to teacher for the Okanagan Indian Day School and with reference to night lettergram, it was understood that no Field Matron would be appointed for this Agency if Mr. and Mrs. Marsden transferred.

Notes by [unclear]

I understand from Chief Inspector Ditchburn and Inspector Cairns that the Marsdens are anxious to leave the Homalco District on account of Mr. Marsden's health, and I asked Mr. Cairns to explain that if they came to the Okanagan School there would be no field matron position open nor would one be created for them. They were also advised that they would be expected to pay their own expenses when transferring from Homalco to Okanagan.

I have received a telegram from Mr. Cairns stating that they would arrive on February 1st so apparently they are willing to forego the extra wages for the sake of transferring to this district.

A meeting of the Okanagan Band was held on the 30th at their request. This is the most difficult Band in the Agency to handle, and the one I have tried to do most for. They have every advantage possible, the best land, most irrigation, ample grazing and timber land, and fishing, in fact the Okanagan Reserve No. 1 is in my opinion the ideal reserve, yet the Indians on it are the most dissatisfied and quarrelsome Band in the Agency. If they would not listen to a few low-down white people who are always ribbing them up, they would be further ahead. They are continually getting up petitions and round robins keeping all the members unsettled who do want to work and make something of their lives. At the last meeting they were protesting about having a school at all as "Indians don't need education." At this meeting they were led by Jimmie Antoine in protesting against the location of the school. Of course there are a number of good, sound hard-working Indians who strongly disapprove of all this agitation by Jimmie Antoine and his clique but their voices are seldom heard at the meetings. One old man, Komasket, who lives on the best farm in the Reserve said after the meeting, "We know Antoine, you know Antoine, that's enough. The peculiar thing about him is that he attended school at Kamloops but opposes others attending. I understand a petition will shortly be forwarded about the school and am told the writer is R. Gillespie, of Vernon, who rented the Antoine Estate, but is in default with rental and is a continual source of annoyance to this office.

Mr. and Mrs. Marsden arrived on the 26th. Mr. Marsden is teacher at the new school on Okanagan Reserve. They appear to be capable people and I feel sure the school will be in good hands. Owing to an oversight in the plans, no provision was made for heating the residential quarters and a furnace had to be provided before they could occupy same. While our Okanagan climate is widely advertised, we still require heating in the houses during the short cold snaps when the temperature drops ten to fifteen below zero.

FILE 164-5-1.

I beg to advise that Mr. W.E. Marsden arrived on the 26th ultimo accompanied by his wife, to commence his duties as teacher at the Okanagan Indian Day School.

He has applied to me for his travelling expenses and mentioned also if I made an application for a field matron on this Reserve, the position would be created.

He said although Mr. Cairns did not make any definite statement, he certainly left him under this impression. I have informed Mr. Marsden that I cannot apply for his expenses or for a position to be created for Mrs. Marsden and read him that portion of your letter dated January 12th, File 164-5-1 referring to this matter. So that there could be no misunderstanding with Mr. Marsden before he left Vancouver, I wrote Mr. Cairns January 22nd as follows:-

"I have again been advised by the Department
"that there is no position open for Field
"Matron in this Agency, neither will one be
"created for Mrs. Marsden, and that they will
"not pay travelling expenses of teachers from
"one Agency to another. I trust you will be
"good enough to explain this to Mr. and Mrs.
"Marsden if it has not already been done.
"I am glad they have decided to come here, as
"the school has been ready for occupancy for a
"month.

In face of this letter I fail to see where there could be any doubt in Mr. Cairn's mind, and exactly the same situation arose in the case of Miss Helen Coughlan, at Penticton. These misunderstandings cause unpleasantness which can well be avoided, and I am afraid both Miss Coughlan and Mr. Marsden feel that I am personally responsible for non-payment of their expenses and other favours.

Sir: -

I have to acknowledge the receipt of your letter of the 7th instant, informing the Department that Mr. W. B. Marsden arrived on the 26th ultimo to commence duties as teacher of the Okanagan Indian Day School.

Regarding the teacher's request that his wife be appointed field matron, I beg to say that as you have already been informed we do not intend to appoint a field matron at Okanagan. We note that you have advised both the teacher and Mr. Inspector Cairns accordingly.

Regarding the payment of travelling expenses of teachers, I beg to say that a communication has been directed to Mr. Inspector Cairns informing him that the Department does not pay travelling expenses of teachers to and from their schools unless in very exceptional cases where they are travelling to remote points, and in such cases the approval of the Department is first obtained.

We shall be pleased if you will give Mr. Marsden any assistance you can in his work at this school, and use your influence with the Indians to encourage a regular attendance of the children of school age.

I beg to enclose herewith four day school reports from this Agency; one of them, the Westbank School, being for four Indians attending at Westbank Ferry Public School.

These reports show fifty children now receiving an education and there are twenty-two others scattered around the various public and residential schools who do not show on any of these reports. I hope it will be possible in the near future to have schools available for all the Indian children in this Agency. Those who are attending show a remarkable keenness and one of the teachers informs me that the children arrive as early as 7.30 in the morning and, if allowed, are sometimes in the school room after nine at night, and made a request that they do not close the school for Easter holidays. The teachers also report that they are having no trouble with discipline, the elder children keeping the younger ones in order voluntarily. Some of the work done in the short time two of the schools have been open is remarkably good.

There is opposition to the schools on the Reserves among the older Indians, but this seems to be lessening weekly. On the other hand many of the parents have come to the office specially to express their gratification to the Department for starting the schools.

I beg to advise that Mr. Wm. Marsden, teacher of the Okanagan Indian Day School, found it necessary to proceed to Vancouver to consult medical advisers regarding an operation. He was advised by them that the operation was so serious that he should go to Mayo Brothers, for attention. He has already left with Mrs. Marsden for the East and Mrs. Marsden has requested permission to carry on with the teaching should he not be able to return when school is re-opened.

Mr. Marsden states in a letter to me dated June 30th that he is on his eighth year with the Department as a teacher and considers himself entitled by now to the maximum salary. Mr. Marsden's services have been satisfactory whilst teacher of the Okanagan Indian Day School since January, 1923. Previous to his appointment to this school, he was teacher of Church-house School, Homalco Indian Reserve.

Mrs. Marsden has applied for payment as janitress of the school. I would respectfully recommend that this be paid. The school is a large one and requires much work in keeping it clean.

Dear Mr. Ferrier:

I am sending you a request through the Indian Agent, Mr. Ball, to authorize Mrs. Marsden to substitute for her husband teaching when he is absent for a time, undergoing medical treatment. Mr. Marsden was obliged to go to Rochester, Minn. for an operation some time ago and is still obliged to return to the hospital occasionally for further and more complete treatment.

Mrs. Marsden has a complete common school education in England: a teacher's certificate or normal training for lower grades, not as principal or matron; she taught four years in Eng. Govt. schools, one year in Winnipeg private school, and was matron in an Indian Boarding School in Sask. As Mrs. Marsden she was Field Matron in Sliammon three years and at Church House three years. Here at Six Mile Creek in the Okanagan she is helping and in close touch with the teaching.

Hoping this request will receive your earliest convenient attention and thanking you in advance for it.

Sir,

I beg to enclose herewith a letter received from Reverend James McGuire, O.M.I., at Kamloops.

I do not quite understand why this request should come through Father McGuire as the Marsdens are not in his district or under his jurisdiction in any way.

Mr. Marsden is teacher of the Okanagan Indian Day School and his services have been satisfactory. Last year, Mr. and Mrs. Marsden went to Rochester, Minn., during the holidays so that Mr. Marsden could receive medical attention from Mayo Bros. Mrs. Marsden returned to Vernon just before school re-opened and requested permission to carry on until Mr. Marsden returned and authority was requested and given for such arrangement.

If Mr. Marsden finds it necessary to stay this year longer than the usual leave, I presume it will be in order for the same arrangement to be made without any special appointment being given to Mrs. Marsden.

While Mr. Marsden's services have been satisfactory, his wife seems to have an infinite capacity for making trouble on the Reserve.

MAY 22nd, 1924, to the Rev. FATHER MCGUIRE.

-- -- --

However, I do not see the necessity of appointing Mrs. Marsden teacher during Mr. Marsden's absence. Last year, while Mr. Marsden was attending hospital, it was arranged for Mrs. Marsden to carry on with the work in his place and no special appointment was made.

Mr. Marsden's work has been quite satisfactory at the school, but Mrs. Marsden is inclined to cause trouble and unpleasantness and for this reason I would not care to have her appointed as teacher. I hope, however, that Mr. Marsden will regain his health and be able to stay on indefinitely.

I thank you for the interest you have taken in our little school and hope everything is progressing well with the Kamloops one.

Dear Father McGuire:

I have your letter of the 23rd instant, enclosing a communication from Mr. Indian Agent Ball to you with reference to the teaching services at the Okanagan Indian Day School. I am returning Mr. Ball's letter and wish to explain that on the 27th instant he was informed that the Department would approve of Mrs. Marsden substituting for her husband for a brief period this summer. We have requested that the quarterly school returns should be signed by Mr. Marsden and the salary cheques will, of course, be made out in his favour. In cases like this the Department does not consider it advisable to make a formal appointment of the wife who is substituting for a week or two.

Dear Mr. Ferrier,

Enclosed please find a letter from Mr. Ball, the Indian Agent, at Kamloops. After reading and copying it, you will oblige me by having it returned.

For the letter I have no commentary.

We don't want bolts and nuts shaking loose in Catholic schools and among Catholic Indians. We expect that you and Mr. Cairns will see that this special appointment is given in writing.

With best wishes,

Dear Mr. Ferrier:

In reply to your letter concerning Mrs. Marsden, I wish to say, that to have Mr. Marsden sign the quarterly school returns and to have the cheques made out in his name, is quite satisfactory and is naturally what one would expect, as it is natural likewise to suppose he will do the teaching save when absent for medical treatment.

However, I wish you to shut a door, and you are not shutting it. "The Department would approve of Mrs. Marsden substituting for her husband for a brief period" (How long?) "this summer:" simply June, July and August?

Now, Mr. Ferrier, will you be kind enough to read sufficiently through those letters sent to you to realize that my request is: That Mrs. Marsden be authorized to substitute for her husband when he is obliged to undergo medical treatment?

Hoping you may grasp my viewpoint without further explanation.

I remain,
Very truly yours,

Rev. Sir:

I have to acknowledge receipt of your letter of the 10th instant, regarding the arrangements for teaching service at the Okanagan Indian Day School during the absence of Mr. Marsden for medical treatment and enclosing a communication from him regarding the matter.

In reply I beg to say that Mr. Marsden may arrange his departure at as early a date as he desires, and his wife may take up duties from the date he leaves. If Mr. Marsden has not completed his treatment by the 1st of September, Mrs. Marsden may re-open the school and teach until the end of September, next. Should it be necessary for Mr. Marsden to have further leave, we will request our Agent to so inform the Department, when consideration will be given to continuing arrangements whereby Mr. Marsden is to act as substitute. It is hoped that Mrs. Marsden will be able to resume duties by the end of September, at the latest.

A communication has been received from Rev. Father McGuire, Kamloops, enclosing a letter which he received from Mr. Wm. Marsden, teacher of the Okanagan Indian Day School, regarding the period of leave that will be granted him to take medical treatment and the carrying on of the work by Mrs. Marsden during his absence.

We are informing Father McGuire that Mr. Marsden may leave as soon as he desires and that Mrs. Marsden is to carry on during his absence. If he has not returned when the school re-opens after the summer holidays, Mrs. Marsden may teach during the month of September. If it is found that Mr. Marsden is unable to take up duties by the 1st of October, the fact should be drawn to the attention of the Department, in order that consideration may then be given to the continuing of the above arrangement. We hope, however, that Mr. Marsden's health will have sufficiently improved for him to resume duties by the 1st of October, next.

You should inform the Marsdens that all communications regarding matters connected with the school should be forwarded to the Department through your office.

I beg to acknowledge receipt of your letter of the 16th instant and to inform you that Mr Wm. Marsden called here yesterday saying he was leaving for Vancouver for medical treatment and would probably go direct from there to Rochester Minn. for treatment. This was the first intimation I received that he was leaving the school and he mentioned having arranged it with Father McGuire! Why with him, I am unable to say. Mr Marsden is a good teacher and I hope he returns in good health to his duties. On account of his unfortunate illness, I have been very careful in avoiding even the slightest trouble with him, and have tried to make conditions at the School as pleasant as possible for him.

He has intimated to me on more than one occasion that I have nothing to do with the School and that he takes his instructions from the priest. I notice however, when he wants anything,

he applies to me for it, so he seems rather mixed in his ideas.

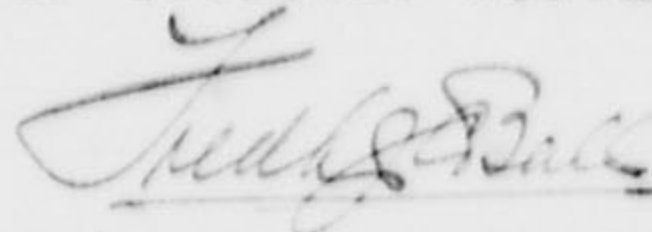

Provided the school maintains its present high standard, I over-look Mr Marsden's peculiarities, but am glad to receive the information contained in the last paragraph of your letter, which will be communicated to him.

While inspecting the three schools in this Agency last week, School Inspector Mr R.W.Cairns told me that the Penticton and Okanagan Indian Day Schools were the best day schools in the Province and the standard attained was equal to other schools of ten years standing; these schools are only 1½ and 2 years old.

Penticton and Okanagan Day Schools were visited during this month, where progress is being maintained. The discipline is good in both schools and the children very keen. It is much regretted that there is still opposition to the schools among certain of the Bands, these being the trouble-makers referred to above. They have the effrontery to tell the Bands that they have been supported in this opposition by the authorities at Ottawa! As an example of the way they try to mislead the more ignorant Indians, two of them sent a letter to His Excellency the Governor General. The reply they received was merely an acknowledgement by the Governor General's Secretary, but was read to them as "appointing Baptiste Chief, and boss of all the Indian lands", (Baptiste being one of the archtroublemakers). It can be easily understood how they mislead some of the Indians, and I am continually being called upon to refute absurd statements which they make, but as soon as one ghost is laid they scare up another equally absurd. Of course the majority pay little attention to the agitators and these Indians are seldom heard from, but the minority make a great deal of unpleasantness and noise out of all proportion to their numbers. However, the idle season is over and they will now settle down to work for another season and will not have so much spare time on their hands to employ in stirring up discontent.

Sir,-

At the Okanagan School the cause of the poor attendance since the school reopened in September is on account of the Indians being absent in the orchards picking apples at which work the children are almost as capable as their parents and some of the families make very good wages. It would be advisable at the Okanagan School to make the holidays somewhat later than at present if this could be arranged, and I will take up this matter further.

I visited the three day schools in the Agency during September. At Osoyoos there is a full attendance but the Okanagan attendance is affected because so many families are away picking apples. Next week should see an improvement and the question of a change in the vacation period at the schools, will be taken up before next year. The holidays commence and finish too early in the year to suit the Indian mode of life. At Penticton the school is temporarily at a standstill until their difficulties mentioned above are disposed of.

Sir,—

I regret to report that Mr. William Marsden, teacher of Okanagan Day School, Okanagan Indian Reserve No. 1, has been ordered a complete rest for three months on account of a nervous breakdown. He has been in St. Paul's Hospital, Vancouver, most of the school holidays and returned last week hoping to be able to resume his duties, but finds it impossible to do so and has been ordered back to Vancouver again, where the lower altitude may benefit him. I understand he has been teaching in various Indian schools for twelve years, the last four and a half being on the Okanagan Day School, where he has been quite successful. Mrs. Marsden was formerly a field matron at the Coast, but gave up that position when they came to the Okanagan.

Every year, during the holidays, Mr. Marsden has spent most of the two months in hospital, sometimes going to Mayo Brothers, Rochester. Last year both Mr. and Mrs. Marsden were in hospital at the same time, Mrs. Marsden being operated upon for appendicitis. I do not know whether you are aware of Mr. Marsden's condition, but he has been treated for several years for a disease of the bladder, taking radium treatment at Rochester for two years in succession.

Both Mr. and Mrs. Marsden have been most conscientious in connection with the school and have taken a keen interest in the children. Mr. Marsden was formerly an architect and is a very fine man. I consider it very fortunate to have had him as teacher. On account of so much sickness he has had considerable expense and I respectfully recommend that the sick leave be granted and if possible some salary, at least, paid to him during his absence in consideration of his twelve years service.

It is rather unfortunate I did not know about this in time to secure the services of another teacher, but will make every effort to do so before school re-opens.

Sir,—

I beg to place before you the following circumstances with reference to the school on Okanagan Indian Reserve No.1. This Reserve is a narrow one, but is seventeen miles long, so that it was impossible to place the school where it would be within walking distance of all the children on the Reserve, consequently some of them have been unable to attend. Recently a number of parents who have opposed the school in every way have advised me that if the children are taken to school they will be agreeable to it. There are now twelve children ready to attend if transportation is provided.

OK
sdh
I have looked carefully into the matter and can make arrangements for a car to do this work for \$60.00 per month. The distance for the trip is 36 miles per day, so that for a 21 day month it would figure at about 7½ cents per mile, the person taking the contract paying all running expenses and providing the car.

As there is no possibility of persuading the parents to send these children to a residential school, it would be most advisable to have them attend the Day School on the Reserve now that opposition to the school is weakening among those who have hitherto done everything they could to close it.

If the Department will give this favourable consideration I respectfully request advice by wire so that a commencement can be made by May 1st.

I note that arrangements can be made for an automobile for this work at a total cost of \$60 per month, and in reply, I wish to confirm my telegram of today's date, as follows:-

"Your letter twenty-third. May arrange transportation Okanagan school children."

The Department considers this activity worth while, as long as the average attendance of those pupils who are being transported continues high. You should inform the parents that the Department expects an average of at least ten per day, and, in the event that this mark is not reached regularly, if there is no illness or other sufficient reason, that you will be forced to recommend to the Department that the car be taken off the route. When I write an average of ten, I mean independent of those that are already in attendance at this school. You should keep the Department advised as to the success of the scheme, and, once every school month, you may forward a properly certified voucher in favour of the person who takes the contract.

Dear Sir,

I am in receipt of another of your uncalled for and extraordinary letters dated the 14th inst..

I suppose it gives you some sort of satisfaction to have these defamatory epistles - questioning my ability of running the school - on file. Had you taken your own advice "talebearing be not accepted as proof of guilt" - to wit, - and had you had the courtesy to come to the school and investigate for yourself, before giving expression to the statements your letter contains, you would have found:-

- First - There had been no child dismissed from the school.
- Second - No one has been unjustly accused.
- Third - No one is punished through talebearing nor is talebearing tolerated.
- Fourth - This boy, Ned Louis, whom you state is not fifteen years of age, was entered in the school register on February 1st, 1923 as eleven years of age - said age being supplied to me by his own parent when he was brought to school on that date. Ned Louis is now over sixteen years of age.

Ned Louis was never dismissed from this school, but when in class, he was insolent and insubordinate, I warned him, that he would have to leave the school if he did not behave himself better, as he was now over age. He thereupon walked out of the school in the middle of the class, feeling quite sure of the support of his parents for his action. However, he returned the next day, and I punished him by keeping him in his schoolroom during recess, to write an imposition. Since when, the mother has kept both her boys away from the school.

re The accusations:- None have been made, but owing to Ned Louis' immoral conduct in front of the school windows, so public - no investigation was at all necessary, I, as teacher, with the welfare of the school children at heart, presume I have the right to keep such a boy off the playground without being subject to any officious interference.

I may say, on our return from our leave of absence, we have had some anxious weeks with the children, as their conduct has become so loose. In this connection, two mothers visited us, immediately on our return, saying they were going to take their girls away from the school, had we not returned when we did.

The parents of Ned Louis also called and complained to us, that practically all the parents of the children at the school, had visited their house, complaining of the conduct of their boy, Ned Louis, towards their children.

Had you been so solicitous about the attendance of Mrs Pierre Louis' children at the school, as you would wish

your letter to infer, - why did you not ask Mrs. Louis for her reasons for keeping her two boys from school - Ned Louis 63 days Walter Louis 75 days during the six months prior to our return. You have the figures in your office.

Knowing, as you do, the antagonism of Ned Louis' mother and several others, towards schools, and the mischief they are capable of making, it would certainly assist matters, if you could bring yourself to show a little loyalty towards the teacher, when they come to you with their mischievous tale-bearing, instead of taking the ground from under his feet and encouraging insubordination among the children, and ugliness in the parents, by listening to their imaginary grievances, thereby taking all authority over the children, out of the teacher's hands, as you have done on previous occasions.

I should have thought, you would have seen, all the time this woman Mrs Louis was talking, she was simply seeking an excuse to use her boys at home, as the record of their attendance should have shown you.

I am,

Yours faithfully,

Dear Mr. Marsden,

I have received several complaints recently that some of the school children have been accused of wrong-doing without any proof being produced and these accusations have created a hostility to the school among those parents who intended sending their children as soon as a bus was supplied. I now have authority to start this school-bus and am arranging with the Indians at today's meeting.

I have also received a complaint that Ned Louie has been refused admittance to school on account of misbehaviour, which he absolutely denies. As this boy is not yet 15 years of age, he should be encouraged to attend rather than refused admittance when there is so much opposition to the school.

I sincerely hope that every effort will be made to increase the attendance at the school and that tale-bearing among the children is not accepted as proof of guilt without a full inquiry. No pupil can be refused admittance unless a full report of the cause of such refusal is made through this office to Ottawa.

You will realise that the morals of the Okanagan Indians is reflected in the children and no sudden changes either for better or worse can take place, but it is hoped that eventually as the present generation become members of the Band, that an improvement will be noticed among them, and the school has the biggest opportunity of helping in such improvement, but not by refusing admittance to any pupil suspected of wrong doing.

Sir,—

I beg to enclose herewith copies of two letters, one written by me to the teacher of Okanagan Indian Day School and the other his reply.

My letter was written in all friendliness and I was astounded to receive such an epistle from him. He apparently made several carbon copies of his letter as Mr. Cairns, School Inspector for B.C. received one. Mr. Marsden is a sick man and physically is not fit to be teaching, but his wife, who is doubtless well known to the Department, assists him and incidentally causes practically all the unpleasantness possible in connection with the school.

I have left the Marsdens severely alone in their conduct of the school and absolutely do not know what he means by accusing me of "officiousness and interference". I know it is their opinion that the Agent has absolutely nothing to do with the school except to attend to their numerous requests, which are unceasing. I have always done everything possible for them (which they do not appreciate and consider it my duty to do) by arranging transportation for them when they come to Vernon, taking them out to the school at considerable personal inconvenience, attending to their mail and carefully forwarding it, also telegrams and cables have been delivered to them at most inconvenient times and in fact every courtesy and help has been extended to them. Personally I consider Mrs. Marsden a great detriment to the school and a confirmed trouble maker and I sincerely hope they will find another school more suitable to their peculiarities.

With regard to the enclosed letter Mrs Pierre Louis seems to have incurred their displeasure. As a matter of fact, Mrs Pierre Louis had nothing to do with the complaint, it was Pierre Louis who came to my office and said he was seriously considering removing his children from the school on account of Mrs Marsden's action towards them. Pierre Louis is far and away the best Indian in this Agency, he is absolutely truthful, honest and industrious and it was through his efforts, in spite of bitter opposition from other Indians, that the school was made possible and it is only his loyal support of education which loses him the Chiefship, the majority of the voters being opposed to the school. The complaints Pierre Louis made to me were quite rational and made without rancour or heat and were entirely regarding Mrs. Marsden's treatment of his son; he said Mr. Marsden allows his wife to do as she pleases with the school and I know from personal observation that this is true and it is a serious drawback as she is totally unfitted to have charge of the pupils on account of her temperament.

No one questions Mr. Marsden's authority over the pupils and if it were not for his wife there would be no

trouble at the school.

I now wish to call particular attention to paragraph six of his letter. This may mean much or little, but in any event it is absolute nonsense to say that the conduct of the children became loose because Marsden's were absent for some months last year. During their absence Mr. Frank Grist was employed as teacher and if Mr. Marsden is making any reflection upon his character I beg to advise that such reflections are lying, slanderous and unwarrantable. Mr. Grist is a gentleman in whom I have entire confidence; his integrity and uprightness are without question and I was extremely fortunate in obtaining his services. Mr. Grist is a Roman Catholic and it was not easy to find a teacher of that religion at short notice to fill in during Mr. Marsden's enforced absence and it is pitiful to see such statements as this in Marsden's letter. I notice "two mothers visited them on their return saying that they were going to take their girls away etc." May I mention that many parents told me they hoped the Marsdens would not return as their children were doing so much better in school and in proof of their confidence in Mr. Grist I may also add that he formed a night class for the parents whom he was teaching to read and write. This I think entirely refutes any statement that the conduct of the children suffered during Mr. Marsden's absence. However, I quite expected to hear some such thing as this from Mrs Marsden's remarks even before they had reached the school on their return and I consider Mr. Marsden should be severely censured for making any such statement without more proof than his wife's surmises.

I have visited this school as seldom as possible and have never interfered in the slightest with Mr. Marsden. They are kindhearted people and I like Mr. Marsden very much, but he is completely dominated by his wife, who is a most unpleasant, foolish and interfering woman and I wish to respectfully, but strongly, protest against receiving such a letter from this teacher.

Sir:

I have received a copy of your letter of the 16th ultimo to Mr. Indian Agent Ball. The Department considers this communication not only discourteous but insubordinate. The Indian agent is the local representative of this Department and, as such, bears the same relation to you as does a school board to the teacher of a public school. You should look to Mr. Ball for instructions, advice and help in connection with your duties.

The Okanagan Indian Day School presents a particularly difficult problem and you will not likely meet with success, unless you are prepared to cooperate with the Indian Agent, who is primarily responsible for the school.

Dear Sir:-

I am in receipt of another of your uncalled for and extraordinary letters dated the 14th.,

I suppose it gives you some sort of satisfaction to have these defamatory epistles:- questioning my ability of running the school- on file. Had you taken your own advice, "talebearing be not accepted as proof of guilt"- to-wit- and had you had the courtesy to come to the school and investigate for yourself, before giving expression to the statements your letter contains, you would have found:-

- First - There had been no child dismissed from the school.
- Second - No one has been unjustly accused.
- Third - No one is punished through talebearing, nor is talebearing tolerated.
- Fourth - This boy, Ned Louis, whom you state is not fifteen years of age, was entered in the school register on February 1st. 1923 as eleven years of age - said age being supplied to me by his own parent when he was brought to school on that date Ned Louis is now over sixteen years of age.

Ned Louis was never dismissed from this school, but when in class he was insolent and insubordinate, I warned him, that he would have to leave the school if he did not behave himself better, as he was now over age. He thereupon walked out of the school in the middle of the class, feeling quite sure of the support of his parents for his action. However he returned the next day, and I punished him by keeping him in the school room during recess, to write an imposition. Since when, the mother has kept both her boys away from the school.

re The accusations:- None have been made, but owing to Ned Louis' immoral conduct in front of the school windows, as public- no investigation was at all necessary. I, as teacher, with the welfare of the school children at heart, presume I have the right to keep such a boy off the playground without being subject to any officious interference.

I may say on our return from our leave of absence, we have had some anxious weeks with the children, as their conduct had become so loose. In this connection, two mothers visited us, immediately on our return, saying they were going to take their girls away from the school, had we not returned when we did.

The parents of Ned Louis also called and complained to us, that practically all the parents of the children at the school, had visited their house, complaining of the conduct of their boy, Ned Louis, towards

their children.

COPY.

Had you been as solicitous about the attendance of Mrs Pierre Louis' children at the school, as you would wish your letter to infer, - why did you not ask her the said Mrs Louis for her reasons for keeping her two boys from school- Ned Louis 63 days, Walter Louis 75 days during the six months prior to our return. You have the figures in your office.

Knowing as you do, the antagonism of Ned Louis' mother and several others, towards schools, and the mischief they are capable of making, it would certainly assist matters, if you could bring yourself to show a little loyalty towards the teacher, when they come to you with their mischievous tale-bearing, instead of taking the ground from under his feet and encouraging insubordination among the children, and ugliness in the parents, by listening to their imaginary grievances, thereby taking all authority over the children out of the teacher's hands, as you have done on previous occasions.

I should have thought, you would have seen, all the time this woman Mrs Louis- was talking, she was simply seeking an excuse to use her boys at home, as the record of their attendance should have shown you.

I am,

Yours faithfully,

(Signed)

William Marsden.

File Ok.1-10

Dear Mr Marsden,

I have received several complaints recently that some of the school children have been accused of wrong-doing without any proof being produced and these accusations have created a hostility to the school among those parents who intended sending their children as soon as a ~~bus~~ school-bus was supplied. I have now authority to start ~~by~~ this school-bus and am arranging with the Indians at at today's meeting.

I have also received a complaint that Ned Louis has been refused admittance to attend school on account of misbehaviour, which he absolutely denies. As this boy is not yet 15 years of age, he should be encouraged to attend school rather than refused admittance when there is so much opposition to the school.

I sincerely hope that every effort will be made to increase the attendance at the school and that tale-bearing among the children is not accepted as proof of guilt without a full inquiry. No pupil can be refused admittance unless a full report of the cause of of such refusal is made through this office to Ottawa.

You will realise that the morals of the Okanagan Indians is ~~the~~ reflected in the children and no sudden changes either for better or worse can take place, but it is hoped that eventually as the present generation become members of the Band, that an improvement will be noticed among them, and the school has the biggest opportunity of helping in such improvement, but not by refusing admittance to any pupil suspected of wrong doing.

Yours very truly,

Dear Sir:-

Re No 164-5-1.

I beg to acknowledge receipt of your letter of June 6th. last, and tender my apologies for delay in replying. I am sixteen miles from a Post Office, and on no mail route.

I regret very much the Department should have considered my reply to Mr Indian Agent Ball as an act of insubordination. I assure you such was not my intention, but simply a defence against, what I consider an unwarranted attack on me without being given a hearing, based on false statements made against me by some half breed parents on my attempt to reinstall discipline and morals in the school, which I found had completely broken down during my leave of absence.

I am enclosing herewith copy of Mr Ball's letter to me also copy of my reply.

For twelve years I have had entire charge of Indian Day Schools in different parts of this Province, under the very able direction of School Inspector Mr Cairns, and have invariably been complimented by him on the results I have attained while acting in the capacity of teacher, especially of the Okanagan School..

There never has been any trouble in getting most of the children who live within three miles of the school-building - to attend this school,

I have found the children themselves much keener to be in school, than were the children of the other Reserves, consequently they have made quite satisfactory progress.

Sir,

I beg to acknowledge the receipt of your telegram of the 25th inst. as follows:-

"William Marsden resigned as teacher
Okanagan School stop Please forward
nomination of successor stating quali-
fications and recommendation re salary"

I have already written stating that Mr. Marsden has resigned. Mrs. Marsden has given a great deal of trouble whilst on the Reserve besides quarrelling with Indian women and it was only on compassionate grounds that I did not recommend the dismissal of these people some time ago. The teaching also was not up to standard. I have a high regard for Mr. Marsden personally, but his health was a handicap and too much was left to Mrs. Marsden, who is totally unfitted temperamentally to teach Indian children or have anything to do with the Indian people.

I have today received a letter from the Inspector of Schools, Mr. R.H. Cairns, stating that he has an application from Mr. George S. Quigley, who has had seven years teaching experience. I am writing for full particulars regarding this man and if his recommendations appear satisfactory will report in the near future. I presume this man has not been previously employed by the Department and would recommend a salary of \$85.00 per month if his record is satisfactory.

Sir,

Re File 164-5-1

I beg to acknowledge the receipt of your letter of the 5th inst. with reference to the teacher for the Okanagan Indian Day School in succession to Mr. William Marsden. After consultation with Mr. Cairns I beg to recommend that Mr. Quigley be engaged. As a matter of fact he has arrived here and in order to have the school opened as soon as possible I took him out yesterday.

Mr. Cairns advised me that on account of his previous experience he would recommend payment of \$90.00 per month. The Registrar of the Department of Education for this province, to whom I wrote for information, advises me that Mr. Quigley was employed for four years in the public schools at Malakwa, Alexis Creek and Glencoe. The Registrar states that "His work as teacher in the above schools was quite satisfactory when it is taken into consideration that he never attended Normal School in British Columbia. During his period of employment his character and conduct were satisfactory in so far as this Department is aware". Mr. Quigley taught in England for three years and also served Overseas for three years. The Reverend John Welch certifies as to this character.

Mr. Quigley has been advised that subject to your approval he is appointed on probation for six months.

Re Your File 164-5-1

I beg to advise in connection with your letter of September 5th last that Mr. George S. Quigley, teacher at the Okanagan Indian Day School, has applied for an increase in salary to \$100.00 per month.

Mr. Quigley has had several years experience in Provincial schools and he now has 22 pupils on the roll of the Okanagan Indian Day School. He is doing good work at this school and the pupils are making good progress under his tuition, although he has only been here since September, 1928. I believe he was advised by the Reverend Father Welsh, who recommended him, that he would be paid the same salary as the former teacher, although of course Father Welsh had no authority to tell him this. We are expecting an increase of several pupils in the school as soon as the weather moderates and I respectfully recommend an increase of salary from \$90.00 to \$100.00.

I beg to acknowledge the receipt of your letter of the 10th inst. in connection with the resignation of Mr. Quigley as teacher of the Okanagan Indian Day School. I visited the school yesterday and found it still closed and from an examination of the living quarters have come to the conclusion that although Mr. Quigley applied for three days leave and later wrote from Vancouver asking for three days extra, he had no intention of returning. The quarters were dirty and the furniture had been carelessly handled and the place looked quite dilapidated.

In case Mr. Quigley ever applies for another position it may be well to report that I have had trouble with him almost from the day of his appointment. He tried to undermine the priest who attends the Reserve, the Agent and everybody who had any dealings with him. I had numerous inquiries about him from all sorts of people, a warrant for him was sent to the local provincial police in connection with non-maintenance of his family, and recently there was an advertisement in the Vancouver papers asking for information as to his whereabouts. He was also in trouble with his nearest white neighbour on the Reserve on a timber deal and he was undoubtedly encouraging the Indians to cut timber from their allotments for sale through him, although his name did not appear. However, I checked this as soon as it came to my notice.

I did not wish to trouble the Department with his many activities, which have caused me considerable unpleasantness, but I was seriously considering placing the facts before you at the end of this term. He has been on the quota for entry into the United States and apparently his turn has now come and personally I consider we are well rid of him. Your instructions as to a successor are being followed and I hope to send an application for your approval in the near future.

I have the honour to be,

Sir,

File 164-5-1

I beg to acknowledge receipt of your letter of the 10th ult. with reference to the appointment of a successor to Geo.S.Quigley as teacher of the Okanagan Indian Day School. I have not been able to find a suitable qualified teacher, but have been requested by Father Carlyle to re-open the school with Mr. Anthony Walsh as teacher. Mr. Walsh is not a qualified teacher, but feels that he could handle this position. I have agreed, subject to your approval, to give him an opportunity of doing so and have arranged for him to re-open the school on November 15th. By the end of the term we shall know what progress he has made and he realises that to hold the position he must make good as a teacher. He appears to be a very good type of man for the position and may be much more successful than a qualified teacher if he is in earnest and interested in the work. Mr. Grist, who has been teaching for some time, has had no previous experience, but is one of the most successful teachers we have had in the Agency.

I respectfully request authority to employ Mr. Anthony Walsh temporarily as from November 15th at a salary of \$30.00 per month.

Okanagan Day School has made extraordinary progress both in school work and appearance of the school. The school is now surrounded with flowers in which the children take great pride. Handicrafts given for the first time in the curriculum have given splendid results and the general education and attendance are well in keeping with the other work. Mr. Walsh, the teacher, is attending University Summer Courses for teachers.

I have received a request from Mr. Anthony Walsh, teacher at Okanagan Indian Day School, for an increase of salary. He is at present in receipt of \$90.00 per month.

Mr. Walsh has proved very successful in his handling of this school, and is a very satisfactory teacher in every way. Attendance has increased under his direction to a point where practically all seating accommodation was full at the end of last term. He has improved the school grounds by flower beds, etc., and carries on agricultural instructions by this means. During the summer holidays he attended teachers' courses in various subjects at the Normal School, Victoria, B.C., at his own expense, specializing in handicrafts. At the Indian Exhibition at Kamloops last week, his school was awarded first prize for an excellent display.

I have no hesitation in respectfully recommending that his application be favourably considered.

I enclose herewith a letter addressed to you received from the Secretary of the Indian Crafts Guild on Okanagan Indian Reserve No.1. Under separate cover I am forwarding at their request a sample of their work for your use.

150/45

In explanation, I would advise that the Guild at present is composed of pupils of the Okanagan Indian Day School under instruction of Mr. Anthony Walsh. Mr. Walsh, attended the B.C. University Summer School during the vacation, specializing in handicrafts, and has made considerable headway with this work among his pupils during the Fall term, and the children are very keen indeed on the work, a few of them displaying outstanding talent. The small basket is one of their early attempts with raffia, and hardly conveys an impression of what they are doing. I loaned the School a simple weaving loom and a four frame loom with which they are turning out good work, considering their short experience. I have also recently loaned them a pyrographic outfit, and they are experimenting with burnt leather and birch bark decoration. They have already turned out a variety of articles decorated in various ways and at present, in addition to their ordinary school work, are engaged in making up birch bark greeting cards, and other novelties to fill orders from white people. Already they have added over \$20.00 to their school library fund, which represents a small contribution from each article sold, and the library is growing fast. The most recent request from the Guild is for an autographed copy of Dr. Scott's poems *for their library*.

It might be interesting to know that the Guild, which is also a Junior Red Cross "branch" conduct their business in a perfectly formal and businesslike fashion with regular meetings where questions are gravely debated and subject to resolutions, and this without the "interference" of the teacher.

One of the great hopes I have for this handicraft training is that in the event of these children ever being stricken with T.B. or other disability, they will be enabled to support themselves and considerably improve their chances of getting on their feet again, as probably the greatest difficulty in securing satisfactory results with tubercular Indians is due to the fact that they will not rest for any length of time.

You are probably aware that this school secured

OKANAGAN AGENCY.
MONTHLY REPORT OFOR MONTH OF DECEMBER 1930.

The schools concluded the fall term very satisfactorily. The Okanagan school is an outstanding success in every way, and the pupils are confronted with a bigger demand for their handicrafts than they can fill. A number of these pupils have provided themselves with winter clothing from this source and the teacher, Mr. Walsh, believes several of them will be self-supporting in a few years. This, of course, in addition to their routine studies. The attendance at this school is increasing and it is not at all unlikely that new desks, etc. will have to be provided in the comparatively near future, as a number of children living at a distance from the school are now anxious to attend. The Osoyoos children are contemplating the formation of a Boy Scout troop, and it is hoped that this can be brought about. This school, under the care of Mr. Grist, is very successful, his strong point being agriculture and stock, and his work in the reserve is equally as valuable with the adults as with the children. Penticton school has a much harder problem on account of the opposition and indifference of the Indians.

Thank you so very much for your two kind letters, and the Christmas cards - the children were delighted with them. I went to the local photographer and got some of the old glass plates, cleaned them up and succeeded in making some very attractive pictures with some of your cards - these the children took home to hang on their walls.

The first attempt to brighten up their houses, my next move will be to get some materials for their windows, and they are all going to have little gardens this year, I was given some bulbs and three or four families have them up already in cans in their window sills.

The children join me in thanking you for your kindness.

C. C. Perry, Esq.,
Assistant Indian Commissioner,
P.O. Box 666,
Victoria, B.C.

Dear Sir;

I have been informed by Mr. Indian Agent Strang, of the Lytton Agency, that the position of teacher of the SHALALTH Indian Day School has become vacant, owing to the resignation of Mr. D. Burden-Murphy on his appointment to the staff of the Kamloops Indian Residential School.

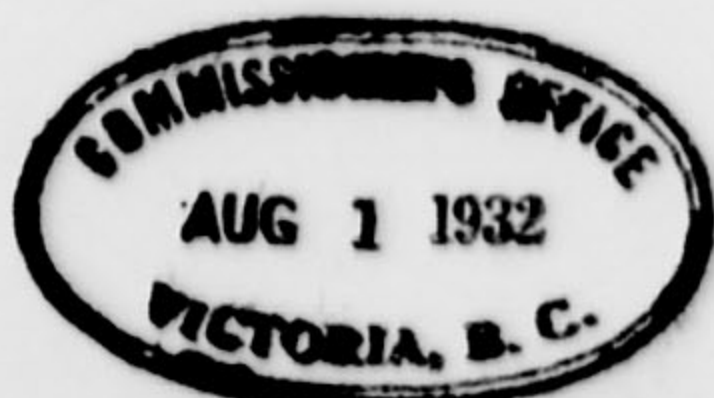

To fill the above vacancy I beg to recommend that Mr. F.G.M. Grist, the present teacher of the OSOYOOS Indian Day School, be appointed teacher of the SHALALTH Indian Day School. Though Mr. Grist has no Normal School training, he is taking the Primary, and Indian Courses at this year's Provincial Summer School. There is a little friction between Mr. Grist and the local Priest at Osoyoos; but from my inspection of Mr. Grist's work I feel that he should have the chance to show what he can do under other conditions, and it is for this reason that I wish to recommend his transfer to SHALALTH in place of Mr. Buren-Murphy resigned.

Should the Department agree to transfer Mr. Grist to Shalalth, I wish to recommend that Mr. A. Walsh, at present teacher of the Okanagan Indian Day School be appointed teacher of the OSOYOOS Indian Day School. Mr. Walsh has been very successful with native handwork at the Okanagan Indian Day School, and it is hoped that he will be able to train the Indian children at Osoyoos in the same sort of work.

Both Mr. Grist and Mr. Walsh have applied to me for transfers. I have put the whole matter before the Right Reverend the Bishop of Victoria during a special conference which I had with him at the Palace in Victoria on July 28th. He informs me that he is in agreement with my views on the matter, and will so inform His Grace Archbishop Duke, or his representative. I hope that the above transfers will do away with any cause for friction between the teachers of the Indian Day Schools and the local Priests.

To fill the position of teacher at the OKANAGAN Indian Day School which would become vacant should the Department approve of the above transfers, I would recommend the appointment of Mr. Bernard Neary, 1228 Yates Street, Victoria, B.C.

Mr. Neary holds an Interim First Class Certificate for British Columbia, having been trained at the Victoria Normal School, and Victoria College. In addition to two years College he holds

Physical Training and First Aid Certificates, and will have a Summer School Certificate for Indian and Rural work at the end of my present course of lectures on August 5th. He has had one year's successful experience in a three roomed rural school, and is only leaving as the local trustees are doing away with one division. Mr. Neary is very highly recommended by the local Catholic Priests, is well known to the Right Reverend the Bishop of Victoria, and is recommended by the Provincial Department of Education. May I ask that if his appointment be approved he be so informed by telegram, as it is quite likely that offers of other schools will be made to him, and I am very anxious to obtain his services on the staff of the Indian Day Schools.

The above recommendations have, I may say, been worked out with some care, are approved by the Right Reverend the Bishop of Victoria, and now await the approval of His Grace Archbishop Duke and the Department of Indian Affairs, to whom they are respectfully submitted,

Sir,-

It has been decided to transfer Mr. A. Walsh, teacher of the Okanagan Indian Day School, to the Osoyoos Indian Day School.

To succeed Mr. Walsh, the Department is approving of the appointment of Mr. Bernard Neary as teacher at Okanagan. Mr. Neary holds an interim first class certificate for British Columbia, having been trained at the Victoria Normal School and Victoria College. In addition to two years College, he holds Physical Training and First Aid Certificates and, this summer, he is obtaining a summer school certificate for Indian and rural work. He has already had one year's successful experience in a three-roomed rural school.

The transfer of Mr. Walsh and the appointment of Mr. Neary are effective from September 1st, next.

Mr. Neary's salary will be at the rate of \$90 a teaching month, less 10% for the current fiscal year. The Department trusts that you will give him every possible assistance.

Much greater interest is being shown in this school lately. During the inspection of this school, a short conference was held with the Indian Agent, the Teacher, the Missionary, Rev. Father Cullinan, and the Indian Chief Pierre. It was brought to my notice that there were a number of Indian children in the districts near the school but beyond walking distance, who were not in receipt of any education. I asked the Indian Agent, Mr. Coleman, to gather the facts of the case with a view to making a full report to the Department. My own view is that there are from 20 to 30 children who could be brought to this school daily by a small school bus or large automobile. If these children were so brought, it would be necessary to add a second schoolroom to the present buildings, and engage a second male teacher. It is most important that one or other of the two male teachers, who would then be available, should drive the school bus. There is sufficient room in the school building for the residence of a second teacher, there being a spare bedroom. I understand the ~~local teacher~~ local teacher and the Missionary are thoroughly in favour of this solution to the school attendance question in this district. I have so far no particulars of the children who could attend if this plan should be adopted. I am rather in favour of it; but am not prepared to recommend it to the Department till I have a report from the Indian Agent. Some method will have to be found for the education of this fairly large number of children. I am satisfied that the establishment of a second one roomed school at a selected place would NOT solve the difficulty. The average attendance figures and classification are given below.

OKANAGAN AGENCY INSPECTION REPORT NO. 9 (Cont'd)

6. SCHOOLS:

I regret that at the moment I cannot find my notes upon the Day School on Okanagan Reserve No. 1. I must, therefore, rely upon memory. I found that the attendance was well up, and this school seems to be doing quite well indeed. The children in the various grades demonstrated to me in the way of reading, writing and arithmetic, and they seemed to be alert, intelligent, and well up to grade. The school was clean and tidy.

The teacher at this school has a system of allotting gardens to the various children, and though early in the season, I found the gardens all planted and the children taking a great interest in each individual garden. The children themselves had built their own irrigation system very creditably indeed, and I strongly recommend that a small sum of money, say \$5.00, be allotted for prizes when these gardens are judged by the local Government Agriculturist, who has promised to do this for us. It stimulates great interest amongst the children, and I think, would be a very good move.

I found the manual work done around the school by the boys, very good.

Taking everything into consideration, I find a great improvement in this Day School since my last visit.

Yours truly,

G. S. Pragnell

Sir:

A vacancy has occurred at the Cowichan Indian Day School, in the Cowichan agency, and Mr. Bernard F. Neary, teacher of the Okanagan Indian Day School for the past two years, has requested that he be transferred to the Cowichan School, as it is nearer Victoria than his present school. The Department has approved of his transfer and he has been so informed.

This leaves a vacancy at the Okanagan Indian Day School, and I would appreciate if you would consult the local Catholic Church authorities and forward, as soon as possible, the name and qualifications of the teacher whom they desire to nominate.

Indian Agent,
Vernon, B.C.

Dear Sir;

I have recommended the transfer of Mr. B. Neary from the position of teacher of the North Okanagan Indian Day School to a similar position in the Cowichan Indian Day School, Cowichan Agency. Mr. Indian Agent Graham has I understand also recommended that Mr. Neary be appointed to the latter school, and I have every reason to think that the Department of Indian Affairs will so appoint him. Nothing definite however has come to hand in this connection as yet.

I leave on Friday next the 10th instant for my annual vacation, and I shall not be in a position to recommend suitable candidates, should you request me to do so. I am therefore taking the liberty of recommending the below named teacher for any vacancy that may be caused through Mr. Neary's transfer, and I would ask you should the position of teacher at the North Okanagan Indian Day School become vacant to consider favourably Miss Hepworth's qualifications. I should also be glad if you would communicate direct with this candidate, and should she be accepted by the Department, instruct her in due course with regard to the opening of school, Etc.

Recommended for the position of teacher of the
North Okanagan Indian Day School:-

Miss Marie Hepworth, Box 924 Trail, B.C.

Miss Hepworth is a Roman Catholic, age 21, trained at Victoria Normal School (1931-32), holds a B.C. First Class Interim Certificate, and has about four months experience as a substitute teacher in Grades 2 and 3 at the Trail Central School. She is about five feet three inches tall and weighs one hundred three pounds. She has taught Sunday School for some eight years, and is very well able to teach the children their Religion. She has been always in the best of health, and when not in school has worked in a drug store gaining a knowledge of simple drugs. She is prepared to dispense the usual medicines to the Indians. Miss Hepworth gets on well with the children placed in her care, and to qualify for a teaching position in one of the Indian Schools, gave up a position to attend the courses in Primary Work and Indian & Rural Problems at this year's Provincial Summer School here. In fact I have had Miss Hepworth as a student in my class for the past five weeks, and have observed her attitude and class work with some care. She can play the piano or organ and is well able to conduct a choir. She is also quite good at cooking and sewing, which subjects she is prepared to teach to the girls.

Miss Hepworth's aunt a lady of some fifty years of age is prepared to make her home with this teacher at the school, as otherwise I could not recommend a single girl being given this appointment. I may add that this nomination has the express written approval of His Grace the Archbishop of Vancouver, Archbishop Duke. I wish also to strongly recommend Miss Hepworth's appointment, and would ask that a copy of this letter be forwarded with your recommendation when the position becomes vacant.

SCHOOLS:

These are all making satisfactory progress. The children of each of the three day schools entered the annual poster competition of the Latham Humane Foundation (an organization somewhat similar to our Society of Prevention of Cruelty to Animals) to which there were over 5,500 entries from all over the world. Each school secured several certificates of merit and one young woman at Penticton Reserve managed to get into the not very extensive prize list for a small award, which was very good considering the extent of the entries. This all came about by the Foundation inviting my personal entry but as I had no time I suggested that they might be interested in the Indian children's contributions with the results stated.

XXXXXXXXXXXXXXXXXXXX

With reference to the third paragraph of your letter of the 9th instant and the third paragraph of your communication 167-24-1 of July 30th last, I am forwarding herewith a letter from Archbishop W. M. Duke of Vancouver, in which he suggests the transfer of Miss Marie Hepworth from the Okanagan Indian Day School to be teacher of the Sliammon Indian Day School, and also the appointment of Miss Catherine McDonald as teacher of the Okanagan Day School.

Captain Barry informs me that Miss Catherine McDonald is a Roman Catholic, aged 49 years, trained at the Ottawa Normal School 1914-15 and holds a Second-Class Ontario Certificate. This teacher has 16 years successful experience; 10 years having been spent in Ontario rural schools and 6 years at St. Patrick's School, Vancouver. Her sister is a widow who could and would live with her, should her appointment as teacher of the Okanagan Indian Day School be approved. She was interviewed in Vancouver on June 19th last by our Inspector of Schools.

I would recommend that approval be given for the transfer of Miss Marie Hepworth to Sliammon Indian Day School and the appointment of Miss Catherine McDonald as teacher of the Okanagan Indian Day School. On receipt of a telegram that the Indian Affairs Branch has approved of these appointments, I shall immediately inform the Indian Agents concerned.

Dear Sir:

With reference to your letter of the 14th instant, you were informed by radiotelegram on the 21st instant as follows:-

"Department approves appointments of teachers Marie Hepworth to Sliammon and Catherine McDonald to Okanagan Schools."

It is noted that both the transfer of Miss Marie Hepworth to Sliammon and the appointment of Miss Catherine McDonald to the Okanagan School are approved by His Grace W. M. Duke, Archbishop of Vancouver. Please notify these teachers of their appointments and arrange with them to begin duties on September first.

The salary allowed Miss Hepworth at the Sliammon School will be at the rate of \$98.00 a teaching month.

Miss Catherine McDonald will be allowed salary at the rate of \$90.00 a teaching month at the Okanagan School.

I am enclosing herewith Staff Questionnaire Forms, which you should request these teachers to fill in and return to the Department at the earliest possible date. A circular regarding the dates of opening and closing of Indian day schools is also enclosed.

The teacher at this school (Okanagan Indian Day) has been transferred to Sliammon and an elderly woman teacher appointed in her place, which I regard as rather unfortunate, a male teacher being particularly desirable. The school is quite isolated and there has been a great deal of comment from white residents in that locality about placing women in this position, with requests from them that we give them telephone connection, which would be extremely costly, both for installation and maintenance. Apart from this a man that could have handled manual training training, agriculture and the boys was very desirable. However, I had no knowledge of the proposed changes until they were effected a few days before school opening. Every assistance and encouragement will of course be extended to the new teacher and her sister who is with her, but I do not feel very comfortable about the matter and it is to be hoped that a more satisfactory arrangement can be made later.

Dear Sir:-

With reference to your report for the month of August, it is noted that you consider it would have been preferable to appoint a male teacher in charge of the Okanagan Indian Day School.

The present teacher, Miss McDonald, was nominated by His Grace the Archbishop of Vancouver, and her qualifications were approved by Inspector Barry. As we were informed that her sister would reside with her, the Department considered that no objection would be taken to her appointment.

Please give her every possible assistance during the current academic year and, if you consider that a male teacher should be placed in this school during the academic year 1938-39, you should so advise me early next May.

Sir:-

OFFICE OF
INDIAN AGENT

Okanagan Indian Agency,
Vernon, B.C.,
September 21, 1937.

R

I beg to acknowledge receipt of your letter of the 14th instant with reference to the appointment of Miss Catherine McDonald to Okanagan Indian Day School and my comments in my monthly report for August in reference to the appointment of a woman teacher to this school.

As I had not met Miss McDonald at the time of writing the report the statements therein did not in any way refer to Miss McDonald personally but entirely to the type of teacher I considered desirable for this particular school. I fully appreciated the circumstances in regard to her appointment and on her arrival immediately endeavoured to assist her in every way possible. As it was apparent that she was unfamiliar with handling Indian children and ^{our} general educational procedure, I had Mr. F.G.M. Grist, recently of Seabird Island School and now in Vernon, endeavour to assist and advise her in detail, this man having been eminently successful when teaching in this Agency and having taught at this particular school at one time, with success. There was no expense to the Department in this connection. As it was evident that Miss McDonald was still somewhat off the line I deemed it advisable to bring Miss M.E. Weydert up from the Penticton Day School to give her a day, Miss Weydert being the most competent and successful teacher we have ever had in our work and being a woman I thought possibly she might make a more effective contact with her in some ways than Mr. Grist. I think between the two of them and myself we have possibly acquainted Miss McDonald with our requirements and methods.

So far as I can see Miss McDonald is a very fine type of woman typical of the teacher of a small Ontario school of twenty-five years ago and the whole problem is that of adapting her to the type of education now in vogue and many of the young teachers are finding difficulty in meeting the recent changes in curriculum in British Columbia. If this can be done I have no doubt but that she will do excellent work for this Department and you can rest assured that she will be given the fullest and most sympathetic co-operation from myself and my staff in every way possible. This school would be a problem even for an experienced Indian teacher as I consider it is in a somewhat run-down condition and the children have lost interest in the work, consequently it would not be fair to pass an opinion on Miss McDonald's work until she has been with the children for some months.

I am not entirely satisfied with our educational set-up as regards its value in training our Indian children for the work they will undertake on their maturity, both for boys and girls, and feel that we are merely tending to make them dissatisfied with their future prospects, which in this Agency hold out a great deal more promise for them than

the majority of white children, if they can be educated to see and take advantage of them. After the rush of Fall work is over I hope to report more fully my views to the Department in this respect, for what they are worth, but meanwhile I do feel that as the agent is responsible for the success or failure of his Agency and the school work is the foundation for the near future that he should have something to say with regard to the particular type required to cope with his peculiar Agency requirements, high academic attainments being useless to us if the teacher is unable to fill the school, as an example.

Miss Katharine McDonald arrived and was inducted in her school on the 1st. She appears to be very zealous and a hard worker, but has had no experience in this particular type of work and is not very up to date in her methods. I had Mr. Grist give her some instruction on our methods (without cost to the department, thanks to his courtesy) and brought up Miss Weydert from Penticton to give her a day in the class room (also at no cost) and every assistance is being given Miss McDonald to make her work a success. It seems to be largely a question of having her adopt our methods and if this can be done she will no doubt prove as satisfactory as a woman can at this particular school, but as the work there is at a rather low ebb it will take her some time to get things in shape.

Dear Mr. Crerar,

The Okanagan Valley Union Library is, of course, a purely Provincial affair, but it is having rather a struggle in its desirable work, owing to a misunderstanding with regard to the amount it was expecting from the Carnegie Trust at its inception.

The following is an extract from a letter I have received from its efficient Secretary, Miss Muriel Page:

"As you know, there are three Indian Schools in the Okanagan, and these are the care of the Dominion Government. Some time ago I wrote to Mr. Coleman, the Indian Agent in Vernon, and asked him if it would be possible to obtain a small grant from the Government so that these three Schools might receive the same service that the other schools in our library district receive. He wrote in answer, that as no fund had been allocated for this purpose, it was not in his power to grant my request.

"Would it be possible for the Dominion Government when considering their 1938 finances, to make us a grant of, say, \$50 a year, so that we might take books to these Indian children? There are about 55 children now in the schools, I believe, and I have estimated that it would cost us about \$1 a year per child. This would give them a change of books each month that the schools are open, and would enable the children to have access to books that are of a more recreational nature than the regular readers and school texts."

Will you please give this appeal your kindly
consideration?

No provision has been made in our appropriation for any amount that would permit us to make a grant to the Public Library mentioned in Mr. Stirling's letter. In addition I might point out that the Indian schools in the Okanagan Valley are well provided with the regular textbooks, also supplementary reading books, and I do not consider there is any great need for the circulation to them of books from the Okanagan Valley Union Library.

Schools

These have been making their usual progress. Miss Weydert of the Penticton School is marrying a young Catholic school teacher, who has very excellent reports from his inspectors. Miss Weydert has proven unusually successful with this school and as her husband made application to join our teaching staff after his marriage in July, I thought that it would be an excellent idea to have this young couple take over the Okanagan Indian Day school, which has always been a problem, there being a number of adult girls attending and the attendance has fallen off rather badly in recent years. It has an enrolment of 35 pupils with the last average attendance being only 24.68. It was considered that this young couple working together on the problem could promote the interest of the children and that a young married woman could handle the elder girls by securing their confidence and bringing them to a better understanding of their responsibilities, as well as handle the domestic science end of the teaching, the young man being quite capable of taking the boys with elements of agriculture and manual arts. However, to my surprise the present incumbents, two aged ladies, are not taking favourably to a transfer to Penticton where I felt they would be much more comfortable living in the town and free from the inconveniences of living on a reserve where they are liable in ordinary winters to be snow bound for weeks at a time, besides the undoubted advantage of taking over a school that has been brought up to an excellent standard, by Miss Weydert. Personally I would prefer to see competent male teachers in all of the three day schools in this agency in order to give effective training to the boys on agricultural subjects as well as the orthodox curriculum and have part of the available time allotted to training these youngsters in what will eventually be their life work.

Dear Major MacKay:

I understand that there will be a vacancy at the Okanagan Indian Day School and also at the Penticton Indian Day School, and after conferring with the priests in charge, I am writing you, recommending Mr. Thomas Noel Curteis for the Okanagan School and Miss Catherine McDonald for the Penticton Indian School.

I take this occasion of expressing our appreciation of your great help and interest in the recent Indian Exhibit, to which the Indian people, generally speaking, throughout the Province showed the greatest interest, and co-operation.

Very sincerely yours,

Dear Sir:

I am forwarding herewith a copy of a letter received from His Excellency Archbishop W.M. Duke, in which the Archbishop nominates Miss Catherine McDonald on transfer from the Okanagan Indian Day School to be teacher of the Penticton Indian Day School in place of Miss Mary Elizabeth Weydert who resigned her position to be married to a Mr. T. Curteis, your file 164-10-1 of June 2nd last,

To fill the vacancy at the Okanagan Indian Day School, His Excellency has nominated a teacher with Provincial experience, Mr. Thomas Noel Curteis, the man Miss Weydert is to marry this month.

The above nomination would have been forwarded to the Department some time ago had it not been that Miss Catherine McDonald was at first rather unwilling to accept His Excellency's nomination and wished for a transfer to a school near Vancouver or Victoria. These matters have now been adjusted and Miss McDonald is anxious to go to Penticton on transfer from the Okanagan Indian Day School near Vernon.

I have interviewed Mr. T.N. Curteis and find that he was trained in the Victoria Normal School and now holds a Permanent First Class Certificate in British Columbia. He is a Catholic and 21 years of age. For the past three years he has been in charge of Grades 1 to 4 inclusive at the North Cedar Provincial Day School. In 1936 he attended the Provincial Summer school in Victoria and qualified in Reading, Geography, and Modern Methods, while at the 1937 Summer School he received certificates in Psychology, Literature and Science. He is a well set up young man interested in school games, and with some experience in Manual Training which would be of use in the Okanagan Indian Day School.

The Indian Agent, Mr. Coleman, is anxious that a married man be appointed to the Okanagan Day School, and I have no hesitation on behalf of the Indian Commissioner in recommending that the Archbishop's nominations be accepted and Miss C. McDonald be moved to Penticton and Mr. Curteis be appointed to the Okanagan School.

Nominations for any other teaching positions in Indian Day schools working under Catholic auspices will be forwarded as soon as I have had an opportunity to discuss the matter with His Excellency Archbishop Duke who is expected to return to Vancouver towards the end of the month.

Yours very truly,

Gerald H. Barry.

Dear Sir:

Mr. T. N. Curteis, teacher at the Okanagan Day School, has applied for permission to close the school one week earlier than the official date in order to make arrangements to move his family to Victoria so that he may attend the Provincial Summer School opening there on July 3rd. Mr. Curteis proposes to hold classes on each of the remaining Saturdays of the term up to and including June 22nd, between the hours of 8 A.M. to 12:30 P.M., to make up for the school periods of the last week of the term that ordinarily would be held. Mr. Curteis would expect to be paid full salary for June under these arrangements.

Mr. Curteis has been a very successful teacher and has taken a great interest in his pupils. His wife was a former teacher in the Okanagan Agency and has no doubt been of considerable assistance to Mr. Curteis in his work.

Mr. Barber has endorsed the application and under the circumstances I am inclined to recommend that the Department favorably consider granting the request provided the regulations permit of such arrangements being made.

Okanagan and Penticton Day Schools were visited, both schools being in excellent condition. However, I was accompanied by Dr. Paine on the 18th to the Penticton School and in view of the number of pupils away with measles only seven being present, all of whom the Doctor expected would go down, he advised closing the school until the end of the month which was done, the pupils being instructed to stay around their own homes and not to visit other houses. Dear Major MacKay,

In further reference to the subject of a teacher for the Okanagan Indian Day School, I sent word to Edmonton to have two possible men looked up whom I know there. I believe one of them is now going to apply for the position. He has not Normal School training, but his education, of which he will write you the details, is quite advanced. His name is Gregory Schiller, Canadian-born of Bohemian and Irish ancestry. He is a Catholic.

I do not hesitate to recommend this young man, if you consider his qualifications sufficient. He is of good family, good moral character, intelligent. I feel that he could do well in the position.

Dear Sir:

With reference to the vacancy for a teacher at the Okanagan Indian Day School, I enclose herewith nomination by His Grace E.Q. Jennings, Auxiliary Bishop of Vancouver, of Gregory Schiller who, it will be noted, has no professional qualifications but is well recommended by the Bishop. It will also be noted that this applicant has been exempted from Military service apparently on medical grounds.

It has been found quite difficult to secure teachers for these positions, and, while I am not favourable to the appointment of unqualified persons, in view of the Bishop's recommendation I would approve of Mr. Schiller being engaged on a purely temporary basis until such time as a qualified teacher can be secured.

OK
This school has been conducted on the basis of a term of 9 months at a salary of \$100 a month, and reference to your files will show that the \$100 a month rate was paid to Mr. Curtis in consideration of his wife, who was formerly teacher at the Penticton Indian Day School, devoting a part of her time to teaching the children domestic science, etc. In view of the fact that Mr. Schiller is not qualified professionally and there are excellent furnished quarters built on to the school, I would recommend that he be paid a salary of \$90 per month for the school term ending June 30th unless a qualified teacher could be secured before that date.

reference to securing a teacher for the Okanagan
Indian Day School.

In his report for the month of November
Indian Agent Barber writes as follows:

"There is general dissatisfaction among
many of the parents at this school being closed
for lack of a teacher and it is urged that a
teacher be obtained as early as possible."

If you have not heard from Bishop
Jennings I feel it would be advisable for you
to communicate with him again and endeavour to
secure a teacher to begin duties next month.

Further to my letter of December 19th, regarding the appointment of a teacher for the Okanagan Indian Day School, I enclose herewith a telegram received from Bishop Jennings nominating Miss Betty Neave to the position.

Miss Neave, although not a certificated teacher, is sufficiently qualified to assume the position and it is recommended that the nomination be approved.

A reply by airmail would be appreciated in order that Miss Neave may commence her duties as soon as possible in the new term.

With reference to your letter of the 27th instant, the Department approves the appointment of Miss Betty Neave as teacher of the Okanagan Indian Day School, with salary at the rate of \$100.00 a teaching month. As soon as she begins duties you should have her complete and return the usual forms. I presume it is your idea that she should be allowed salary at the same rate as the preceding teacher, namely \$100.00 a teaching month. However, if you consider less salary should be paid to her, you may advise her accordingly. When forwarding the forms you should state definitely the exact date upon which she begins duties, although, if you so desire, we could arrange to have her appointment date from January 1, 1945.

Day Schools:

Okanagan Indian Day School. The teacher, Miss Neave, resigned at the June closing, and I had earnestly hoped that a new teacher would have been appointed for the September opening. However, I still have no word in this regard, and the Indians are, to say the least, unhappy and discontented at the school being closed, and accuse myself and the Department of having no interest in their children's education. This is a great pity as these people are eager to send the children, and some have no left for the United States and are sending the children to the public schools there until we obtain a teacher. I hope the Department will make an effort to obtain a qualified teacher.

SCHOOLS: Okanagan Indian Day School. I regret to say that no teacher has yet been appointed for this school for which there are about 35 pupils anxious to attend and the Indians are very bitter in their feelings over it. They have requested that if a teacher cannot be obtained, then the Department employ a bus and transport the children to school in Vernon. I have advised them that this is impossible as the white schools are now filled with more children than can be properly accommodated.

This school has been very unfortunate in the matter of teachers for the past 4 years and the Indians openly state that no encouragement is given them in the education of their children. I sincerely hope that a qualified teacher can be obtained at an early date.

With reference to Mr. Phelan's letter of June 3rd in connection with securing a teacher for the Okanagan Indian Day School, this matter has been the subject of correspondence with Bishop Jennings at Kamloops, and although the Bishop on April 24th suggested that Reverend Father Sutherland, O.M.I., Indian missionary attached to the Kamloops Indian Residential School, be assigned to the Okanagan Indian Day School in the absence of any other suitable teacher, this course was not considered advisable as Father Sutherland was just as urgently required at Kamloops.

Under date of May 3rd Bishop Jennings advised that he was still unsuccessful in securing a suitable teacher but that he would do what he could to secure one for the start of the Fall term in September. There is, however, absolutely no assurance that we will secure a teacher for the 1946-47 academic year.

DAY SCHOOLS

Inkameep Indian Day School - Father O'Reilly is giving excellent service and the attendance is good. Penticton Day School - Okanagan Day School - It is to be regretted that both these schools did not open for lack of teachers, and there appears no prospect of teachers being obtained. The Okanagan School has been closed for over a year, and there are approximately 40 children awaiting its reopening and the Indians are all very perturbed and dissatisfied with the situation. This is very regrettable as they are so anxious in that area, that their children go to school and I recommend priority of this school be given over others where there are less children to attend.

With reference to your letter No. 215-10-5413 of October 9th, ultimo and enclosures regarding enquiries made by Mr. John Pitman with reference to the teaching position at Okanagan Indian Day School.

I now advise that on October 21st, I conducted Mr. and Mrs. Pitman to Okanagan Indian Day School and gave him all the necessary information regarding the position.

I am now in receipt of his application which I am forwarding to you herewith together with the credentials he has supplied, these being as follows:-

Copy of Notice of having passed Preliminary Examination for the Certificate, 1908, from the Board of Education, Whitehall, London S.W., dated 1st. of July 1908.

Copy of Report of C. E. Brown, Inspector of Schools, Province of Saskatchewan, dated August 25th, 1934.

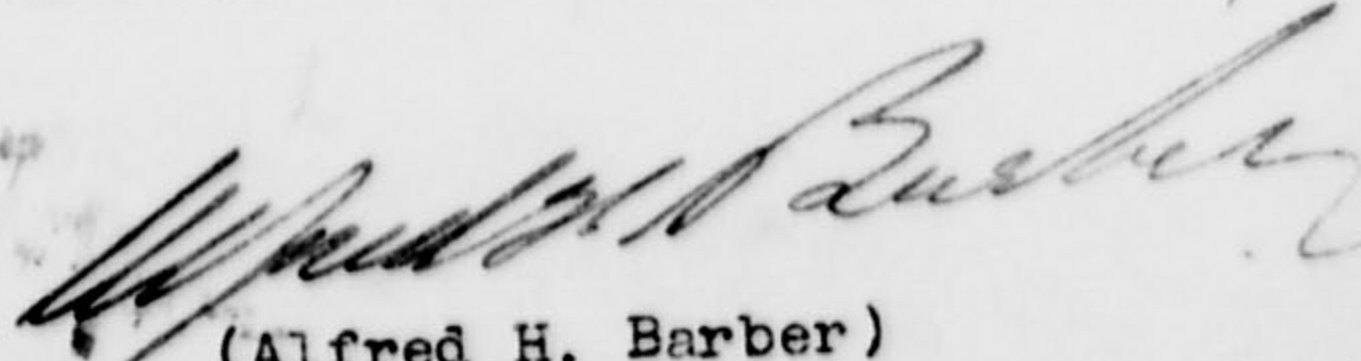

Copy of a letter dated August 15th, 1946, signed by J. S. Pells for District Treasury Officer, Vancouver, regarding services with that office at M.D. No. 11, at Vancouver, B. C. from July 20th, 1942 to August 1946.

I have also inspected Permanent Second Class Certificate of the Province of Saskatchewan issued to Mr. Pitman on July 14th, 1923.

I will be noted that Mr. Pitman is 57 years of age and that he taught in Saskatchewan for 10 years. However, he has not taught school for more than 15 years, and I would say he is very much out of date as to modern teaching methods. However, whilst I possibly would not recommend his appointment if teachers with modern teaching were available at this time, I am of the opinion that he would give satisfactory service if his appointment was approved by the Bishop. However, it will be noted that Mr. Pitman is an Anglican.

He is also a married man, and is of pleasant personality, but has had no experience with Indians.

In view of the fact that this School has remained closed since June 1945, and that there are approximately thirty-five children available, I would ask that Mr. Pitman's application be given every consideration.

Dear Bishop Jennings:

Considerable concern is being felt by the Department in that we have been unable to secure a teacher for the Okanagan Indian Day School which has been closed for some time.

We have now received an application from a Mr. John Pitman of Vernon for this position, a copy of Mr. Indian Agent Barber's letter of November 6th in connection with this applicant being enclosed.

Mr. Pitman appears to possess the necessary qualifications but is not of the Roman Catholic faith. If, however, you are not in a position to nominate a Roman Catholic teacher for this school it would be appreciated if you would give consideration to the nomination of Mr. Pitman whose appointment, subject to your nomination, I am prepared to recommend to the Department for the balance of the academic year.

Dear Major MacKay,

I have your letter of November 20, and the enclosed recommendation from Mr. Indian Agent Barber of Mr. John Pitman for the position of teacher at the Okanagan Indian Day School. For the reason that Mr. Pitman is not of the religious faith of the Indians on that reserve I feel that I could not recommend him for this position, though otherwise he would seem to have sufficient qualification. I am sure you will understand that in my position as bishop it would not be reasonable to make such a recommendation.

I have been doing all I can to find a teacher for this school, but without success. Just now, however, Father Scott who is the missionary for the reserve, is in touch with two rather likely prospects, and we are in hopes that he will be able to present one or other of them for the position.

Very truly yours

Following receipt of Mr. Neary's letter of November 5th in connection with the teaching vacancy at the Okanagan Indian Day School and following considerable correspondence with Bishop Jennings who was unable to nominate a teacher for the school, the attached application was received from Mr. John Pitman, a resident of Vernon, who although not a Roman Catholic, has the necessary academic qualifications, and in view of the inability of Bishop Jennings to nominate a teacher it was felt that we might avail ourselves of Mr. Pitman's services. Mr. Indian Agent Barber's letter of November 6th in connection with the applicant is enclosed together with a copy of my letter of November 20th to Bishop Jennings and his reply thereto. It will be noted that in spite of the fact that the Bishop was unable to nominate a Catholic teacher he is not prepared to recommend Mr. Pitman for the position as he is not of the religious faith of the Indians on the reserve.

This school has been closed continuously since September, 1945, and for varying periods prior to that through lack of a teacher and it is most unfortunate that the children should continue to be deprived of an education because of the authority exercised by the church in the matter of the nomination of the teacher. Although Section 10, subsection 2, of the Indian Act might appear to imply the right of the church in this connection my own view is that the reference was intended to cover the operation of residential schools only.

This case should serve to focus attention on the imperative need for clarification of the position of the church in the matter of the operation and control of the Indian Day Schools in this province. There should be no place in this country for a policy that makes education to our Indians, which under the law is the sole responsibility of the state, dependent on decision of church authority.

I may say that we have endeavoured to make use of Mr. Pitman's services in a Protestant school elsewhere but he does not wish to return to the coast, desiring the dry climate of the interior for the benefit of his wife's health.

Re: Okanagan Indian Day School

I enclose for the Department's attention a letter from Bishop Jennings nominating Miss Doris Fraser for the position as teacher at the Okanagan Indian Day School.

Miss Fraser is not a qualified teacher and apart from the occasions on which she was deputed by her teacher to teach the younger children at the Squam Bay Public School when she herself was a pupil there she has had no experience whatever as a teacher. It will also be noted that Bishop Jennings suggests that it would be to the advantage of Miss Fraser to have Mrs. Tierney O'Keefe, a trained teacher, in the immediate vicinity of the school, presumably to lend assistance when necessary although just how this is to be arranged is not clear.

I am unable to find sufficient grounds to justify the appointment of Miss Fraser and consequently this nomination is not endorsed.

Dear Major Mackay,

I would like to recommend a young lady, Miss Doris Fraser, to take over the Okanagan Indian Day School. I believe, if she is accepted, that it would be better now to have her open the school at the beginning of the New Year, since we are already so close to the Christmas holiday season.

Miss Fraser is not a qualified teacher. But, having had two interviews with her, I am convinced she would be able to handle the school well. She is 18 years old, but seems responsible beyond her age. She has her complete Grade XII, and is at present working in the Royal Bank of Canada in Kamloops. Except for the time spent doing her High School in St. Ann's Academy, New Westminster, she has been all her life at her home in Squam Bay, on the North Thompson River, and is therefore very accustomed to Indians and likes them. During her school days at Squam Bay her teacher freely deputed her to teach the smaller children in the school. As with a great many of the young ladies brought up in this part of the country, she has no hesitancy in the matter of doing her own housekeeping in the teacherage at the school. She is, of course, a Catholic.

I believe also that it would be an advantage to her to have Mrs. Tierney O'Keefe in the immediate vicinity of the School. Mrs. O'Keefe was formerly Miss Betty Neave ^{who} ~~was~~ taught in the same school for a year or two and who is still very interested in the school and in the welfare of the

Miss Fraser, if accepted, would have to give notice at the Bank here, but I believe she would be ready to start at the beginning of the New Year.

OKANAGAN INDIAN DAY SCHOOL

We have for answer your letters of December 16 and 21, on File 215-10-6124.

As you are probably aware, the above school is located some seventeen miles from Vernon and on a relatively isolated reservation. We do feel that it is not a good school for an 18 year old lady teacher to live in alone.

It is difficult to understand the Bishop's sentence "I believe also that it would be an advantage to her to have Mrs. Tierney O'Keefe in the immediate vicinity of the school". It is presumed that Mrs. O'Keefe is living at O'Keefe Station, which is at least eight or nine miles from the school.

These distances may not seem serious obstacles but when you consider

- (a) that this school is situated on a road which seldom used to be plowed
- (b) that there is no telephone communication near the school

then the Bishop may question the advisability of sending this young girl to this school without an older lady as escort.

However, our records show that there is a need for a Catholic teacher at the Penticton Indian Day

School. It is understood that this school is much closer to town and that there have been other young lady teachers there in the past.

Would the Bishop consider

- (a) sending Miss Fraser to the Penticton Day School
- (b) sending Mr. Pitman to the Okanagan Indian day school on a temporary basis until June 30, 1947. It would be understood that at this time the Bishop could nominate a Catholic teacher to replace Mr. Pitman.

Dear Major MacKay,

Re: 215-10-6171

Referring to your suggestion in your letter of Dec. 31, that of sending Miss Doris Fraser to the Penticton Indian School and Mr. Pitman to the Okanagan School, I would say that I cannot make any decision in regard to Penticton, as it is in the Diocese of Nelson and therefore in the Diocese of Bishop Johnson.

I would not like therefore to withdraw my nomination of Miss Fraser for the Okanagan Indian Day School. Although she is not a qualified teacher, I feel that she could take over the school at least for this term and bring benefit to the Indian children there, who have now been without a teacher altogether for some time.

In mentioning Mrs. O'Keefe as being of assistance to her, it was meant by advice and guidance, as in that part of the country they would inevitably become friends. Mrs. O'Keefe does not live at O'Keefe Station but at the O'Keefe Ranch. That is still five or six miles away, but will not, I believe, present the kind of assistance of which I was thinking.

MEMORANDUM

TO D. M. MacKay, - Indian Commissioner
FROM R. F. Davey - District Inspector of Indian Schools.

Re: Appointment of teachers to Indian
Day Schools.

There are at present eleven Indian Day Schools in B.C. closed because of the present shortage of teachers and it is likely that the majority will remain so unless those teachers available are used.

The Okanagan Indian Day School is an example. This school has been closed since June 1945. Recently there has been two possible appointments, one, a young woman of eighteen years of age without teaching training, and the other, a qualified man with nineteen years experience. To send a young woman of this age with virtually no experience to the isolated Okanagan school is unjustifiable. This is particularly true when a mature qualified man is available. Apparently the only obstacle in the way of opening this school is obtaining the nomination of this teacher from the church authorities concerned. This nomination was apparently refused on the basis of the teacher's religious convictions. This is one example where an appointment to a school has been prevented because it has not been possible to secure the nomination of the teacher by the church authorities. There is no need or excuse for a teacher's religious convictions interfering with his work in a school or his work in the church and community.

The attendance at Provincial Normal Schools indicates that the present shortage of trained teachers will not be overcome for two or three years. In view of this I suggest that consideration be given to a change in the present policy of appointing teachers to Indian Day Schools only after a nomination to the position has been secured from the church authorities concerned.

It will be observed that Bishop Jennings is not inclined to endorse the suggestions made insofar as they concern the vacancy at the former school which is in his Diocese. I have communicated with Mr. Barber to ascertain if Mr. Pitman would be willing to go to the Penticton school and if so the matter will be taken up with Bishop Johnson as the Penticton school is in his Diocese and the Department duly advised.

A memorandum received from Inspector Davey, dated January 16th, 1947, on the subject of the appointment of teachers to Indian Day Schools is enclosed for your information. I may say that I am in accord with the views expressed therein by the Inspector.

My own position with respect to the appointment of Miss Fraser to the Okanagan school was set out in my letter of December 16th, my file 215-10-5934, and remains the same.

Major D. M. MacKay, Indian Commissioner for B. C., Vancouver, B. C.

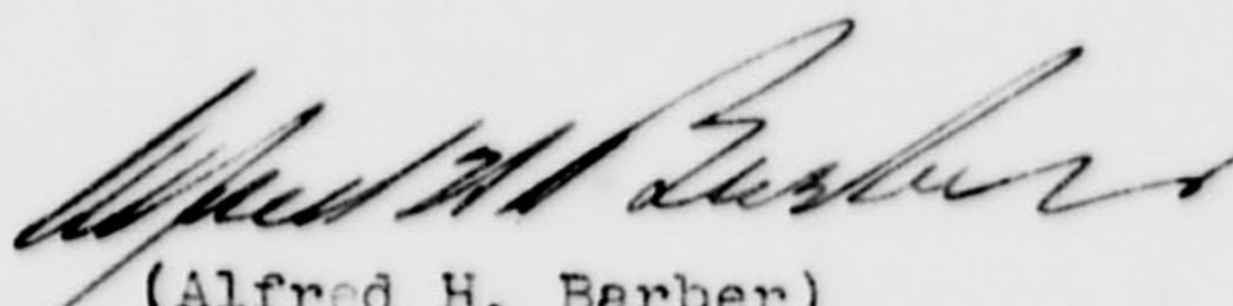

With reference to your letter No. 215-10-6217 of January 8th ultimo, advising that Bishop Jennings has not concurred in the appointment of Mr. Pitman to the position of teacher at the Okanagan Indian Day School.

I would advise that the Indian parents of children of school age are very indignant at the school remaining closed for so long and not unnaturally blame myself and the Department.

I have seen Mr. Pitman regarding the Penticton Indian Day School, but under the circumstances, he expects the results would be the same, although he would be willing to go if housing accommodations were available, but does not feel warranted in spending several days at Penticton to ascertain the housing situation (which is as bad as elsewhere) without first having assurance he would be appointed, however, in this regard I do not recommend any appointment at Penticton at this time, or until the opening of the next school year in September, for the reason that a number of the older pupils were admitted to the Cranbrook Residential School in the fall, leaving only 6 or 7 younger children available for the Day School at the present time.

It is to be hoped that we will be more fortunate in obtaining teachers for the next school year.

Mr. Pitman enquired if there was a vacancy at the Shulus Indian Day School of the Nicola Agency, stating he would be more interested in that than Penticton.

Dear Bishop Jennings:

The Department now has before it, two nominations for the position of teacher of the Okanagan Indian Day School:

1. Miss Doris Fraser - aged 18 years - no teacher training - no teaching certificate - no teaching experience - a Roman Catholic.
2. Mr. John Pitman - aged 57 years - two teaching certificates (England and Saskatchewan) - 19 years teaching experience (in England and Saskatchewan Provincial Schools) - an Anglican.

As you know, it has been the policy of the Department to appoint a day school teacher of the same religious denomination as the majority of the band. Unfortunately, the supply of qualified teachers of the various denominations has not been sufficient in recent years to meet the demand. As a result we have had to appoint unqualified teachers and the standard of teaching in our schools is now under criticism. Therefore we are very anxious to appoint only qualified and certificated teachers. As you are probably aware, the Indians themselves are pressing their demands for more educational facilities and especially for better teachers.

Dear Sir,

Re: Your letter 164-5-1

I have your letter of February 24th. At present I have no nominations available for the position of teacher in the Okanagan Indian Day School. As you no doubt know there is difficulty in the West to have qualified teachers for even the white schools and a good number of schools have found it impossible to have qualified teachers.

The missionary who goes to the Okanagan reserve and I agreed that it would be better to have the school open and the children attending under a capable person even though not a qualified teacher. Miss Fraser was available and is the right type and I nominated her. Although Commissioner MacKay gave no hope that she would be accepted for this school, he nevertheless suggested that she be sent to the Penticton school and Mr. Pitman sent to the Okanagan. Apart from the fact that she is not a qualified teacher whether in Okanagan or Penticton, I have no authority to nominate for Penticton, as it is in the diocese of Nelson.

We are still looking out for teachers.

I regret that my reply has been so delayed. I have been away, with small possibility of having any mail follow me.

This is to let you know that I quite approve of the appointment of Sister Patricia whom you have proposed for the Okanagan Indian Day School. I am very glad that a teacher of such ability and long experience has been found for this school, and I feel confident that she will fulfill the needs well. Sister Patricia also wrote to me giving an outline of her experience and manner of working with the Indian children.

The school at Shalalth, also in this diocese, is badly in need of a teacher, and it is practically impossible to find one in these parts. I trust that you may find a suitable candidate for that school as well.

The regulations for classification as a permanent civil servant are listed on page 5 of the June issue of the Indian School Bulletin. Regulation (a) reads as follows:

"Teachers who are in possession of permanent teachers' certificates as granted by provincial Departments of Education".

It is noted that Sister Patricia does not hold such a certificate. While the Department recognizes other teaching certificates for the purposes of the salary schedule, we must insist on Canadian certificates for superannuation applications. This is in accordance with the regulations laid down in provincial teacher's superannuation plans.

It is regretted that Sister Patricia has not attempted to convert her certificate to a Canadian one during her 25 years of teaching in Canada.

From personal knowledge, I agree with your recommendation concerning the possibility of opening a second school on the Okanagan Reserve at the head of the Okanagan Lake. There is a large centre of population near the mission church and a school there would eliminate the necessity of sending these children to the Kamloops Residential School and would therefore help to relieve the overcrowding at that institution. It is noted that you will have Mr. Indian Agent Barber investigate the possibility of having a well dug at this school. Sir:

I beg to acknowledge receipt of your letter of the 29th ultimo, in which you report that Mr. William Marsden, teacher of the Okanagan Indian Day School, has been ordered to take a complete rest for some months.

In reply I beg to say that salary will be allowed Mr. Marsden for one or two months. Before the expiry of that time, you should again write the Department regarding his health, and indicate when he will likely be able to resume duties. Please let me know the address to which Mr. Marsden's cheque should be sent at the end of September.

The name and qualifications of the substitute teacher that you secure should be forwarded for the approval of the Department.

Sir:

I have your letter of the 10th instant, informing the Department that you have placed Mr. Frank G. M. Grist in charge of the Okanagan Indian Day School during the absence, on sick leave, of the regular teacher, Mr. William Marsden. In this connection it is noted that you recommend the temporary engagement of Mr. Grist, and that the same meets with the approval of Rev. Father Carroll. Mr. Grist will be allowed salary at the rate of \$80 per teaching month during the period of his service. The date on which he began duties should be definitely stated on the return showing the attendance and days taught for the quarter ending the 30th instant.

It is hoped that Mr. Grist will meet with success in the work at this school.

I have your letter of the 26th ultimo, enclosing a certificate regarding the state of health of Mr. Wm. Marsden, former teacher of the Okanagan Indian Day School, and requesting on his behalf an extension of 3 months' sick leave. In reply I beg to say that the Department will approve of the leave asked for by Mr. Marsden. The present teacher, Mr. Grist, may continue in the work until such time as Mr. Marsden is able to resume duties.

Mr. Marsden was allowed salary for the month of September, last, and same will be paid for October, last. We cannot, however, continue salary to him for a further period of leave of absence, and same will be without salary. A cheque for the amount of salary due Mr. Marsden for the month of October, last, is being sent to him at 3836 - 29th Ave. West, Vancouver, B.C.

OFFICE OF
INDIAN AGENT

Vernon, B.C.
Sept.17th, 1928.

Sir,

I beg to enclose herewith copies of correspondence with Mr. Perry, Indian Agent at Vancouver, and the Canadian Pacific Railways regarding Mr. G.S. Quigley, the new teacher at Okanagan Indian Day School. Mr. Quigley arrived in Vernon without funds and has had to be assisted from this office. I was not aware that there was a further account of \$13.50 due from him. There are no funds available here for this purpose and I respectfully request that the Canadian Pacific Railways be paid and the amount withheld from Mr. Quigley's September cheque.

I have the honour to be,
Sir,

With cheque.

Sir,-

I have your letter of the 17th instant, enclosing copies of correspondence with Mr. Agent Perry and the Canadian Pacific Railway regarding the payment of the railway fare of Mr. Geo. S. Quigley, recently appointed teacher of the Okanagan Indian Day School, in travelling from Vancouver to Vernon. In reply I have to say that a cheque for \$60. in favour of Mr. Quigley, being his salary for the period he taught the school during the month of September, viz., from September 10th to September 30th, is enclosed herewith. You will be good enough to have Mr. Quigley endorse this cheque and you should then arrange to reimburse the Canadian Pacific Railway for the amount due them, viz., \$13.50. The balance you can hand to Mr. Quigley.

If Mr. Quigley is in need of financial assistance, the Department would be prepared to make him an advance on his December quarter salary in October next upon receipt of a request for same.

DAY SCHOOL RETURN

I HEREBY CERTIFY that the within return is a true and faithful statement of the attendance and tuition at the Chenagan Indian Day School for the ^{month} ~~Quarter~~ ended October 31st 1928

Teacher Geo. J. Quigley

P. O. Address Vernon B. C.

Dated October 31st 1928

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Frederick Ball
Indian Agent

Dated at VERNON, B. C.

this 13 November 1928

Agents should see that full explanations are given by the teacher in the column for "Remarks," if the school was closed during the quarter for other than authorized holidays, and should also themselves make any necessary comments in that column.

INSTRUCTIONS TO TEACHERS

1. Fill up all the columns in this Return.
2. All the columns of the Return *must be added* and the totals placed at the foot thereof.
3. Number and date of holidays to be inserted in the column for remarks.
4. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be allowed.
5. The standing of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular grade.
6. No names other than those of Indian children are to be included in this Return.
7. The Quarterly Returns must end on the 31st March, 30th June, 30th September and 31st December respectively, and be immediately thereafter in each case transmitted to the local Indian Agent.
8. When, owing to the number of pupils, the form of Return is not long enough to contain all the names, use another form, paging it as No. 2, and carry forward all totals, placing them in the proper columns. Do not increase the length of the form by pasting another, or portion of one, to it.
9. The average daily attendance during the quarter may be ascertained by dividing the total number of days attendance of all the pupils by the number of days school was open in the quarter.
10. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
11. The school must be opened and closed punctually at the hours approved of by the Department.
12. This form to be used for Day Schools only.

I beg to acknowledge receipt of your letter of the 16th instant enclosing three blue-print copies of plans and specifications prepared for the Okanagan combined Day School and teacher's residence. Notice has been posted in the post office calling for tenders as directed which will be forwarded upon expiration of the time allotted.

In connection with the specifications, I beg to advise that page 15 does not appear to be a continuation of 14. There may be only a line missing of 14, or a whole page.

I have the honour to be,

Sir,

Your obedient servant,

Herewith is a recommendation for the acceptance of lowest tender for the construction of a combined school-house and teacher's residence on the Okanagan Indian reserve, B.C.

There is no school on this reserve but, as there are over 50 children of school age thereon, it is felt that they should be provided with educational advantages.

Plans and specifications were sent to Indian Agent, last month, and he was requested to obtain and submit competitive tenders for the construction of the building. On 14th instant he submitted the tenders and a list is embodied in the report enclosed herewith, that of J.F. Moffat of B.C. being the lowest, - \$4,985.00. This tender is stated by the Architect Department as being fair and reasonable. The amount is covered by the Vote on Education, No. 282.

Section 2, of Section 36, of the Public Works Act, stipulates that when tenders are received the contract shall be awarded by the Governor General in Council.

Sir,—

FILE 164-1-1.

I beg to enclose herewith in reply to your letter of the 16th ult. tenders which have been handed in for the erection of the Okanagan School. I am forwarding these unopened, and do not know all who have submitted prices. Ferguson, Moffat, and Morley are three included in these, and I know they are all men of undoubted integrity. The specifications are in many respects unusual for this Province, measurements being somewhat different, and material not often used out here, and should the lowest tender be much lower than the next lowest, I would respectfully suggest that before accepting it I should be given an opportunity of going into the details of these specifications with the lowest tenderer in case they are not fully understood. The reason I suggest this is that in the case of Mr. Doherty who submitted figures, I do not think he quite realized the position. He is building a small municipal school near Vernon which is quite different from these specifications. I do not wish it to be prejudicial to this party in any way, but believe it is in the best interest of all concerned to mention it.

I also enclose an application received from Mr. Bell of Bell and Curtis which was handed in to this office. Mr. Bell is resident architect for the Bank of Montreal in this Valley.

MEMORANDUM.

Mr. Scott.

Plans and specifications were prepared for a combined day school and teachers' residence for the Okanagan Reserve. Copies of plans and specifications were sent to Indian Agent Ball and he was asked to obtain and submit to the Department, competitive prices for the erection of this building: Under cover of his letter of the 4th inst., the following prices were submitted :-

J. F. Moffat.....	Vernon, B.C.....	\$4,985.00
D. N. Ferguson...	Armstrong, BC...	5,300.00
W. A. Cryderman..	Vernon, B.C.....	5,450.00
A. C. Allen.....	Vernon, B.C.....	6,175.00
H. M. Doherty....	Vernon, B.C.....	6,520.00
C. G. Rolston....	Vernon, B.C.....	6,726.66
Pateman & Morley.	Vernon, B.C.....	6,990.00

As the price submitted by J. F. Moffat of Vernon, B. C., is the lowest and is a fair and reasonable price for the work, I beg to recommend that it be accepted.

Funds were provided for this work, in this year's estimates.

INDIAN AFFAIRS:

The Board had under consideration a memorandum from the Honourable the Superintendent General of Indian Affairs reporting that, as it has been found advisable to establish an Indian Day School on the Okanagan Indian Reserve, in the Province of British Columbia, tenders were called for the construction of a combined school-house and teacher's residence, and the following have been received:

Pateman & Morley	Vernon, B.C.	\$6,990.00
C.G. Rolston	Vernon, B.C.	6,726.66
H.M. Doherty	Vernon, B.C.	6,520.00

W.A. Cryderman	Vernon, B.C.	5,450.00
D.N. Verguson	Armstrong B.C.	5,300.00
J.F. Moffat	Vernon, B.C.	4,985.00

The Superintendent General of Indian Affairs recommends, that pursuant to the requirements of Sub-section 2 of Section 36, of the Public Works Act, the contract be awarded to the lowest tenderer, J. F. Moffat, for the amount of his tender as above cited, namely, \$4,985, the same being reported by the Architect of the Department as fair and reasonable and the amount having been provided for by Parliamentary Appropriation Vote Number 282, for Indian Education.

The Board concur in the above recommendation and submit the same for favourable consideration.

Dear Sir,-

As advised by wire of even date, an Order in Council has been passed, accepting the tender of Mr. J. F. Moffat of Vernon, B. C. of \$4,985.00 for the building of a combined day school and teachers' residence on the Okanagan Indian Reserve.

I am sending you herewith Contract Forms in duplicate and would ask you to have the same executed by the Contractor and returned to the Department; when signed by the Deputy Superintendent General, a copy will be sent you for the Contractor.

I have also to request that you see that the plans and specifications are carried out, and to issue the necessary certificates for payment on the contract, when application is made for same by Contractor. I am sending you certificate forms, under separate cover, for this purpose.

With reference to your letter of August 16th with which three copies of blue prints of plans and specifications had been forwarded, I beg to advise that I wrote the Department on August 28th calling attention to the fact that Page 15 of the specifications did not appear to be a continuation from Page 14. The last few lines of Page 14 refer to WAINSCOTTING and read:

"Sheet up, with good quality of Douglas fir
"V jointed tongued and grooved sheeting,
"7/8" x 3", strongly blind-nailed with 2-1/2"
"finishing nails, all walls of all class-rooms,
"and cloak-rooms, to a"

that is the finish of Page 14, while Page 15 commences specifications of the BASE. Presumably it is intended to sheet up the wainscoting to a height of so many feet, and this line giving the number of feet has been omitted.

May I be advised please by wire, if possible, of the words which have been omitted from the foot of Page 14?

Dear Sir:-

I have received your letter of the 4th instant, enclosing a resolution of certain members of the Ocanagan Reserve No. 1 Indian Band, relative to the erection of a building to be known as the Ocanagan Indian Day School. I have noted that five members of the band have protested on the grounds that they do not wish to incur this expense until such time as the major B. C. Indian problems have been solved.

I wish to assure you and your clients that the present intention is to meet all initial and current expenses in connection with the Ocanagan Day School from Parliamentary appropriation. \$4,500 has already been provided in the Vote for Indian Education for the purpose of erecting a building.

Yours truly,

Superintendent General.

Sir,—

FILE 164-1--1.

Re Okanagan Day School and Teacher's
Residence.

I beg to refer to specifications of above school on Page 20 relative to the "finishing coat of plaster". The plasterer who had the contract for this portion of the job has asked permission to put on a sand finish instead of a plaster of Paris finish for the reason that the putty in the plaster finish will have to be made during probable freezing weather taking possibly two weeks to prepare the material, rendering it impracticable, whereas sand finish can be put on in one day and be dry the next. I have ascertained that most provincial schools have a sand finish.

The sub-contractor who has the plastering job is a reliable man who has done several government buildings, including the Vernon Post Office, the plastering of which is considered an excellent piece of work, and his application to have this change made is bona fide, the cost being the same in either finish. As this work will be started in about two weeks or so, I respectfully request advice by wire if I may be permitted to allow this change in the specifications.

In this connection I may say that Mr. J.F. Moffat, who received the contract for this School is a man of undoubted integrity. He has a large lumber business in this town and stands high in the community.

I have the honour to be,
Sir,
Your obedient servant,

(J.F.C. Ball)
Indian Agent.

Indian Education Vote 1921-22 provided for the Okanagan Indian Day School, but the building was never erected. Indian Education Vote 1922-23 provided for Salmon River and Penticton Indian Day Schools - neither of these schools will be built, but the money voted for the Salmon River School is being used for the Okanagan School. These last mentioned day schools are situated close together and have been confused on the files - thus the indecision regarding building.

Sir,—

OKANAGAN COMBINED DAY SCHOOL AND
TEACHER'S RESIDENCE.

FILE 164-1-1.

I beg to report that the building of the above school is proceeding very satisfactorily and the shingling was completed yesterday. The specifications have been faithfully carried out by Mr. Moffat as far as they have gone, the only change requested being in the finish of the walls from a plaster of Paris to a sand finish as authorized in your telegram received to-day which reads:

"May substitute sand finish for
Plaster of Paris".

It is expected that the extra time requested for painting the outside of the building will not be required now, as the outside painting can probably be done within the next few days, the weather being still above freezing point in the Valley.

I notice that the whole construction of the building is more substantial than usually seen in this part of Canada, and has been favourably commented upon. If it is not presumptuous for one not an architect to make a suggestion for future schools, I would like to draw attention to the windows in the class room. It appears to me that if they were raised about 18" or 2 feet they would allow better light on the opposite side of the class room which on a dull day will be noticeable, and will also

Indian Affairs. (RG 10, Volume 6405, File 833-5, part 1)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

prevent the children looking out of the windows during school hours. Of course this can be accomplished at a sacrifice of some light by painting the lower panes of glass, but in my opinion the better plan would be to raise the windows. Fortunately, the window side of the school is to the south, with no trees, etc. obstructing the light but similar favourable conditions might not always exist in other localities.

It is hoped that the plans for the Penticton School will not be unduly delayed as the temporary quarters are over-crowded already and not very convenient, the teacher there, Miss Coughlan, is complaining of the lack of space, and difficulty of satisfactorily heating a small crowded room like the priest's house.

I have heard nothing about the Penticton proposed School for some time and trust it will not be over-looked. I am reporting separately upon my visit there last week.

I beg to acknowledge receipt of your letter of the 13th instant with reference to protest by some of the Okanagan Band against the day school building. Several members who signed this protest have recently endeavoured to remove their names from it and I have no doubt that the opposition to it will lessen as it is already doing on the Penticton Reserve.

I note that you instruct me to assure Chief Alexander Jimmie Joseph in connection with this matter. This Indian is not now, never has been, and I trust never will be a chief of this or any other Band, and apparently the lawyer in question has, as usual, misled you by naming the Indian who selected him a chief. On previous occasion he referred in correspondence with the Department to Alexander Chilliticha as a chief which caused considerable misunderstandings, the Indian considering that he had been recognised because he had been referred to in correspondence as a chief.

Okanagan Day School.

With reference to above school I beg to advise that before the school is opened, a heater will be necessary in the class room. I have made inquiries in this locality and the Vernon Hardware Co. has a heater for sale for \$45.00. It was ordered for another school which afterwards decided on furnace heat instead, and is quite new, has not been unpacked yet and is listed in the manufacturers catalogue at \$60.00. It is built to burn wood up to 3 feet 6 inches long and almost any diameter, and there is enough rough timber near the school to last for years. The Hardware Co. say that on account of its size they may have no call for such a heater for a long time hence the price offered.

May I be advised please whether this heater should be purchased and if not, what steps I should take to obtain one. In ordering one from a distance, the cost of freight should be borne in mind.

In addition to the heater, I presume a school-room table and chair for the teacher will be necessary when the school is opened on the 3rd January next.

Competitive prices were asked for thirty "Silent Sanitary Desks" "or equal" and the lowest price \$272.80 was tendered by Clarke and Stuart, of Vancouver. The same firms as before were asked to quote. The price is a trifle lower than those purchased for the Penticton School last August when E.G. Farnell, of Vancouver, quoted lowest. At that time 25 desks were purchased, which filled the temporary school room; for

Sir: -

I have to acknowledge the receipt of your letter of the 6th instant, with reference to the purchase of a heater for the new school building which is nearing completion on the Okanagan Reserve, and stating the price at which you can obtain the same.

In reply I beg to say that you may arrange for the purchase, from the Vernon Hardware Company, at \$45.00, of the heater which they had ordered for another school, and which is listed in the manufacturer's catalog at \$60.00. You should first, however, make sure that the heater will be satisfactory for the purpose required.

You may obtain prices for the supplying of a teacher's desk or table and a teacher's chair. The purchase of same should be made from the firm quoting you the lowest price. An abstract of the prices received should accompany your voucher covering the cost of the desk and chair.

It is noted that you have called for competitive prices for the supplying of 30 desks, as you consider this number is all that is required at the present time.

Sir:

I have the honour to report that the Okanagan combined day school and teacher's residence has been completed and I made a final inspection of the same to-day. The work has been done in a most satisfactory manner and no attempt made to change the specifications in any way although some of the dimensions, etc. were of a nature not often seen here. On two or three occasions I have taken with me Mr. R.B. Bell, the pioneer architect of Vernon who has done the Bank of Montreal work in this Valley for many years and has built most of the best houses in Vernon so his opinion can be relied upon. He told me to-day that the job is one of the best he has seen, and that the Department is to be congratulated on the building, which is much superior to the Provincial schools. I appreciated his courtesy, which was offered voluntarily on account of long standing friendship, and feel more assured in reporting the successful completion of building operations seeing that it has been expertly inspected.

No provision was made for bringing water to the building. There is a creek within 75 yards of the School and by going up stream 1,200 feet enough fall can be obtained to have water piped into the house and I have asked a local man to give me an estimate of labour and material to bury a pipe this distance to a depth of four feet. Upon receipt of this information I will forward full details for your consideration. Mr. Moffat, the contractor of this school is also fire-chief of Vernon, and he states that although there would not be high-pressure in such a pipe-line, it would be of some

assistance in case of fire. With reference to the usual fire-extinguishers placed in Government buildings, will these be supplied from Ottawa or shall I receive instructions to purchase them? The heater has been set up and has been kept going to thoroughly dry out everything before occupation and I have arranged with a trustworthy Indian, Pierre Louie, to see that a small fire is kept on for another week as in this damp weather there will be much "sweating" in the plastering.

Mr. Moffat advises me that the heater purchased as per your instructions, is perfectly safe and exactly the right type and size. As fire-chief, I consider his opinion can be accepted in such matters without question.

These particulars are respectfully submitted for your further instructions.

Sir: -

In further reference to your letter of the 29th ultimo, reporting on the completion of the Okanagan combined day school and teacher's residence, and requesting that fire extinguishers be supplied, I beg to say that you may arrange for the purchase and installation of a fire extinguisher in the school room and in the teacher's residence. It is considered that the smaller size Pyrene fire extinguishers - 1 quart capacity - would be satisfactory. The manufacturers supply these extinguishers in wooden boxes, with glass fronts, and directions thereon. You may, therefore, purchase two extinguishers, with wooden boxes, and have them installed.

If possible, competitive prices should be obtained, and properly certified vouchers should be forwarded covering the expenditure incurred.

Your obedient servant,

With reference to the attached communication from the Hon. the Minister of Militia and Defence, I would state that on November 24th. we wrote to the local Indian agent at Vernon, Mr. Ball, and asked him whether he considered it was necessary to appoint an inspector of the work during the construction of the Okanagan school-house. He replied on the 30th. to the effect that the work would be completed within seven days from that date and that during the construction he had carefully supervised the work.

I beg to refer to your letter of the 4th instant with reference to the Okanagan Combined Day School and Teacher's Residence.

This seems too large a dam for water R.T.

I have obtained tenders for providing a water supply for the building, but the lowest is \$1,150 including material, with the pipe buried four feet for a distance of 1,500 feet, thus giving a fall of 40 feet. This estimate is considerably more than I anticipated and presume the expense is not justified. It will probably be necessary to put in a pump from the creek with a wooden flume to the house which is only a distance of about 30 yards from the creek. Water for irrigation purposes around the school could be brought down in an open ditch by going a few hundred feet above the school, but this of course will be of no use for fire protection.

yes

As an appropriation is needed for the new Pentiction School and later for one on the Spallumcheen Reserve, I am not forwarding the various estimates for the above water supply unless instructed further by you to do so.

Sir,—

FILE 164-1-1.

Okanagan Day School and Teacher's Residence.

I beg to bring to your attention the plans of the above school (which was duly completed last month). It was pointed out that no heating was provided for in the residential part of the building but we considered the school room heater would be sufficient. However, upon the arrival of Mr. Marsden and his wife, who has accepted the position of teacher, they complain that such heating arrangement is wholly unsatisfactory, as any heat obtained from the school-room would be impure and totally inadequate. Upon reference to the plans it will be seen that the only chimney provided is in the rear of the building and accommodates the kitchen range and the stove in the school room. I went out to the school on the 27th to try and find some way out of the difficulty. At first I thought it would be possible to put up a small heater in the living room and connect it with the kitchen chimney, but this is impossible on account of the low ceilings and lack of space. An alternative scheme would be to put a metal pipe from the living room through the floor above and carry it out through the roof but however well-protected this might be, the fire risk would still have to be considered. The same objection prevented putting a pipe through the east wall of the living room and carrying it up outside the building, bracing it with stays from the eaves. Another plan would be to build another chimney but this would be an expensive undertaking even if feasible. After reviewing all these circumstances and considering the urgency of getting heat into the living quarters, I have taken the responsibility of ordering a small furnace to be placed in the cellar under the west end of

ARCHIVES PUBLIQUES

the living room and a register cut through the floor close to the west wall, the furnace smoke pipe to be connected with the present chimney. This will be sufficient to heat the whole of the residential portion of the school, the school room being heated by the present arrangement of a wood heater which is satisfactory. The cost of this, including material and labour will be approximately \$175.00. There is only one such furnace in town and it is quite a satisfactory and large enough one for the space to be heated.

I sent a night lettergram to-day as follows:

"Okanagan Day School plans do not provide
"heating in living quarters. Marsdens have
"arrived but can not live in the building
"without heating. I have ordered furnace
"and have forwarded full report in explanation
"of this action."

I hope this arrangement, which is the only practical one, will be acceptable to the Department and I would respectfully suggest that in any other plans for buildings of this size that two chimneys be provided for, or if only one is built that it is placed where stove-pipes can be carried to it from all parts of the building. This appears to me to be a serious defect in the plans provided, which was not noticed before as the weather has been mild enough for the school heater to take care of the other rooms, but as previously stated heat obtained from a class-room would not be sanitary.

OFFICE OF
INDIAN AGENT

Vernon, B.C.

June 9th 1931.

Sir:

re: Irrigation - Okanagan I.R.No.1.

With reference to enclosed vouchers for work performed in connection with irrigation on Okanagan I.R.No.1, I beg to advise that this was work of an emergency nature, affecting the Indian Day School, where a school garden had been planted by the children, and owing to the unusually dry weather, no time could be lost in supplying it with irrigation. This source of water will also furnish the teacher with domestic water during the summer, pending an investigation of a more permanent supply, as requested in your letter of April 21st, (File 164-5-5).

An old Indian above the school had also put in about an acre of garden truck, which was also threatened.

This ditch will bring the water on to a level where it will be available for other Indian families, but will require enlarging somewhat. The total cost of labour was \$45.60 and in view of the fact that we are required by the Provincial Water Board to bring considerable additional acreage under irrigation from this source, I recommend that only a portion of the cost of this ditch be charged to the School, and have prepared one voucher for \$9.90, the balance I would recommend be charged to the funds of the Band, as it is of direct and immediate benefit to the Indians themselves and being used by them.

It is possible that a small amount of flume at the intake may be necessary at a later date during the dry weather when the level of the creek drops, and this would make an additional cost of about \$35.00, but the expense will be avoided if possible, as a main ditch at a much higher level and serving other and more distant land will be required to bring about 400 additional acres under irrigation, and this is being investigated, as soon as the Census is completed.

I have the honour to be,

Sir,

Your obedient servant,

Sir:

I have your letter of the 24th instant, enclosing a communication which you received from Mr. James Coleman, of the Okanagan agency, requesting authority to incur an expenditure of \$5.00 per month in the purchase of supplies for the serving of a hot lunch to the pupils of the three Indian Day Schools in his agency during the period November first, next, to March 31st, 1934.

In reply I have to say that the Department will approve of an expenditure at the rate of \$5 per month for each school, viz.: Okanagan, Penticton, and Inkanee. The Agent should arrange for the purchase of the supplies, obtaining itemized accounts, in triplicate, covering the cost for each school, separately. These, he should attach to proper voucher forms, certify in the usual manner and forward for payment. A blanket encumbrance has been obtained here, covering the cost of supplies for pupils' midday lunch.

I have also the letter which you enclosed from the Agent, requesting authority to incur an expenditure in cleaning out the latrines and chimneys at the Okanagan Day School. The Agent may have this work done, the cost not to exceed his estimate, viz.: \$2.50. After the work has been completed, he should forward an account, in triplicate, properly certified, covering the cost. Please advise him accordingly.

RECORDED

Sir:

I enclose herewith a requisition received from the teacher of the Okanagan Indian Day School for a fire back and asbestos oven cover for the kitchen range in the teacher's quarters. The estimated cost should not exceed \$3.50. I would respectfully recommend this purchase as the fireback and oven cover are almost entirely burnt out and unless replaced will cause considerable damage to the rest of the stove.

E X T R A C T from Inspector Barry's Report on his visit to the OKANAGAN INDIAN DAY SCHOOL on February 14th, 1934. - Original on File 164-5-6.

Considering the very serious series of cases of illness in September, 1933, I wish to again draw the attention of the Department to the poor water supply at this school, and to my report on this subject after an inspection on March 20, 1931, and after an inspection on December 2, 1931. It would be fairly easy to pipe water from Six Mile Creek above the Indian houses. Possibly, Mr. Indian Agent Coleman has made a detailed report on the possibility of providing a pure water supply for the school. He spoke to me about it during the inspection. Ill health at this school is costing the Department considerable expenditure. It will be remembered that I reported an outbreak of Diphtheria which took place here in September, 1931, see my report after inspection during the following December.

Hot Air Furnace:-

I beg to recommend that the Hot Air Furnace in the basement be connected to the schoolroom, where a hot air register should be constructed. In building the school, provision has been made for the necessary hot air pipe from the furnace, the opening in one wall having been constructed. A suitable hot air pipe and register, with the necessary fittings, would be all that is necessary. If this work was done, the old heater stove and long range of stove pipes should be removed from the schoolroom.

E X T R A C T from Asst. Indian Commissioner Perry's letter of March 3rd, 1934, forwarding above report. - Original on File 164-5-6.

Arrangements could be made by the Department with the Dominion Water Power and Hydrometric Bureau whereby its resident engineer at Kamloops, Mr. Corbould, could prepare and submit a report and recommendation together with an estimate of the probable cost of providing a supply of water for the school. The cost should be negligible as it is understood Mr. Corbould is in charge of a considerable district and would probably have other business in the vicinity of Vernon occasionally to attend to and during one of his visits this matter could be looked into.

Dear Sir:

In reply to your letter referring to the possibility of the people in this district being interested in co-operation with the Indian Department, in providing something towards the salary of a nurse who would include this district with the Indian Reserve at the head of Okanagan Lake, I have spoken to several people on the subject and find that most of them are not much interested, principally for the reasons you mentioned in our conversation last week - they can all communicate with doctors in Kelowna and Vernon by 'phone and if they are seriously ill, generally go into hospital. Mrs. Hodges of Killiney and myself would be willing to contribute annually towards a salary for a nurse for the Indian Reserve, and I have been wondering if it is possible to form a district to include the country north of this Indian Reserve and adjoining it, i.e. Grandview Flats, and Okeefe, both of which are quite as accessible to the Reserve, or more so, than the district on the west side of Okanagan Lake. I might also mention that the school at Ewing's Landing is inspected by Drs. Knox & Ootmar of Kelowna, who always bring the district nurse from Kelowna with them.

My daughter is very much interested in the suggested plan for a nurse for the Indian Reserve. She was trained at the Jubilee Hospital in Victoria and is now in Boston, Mass. taking a post-graduate course in maternity work at the Boston Lying-in Hospital - the best of its kind in the U.S.A. She wishes to take a course in Public Health and is much interested in Social Work, and if the Indian Department decide to form a district on this Reserve and to appoint a nurse to inspect the school and visit families, when there is illness, she would like to apply for the job. It would be an advantage in many ways to have a nurse who could live in her own home, and be within reach of her work, and operate her own car. I do not know anything about the Grandview Flats district, but as far as distance from here is concerned, it would be no greater than Wilson's Landing.

Vernon, B.C.

May 17th 1934.

Sir:

re: Your File No.164-5-5.

Replying to your letter of March 17th with reference to Mr. Inspector Barry's report of February 14th re periodical inspection of this school by a qualified nurse, I beg to advise that I have been making enquiries, but so far have been quite unable to find any means by which this service could be adequately performed by a nurse.

The School is situate seventeen miles from Vernon, the nearest town, and in winter is often inaccessible to car travel by reason of snow drifts. A combination such as we have at Osoyoos Reserve, where a Victorian Order Nurse visits the Reserve and school at least once a week and spends the rest of her time with the white population, would be a satisfactory arrangement, but there appears to be very little likelihood of anything being done along these lines in the neighbourhood as the area adjacent to the Reserve is too sparsely populated to support a nurse, except on the Vernon side, which, of course, is served by medical practitioners.

I have discussed the question with the Department's Medical Officer for this Reserve, Dr. S.G. Baldwin. This officer's work with the Okanagan Band has increased to such an extent during the past four years that he has found it necessary to take in a partner, Dr. Pettman. There has been a very marked increase in maternity work alone. A few years ago practically all such cases were handled on the Reserve by Indian midwives, but they are increasingly demanding medical attention. Also there is the increasing demand of the Department for special attention to such matters as trachoma, tuberculosis, communicable diseases, etc. Dr. Baldwin suggested that it might be found more economical to include the special care of the school in his official duties, and that for an increase of his remuneration to \$100.00 per month, he would undertake at least two routine visits to the school with his own nurse each month, and any special work that may be found necessary. Dr. Pettman's association with him ensures continuity of the work.

There would be undoubted advantages in this arrangement, in that the children would not only have the attention of a nurse, but what, in my opinion, is much more important, the individual oversight of a competent practitioner. Such an arrangement last year when we had an outbreak of Bacillus Enteritidis among one family of school children would have avoided four deaths and extremely heavy hospital and medical accounts, which amounted to probably somewhere about \$1,000.00. Dr. Baldwin's present salary is \$66.60, less 10%, per month. I would venture the opinion that he and his partner are the most competent medical men in the Agency.

The extension of Dr. Baldwin's work would cost, ^{about} an

additional \$40.00 per month. To secure and operate with a nurse from Vernon in the ordinary way would involve a minimum return trip of 34 miles, and over to the extent of visitation of children's homes, so that on a basis of 10¢ per mile, there would be a minimum cost of \$3.40 per trip, and in addition, the nurse's fees for the day. From a point of cost alone, it is questionable whether any saving would be effected.

I have been in communicated with a Mrs. E.A. Pease, who resides about 10 miles south of the southern extremity of the Reserve, and about 15 miles from the school, and I enclose a copy of her letter, which is not particularly helpful and the suggestion that she and another lady contribute to the cost of medical services for the Indians, I presume could hardly be considered, notwithstanding the philanthropic motive which actuates the offer.

Personally, I am rather inclined to the Medical Officer handling the proposition as suggested, particularly in view of the fact that his present remuneration is, in any event, not commensurate with the calls on his services.

Sir:

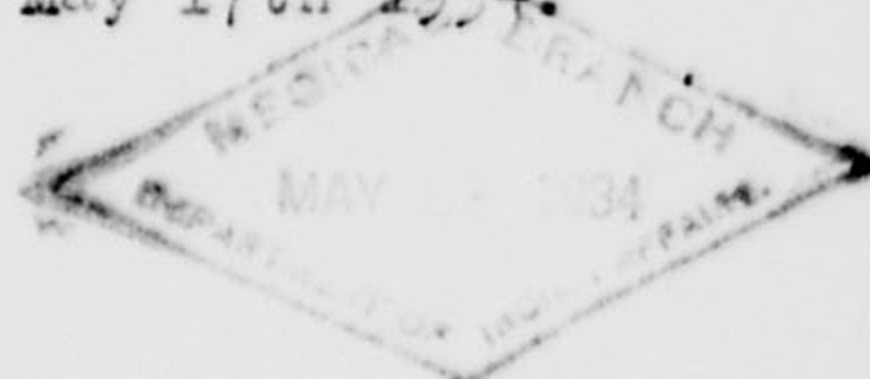

re: Your File No.164-5-5.

OFFICE OF
INDIAN AGENT

Vernon, B.C.

May 17th 1934.

Replying to your letter of March 17th with reference to Mr. Inspector Barry's report of February 14th re periodical inspection of this school by a qualified nurse, I beg to advise that I have been making enquiries, but so far have been quite unable to find any means by which this service could be adequately performed by a nurse.

The School is situate seventeen miles from Vernon, the nearest town, and in winter is often inaccessible to car travel by reason of snow drifts. A combination such as we have at Osoyoos Reserve, where a Victorian Order Nurse visits the Reserve and school at least once a week and spends the rest of her time with the white population, would be a satisfactory arrangement, but there appears to be very little likelihood of anything being done along these lines in the neighbourhood as the area adjacent to the Reserve is too sparsely populated to support a nurse, except on the Vernon side, which, of course, is served by medical practitioners.

I have discussed the question with the Department's Medical Officer for this Reserve, Dr. S.G. Baldwin. This officer's work with the Okanagan Band has increased to such an extent during the past four years that he has found it necessary to take in a partner, Dr. Pettman. There has been a very marked increase in maternity work alone. A few years ago practically all such cases were handled on the Reserve by Indian midwives, but they are increasingly demanding medical attention. Also there is the increasing demand of the Department for special attention to such matters as trachoma, tuberculosis, communicable diseases, etc. Dr. Baldwin suggested that it might be found more economical to include the special care of the school in his official duties, and that for an increase of his remuneration to \$100.00 per month, he would undertake at least two routine visits to the school with his own nurse each month, and any special work that may be found necessary. Dr. Pettman's association with him ensures continuity of the work.

There would be undoubted advantages in this arrangement, in that the children would not only have the attention of a nurse, but what, in my opinion, is much more important, the individual oversight of a competent practitioner. Such an arrangement last year when we had an outbreak of Bacillus Enteritidis among one family of school children would have avoided four deaths and extremely heavy hospital and medical accounts, which amounted to probably somewhere about \$1,000.00. Dear Sir:

On reading your letter Ok.1-10-2 of May 17th the Department is struck at once with the possibility of Trachoma among the Indians of the school under discussion. The present school year is practically over, and Doctor Wall will be visiting your agency before many months have passed. I think it would be well for you to take this matter up with him on the occasion of his visit and agree with him on the recommendation for medical inspection of the school. The Department attaches a good deal of weight to his views, not only on eye diseases but for medical matters as well.

I have placed an estimate of \$75.00 for re-

job was recommended by Mr. Inspector Barry. The work
consists of connecting the furnace to the class room, which
at present is heated by a stove with a very long stove pipe

re: Your File No.164-5-5.

I beg to acknowledge receipt of your letter of the 15th instant refusing payment of Voucher No.5590 in favour of Miss D.Heelas, clerk in this office, for transportation of Miss Hepworth to Okanagan Indian Day School to take over duties as teacher there.

In this connection, I would point out that this was not merely a courtesy extended to Miss Hepworth. I was absent at Vancouver in connection with the admission of Basil McLeod, alleged insane Indian of the Okanagan Band, to the Provincial Mental Hospital, and the fitting of an artificial arm for Tommy Christian, Indian of the Spallumcheen Band, when the new teacher arrived, and it was necessary for one of the staff to be at the school in order to turn over to the new teacher, the keys, records and supplies, and check things over generally, and as the school is seventeen miles from the railroad, it was naturally more convenient to take her along for this purpose.

Miss Heelas has from time to time done a considerable amount of running around for the Department in her private car when I have been absent from Vernon elsewhere in the Agency, and provision for this contingency has always been made in my Estimates, there being no Constable here who would in the ordinary way attend to such matters, and this is the first time payment has been requested for her.

Under the circumstances, I would respectfully request reconsideration of the matter

A report received from Inspector Barry regarding his inspection of the Okanagan Indian Day School on the 21st ultimo reads, in part, as follows:-

"The hot air furnace in the basement should be connected to the schoolroom, where a new hot air register should be constructed. In building the school, provision has been made for this hot air pipe and an opening in one wall constructed. All that is required now is the necessary pipe, and register, and the work of installing these. The old heater in the schoolroom is not now satisfactory. It is smoking and needs a guard placed around it if it is to remain there. With extra desks when they are supplied, it will be in the way in its present position. There is a very long smoke pipe. In any case, this pipe should be cleaned out at once. I believe that there is much soot in it. If it takes fire, we may have an accident, as often these excessively long smoke pipes fall down when they are red hot. I certainly recommend the provision of the pipe from the existing basement furnace. This will save fuel as there will be no need for the heater in the schoolroom."

If you consider that the Inspector's suggestion is practicable, you should make the necessary arrangements for the work, as it will not likely involve any heavy expenditure.

Sir:

I enclose herewith various requisitions received from the teacher of the Okanagan Indian Day School, and I would recommend that the articles requested be supplied as they all appear to be required.

When visiting the School recently, it was observed that the screen door requires repairing, also the fence near the gateway, and small gates at the front and back are required. It would be appreciated if authority for this work could be given, as the cost of same would probably not exceed \$ 10.00

Sir:

I have your letter of the 4th instant, enclosing a requisition from the teacher of the Okanagan Indian Day School.

In reply I have to say that you may arrange for the supplying of a new grate for fire box of kitchen range; also the necessary halyard for flag pole, 7 adjustable window screens for school, 1 scrubbing board, and for the supplying and installing of the window panes required.

We are not prepared to authorize the supplying of the congoleum rug at the present time.

You may arrange to have the screen door repaired, also the fence near the gateway, and the supplying and installing of small gates in the front and rear. It is noted that you estimate this work to cost approximately \$10.

After the above authorized supplies have been furnished and the repairs carried out, you should forward itemized accounts, in triplicate, properly certified, covering the expenditure.

Sir:-

I enclose herewith voucher No. 6177 for \$5.00 in favour of Miss M. Hepworth, teacher of the Okanagan Indian Day School.

In connection with this voucher, I beg to advise that as a number of the pupils travel quite a long distance and usually have very meagre lunches, Miss Hepworth prepares them a hot bowl of soup at noon.

The only way she can manage this is by buying the vegetables direct from the farmers, as the school is sixteen miles from the nearest store. As there are Chinese truck gardens near the school, she receives good value for the amount expended.

Authority for the expenditure of the \$5.00 is contained in Departmental letter of October 30th, File 164-5-5.

Vernon, B. C.
December 13th, 1935

Sir:- Re Okanagan Indian Day School

I provided in my 1935-36 estimates for an expenditure of \$400.00 to cover cost of painting the exterior of Okanagan Indian Day School, which has not been painted since it was erected in 1922.

At the time of making up the estimates I had not been able to make a very detailed examination of the structure but can now furnish a report covering its condition and considered it advisable to place this in your hands for reference when required.

EXTERIOR: The building is of frame construction, on cement foundation walls, shingle roof. The exterior surfaces are in a very dry condition, the paint worn off, leaving the surfaces exposed to the weather elements. Due to condition a noticeable shrinkage has taken place on West wall. Shingles are in fair condition but need shingling coat if their preservation is to be maintained. Foundation walls are becoming full of hair line cracks allowing the penetration of moisture which in a short time will weaken the strength of the walls and permit spalling.

Estimate: Foundation walls - Concrete - 178 lineal feet
Average height of 2' 6" - 445 sq. ft. - material
recommended for this surface, Cement Paint together with

1 gal. of paint and 2 gals of primer, colour gray
1 1/2 gals @ \$3.50 per gallon-----5.25
2 gals Primer @ 2.85-----5.70

Side walls - Siding - There is estimated to be 2350 sq. ft.
surfaces on the four walls for which is recommended a
coat application of suitable paint, Material necessary -

7 gals. suitable paint @ 3.00-----21.00
3 gals. suitable paint @ 3.10-----9.30

Sufficient white paint estimated in above
quantity for two coat application in colour (white) for
changing eaves, window frames and trims, together with
ceiling.

Roof - An estimated roof area of 5600 sq. ft. over all.
1 1/2 gallons shingle paint necessary for this surface, colour
gray 2.75 - 33.00

Landah - Porch - and four sets of steps

1 gal. of Deck and Porch paint, colour gray, to
Landah walls, two coats, 1 gal. @ 3.85-----3.85

Before the painting of the shingles is commenced
need replacement of roof ridge boards. Further
need caulking of flashings surrounding the chimney.
the repainting of all mortar joints.
1/2 gallon of caulking @ 2.75-----1.50

INTERIOR: Interior walls plastered, fir floors. The class room walls, the portion above the wainscoting to ceiling, are discoloured and owing to the texture or finish of the plaster, encourages and permits dust and dirt to cling to these surfaces. The floor surface is worn and splintered in places and has a dismal appearance. Two cloak rooms are in a similar condition to the class room. The teacher's quarters, upstairs and down, plastered walls, same texture as that of the class rooms and needs re-decorating.

Class Room - Floor - 24' x 40' two cloak rooms 5' x 12'
I recommend the painting of these surfaces, an application of suitable stain, followed by a protective coating of Varnish. Material required.

3 gals. stain @ 4.00-----12.00
2 gals. Varnish @ 3.25 per gal.-----6.50

Plastered Wall Surfaces - Estimated 1322 sq. ft. in school room and cloak rooms requiring 5 gallons of paint for two coats, colour Eye Rest Green, recommended, which affords the maximum light diffusion,

5 gals. Paint @ 3.10 per gal.-----15.50

Ceilings - Lumber (V Joint) - 1080 sq. ft. in Class Room and cloak rooms. Previously painted. Surface should be thoroughly cleaned (washed). Two coats of Ivory colour or light Cream paint shall then be applied.

3 gals. of Ivory Paint @ 3.25-----9.75

Wainscoting - There is a 4 ft. surround (V Joint) Interior walls of class rooms and cloak rooms, surface area 650 sq.ft. This surface shall be thoroughly washed, allowed to dry and given a one coat application of Varnish.

2 gals. @ 3.25-----6.50

Sufficient Varnish in the above has been allowed for the doors and window trim.

Living Quarters - Two bedrooms - Living room and Kitchen. Floor areas - 560 sq. ft. Recommend the same material for these floors as the class room, requiring 2 gallons of floor stain @ 4.00 per gal.-----8.00

1 gal. Varnish @ 3.25-----3.25

Wall Areas - 1440 sq. ft. This will require a two coat application. Recommended colours, mauve for living room and bedrooms, colour Buff for Kitchen, all white ceilings, Materials required.

4 gals. suitable paint, mauve @ 3.25-----13.00

1 gal. suitable paint, Buff @ 3.25-----3.25

2 gals. suitable paint, White @ 3.25-----6.50

Ceiling requirements are included in the above, There is sufficient material allowed in above estimate to include staircase, which shall be given a two coat application of Varnish.

Total Material costs -----\$163.85

My estimates were intended to cover the exterior work only. It would depend whether the \$236.15 balance over cost of material would be sufficient for labour as to how far the interior work could be carried out, if and when the work is authorized.

Dear Sir:

The Department is in receipt of your letter of the 13th instant addressed to Mr. C. C. Perry, in connection with your estimate of the cost of painting the exterior of the Okanagan Indian Day School.

At the present time the Department is not aware what amount will be available for painting next summer.

The information given by you regarding the Okanagan School has been noted, and you should write again about the first of May, at which time we will be able to decide if the necessary authority can be given.

Sir:-

Your File 15/10/42375 (Dept. File 164-5-5)

On Dec. 13th, 1935 I forwarded a fairly detailed report on the Okanagan Indian Day School setting out the exterior and interior painting requirements of same, and had previously included \$400.00 for this work in my 1936-37 Estimates, but at that time only the exterior work was considered. Later I ascertained that the cost of material for both interior and exterior would amount to \$163.85 if purchased from the Tremco Paint Company, who I understand supply a great deal of this material to the Department on the Prairies and appear to have a special price to the Department. Probably local purchase would cost considerably more. Out of the \$400.00 estimated for the exterior work this would leave \$236.15 for labour for both interior and exterior. However, if the matter received any consideration at all this year no doubt labour quotations could be secured.

The original paint work on the building was evidently poor material as it comes off in powder and it would ensure more satisfactory work to furnish a material of known quality and have the labour provided separately.

If funds have been provided for this work it would be appreciated if I could be authorized to proceed with same and also instructed in regard to the purchase of the material.

Your obedient servant,

(Jas. Coleman).

Dear Sir:

The Department is in receipt of your letter of the 21st instant addressed to Assistant Commissioner Perry, with reference to painting at the Okanagan Indian Day School.

No provision was made in our Appropriation for the current fiscal year for the painting mentioned in your letter of December 13th, last, and, owing to lack of funds, it will not be possible to consider painting the exterior of the Okanagan School.

On reviewing your letter of December 13th, last, it is noted that the material required for the painting of the interior of the school and teacher's residence would cost approximately \$84.25. If you can engage labour, preferably Indians, to do the interior painting at a reasonable cost, you may make the necessary arrangements to have it done at once.

Yours truly,

T. R. L. MacInnes

Dear Sir:

The Department is in receipt of your voucher No. 6749 in favour of Joe Marchand in connection with cleaning the Okanagan Indian Day School. The statement attached to the voucher shows that Marchand requests payment for three hours' work on Sunday, October 25th. It is unusual for the Department to receive vouchers requesting payment for labour on Sunday in connection with work such as was being done by Marchand.

Please let me know if you are definitely aware that he did work that day. Payment of the voucher will be withheld until your reply is received.

Yours truly,

R. A. Hoey,

Sir,

Your File 164-5-5

I enclose herewith Voucher No.6908 in favour of Fred M.Beatty of Vancouver, B.C. for \$108.60 covering paint for the Okanagan Indian Day School as authorized in your letter of the 1st of August, 1936.

Your letter indicated that preferably Indian labour be employed on this job and unfortunately it was not found possible to employ such labour during the summer recess, those capable being fully engaged with other work, and painting during the winter recess was out of the question on account of weather conditions, consequently the material was ordered in ample time to do the work during the Easter recess, but unfortunately instead of shipping the material from the Vancouver warehouse the paint Company sent it from Toronto and it arrived too late to undertake the work before the school re-opens and the material will have to be held until the school closes in July. This account is somewhat higher than the original estimate owing to Surcharge (Sales Tax) and that it was found necessary to obtain a sealing compound for the plaster walls as otherwise the cost of removing the old decoration off the rough cast plaster would have been prohibitive. It is expected that the cost of painting will be approximately \$50.00

Messrs Beatty Limited were requested to forward receipted freight account and it does not appear that the attached Bill of Lading constitutes a receipt. I have requested that this be forwarded to me and on receipt it will be sent to you, but I deemed it advisable to forward the accounts owing to the close of the fiscal year.

Your obedient servant,

(James Coleman)

Sir,-

I enclose herewith requisition for school material required by Miss M.Hepworth, teacher of the Okanagan Indian Day School and would recommend that the same be authorized.

The interior of the school is being re-painted and it will be necessary to replace the linoleum in the kitchen which is worn out. A single strip of good quality Scotch cork linoleum down the centre of the room will leave a width of two feet on each side and will cost approximately \$8.31. The oil cloth is required for the lunch tables as the teacher serves soup to the children in the Winter months.

Dear Sir,-

With reference to your letter of the 11th instant, addressed to Indian Commissioner MacKay, you may arrange for the interior painting only at the Okanagan Indian Day School.

In your letter of March 30th, 1937, you estimated the cost of the labour at \$50.00. In your letter of June 11th, you mention \$75.00. It is hoped that the labour costs may be kept down to the amount mentioned in your letter of March 30th.

Dear Sir:-

I am enclosing herewith Voucher No. 42 for \$4.18 in favour of Miss M. Hepworth covering a picnic lunch supplied in Vernon to pupils and former pupils of the Okanagan Indian Day School on May 12th, Coronation Day.

I may say that all rural schools were invited by the City of Vernon to participate in the School parade and Coronation festivities. As the Okanagan Indian Day School is situated sixteen miles from Vernon, it was necessary to provide transportation and Mar Que, one of the Chinese lessees on the Indian Reserve, kindly offered to bring all the children in by truck. Thirty-two children were provided with a picnic lunch, the City of Vernon providing all rural children with their suppers.

I may say the children made a very creditable showing in the Parade and much favourable comment was heard.

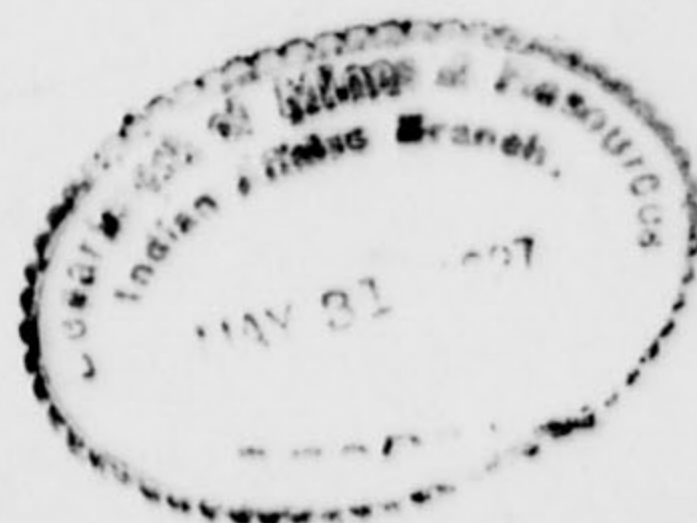

As over 200 sandwiches were made, the cost per lunch per child amounting to only 13¢, I would respectfully recommend payment of the attached account.

Your File 164-5-5.

Sir,-

I enclose herewith voucher for \$27.00 in favour of F.Grist for labour painting Okanagan Indian Day School. When this work was undertaken it was found to be a much more difficult problem than anticipated due to the fact that all the plaster work in the building was extremely rough cast, very dirty and a great deal of it covered very badly with kalsomine, which was very hard to remove. Due to the sharp sand particles in the rough cast it was found that ordinary brush work would prove expensive as the brushes wore out quickly and it was hard to get satisfactory coverage. Consequently I supplied a paint sprayer at my own cost and the work proceeded satisfactorily except that the paint supply was found insufficient and it was necessary to secure additional paint locally to finish the job.

There has been some delay in closing out this matter due to difficulty in securing the accounts.

Your obedient servant,

Dear Sir:

Included in your voucher No. 495 for \$5.00, in favour of Miss Catherine McDonald, was an item of \$2.41 covering the cost of supplies purchased from the Hudson's Bay Company. While a receipt for \$2.41 was forwarded, the account slips amounted to only \$2.16. There was an entry on the top of one of the slips reading, as follows:

"25¢ white sugar owing".

Present regulations are so strict that I regret that this small item cannot be paid, as it was not included in the proper place on the account slip. A cheque for \$4.75 is being forwarded to Miss McDonald, and, in order to obtain payment of the 25 cents, it will be necessary to forward another account from the Hudson's Bay Company showing that they supplied sugar to this amount.

With reference to your letter of the 5th instant, you may purchase 15 lbs. of chlorinated lime and three mops.

Your request for eight one-half gallon tins of O-Cedar polish appears excessive. Last year, you requested and were allowed only four half gallon tins. We feel that the latter quantity should be sufficient.

Major D.M. MacKay, Indian Commissioner for B.C., Vancouver, B.C.

Authority is requested for purchase of the following supplies in order to re-decorate the kitchen at the Okanagan Indian Day School, which is very dirty, the ceiling being blackened, making the place very dark:-

5 pkts. Vello (Casein Paint) @ \$1.35.....	\$6.75,
2 brushes @ \$2.90.....	5.80,
1/2 gallon paint for woodwork @ per 1/2 gal.....	3.00,
" " " for floor - kitchen and living-room @	3.00.

The quarters are now painted with a gloss finish paint.

Also required is one congoleum rug 9x10.6 at approximately \$11.50.

Authority is also requested for expenditure of \$20.00 for labour in cleaning and painting the living quarters and repairs to the porch roof which requires about 300 shingles putting on, One bundle is on hand at the School.

I enclose herewith Mr. Indian Agent Barber's letter of August 7th in connection with redecorating the living quarters at the Okanagan Indian Day School at an estimated cost of \$38.55. Permission is also requested for authority to purchase one congoleum rug 9 x 10.6 at a cost of approximately \$11.50.

Mr. Barber omitted to make any provision in his estimates for these expenditures and I am pointing this out to him and also requesting information as to why he left the question of these repairs so late in the season.

In the meantime, I would recommend that if funds are available authority be granted to proceed with the work.

Dear Sir.

I have requisitioned for desks.I shall appreciate very much receiving these as soon as possible,as nine pupils are working in great discomfort,and ten new little ones,I have had to refuse ad^mission,as I have no seats for them.

I think,Sir,you will be interested to know,that we have started evening classes in English and mathematics. We opened on January 7th with nine brave men. A few more timid souls are talking of coming. I think they will get up their courage soon. I appreciate that it is no light thing for men-- fathers of families-- to take lessons from a woman,like little children--The English class is only third grade and under.

The eagerness of these men to receive even a little education is wonderful. The children,too, are showing great keenness for their school,and are progressing very favorably.

I do not mind any more losing the dispensary. The

evening classes, especially, are a source of great satisfaction.

Okanagan Indian Day School

Inspector Davey's report upon the above school has been received and its contents have been noted. It is presumed that we will hear further from you with regard to the painting of the interior of this schoolroom. From personal knowledge, I agree with your recommendation concerning the possibility of opening a second school on the Okanagan Reserve at the head of the Okanagan Lake. There is a large centre of population near the mission church and a school there would eliminate the necessity of sending these children to the Kamloops Residential School and would therefore help to relieve the overcrowding at that institution. It is noted that you will have Mr. Indian Agent Barber investigate the possibility of having a well dug at this school. The Six Mile Creek has never been a satisfactory source of water and there is always the danger of contamination.

Bernard E. Neary,
Superintendent of Education.

Mr. A.H. Barber, Superintendent,
Indian Agency, Vernon, B.C.

With reference to your letter of the 26th ultimo, the Department approves the expenditure of \$12.00 for erecting swings at the Okanagan Day School. You may also purchase for use at this school, the following articles:

2 Coal Scuttles
1 Axe handle
24 rolls Toilet Paper
1 Wash Tub
2 Mops

 It has not been our practice to supply baseball masks and gloves. We are prepared to supply four bats, four playground balls and two football bladders. Copy of this letter is being forwarded to Indian Commissioner Arneil and he will arrange for their purchase in Vancouver and will forward them to you.

Herewith is a requisition for school supplies
and playground equipment received from Rev. Sister
Patricia, Okanagan Indian Day School.

Those articles shown as required for children's
play-ground are for the purpose of erecting swings and a
teeter and the cost will be approximately \$12.00.

Regarding the baseball equipment required, I
find that the cost locally would be in excess of \$40.00
and I am of the opinion that this could be obtained to better
advantage by the Department.

Re: Okanagan Indian Day School
Agency Ref. # 164

With reference to Okanagan Indian Day School and the remarks passed by the teacher, Sister Patricia in the letter attached, I would suggest that the Department authorize the installation of a new larger size furnace at a cost of approximately \$350.00 installed. The old furnace, which was never satisfactory, being too small, has now reached the worn out and burnt out stage that makes it useless. I understand from the firm that installed it twenty-five years ago, that it was the only furnace available at the time it was installed and was too small for the building.

I recommend that a wood-burning furnace be installed as it is not reasonable to have coal hauled 16 miles to the school when there is ample wood available on the reserve. I also request authority to purchase a new box heater at a cost of approximately \$35.00 for use in the class room, it being required during the spring and fall and on rainy days for heating lunches, drying clothes and heat when the furnace is not required.

The remarks of the teacher regarding the condition of the class room is correct; the lighting is bad, the walls being a dark green and the ceiling requires fixing as also do the living quarters of the school and the extension of the building and one new set of steps is required at the girls' entrance.

I attach hereto an estimate of the cost of painting the school inside and out which appears to me to be somewhat

high, but the way conditions are at this time, everything is high and the cost of labour particularly so. Whilst it may be that I could purchase the material and pay the Indians wages for this work, I would advise that the Indians are all fully occupied in the vegetable fields and would not be available for the work during the busy summer season. I therefore recommend that this tender amounting to \$811.00 for the full job be considered by the Department and that I be advised accordingly at the earliest possible date in order to get the job completed before opening of the school in September. If this tender is considered too high, then please authorize the work to be carried out to the best advantage as I will at least get the interior of the school painted by September.

Also requested is authority for the expenditure of \$50.00 in the provision of new steps at the school entrance and mother minor repairs to the building. The steps are essential, one set having been removed as a hazard to the safety of the children.

Attached list covers the requirements as stated above.

We have your letters of July 20th with reference to repairs and improvements that you recommend at the Okanagan Day School. In view of the expenditure involved, we would have preferred if you had forwarded your letter through the office of Indian Commissioner Arneil.

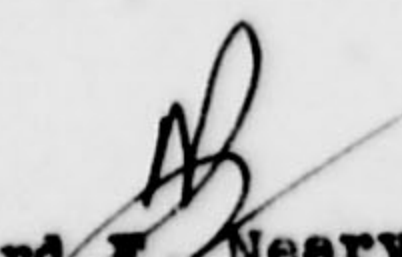

However, in order not to delay the work unnecessarily, the following expenditures are approved.

- (1) New well and pump at a cost of \$175.00 to \$225.00.
- (2) Installation of a new furnace in the teacher's living quarters.

In this connection you should communicate with Indian Commissioner Arneil as he will no doubt be able to secure the furnace in Vancouver at the lowest possible price.

- 
- (3) Purchase of a new box heater for the class room at a cost of approximately \$35.00.
 - (4) An expenditure of \$225.00 for painting the interior of the building.

We are not prepared, at the present time, to authorize the expenditure for staining the roof and painting the exterior.

Re: Okanagan Indian Day School

With reference to the recommendation of School Inspector Davy dated February 10th, 1948 that this school should be provided with a well and pump to replace the present supply of domestic water obtained by paid direct from the creek which is hazardous both in winter and summer I now requisition authority for the digging of a well at a cost of \$10.00 per foot including cement tile cribbing. Depth will not exceed 15-20 feet at \$150.00 to \$200.00 together with the purchase of a pump at a cost of \$25.00 plus necessary length of pipe. Early advise in this regard will be appreciated.

Re: Okanagan Indian Day School
Your File No. 10-11-L

With regard to the well authorized for this school I regret to advise that I have deemed it necessary to discontinue the digging of this well and have instructed the contractor to cease operations and to fill in the hole.

I had authorized him to go down to a depth of 40 feet, and although this depth showed every indication of water for the last 20 feet, the gravel being saturated, no flow was reached and it would appear that possibly no water would be reached until the level of the lake was reached and this would have been probably 100 feet deeper and too deep to draw with a hand pump.

The condition encountered was amazing in that the site is 200 feet from the creek which has a good continuous flow and the terrain is of coarse gravel, and water in ample supply was expected at about 20 feet at the deepest. It would appear that the wash spreads over a wide area through a deep strata or overburden of coarse gravel. The expenditure made in this regard is therefore a total loss which is very unfortunate.

Re: Water Supply - Okanagan Day School

I have your letter of October 9th wherein you advise that although a well at the Okanagan Indian Day School site was sunk to a depth of forty feet no water was secured. I also note that the well site is within 100 feet of a creek which has a good continuous flow. This stream presumably was the source of the water supply to the school in the past and it has occurred to me that providing the water is uncontaminated and volume and sufficient head are available the water supply problem for the school might be met by the installation of an hydraulic ram.

Information with respect to hydraulic rams is contained in a Handbook of Practical Information on Irrigation published by the Provincial Department of Lands, a copy of which should be on file in your office. You will note from this handbook that a drop of five feet through a drive pipe of thirty feet would provide for a maximum lift of thirty-five feet and that by varying the length and fall of the drive pipe various lifts can be secured.

Will you please investigate and report whether or not the installation of a ram at this point would be feasible and desirable.

Re: Okanagan Indian Day School
Your file 835-5 (E.1)

With reference to Mr. Neary's letter of October 19th as this office did not receive a copy of Webster Bros. tender for interior painting of the above mentioned school and as Okanagan Agency voucher No. 329 was not passed through this office I am unable to comment.

I am writing to Mr. Barber however requesting that he ascertain if Webster Bros. are prepared to accept \$200.00 in payment of their account.

In your letter of July 27th authorizing interior painting of the school you also authorized Mr. Barber to incur an expenditure of \$175 to \$225 for a new well and pump, regarding which I wrote you on October 13th. Enclosed is Okanagan Agency voucher No. 438 in the amount of \$435.00 covering the cost of digging the well. The expenditure is recommended for approval.

I will communicate with you further regarding water supply for the Okanagan School at a later date.

In reply to letter No. 10-11-4 of October 28th last and the copy of Departmental letter of October 19th attached with reference to Voucher #329 for \$200.00 in favour of Webster Bros. covering cost of painting the interior of Okanagan Indian Day School, herewith is an estimate received from Webster Bros for the cost of this work at \$200.00, the amount of the voucher submitted.

The original quotation of \$225.00 which amount was authorized by Dept. letter No. 164-5-5 (E.I.) of July 27th 1948 covered the cost of painting the interior of the building and this included the teacherage. However, Mr. McGregor during my leave of absence, obtained a new tender covering the cost of painting the interior of the classroom only, as this was required to be done before the reopening of the school, copy of this tender being hereto attached.

I shall be supplying the material, paint and brushes to the teacher who has agreed to do the painting of the teacherage herself. The cost of this will not exceed \$23.00 the additional amount authorized.

Re: Okanagan Indian Day School

Following District School Inspector Davey's report of April 7th, with regard to the above-mentioned school, the Acting Superintendent at Vernon, B.C., was requested to investigate and report with regard to the necessary repairs. Mr. Hett's letter of July 15th is enclosed, together with tenders from Joe Gabriel and Webster Brothers which indicate that the improvements required, all of which should be carried out this year, will cost \$2,150.00.

Although it is unfortunate that no specific provision was made in the Estimates, the work is necessary and I would recommend that the Department endeavour to make funds available so that it may be proceeded with. It is hoped that with the appointment of a new Superintendent at Vernon, these matters will be attended to and that adequate provision will be made for any expenditures required.

Mr. W.S. Arneil,

Dear Sir:-

File 10-11-5

With reference to your letter
of May 9 - School Inspector's Davey's report of April
7 and Department letter of June 16 - File 833-5 (E.1).

I have inspected the Okanagan
Indian Day School and enclose estimates from Joe Gabriel
and Webster Bros. Please note that Webster Bros.
estimate was forwarded to Joe Gabriel and is included
in his estimate.

I have found it difficult to get
a contractor who is interested in this work, as the school
is approximately 15 miles from town and there is no
electricity so no power tools can be used.

Having gone over this work
carefully, I find it is all quite necessary, and am unable
to recommend that any of it be left until next year. However,
should it be possible to complete this work this year, no
further repairs should be necessary for quite some time.

With regard to the well, \$435.00
was spent on this before and no water was found. I feel
it would be quite easy to pipe water from the Creek, but
as yet do not know just what length and size pipe will be
required.

Yours very truly,
D. M. Hett
(D. M. Hett),
Acting Superintendent,
Okanagan Indian Agency.

W.S. Arneil, Esq., Indian Commissioner for B.C., Vancouver.

A recent inspection of the Okanagan Indian Day School revealed the necessity of having some work done to clear up the interior and exterior of the school. The following matters require attention:

1. Removal of deposit of coal dust in basement.
2. Cleaning Chimney.
3. Burying a deposit of garbage on the school grounds.
4. Scrubbing the floors and desks in the school.

It is estimated that an amount of \$30.00 will cover this work.

The teacher drew my attention to the need of equipment to complete the swings for the children and a requisition is attached for rope and fittings for this purpose.

Re: Okanagan Indian Day School

With reference to Mr. Neary's Army Signals message of August 23, Superintendent Sampson has been instructed to have Joe Gabriel carry out repairs to the above-mentioned school to the extent of \$450.00 and to requisition for paint and submit Tenders, on labour only, for painting.

You will note from the attached communication, dated August 12, and requisition from Mr. Sampson, that an additional expenditure of approximately \$35.00 will be required in connection with this school.

Can additional funds to this amount be made available, or must this expenditure be made from the \$450.00 already approved?

Re: Okanagan Indian Day School

Attached is requisition from Mr. Superintendent, Sampson for the supply of fire extinguishers for the above-mentioned school. This school has no running water available and water required for washing and drinking purposes must be brought from some distance. It will be recalled that the Fire Marshal does not recommend the supply of this type of extinguisher but recommends pump cans. In view of the lack of water, it is recommended that this type of equipment be supplied to the above-mentioned school.

Under date of August 29th instructions were received from the Indian Commissioner for B.C. to requisition paint for improving the Okanagan Indian Day School, and to give an estimate on the amount of labour required to carry out this work. A requisition is attached hereto for paint, brushes, turpentine, and oil.

It is estimated that \$150.00 will be needed for labour. This work will be done by Indians and it will be appreciated if an advance could be forwarded for payment of wages.

Indians are also available to do the work required for the other repairs and improvements as authorized in the Department's letter of August 29th, file 10-11-5(164). It is estimated labour costs will be about \$200.00 and I should like to have an advance for this amount as well.

TO DATE OF THIS LETTER.

Sir,

470827

I am requested by the Chief of the Inkameep Band of Indians to ask the Department for assistance in order to start a school on the Reserve at Osoyoos. They have over 20 children of school age and he assures me that the majority of the Indians are in favor of the proposition. The Indians when I was there last were just starting on a hunting expedition but will on their return duly sign a requisition in council assembled for a school. The only difficulty I foresee is the distance from the nearest white settlement which is about eight miles but that can be overcome by appointing a male teacher if the Department is prepared to build a school house and pay the teachers salary. I have the furnishings at Enderby and could have them moved if so desired but I am also very hopeful that the Spallumcheen Indians will in the near future be willing to have a school on the Reserve.

Kindly advise.

Your obedient servant,

J. Robert Brown

MEMORANDUM

Mr. Scott, -

Mr. Agent Brown states that he has been requested by the Chief of the Inkameeo Band to apply for the establishment of a school on the Osoyoos Reserve.

The census return shows that there are 20 children of school age and the Agent states that the majority of the Indians are in favour of having a school there. This is a small band, but a number of them are well-to-do, having considerable stock and making money out of their fruit, and I think they should show their interest in the education of their children by providing a building in which to hold the school. If they were willing to do this I would recommend that the Department pay the salary of the teacher.

There are no Indian schools in the Okanagan Agency and the white schools have objected to the Indian children attending.

The furnishings which were bought for Enderby are available and from the objections raised by the Indians at

at that locality to a school I would not recommend the Department to expend anything for buildings. The late Mr. Inspector Cummiskey, who reported on the question of schools for this agency, was in favour of the establishment of a boarding school there.

If the Osoyoos Indians are willing to do their part I think the Department would be quite justified in trying a day school there.

I am instructed by the members of the Osoyoos Band of Indians to inform the Department that they are desirous of having an Indian school opened on the above reserve on the 1st day of April.

They are having the old church moved to a more suitable site and repaired and they are willing to provide ^{stove}stove-wood and light and anything else necessary, and are prepared to board the teacher for \$20. per month or rent house or rooms at \$5.00 per month so that they can board themselves if they prefer it.

I have applications for the position of teacher from Mr. W. M. Cox, an Oxford graduate and Miss Christine McLeod from Colville Reservation who states she has had experience in primary teaching.

I intend moving equipment from Enderby where it is not being used.

Will the Department kindly advise as to method to be employed in engaging teacher and salary to be paid?

Dear Sir:

I am in receipt of your letter dated March 1st, 1915, in regard the ability of Christine McLeod as a teacher, and also her education. As to her teaching she has not taught on the Reservation of my knowledge, but she has a good education, a good interpreter, and very bright and in my opinion should make an able teacher. The only objection I have in mind she was a little flighty, not vicious, when a girl. She is 26 years of age and a widow, was married to a Flat Head Indian. I think you would be justified in giving her a trial.

Also referring to your letter dated March 1st, beg to advise that I received the check in favor of Mary Lambert and will deliver the same.

Very respectfully,

Replying to your favor of the 27th of April, File No 470825, I beg to say that as soon as convenient after receipt of same I called a meeting of the Osoyoos Band of Indians and placed the matter of their Negro teacher before them. The Chief, as spokesman for the Band, claimed that they were desirous of retaining John Norwood as teacher of their school, claiming that the scholars as well as the parents were delighted with him. They also claimed that the Reserve was some ten miles from the nearest Hotel, they did not anticipate any trouble from that source.

They maintain that if Norwood, who can speak the Indian language was permitted to teach the children for this season, they would be perfectly willing to have a white man carry on the work, which according to their statement Norwood is doing so well. After the meeting I visited the School and was surprised to find that the children were very much interested in their work and I also found several parents visiting the school. Before closing Norwood taught the children a Patriotic Song and then they adjourned for a game of baseball. Under the circumstances I am afraid it would do no good to interfere with the present arrangement as every member of the Band is in favor of retaining Norwood and would

Dear Sir.-

Receipt is acknowledged of your letter of March 1, requesting information as to the age, character, experience and teaching qualifications of Miss Christine McLeod, who is an applicant for a position of teacher in one of your Indian Schools.

This woman's maiden name was Christine Quintasket. She was educated partly in a non-reservation school at Fort Shaw, Montana, after which she married a mixed blood by the name of McLeod, from whom she has been separated for some years. I do not know if she is divorced. Her reputation among the Indians of this reservation is that of one who is morally unfit to have anything to do with children and on that ground alone I could not possibly recommend her. So far as I know she has had no experience as a class room teacher or as a teacher of any kind, industrial, literary or otherwise, although I would not undertake to say that she is not qualified as an Industrial instructor. But her character is such that I know you would not care to employ her.

Replying to your letter of the 21st ult., File No. 470,525, I beg to say that at the first opportunity I visited the Indian School on the Osoyoos Reserve and found the teacher, John Norwood and eight pupils present. I found that though Norwood is himself illiterate, yet the progress of the Indian children who have been under his tuition for so short a time, has been marvellous. In reading, writing and arithmetic they have made splendid progress and for children who did not know a word of English they have done wonders. As the children advance it will be necessary to change the teacher but the Indians only requested to have Norwood until the children had learned to speak English.

It would perhaps be well, subject to approval, to have a change after the midsummer holidays. There were only two terms last year from April until June inclusive and from September until December 30th. I handed Norwood Department's cheque as instructed and am enclosing report.

I have found that the greatest drawback about the Indians sending their children to school has been the cause of the older members suspicions of the whites. They cannot understand why the Government is offering to educate their children. They have often asked me to explain whether the Government wish to have his money returned at some future date either in cash or will they be obliged to give up their reservation for the payment of the education of the younger members.

The Indian has to be convinced who is paying for the teacher at present.

Sir,-

In her annual report on the Osoyoos day school, the teacher, Miss C. McLeod states that the greatest drawback to the progress of the school is caused by the elder Indians, who cannot understand why the Department is offering to educate their children. She further says that some of the Indians are afraid that they will have to give up their land in payment of the education of the children.

On your next visit to this reserve, you should hold a meeting of all the members of this band, and explain fully to them the Department's educational policy. The education of their children is costing them nothing and there is no reason for them not sending their children to school. There is no danger of their land being forfeited to pay for the cost of education.

It is hoped that your influence will engender a better feeling towards the school.

Sch Sir,—

I beg to enclose herewith School Report for the Inkameep Reserve, Osooyoos School.

This unfortunately is the only school at present in this Agency so that no comparison can be made. The teacher appears to be very conscientious in trying to get as many children as possible to attend, but meets with the usual opposition. The school made a bad start by employing a negro named Norwood as its first teacher, and the children were learning English with a decided negro accent, but acquired nothing else in the way of education.

Some of the boys are eager to learn and take much interest in their studies.

The teacher's chief complaint is the lack of housing. She is living in a tent which is unsuitable for Winter and will not live with any Indians on the Reserve. I am endeavoring to have the Band put up a small house for her as they are well able to afford to do so.

I have secured the names of 71 children of school age living at the Head-of-the-Lake reserve near Vernon. They are widely scattered and three schools are really necessary, but for the present if two were started on the reserve it would cover the larger part of it. One difficulty would be the accommodation for the teachers, who would be white teachers I presume. At the North end of the reserve

CANADA

there is a settlement of white ranchers who would probably give accommodation to a teacher for the school at this end and the Council-house could be utilised as the School house. At the South end there is no building which could be used for a school and the distance would be too great for a teacher to live at the north end and teach at the south end of the reserve, and there are no white people near.

While there are 71 children on the reserve, the proportion attending school unless compelled would be small, less than one half of this number, probably not more than 25 or 30 being likely to attend voluntarily.

At Penticton there is no difficulty either as regards the school building or accommodation for the teacher as both are available, and with the necessary authority of the Department the School could open after the summer vacation.

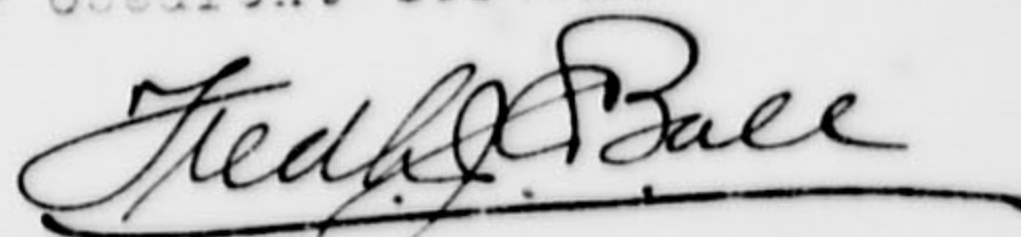

At Enderby we have the same conditions as at Penticton, but in view of the possibility of this Reserve being sold for 'Soldier Settlement' purposes, the matter could remain in abeyance at present.

It is therefore respectfully requested that instructions be forwarded to me to make the necessary arrangements for schools to be opened at Penticton and Head-of-the-Lake Reserves as outlined above, when a more detailed report could be made.

PANBUM, -

Re letter of July 10th from Agent Ball and letter of July 21st from Inspector Megraw.

Both these letters refer to educational matters in the Okanagan Agency and reach the same conclusions. The situation is as follows, -

1. Inkakeep Reserve, - School in operation. Agent is endeavoring to have Indians built small house for teacher. *W. J. G. 12*

2. Head-of-the-Lake Reserve, -(near Vernon).

71 children of school age. Unless compelled to do so not more than 25 or 30 would likely attend.

Owing to these Indians being widely scattered two schools would be required, - and are recommended, -

(a) North end of reserve, - Council house could be utilized as school. Teacher could obtain accommodation with some of the white ranchers.

(b) South end of reserve, - Establish school at Siwash Creek or Six Mile Creek. Building for school and accommodation for teacher would be required. Inspector estimates cost of a suitable building at \$500.00 or thereabouts.

3. Penticton Reserve, -

Both school building and accommodation for teacher is available. Use Council-house as school. Agent recommends opening of school at once and states it could be ready after summer vacation.

4. Enderby Reserve, -

As this reserve will possibly be sold for Soldiers' Settlement, both Agent and Inspector recommend that no action be taken at present.

Speaking about the situation generally, - Inspector Megraw, states, -

1. That R.C. church authorities are in favor of residential schools and appear to be opposed to Indian day schools.
2. Both Agent and Inspector are agreed that if schools are established, compulsory attendance must be enforced.
3. It is desirable, where possible, though not essential, that the teacher have knowledge of the Indian language.

With reference to your letter of the 8th ulto. relative to the resignation of the teacher of the Osoyoos Day School, Miss Christina MacLeod, I beg to say that I have succeeded in obtaining the services of a suitable successor.

Miss Gertrude Hozier, aged 37, of one-quarter Indian blood, living with her parents at Fairview about 10 miles from the School, has applied for the position. Miss Hozier has a High School Certificate and in my opinion is well qualified to teach this school which only has primary classes.

It has been a difficult matter to locate an educated woman able to speak English and Okanagan and also qualified to teach and willing to do so. As the School has not re-opened since the Summer vacation and much valuable time has been lost I have requested Miss Hozier to commence her duties as soon as possible conditionally upon the approval of her appointment by the Department, and if this action is dis-approved I respectfully request that I may be advised by wire as the mails are frequently delayed of late.

I do not know what salary was paid to the former teacher and beg to be advised of this and any other particulars necessary to her appointment

I have to acknowledge the receipt of your letter of the 20th instant informing the Department that you have obtained the services of Miss Gertrude Hozier to succeed Miss Christina MacLeod, late teacher of the Osage Day School, and that you have requested her to commence her duties as soon as possible.

In reply I beg to say that the Department will approve of the appointment of Miss Hozier and will pay her a salary at the rate of \$500.00 per annum. She will also be entitled to the bonus allowed to teachers from the date she began duties till the end of the present fiscal year. You will be good enough to see that she furnishes reports showing the attendance, days taught, etc., at the end of each quarter.

You will be good enough to inform Miss Hozier that her retention in this position will depend upon the success with which she meets in her work.

In reply I beg to say that cheques for the salary and grant due are being forwarded.

It is noted that you have taken the matter of providing for the tuition of the Indian children up with the authorities of the various day schools near the reserves and that you have succeeded in nearly every case in obtaining their consent to allow the Indian children to attend. School	Teacher.
Osooyoc Indian Day	Miss Gertrude Hozier.
Larkin Public	Miss Edna Corson,
Westbank Public	Miss Agnes Reekie.

There is obstinate opposition on the part
of the Indians having schools on the Reserves - an
exception being the Osooyoc School at Inkameep
Reserve - but some of the Indians have sense enough
to see that their children should be given an ordinary
education. I took up the matter with various day
schools near enough to Reserves to permit Indian
children to attend, and succeeded in nearly every
case in obtaining their consent to take them in,
Westbank Townsite School alone objecting. The Teachers
encourage the Indians to send their children to school
as it means extra pay for them, and it would appear
that this arrangement is both satisfactory and
economical, as it costs less than providing teachers
and schools on the Reserves. Where there are only one or
two children attending, the teacher will not send in
a report but altogether we now have about sixty or
seventy children at school instead of only eleven

or twelve who were in attendance last year. It is slow and disheartening work bringing them to the point of commencing school, but the movement will spread now that a start has been made. Most of the Indian children are quick to learn, take great interest in their studies, and learn habits of cleanliness from coming in contact with white children which are as valuable as the education to them.

PRIVATE

Dear Sir,-

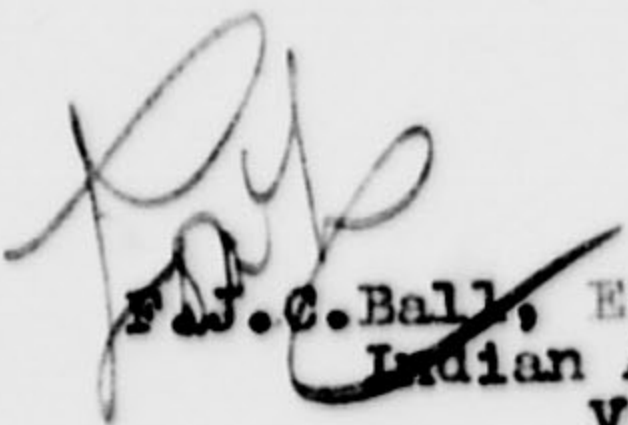

When the Indian delegation was at the Department yesterday, Manuel Louie, of the Osoyoos reserve, spoke about the school on this reserve. It appears that the Indians put up a building a few years ago and employed a negro teacher and paid him salary from money raised by themselves. As soon as the Department took over the school the negro offered to return the money to the Indians, stating that he was paid by the Government, but the Indians refused in the majority of cases to receive the money back from him for fear, as Manuel Louie stated, that if they took government money for school purposes their reserve would be ultimately taken from them. It was explained to them that this was a nonsensical idea as the people of Canada voted the money for Indian education and would not look to the Indians to repay the money in any form.

I only mention this to show how ingrained their prejudice seemed to be and hence the difficulty in dealing with such unrepresentative Indians. I think that this school has now an attendance of 9 pupils and is maintained by the Department.

Yours sincerely,

Asst. Deputy and Secretary.

Sir,—

File 470825-2

I beg to acknowledge receipt of your letter of the 16th inst enclosing two copies of Indian Day School Regulations which I do not appear to have received before, and to thank you for the same.

With reference to the date the Osoyoos School was closed for the Christmas holidays, I was responsible for this. I did not know there were any Regulations governing this, and when Miss Hozier inquired as to the proper date, I told her we would use the same dates for the Christmas holidays as the Public Schools in this Province.

A copy of the Regulations has been forwarded to Miss Hozier for future guidance.

This teacher is not very satisfactory and for the past six months I have been trying to find another one. This School is very isolated and the teacher must of necessity live on the Reserve and there is no suitable house for her. Miss Hozier being of part Indian blood, she lives with a relative there, but few white women if any would care to do the same.

There are about 12 children living near enough to attend the School, and some of these come several miles which means that in Winter as soon as the snow gets deep they are unable to attend regularly.

The parents of the school children are anxious to have their children educated, while the other Indians resent having the School at all, so that it is kept up under difficulties, but as this is the only School in the Agency at present, I try to give it every encouragement possible.

Hitherto the School has closed at 3 P.M. in Winter and only 30 minutes allowed at noon. The reason for this is that it is very desirable that the children have time to reach their homes before dark. This Reserve is mostly steep mountain, and there are no doubt cougars and bear seen occasionally on the Reserve last year they reported a grizzly also, and although they exaggerate, the children are no doubt nervous after dark. As a further instance of the difficulties here, when visiting the School last summer I found the teacher and children trying to drive out a brood of rattle-snakes from under the floor of the School. They would come up through the floor during school-hours and disturb them, 3 snakes were killed in one week in the School room and though they were not afraid of them it was necessary to clear them out, which was done. These incidents are irrelevant but are mentioned in explanation of any departure from the Regulations.

Sir, -

I have your letter of the 24th ultimo, regarding the closing of the Osoyoos Indian day school for the Christmas holidays.

In reply I beg to say with reference to the regulations for Indian day schools that these are intended to govern, generally, the hours of opening and closing the schools, and the days to be taught. In special cases, like that of the Osoyoos school, the hour of closing each day is left to the discretion of the local agent. If you consider it advisable, under the circumstances mentioned by you, to make changes in the hours, you may do so.

It is noted that the present teacher is not giving satisfactory service, and that you are trying to secure another one. I will be pleased to receive the name and qualifications of the teacher you are able to secure to succeed Miss Hozier.

I beg to enclose herewith quarterly report ending June 30th, 1922, of the Osoyoos Indian Day School, Miss Gertrude Hozier, teacher. I also enclose this teacher's resignation for your consideration.

If the Penticton School is opened this year, I believe arrangements can be made for the children at Osoyoos to attend there, consolidating the two schools. It has always been a difficult matter to obtain a competent teacher for Osoyoos, as there is no proper school building or any accommodation whatever for the teacher, who must live with the Indians, as this reserve is remote from any white settlers.

However, I will report further when I have investigated further into this matter. I was not aware until to-day that Miss Hozier contemplated resigning her position.

FILE 164-11-1.

I beg to refer to your letter of the 26th July last with reference to the possibility of having the Osoyoos children attend school at Penticton. This has been found impracticable as the proposed Penticton school has not been built, and the temporary school is filled with Penticton children. I have not been able to locate a teacher for the eight or nine children at Osoyoos on account of the lack of any accommodation except for one who could live in an Indian house as previous teachers, being half-breeds, have done, and so far I have not been able to find a teacher of any description. It is unfortunate because the Chief of the Osoyoos Band is the strongest supporter of education in the Agency and every effort is being made to have these few children educated.

MEMORANDUM

Mr. Paget.

Referring to the attached letter from Mr. Agent Ball, I wish to state that the Osoyocoo Band have had a school on and off for the past two years. There are roughly ten children of school age. The school was closed the end of June, last, as we were unable to secure a teacher - lack of boarding accommodation was the chief reason for our failure.

There is a very old school building on the Reserve which is not suitable for any purpose. Of late, school has been held in the priest's house, which was given for the purpose. I am of the opinion that \$300 or \$400 will put this building in good shape as a school house, but, in addition, we will have to provide a small teacher's residence, if school activities are to be continued.

Sir:-

I have to acknowledge your letter of the 19th ultimo, enclosing a cheque for \$350 - an amount which was requested some months ago by the Osoyoos Band in order to paint their church. I have noted that it will be impossible to use this money for the purpose intended until a later date.

With reference to the suggestion that a portion of the band funds be used to build a small house, the Department is of the opinion that the old priest's home, which was given for the purpose, might be put in good condition for a small sum and that, if any building activity ~~is~~ undertaken, it should be a residence. You will remember that we could not open school this last fall, because there was no residence for a teacher.

Will you make a recommendation to the Department, indicating whether or not a new school at Penticton will cater to the educational needs of the children of the Osoyoos Band. If not, and if there are sufficient children to warrant the expense, consideration will be given to taking some of the Osoyoos Band funds - augmented, perhaps, by parliamentary appropriation - for the erection of a teacher's residence and, if necessary, a new school house.

Sir:-

I have your letters of the 11th and 16th instant, with reference to the Osoyoos Indian Day School. I have noted your recommendation that no building activity be undertaken at this school until after the Penticton building has been erected. At that time it may be found inadvisable to continue any teaching operations at the Osoyoos school.

In the meantime it would appear advisable to re-open the Osoyoos Indian School, and, in reply to your letter of the 16th instant, I have to inform you that the Department approves of the temporary appointment of Miss Helen E. McDonald. It is noted that she has no professional qualifications; but, as we are unable to secure the services of a qualified teacher because of inadequate boarding facilities, the Department is willing that Miss McDonald should undertake the work. A salary of \$500 per annum will be allowed.

Miss McDonald should understand that she is responsible to you for the proper conduct of the school. Requisitions for classroom equipment should be forwarded through your office, in addition to quarterly reports showing the attendance, days taught, etc. Please inform her that her continued engagement up to the end of June, next, will depend upon the success of the school. The parents of children of school age in the vicinity should be informed that we look for a good attendance.

Please intimate the date on which Miss McDonald commences duties and inform the Department what building is being used for the instruction offered.

Sir,—

164-11-1.

I beg to enclose herewith an application for the position of teacher at the Osoyoos Indian Day School.

I received a wire from the Chief's son as mentioned in my letter of the 11th instant as follows:

"We have teacher she is starting next week".

As stated therein I wrote for particulars from her and this application is the result. This girl knows conditions on the Reserve having lived in the vicinity since leaving school and is apparently willing to take up the work. There are eight children who will attend and I do not know whether they are going to use the building formerly used for this purpose, or a room in the Chief's house. Desks and material are already there since the resignation of Miss Gertrude Hozier after the mid-year term, 1922. I have been unable to secure the services of a teacher since that date.

I have the honour to be,

Sir,

Your obedient servant,

Sir,—

FILE 164-11-1.

I beg to acknowledge receipt of your letter of the 23rd ultimo with reference to the temporary appointment of Miss Helen E. McDonald as teacher of the Osoyoos Indian Day School.

Miss McDonald commenced her duties on the 8th ultimo and they are using a room in the Chief's son's house. This room is quite satisfactory and will accommodate possibly fifteen children. I always use the same room for holding meetings of the Band and have had as many as forty people in it. I do not know whether the Chief's son will allow this room to be used permanently or whether the arrangement is until warmer weather, when the old building can be used. I will obtain this information on my next visit to the Reserve. I have not visited the school since it re-opened on account of the remoteness of this reserve and the expense of getting there.

Sir:

I have to acknowledge receipt of your letter of the 5th instant, in which you advise the Department that Miss Helen E. McDonald has resigned as teacher of the Osoyoos Indian Day School.

In view of the small attendance at this school since last January, the Department doubts the necessity of re-opening the same. However, if you consider that it is necessary to have the school at this point re-opened, you may endeavour to secure a teacher. The salary allowed would be at the same rate as was paid Miss McDonald. In the event of your securing a teacher, you should forward to the Department her name, experience and qualifications.

Sir:

I am directed to acknowledge your letter of the 30th ultimo, relative to the provision of a small school house and residence at the Osoyoos Indian Day School. The Deputy Superintendent General has authorized the erection of a building, as indicated by the rough sketch which you enclosed. You may make arrangements with Mr. H. Parsons, the local contractor, to erect a plain, substantial building to be used for the purposes of a classroom and a teacher's residence. Mr. Parsons' rough sketch called for a building 26 ft. by 14 ft. The Department Architect suggests dimensions of 30 ft. by 16 ft., so that the living accommodation will be more adequate.

Please make arrangements with the contractor to have the building erected, under your supervision, on a proven cost plus ten per cent basis. All accounts will have to be certified by yourself, and proper time sheets should be kept for the labour employed. As a guide, the Department suggests to you and to Mr. Parsons that the total cost be between \$850 and \$900. The cost of the building will be charged to the interest at the credit of the Band.

Sir,—

I have the honour to forward the following request from Chief Baptiste George of the Osoyoos Band of Indians living on Inkameep Reserve, Osoyoos No. 1.

OK
The Chief states that he spoke to you in Vancouver regarding the necessity of building a small school on his Reserve and he was advised to take up the matter through this office. He is practically the only chief in the Agency who has consistently supported my attempts to educate the Indian children of the Okanagan and we have had a school intermittently for several years on his reserve. This has been carried on under difficulties as the reserve is rather remote from white settlement. There is no suitable building and it has been difficult to keep a teacher more than a year. So far the teachers have been part Indian and have lived in Indian houses. For a school we have used successively an old disused church now fallen to pieces, the priest's house which is also in bad condition and no longer used by the priest, and more recently an upper room in the Chief's house which is entirely unsuitable from every point of view. At present the school is closed as no teacher will accept the position unless a building is provided.

There are only eight or ten children of school age who can attend so that a large building is not required. The Church on the reserve has recently been renovated and repaired by Henry Parsons, a contractor in a small way living at Oliver, B.C., the nearest settlement to the Reserve. This man did a satisfactory contract on the Church and was later engaged by the Chief to repair several houses on the Reserve; the priest, Father Carlyle,

also offering him a contract to build a chapel on his ranch. I asked Mr. Parsons to give a rough estimate for building a small school with two rooms suitable for living quarters and he has submitted the enclosed rough sketch which he would complete for \$750. If some building of this description could be constructed on the Osoyoos Indian Reserve, it would meet all requirements.

We appreciate the two schools granted to this Agency, one on Okanagan Indian Reserve No. 1 completed and opened last January and another at Penticton No. 1 Reserve upon which construction commences this week. The Okanagan School includes a teacher's residence and cost approximately \$5,000 and the Penticton school probably \$3,000 (although I have not yet received advice as to the amount of the successful tender).

We have been using a small building on Penticton Reserve for the past year pending construction and as it is only two miles from Penticton there has been no difficulty regarding the teacher. These three day schools have done very satisfactory work, and have had a good influence on the Reserves, and I hope to see provisions made for one on the Spallumcheen Reserve at Enderby and another on the Similkameen Reserve.

For some reason this Agency was overlooked in the provision of educational facilities, (probably on account of Indian opposition which was more imaginary than real once the schools were opened), and I considered it my duty to remedy this condition, if possible, and obtain for the Okanagan Indians at least a small portion of the educational grant to the province.

Prop sketch placed in file
I respectfully place these facts before you with a view to having a small school building constructed on Osoyoos Reserve. It need not be of the usual type of day school building which is much in excess of the needs of this Band where the number of children will probably not exceed ten or twelve at any time. Request will be made later for the usual type of school both at Spallumcheen and Similkameen.

I beg to refer to your letter of 12th of December last authorizing the erection of a school building on the Osoyoos Reserve by Mr. H. Parsons, of Oliver, B.C.

During the winter months Mr. Parsons made the doors, windows and as much of the building as possible at Oliver and has now been able to commence erection on the Reserve. The building is 75 per cent. completed. He has asked this morning for a remittance on account as he has to pay for labour and part of the material. I would respectfully recommend that \$400.00 be forwarded to him on account. Time sheets and accounts for material have been kept, and will be certified and forwarded, when the building is completed.

This building is quite a substantial one and compares favourably with the small Provincial schools in out-lying places.

I beg to report that the day school with teacher's quarters on Osoyoos Reserve has been completed and payment for same will be requested under separate cover.

The Chief is anxious to have it opened immediately, as the children have been absent from school since June 30th last. I have secured the services of a teacher who will fill in until the end of next term, when the former teacher will return and take over her duties again. The name of this temporary teacher is Mrs. Alice Lakeland, who is competent and willing to teach at the salary usually paid at this school.

As a reply to this letter can not be received for nearly two weeks, and in view of the urgency of opening the school immediately, I have taken the responsibility of writing to her to-day requesting her to notify me of the earliest date she can commence her duties. If this does not meet with your approval, a telegram to this effect will be in time to cancel these arrangements.

It is also necessary to have some inexpensive furniture, etc. The two rooms are small and only a few articles are required which I will purchase under the same conditions, viz. cancellation of the order if it is not approved by you.

I am confident this School is a very satisfactory piece of work. The chief of this Band stands alone among the Chiefs of this Agency in strongly supporting education and he is particularly pleased with everything. I have had the material and workmanship inspected by a disinterested party and he placed the value of the building at \$250 above what it has actually cost. Although I had never met the contractor, H. Parsons, until about a year ago, I felt sure he would prove both honest and capable, and I have not been disappointed in the two contracts he has had. The Indians are also offering him private work, repairing or erecting houses, barns, etc.

Subject, therefore, to your approval, I will supply the few necessary articles of furniture, advise the teacher that her services will be accepted temporarily, and re-open the school on April 1st, and if this is not approved, I respectfully request advice by telegram.

Sir:

I have to acknowledge receipt of your letter of the 19th instant, informing the Department of the completion of the new day school and teacher's quarters on the Osoyoos Reserve, and requesting authority to engage a teacher for the balance of the present school year.

In reply I beg to confirm the following night lettergram of today's date: -

"May engage temporary teacher for Osoyoos School also purchase inexpensive furniture for teacher's rooms."

We will approve of the appointment of Mrs. Alice Lakeland, whom you state to be competent to perform the duties as teacher, until the former teacher returns. We will allow Mrs. Lakeland salary at the same rate as was paid the former teacher, viz: \$500 per annum, payable on a basis of ten teaching months in the year, supplemented by the bonus provided by law. You should arrange with Mrs. Lakeland to begin duties as early as possible in April, next. If she requires any school material, she should prepare a requisition and forward it through your office.

Regarding the furnishings required for the teacher's living quarters, you may arrange for the purchase of the various articles which you consider absolutely necessary, including a cooking stove, if required. If possible, competitive prices should be obtained, and the purchase made from the firm quoting the lowest price. Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred.

Kindly inform the Department as to whether Mrs. Lakeland accepts the position as temporary teacher, and, if so, the date on which she begins duties.

I beg to acknowledge receipt of your letter of the 25th instant.

Mrs. Lakeland will commence her duties on April 1st, and it is hoped that if the bonus which has supplemented the salary of \$500. per annum is discontinued that some re-adjustment of this salary may be made.

With regard to furnishings required for the small living quarters, Mrs. Lakeland has taken out all necessary furniture of her own and advises me that she will be willing to sell it if we so desire. I have not seen the furniture yet, but believe this will be the most economical way of furnishing the place, as the cost of cartage to this reserve would bring the prices rather high on new furniture. However, until I have seen it and ascertained what prices she puts on it, I can form no opinion.

I expect to visit the school early in April when I will report further in this matter.

Regarding the school material, there may be sufficient to carry on for the present, but I will also look into this and see what further articles are needed.

Dear Mr. Ball:-

With further reference to your letter of July 12th, I beg leave to say that in looking over my notes in connection with the school at Osoyoos I said "Pupils making progress and seem to be interested." If the choice of having this school running under Mrs. Lakeland or closing the school, then I would say by all means re-engage Mrs. Lakeland. Of course, if you can do better that would be allright.

According to the information given me by Mrs. Lakeland at the time of my visit in June last, she was receiving a salary of \$500.00 per annum. I think it would be fair to give her \$600.00 per annum to be paid in ten payments. I shall leave the matter entirely to you, as I have no applicants for a school of that kind at present.

Sir:-

I beg to enclose herewith copy of a letter received from Inspector of Schools Mr. D.H. Cairns regarding the Osoyoos Indian Day School. This School was built by the Indians last year out of their own funds, and there is always difficulty in obtaining the services of a white teacher on account of the remoteness of the Reserve. Mrs. Lakeland, who has been teaching since the School re-opened, while not a qualified teacher was the best we could do under the circumstances, but she stated that she could not return after the holidays for \$500.00 per annum. I do not know whether it is my duty to recommend this increase to \$600.00, but apparently Mr. Cairns expects me to do so instead of such recommendation coming from his office. Rather than lose Mrs. Lakeland's services and be left probably without a teacher I would respectfully recommend that her application for an increase from \$500.00 per annum to \$600.00 per annum be granted.

In reply I beg to say that the Department will approve of the continuing of the services of Mrs. Lakeland and will allow her an increase in salary of \$100 per annum from the 1st of September, next. This will make her salary from that date at the rate of \$600 per annum, which will be supplemented by the bonus provided by law. Sir,

Re File 164-11-1

R

I beg to acknowledge the receipt of your letter of the 10th inst. with reference to closing the Osoyoos Indian Day School last term. Your letter of the 11th March last was not overlooked. Every effort was made to secure the services of a suitable teacher and although there were two applicants who have had considerable teaching experience and suitable in every way, they were not Roman Catholic. I spoke to Rev. Father Wagner of Penticton, B.C. who attends the Indians on this Reserve and he insisted on the school being closed unless a Roman Catholic teacher could be found and although he tried to find one and the other teachers, Miss Coughlan and Mr. Marsden assisted us, we were not successful.

No action now

Father Wagner's predecessor and the priests at Bear Creek were willing on a previous occasion to see any teacher temporarily appointed rather than close the school, but Father Wagner is very obstinate in this respect and does not co-operate in any way and his objections in this matter have to be respected. The Chief, who it will be remembered, had the school built out of Band funds, is very anxious to see a teacher installed and recommended strongly one of those above mentioned.

Everything possible will be done to re-open the school after the holidays.

Asst. Deputy and Secretary,
Dept. of Indian Affairs,
Ottawa, Canada.

Sir;

The Indian Day School at Osoyoos has been closed since March the 31. Mrs. Lakeland resigned at that time and we were not able to fill the position till now.

I have an application from Miss Mary Wadel. A copy of which you will find enclosed herewith. I regret that she has not had Normal training, but this is the best I can do.

I respectfully recommend that the salary for the position be at the rate of \$750.00 per annum and that the school be re-opened September the 1st.

She is somewhat young but I understand that she is well developed both mentally and physically.

Your obedient servant,

T. H. Cairns

Sir:

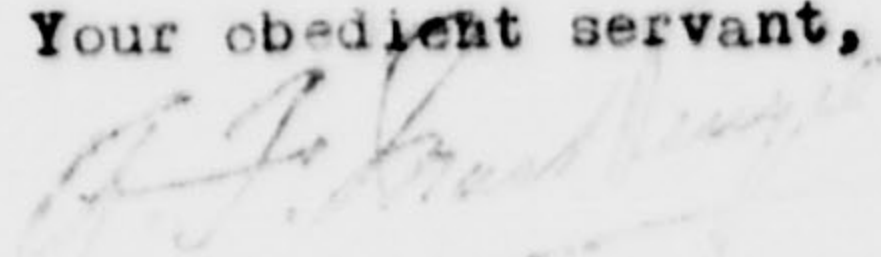

I have your letter of the 11th instant, enclosing copy of an application which you received from Miss Mary Wadel for the position as teacher of the Osoyoos Indian Day School, and stating the qualifications which she possesses.

In reply I beg to say that, if the Roman Catholic Church authorities, under whose auspices this school is conducted, approve of the appointment of this girl, the Department will consent to her appointment, temporarily, with salary at rate of \$75 per teaching month, her retention in the position, however, to depend upon the success which she meets in the work.

We are informing Mr. Agent Ball of the application of Miss Wadel, and of the necessity of obtaining the approval of the Church authorities for her appointment. Please take this matter up with the Church authorities, and inform the Department and Mr. Agent Ball as to whether they approve of the appointment of Miss Wadel, and, if so, if you have arranged with her to begin duties on September 1st, next.

Mr. Inspector Cairns has forwarded an application from Miss Mary Wadel for the position as teacher of the Osoyoos Indian Day School. Miss Wadel has no professional qualifications. She has completed her junior matriculation, and has also taken the Normal entrance course. We have informed Mr. Cairns that, provided the Roman Catholic Church authorities, under whose auspices this school is conducted, approve of the appointment of Miss Wadel, we will consent thereto, her retention in the position, however, to depend entirely on the success which she meets in the work. Sir,

File 164-11-1

I beg to acknowledge receipt of your letter of the 18th instant with reference to the appointment of Miss Mary Wadel as teacher at the Osoyoos Indian Day School. Mr. Cairns has sent me particulars of this applicant and in order that Miss Wadel, who is only 19 years of age, would be under no misapprehension as to the conditions on this Reserve I have sent full information as to distance from the nearest white family, and necessary isolation.

Miss Wadel is therefore fully acquainted with the facts in advance. The Indians have promised to give her every assistance, and the Chief, Baptiste George and his family who live near the School are prepared to make her welcome to the School.

This is an easy school to handle as the children are all very keen to learn and their progress will be watched with interest. The conditions under which her appointment has been made are noted and will be reported accordingly.

I visited the three day schools in the Agency during September. At Osoyoos there is a full attendance but the Okanagan attendance is affected because so many families are away picking apples. Next week should see an improvement and the question of a change in the vacation period at the schools, will be taken up before next year. The holidays commence and finish too early in the year to suit the Indian mode of life. At Penticton the school is temporarily at a standstill until their difficulties mentioned above are disposed of.

Sir,

At the small school in Osoyoos the attendance is good. On this Reserve the Chief, who is quite progressive and industrious, gives every assistance possible to make his school a success, whereas at Penticton the Chief is opposed to education, which seems to show his unfitness for the rank he holds. The Indians admit that the children who have attended these schools have done remarkably well in the short time they have been in operation and I do not think these temporary difficulties will have any material effect upon the schools.

Sir

I beg to enclose herewith application from Miss Mary Wadell of the Osoyoos Indian Day School for an increase in salary.

Miss Wadell's services have been very satisfactory and I have been agreeably surprised that she has stayed on at the school so long. She lives in the two small rooms adjoining the school, the nearest white neighbours being eight miles away and she is entirely dependent on the Indians for obtaining supplies, mail etc., and during the winter months is more or less cut off for long periods on account of weather conditions. As Miss Wadell is still under twenty years of age this isolation must be somewhat trying, and as the position is difficult to fill on this account I would respectfully recommend the increase asked for if consistent with the regulations.

I shall be much obliged, therefore, if you will drop a line to the Indians concerned upon the various matters referred to. A short note either in the negative or otherwise, with possibly reasons, will do. I ask this, in order that the Indians will see that their Agent and myself do place these matters before you, a matter that they are somewhat skeptical about, and one of the reasons why they talk such a lot about what the visiting Chiefs and delegates will do for them. Procedure of this sort, would I know, aid the authority of both of us, and as you know, I would not ask this unless I saw the necessity for it, as I know it is only adding extra work.

Mr. Inspector Pagnell, in a report on his recent inspection of the Okanagan Agency, states regarding his visit to the Osoyoos Indian Day School that he found the services of the teacher most efficient but it is probable she will be leaving at the end of this term.

I have to request that you will ascertain definitely from Miss Wadell whether she intends to give up duties at the end of the present school year or not. If so, it will be necessary to obtain the services of another teacher to begin duties when the school reopens after the coming summer holidays. It would be advisable for you to consult Mr. Inspector Cairns in the matter, and you should inform the Department of the action taken. If a new teacher is secured, the name, qualifications and experience should be forwarded for the approval of the Department. The salary allowed would depend on the qualifications which the teacher obtained possesses.

Re Your File 164-11-1

I beg to acknowledge the receipt of your letter of the 31st ult. with reference to the resignation of Miss Wadel as teacher of the Osoyoos Indian Day School. At the time of Mr. Inspector Pragnell's visit to the school Miss Wadell was not sure whether she would definitely decide to resign and I hoped that she would be able to continue. However, I have today received her resignation and have already made inquiries as to a successor.

Mr. Inspector Cairns arrives here tomorrow and I will take up the matter with him at that time.

Sir,

File 164-11-1

I beg to acknowledge receipt of your letter of the 21st inst. regarding the transfer of Miss Mary Wadell from the Osoyoos school in this Agency to the Seton Lake school in the Lytton Agency.

This notice would have been a surprise to me had I not met Mr. Cairns in Vancouver two weeks ago and he told me Miss Wadell had applied for the transfer. I spoke to Miss Wadell after I had seen Mr. Cairns and she assured me she was returning to the Osoyoos school after the Christmas holidays, so I did not expect to hear anything further about it.

Miss Wadell has been quite successful in the small Osoyoos school and seems to have the right temperament for the conditions under which the teacher must live. It is several miles from the nearest white neighbour with no means of reaching town except by chance Indian conveyance and on account of the isolation I did not expect her to stay very long as she is quite young, but she seems to have become accustomed to the Indians and the surroundings, and to be quite content as she has stayed two and a half years.

While I should be very sorry to lose Miss Wadell from the Osoyoos school, I realise the fact that sooner or later she would wish to live in a more settled locality.

I will ascertain from Mr. Cairns what arrangement is finally made as to the transfer.

Mr. William Marsden teacher of the Okanagan school is still absent on sick leave, but when I saw him in Vancouver recently he said he expected to return to Vernon by March 1st. If Miss Wadell transfers, the temporary teacher at the Okanagan school could be transferred to Osoyoos when Mr. Marsden returns, meanwhile closing the Osoyoos school temporarily, much as I dislike doing so, if such arrangement would meet with your approval.

Sir,-

It has been decided to transfer Mr. A. Walsh, teacher of the Okanagan Indian Day School, to the Osoyoos Indian Day School.

To succeed Mr. Walsh, the Department is approving of the appointment of Mr. Bernard Heary as teacher at Okanagan. Mr. Heary holds an interim first class certificate for British Columbia, having been trained at the Victoria Normal School and Victoria College. In addition to two years College, he holds Physical Training and First Aid Certificates and, this summer, he is obtaining a summer school certificate for Indian and rural work. He has already had one year's successful experience in a three-roomed rural school.

The transfer of Mr. Walsh and the appointment of Mr. Heary are effective from September 1st, next.

Mr. Heary's salary will be at the rate of \$90 a teaching month, less 10% for the current fiscal year. The Department trusts that you will give him every possible assistance.

In this connection, I would advise that Mr. Walsh has been very keen in connection with his duties, and has spent his entire holidays in the study of educational methods, handicrafts in particular. Insofar as his request to close the school a few days earlier than usual and reopen earlier in the Fall, is concerned, I am of the opinion that such a course should have no detrimental effect on the school work, and considerable advantage would accrue from his studies at University.

INKAMEEP INDIAN DAY SCHOOL

Oliver, B. C.

April 12th 1934.

Dear Mr. Coleman:

I would like very much to attend the Summer Session at Berkeley University, California, this year; unfortunately the course commences on June 25th so I am writing to ask you if the Department would allow me to close school on Friday, June 15th? so as to be able to get down there in time. If so, I could re-open school on August 20th which would give me two weeks of school in August, so that no actual time would be lost.

My main course would be the study of the American Indians and research work in the Museum of Anthropology, and also to get in touch with some of the Indian educationalists and study their new methods with regard to their day schools and their methods of reviving the native arts.

We have just received a prize list from the Royal Drawing Society in London at which some of our boys exhibited at their annual exhibition. Two sheets of decorative composition done by Ernest Baptiste, age fourteen years, was awarded one first class commendation, and the other second class commendation. At present these drawings are being shown at the Guildhall Art Gallery, London.

Yours sincerely,

"Anthony Walsh"

COMMISSIONER'S OFFICE

VICTORIA, B.C. April 30, 1934.

The Secretary,
Department of Indian Affairs,
Ottawa.

Dear Sir;

I have the honour to forward herewith a copy of a letter addressed to Mr. Indian Agent Coleman by Mr. Anthony Walsh, teacher of the Inkameep Indian Day School, Oliver, B.C., together with Mr. Indian Agent Coleman's recommendation in the matter.

Should the Department grant the permission requested by the above mentioned teacher no time would be lost by the pupils of the Inkameep Day School. Mr. Walsh is a very energetic teacher and is doing considerable work in connection with native arts. I consider that the course which he proposes to take at Berkley University this year would result in greater efficiency in the schoolroom.

I have pleasure in recommending that the permission sought for by Mr. Walsh be granted, and that the decision of the Department be communicated to the Indian Agent.

Your obedient servant,

Gerald H. Barry.

Sir:

Assistant Commissioner Perry has forwarded to the Department your letter of the 20th ultimo, with reference to the request of Anthony Walsh, teacher of the Inkaneep Indian Day School, to close the school on June 15th.

In view of your recommendation, you may inform Mr. Walsh that the school may close on the date mentioned. It is noted that he will re-open the school on August 20th.

Your obedient servant,

A. F. MacKenzie,
Secretary.

SCREEN A. 1 and 3. SNAPSHOT DRAWINGS (School Productions). (See page 3 of cover).

SCREEN A. 2. SNAPSHOT DRAWINGS. RED BOOKS (Home Productions).

This screen represents the work of Young Artists who are helped to improve in drawing in their own homes by means of a Red Book, which is sent three times a year to the Royal Drawing Society for advice and criticism. Snapshot drawing means the reproduction of pictorial impressions (mental pictures of nature as seen by the observer) or combinations of these, forming new and original creations or inventions. Snapshot drawing is a feature of the work of the Royal Drawing Society and examples of it will be found on most of the screens, especially on Screen D (The President's Prizes, Special Screen, and Screen J. [Horses]).

SCREEN U. PICTORIAL POSTERS.

On this screen are shown several pictorial posters which have been produced in the endeavour to follow the advice given by the Prince of Wales at the Royal Academy Banquet in 1923.

SCREEN T. VILLAGE SIGNS.

The Duke of York recommended the use of Village Signs as a help to motorists, and year by year has inspected and approved specimens competing in the Royal Drawing Society's Exhibition.

MAYORS' ALBUMS.

Thanks are due to the Mayors, Corporations and Educational Authorities of several Towns and Boroughs who, for a number of years, have sent Albums containing specimens of the drawings made in their respective schools. These afford opportunities for comparisons as to the range and standard of work in various parts of the country, and are always studied with much interest by visitors to the Exhibition. Unfortunately, the Albums are not received in time to be included in the printed lists.

NOTES.—Owing to limited space it has been possible to hang only a small proportion of the drawings received. All, however, are on view at the Guildhall Art Gallery.

The Drawings in this list are arranged in alphabetical order under the name of the Town or London District. The Drawings from the Red Books appear at the end.

ABBREVIATIONS.—Clothw's Co., Clothworkers' Company; R.D.S., The Royal Drawing Society; Wat. Col., Water Colour; B.W., Brushwork; S.D., Surface Description.

| (3) S.S.C. = Advanced " " " | (4) P.S.S. = Progressive " " " |

The awards marked on the drawings consist of Gold, Silver and Bronze Stars and four classes of Commendation.

Where one drawing on a sheet is marked with a red cross, it signifies that the award was given to that particular drawing. A red cross on the label is an office mark only.

Some sheets which arrived too late, or were unclassified, do not appear in this list.

N.B.—The Society's thanks are due to the Clothworkers' Company, the Needlemakers' Company, Messrs. Winsor and Newton, Mrs. G. F. Watts and Miss J. Montagu for their generous contributions to the Prize Fund.

A Complete Alphabetical List of Competitors whose works are hung on the Screens will be found on pages 31-33.

REPORT of the ROYAL DRAWING SOCIETY'S 45th ANNUAL EXHIBITION OF DRAWINGS

MADE IN SCHOOLS AND AT HOME.

THE value of drawing in helping young people to gain knowledge of the world around and in developing their powers of observation and memory is well shown in this Exhibition. The majority of the drawings are "snapshot" in other words, recollections of what the draughtsman has himself observed, and the accuracy with which actual shape has been remembered is not less remarkable than the grace with which it is expressed, having regard to the age.

An outstanding feature of the work generally is the skill with which movement is delineated. Many examples of this are to be seen in the "snapshot" drawings and paintings that have been submitted.

H.R.H. THE PRINCESS LOUISE, DUCHESS OF ARGYLL, THE PRESIDENT, has given great encouragement to the practice of "snapshot drawing" by awarding special prizes for the best "snapshot" work in the Exhibition. Her Royal Highness usually awards two prizes, one for girls and one for boys, but the work this year is so good that, as was the case last year, The Princess has presented an additional prize.

The **PRIZES FOR GIRLS** Her Royal Highness adjudged to:—

D. BARRETT (age 15, Luton, Red Book League) for pencil and brushwork drawings of animals in which the "knowledge and observation of action are very good."

D. COLLES (age 16, Parsons Mead School, Ashted) for brushwork drawings of figures showing "good movement."

The **PRIZE FOR BOYS** was awarded to:—

T. STERNDAL (age 9, St. Dunstan's School, Golders Green) for drawings of ships, a lighthouse, etc., in which there is "good perspective and observation."

Mrs. G. F. Watts' Prizes.

Mrs. G. F. WATTS awarded her prizes as follows:—

Prize, In Memoriam, G. F. Watts, R.A.:—**D. Barrett** (age 15, Luton, Red Book League), for a sheet of "snapshot drawings" of ponies.

Needlework Book-cover Prize:—**B. Davies** (age 16, Simon Langton School, Canterbury), for "a beautiful bit of needlework."

Pictorial Posters.

H.R.H. THE PRINCE OF WALES was very interested to see the pictorial posters which were sent in. His Royal Highness thought them very good indeed and considered that they show a high standard.

Village Signs.

T.R.H. THE DUKE AND DUCHESS OF YORK thought that the Village Signs which they inspected, were well up to the usual high standard and that they were all so good, both in execution and design, that it would be difficult to pick out any particular one for special mention.

Their Royal Highnesses were very amused by the efforts of the small children and considered that the drawings by a child of three were particularly good for her age.

Pictorial.

Taken as a whole the work reached a high standard and was well up to the level of previous years. This was especially evident in the "snapshot drawings" of figures and animals where appreciative recording of movement was a notable feature. The best of the landscapes were very good, excellent work was done in surface description and plant drawing, and the village signs were extremely interesting and well carried out. In the Overseas Section this year there was a higher average and much of the work was most praiseworthy.

Snapshot Drawing.—The quality of the "snapshot drawings" of figures, animals and landscapes has always been outstanding but this year it was even better than usual. The figures were well observed, movement was expressively rendered, and much of the work was excellent. The drawing of movement was particularly good in the junior classes.

Animals.—In the drawing of animals those who had devoted some of their time during the year to studies of parts, thereby increasing their knowledge of structure, inevitably took the highest places. A few promising entries failed to rank as highly as they would have done had more attention been given to serious study of details. Animal drawing arouses such interest and sympathy in young people that it is well to encourage them to draw what they have seen out of doors. Good surface description is essential and obtrusive outlining should be avoided.

Figure.—A sincere love of figure drawing was evident in the entries received. There was much good work, the general form being well observed and the action expressively rendered. Structural knowledge is, of course, vital in this branch of work and the judges would welcome a greater number of detailed studies of parts. In a few cases the drawing showed a tendency to over-elaboration and appeared somewhat laboured. An excellent means of gaining greater freedom is practice in drawing the figure with the brush point, an admirable descriptive medium.

Portraits.—The drawing of portraits is a popular subject. Greater success would be obtained if more attention were given to structural study, especially of the skull. Studies of facial expression are always welcomed by the judges and really good work is not likely to fail to receive recognition.

Landscape.—Some very commendable work was sent in and there were many examples of the value of "snapshot painting" in securing broad effects of form, tone and colour. It was pleasing to see the subject approached with such serious appreciation as was shown in the preliminary studies of clouds, trees, etc., sent in by several candidates. The formation and movement of clouds is a good guide to the weather, and in painting landscape, cloud shapes often afford useful hints as to the best way of carrying to completion the design of the foreground. Clouds overhead are nearer to the spectator than those on the horizon and this should be remembered in thinking of their perspective. It is a mistake to draw clouds as if they were in a plane standing upright to the earth. In the rendering of trees some candidates set themselves to depict each leaf instead of showing the leaf masses.

Original Illustrations.—Ambitious subjects were often attempted, and in a number of cases, with success. Some of the work showed keen observation of facial expression, attitude and gesture, suitable grouping and pleasing harmonious colour. A few failed to secure their full effect owing to crudeness of colouring, or to reliance on conventional forms rather than on observation of actual scenes and figures. Freshness and sincerity are best secured by relying on one's own knowledge and impressions. A noticeable feature in this section was the popularity of the subjects set in the Historical Illustration test of the Society's Examinations. Some candidates failed to remember that when a drawing is entered as an "illustration," the subject should always be written on it when made.

Shading.—Knowledge of light and shade is so essential to good painting that the judges would welcome a larger entry. The outline of an object gives merely the silhouette. To portray the appearance of volume, projection or recession a correct distribution of the varying depths or shades is necessary. In describing a group it is as important to deal with the dark parts correctly as with the lights which often seemed to receive an undue share of attention.

Still Life.—Much of the work showed sensitive appreciation of tone-values and there were fewer drawings of complicated and uninteresting groups. It is helpful to pupils, especially when they bring objects from home, to arrange or assist in the arrangement of the groups they are to paint, as it heightens their interest and helps to develop their sense of composition and colour harmonies. For the less advanced students the group should be made up of not more than two objects, their colour should be harmonious and the lighting so arranged as to give unity of effect. Backgrounds should be subordinate to the main object and help to increase its effect, and the details, tone and colour of objects placed behind other things should not be over-emphasised, as this tends to bring them apparently too forward in the picture.

Surface Description.—It was pleasing to note the attention which this important subject, the foundation of draughtsmanship, received. There was a large entry, the average of the work was high and much of it was excellent.

Decorative Compositions.—Many well planned and original designs were sent in. Some were rich and strong in colour, while others were worked out in delicate colour harmonies. In some cases the colour was inclined to be crude or the background was not carefully thought out with respect to the colouring of the rest of the design. In designs founded on plants, the natural growth should not be distorted and the general character of the plant should be preserved. Abstract and geometrical design showed improvement.

The judges found difficulty in assessing this class owing to the lack in many cases of necessary information as to the purpose of the design. Where such particulars are not given the design often receives a lower award than it otherwise might gain.

2

Plant Drawing.—A strong class with much good work both with pencil and brush. In some studies the leaves were not so carefully drawn as the flowers and the berries, and foreshortening was sometimes overlooked. Sensitive appreciation of colour was shown generally, though a few drawings were spoilt by heavy local colour or the background being insufficiently simple or not harmonious.

Machines.—Boys are so keenly interested in ships, engines, aeroplanes, etc., that their efforts are always welcomed by the judges. The work sent in reached, as one would expect, a high standard.

Lettering.—Some of the work was good, but other examples were marred by over-elaboration. In some instances the work suffered owing to the ink being faint and brown. To avoid greyness and varying tone in the letters the best quality of process black ink should be used.

Overseas.

Drawings of typical figures, scenes, landscapes, plants and animals were sent in from many parts of the Empire. The work generally showed marked improvement, especially in the drawing of figures. Some capital "snapshot drawings" of incidents in daily life were received and the plant drawings were very good. The colour was promising, on the whole, but greater attention needs to be paid to variations in local colour brought about by the effects of light.

Architecture.

The standard this year was distinctly higher. Less ambitious subjects were attempted but these were more within the grasp of the students, and better work resulted. A commendable feeling for the quality of the material was perceptible in some of the drawings and some attractive small studies of details were received.

Village Signs.

This work again showed marked improvement. The general average was very good and some of the signs were excellent. The requirements seem now to be more generally understood, though occasionally enthusiasm for pictorial qualities leads to forgetfulness of the simplicity essential to the purposes of a sign. The lettering was much better, though here again some students overlooked the necessity of plain, simple type. Some of the signs were ingenious and amusing, but it is always well to think whether the villagers would care to have the particular sign as an emblem of their village.

Needlework, etc.

MRS. T. R. ABLETT, R.D.S.
MRS. A. HEWITT-JONES, R.D.S.

Some good work was sent in. Design in most cases was well suited to the medium employed and pictorial effects were avoided. The use of colour showed improvement and was generally harmonious, though too many colours were still used in some cases. Several designs based on flower forms were sound in construction and generally carefully worked, but self-expression was not very evident. More originality might have been shown in the treatment of the subject. Technique on the whole reached a higher standard than usual and knowledge of stitchery was often well applied. Great variety of stitch was shown in the sampler submitted by G. Osborne, while a panel by I. M. Sibley had many commendable qualities, the design was well-balanced and the graceful treatment well suited to the subject. Although a good many colours were used they were kept in a low key and the result was pleasing and harmonious. A well planned tablecloth showed very suitable design and good knowledge of stitchery well applied, and the simple treatment resulted in a very satisfactory piece of work. In the book covers some were too pictorial in effect and in several the design was too scattered. Good lettering is essential and should be carefully thought out. It should form an integral part of the design and at the same time should be clear enough to be easily read.

Lino-Cuts.—The work this year was below last year's standard. The colour prints of birds showed promise. Colour and composition were good but drawing might have been more accurate. Good design in many cases was spoilt by weak drawing.

Geographical.

The general standard was high. As usual, the maps from verbal description showed careful work, but it would be wise to "ring the changes" in choice of matter; there are so many questions available in examination papers and books on practical geography. A laudable method for children is for them to make a plasticine model from the verbal description. The model is then cut into vertical sections and from them a contour map is made. Papier maché modelling continues to prove useful, but with this medium precise contouring is not easy to achieve.

The local studies this year were pleasing, especially those which showed marked characteristics, such as Essex farm landscapes and the chalk cliffs called "Seven Sisters."

A new and commendable feature was the drawing of maps in class from large wall maps, an exercise which helps the pupil to acquire the main facts of the subject under consideration without waste of time and strain of eye on close work from an atlas. Some sheets of mere copying of close detail again appeared; from a teaching standpoint these are almost worthless.

An interesting picture map of the Lancashire Coalfield by a Lancashire girl showed all the physical features well and, owing to the smallness of the area, was not ridiculous as are picture maps of continents or countries.

The following items of constructive criticism should receive special attention as they are intended to assist in improving the quality and educational value of work done in the schools:—

- (1) Contour modelling can have no value if it does not teach the truth. Larger models so easily produce impossible slopes. Contour-slopes are gradual; they are not steps and terraces.
- (2) In "views from imagination" the child should be taught to aim at real map reading before beginning any picture.

3

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

- (3) In making local studies, young folks should not be allowed to draw fossils and other objects about which they know so little that the resulting drawings are unrecognisable.
- (4) Teachers are strongly advised not to mix the classes of work sent in on one sheet, or to send work by children of widely differing ages on the same sheet.
- (5) Attention is called to the new labels specially printed for geographical entries. The labels should not, in any case, be signed by the responsible person unless the sources of information, etc., are clearly stated on the drawings and maps submitted. Several sheets of work, in many ways praiseworthy, have had lower awards owing to breach of these regulations. We would repeat that no map outline of any large area can be original, in any sense, even if it be drawn from memory.

Botanical and General Science.

T. R. ABLETT, H.R.I.
A. R. HATLEY, B.S.C.,
F.R.G.S., R.D.S.,
J. H. VANSTONE.

The general standard of work in this section was high, but the subjects did not cover a wide range. Plant ecology was poorly represented, and the judges would like to see more of this type of drawing. On the other hand, the zoological work was extremely good. One study of garden creatures showed an excellent choice of subjects, a keen observation and delicate brushwork, and each detail was followed by explanatory notes. Another study by a younger student of the life of the bee was very expressive of life and movement.

In drawings of plant sections the work shows a great improvement. On several sheets the drawing was done with great care and accuracy without including unnecessary details.

The Overseas work was excellent and the choice of local studies well selected. Of these the sheets illustrating the coconut, grenadilla, and insect fauna of Jamaica showed careful work and observation.

Chemical drawings have improved greatly, and showed clear but simple representation with good descriptive lettering.

Mathematical and Mechanical.

T. R. ABLETT, H.R.I.
H. G. HOSKINGS, M. INST.
C.E., A.C.G.I.

The drawings generally were of a high standard. They showed that great care and attention had been given in their execution and they reflected credit on both the pupils and the teaching staff. Students should get into the habit of stating under each view what it represents and when giving dimensions not to mix the units, otherwise the workman who has to make the part has to use two or three different rules.

In all engineering drawings the student must remember that good drawing and accuracy are essential, the dimensions should be clear and sufficient views should be given so that anyone looking at them can immediately visualise the object delineated.

General Review.

It may be said of all these different sections that the work from the schools illustrates, in the first place, the great interest taken by young people in observation of the world around. This is shown in the pictorial drawing of fellow creatures, animals, plants and machines. Later, their interest in structure and its purposes is extended to the geographical study of the mechanical action to be seen in mountains, rivers and seas. The mind thus prepared for scientific investigation is better able to understand chemistry, botany, engineering and architecture, all of which are well represented in the Exhibition. Schools, such as boarding schools, which have leisure for hobbies, sent in leatherwork, needlework and other decorative compositions.

The work up to the age of 13 (inclusive) is assessed each year by itself. Drawings produced from 14 years of age up to 19 are divided into some 24 classes, and each class judged separately.

"SNAPSHOT DRAWING."

"Snapshot drawing" is the easiest and most fascinating of all forms of drawing. It is easy because it is so natural, being the very process that the youngest child employs when he draws spontaneously; so fascinating because in its advanced form it involves some of the highest qualities of the mind and rewards the draughtsman with the joy of making a new creation. All its forms, simple, intermediate and advanced may be practised by children of from 5 to 6 years of age upwards.

Briefly it is drawing from recollection things observed by the draughtsman. Its value consists not merely in the fact that it is "drawing from delight" but that this joy in drawing is obtained by stimulating and developing the intelligence of the pupils and training them to think of the "why and wherefore" of the things they see in everyday life.

It is sometimes thought that "memory" and "snapshot drawing" are the same thing under a different name. That is not so; there is a great distinction between the two. A memory drawing is not necessarily a reproduction of the observer's own mental picture; it may be a recollection of a picture or drawing by someone else.

The distinguishing characteristic of "snapshot" draughtsmen is the power of expressing movement in free flowing lines. The success with which quite young children are able to show movement and vitality in their drawings is often the despair of older and more practised draughtsmen who are unversed in "snapshot drawing," for if you do not practise the representation of movement when you are young it is difficult to acquire the art in later years.

A photograph of, say, a breaking wave or a moving figure or animal often lacks life, yet a "snapshot" drawing by a mere babe may possess it. Why is this? A "snapshot" photograph and a "snapshot" by the eye are entirely different things. The photograph represents what occurs in a path of movement in an instant of time and during that brief period the moving object is to all intents and purposes stationary, so that what you really get is arrested movement. A "snapshot" by the eye shows the path of movement itself. It is a broad generalisation by the draughtsman representing in a single impression a series of moments of movement.

A moving object is part of a moving world; the universe is always in motion. Young people live in a world of moving things, they take pleasure in drawing them and if encouraged, attain remarkable facility and success in infusing vitality into their work. Many striking examples will be found in this Exhibition.

Annual Exhibition, 1934.

(Memorial to King Edward VII. and Queen Alexandra)

"Better than ever" was the verdict of many visitors after seeing the 45th Annual Exhibition organised by Mr. T. R. Ablett, H.R.I.

The Guildhall Art Gallery, in which the Exhibition was held, by kind permission of the City Corporation, was crowded with visitors, the attendance averaging nearly two thousand a day. Many Heads of Schools and Art Teachers brought parties of their pupils to see the work, and a feature that excited special interest was a series of albums containing "snapshot drawings" taken from examination papers of schools connected with the Society in Africa, Australia, British Guiana, Canada, China, Chile, India, Japan, the West Indies, etc.

A few selections from the many Press Notices are given overleaf.

N.B.—Early preparation for the 1935 Exhibition is recommended.

Surprising Competence

The work reaches a surprising degree of competence, particularly the brush drawings of plants. Every work shown is worth looking at.—*The Times*.

A Revelation

If you want to see what youth can do, go to the Guildhall. The Exhibition is something of a revelation in its variety, ability and freshness.—*Daily Telegraph*.

Striking Originality

Widespread attention has been attracted by the high standard of many of the children's drawings to be seen in the Exhibition. Why, it is asked, do children show such striking originality of design?—*Morning Post*.

A Splendid Exhibition

It is a fine exhibition, a splendid exhibition. There are drawings and paintings and needlework that will delight your heart. None of this problem picture, Cubism and "What does this mean? I suppose the artist must know" stuff. Just plain, straightforward pictures of men and women as we see them, ships that could conceivably sail, dogs that look as if they could bark, and cats that you would expect to howl o' nights. The vast majority of these drawings and paintings are the work of children. Little children. Frankly they are first-rate. Really first-rate.—*Daily Mail*.

First Step to Success

On the walls of the Guildhall Art Gallery hang hundreds of sketches full of action, phantasy and colour. Mr. Ablett, the founder of the Society, says: "Encourage your child to draw—even if it's only scribbling—and you will help him up the first step to success as an engineer, airman, doctor, scientist, or whatever profession he chooses."—*Daily Express*.

2

Girls' Keen Observation

However times may change, children's reaction to things is always much the same. Boys being chiefly interested in boats, engines and the like, tend to give us greater variety by following the latest inventions and sports with their pencils. I would credit the girls, however, with keener observation, which is the basic aim of the Society in its encouragement of "snapshot drawing."—*News-Chronicle*.

Fruits of Snapshot Drawing

Here are thousands of drawings from many parts of the Empire, most of them done by the Society's method of "snapshot drawing"—that is, drawing from recollection after observation. The claim that this method stimulates the power of expressing movement in full-flowing lines is well sustained by the exhibits which achieve representation while avoiding copyism and that imitation photography which is still, in many quarters which should know better, imagined to be the artist's function.—*Liverpool Post*.

Remarkable Snapshots

A high level has been reached this year, and the success in catching the movements of living subjects is more pronounced than usual. The snapshots from memory are remarkable.—*Manchester Guardian*.

Value of Drawing

Exhibits that fill two large galleries and many volumes of "overflow" efforts of only slightly less merit are ample proof of the value of drawing in helping young people to gain knowledge of the world about them, and in developing powers of observation and memory.—*Birmingham Post*.

Wholesome Freshness

These very youthful artists not only draw and paint what they have seen with an accuracy that is remarkable, but succeed splendidly in giving a wholesome freshness to their work. In their sheer virility many of the efforts would do credit to older and more experienced hands.—*Yorkshire Telegraph*.

Realism and Action.

Spontaneity and simple grace are the keynotes of the Exhibition. Particularly attractive are colour studies of horses at work and leisure, and to some of these has been imparted a note of realism and action not always coming within the ambit of the experienced artist's power of observation.—*Glasgow Herald*.

A Welsh Success

Fourteen year old Jean Cratchley of the Plymouth Preparatory School, Penarth, has carried off one of the chief awards. She has won Mr. Ablett's coveted prize for a series of brushwork plant drawings showing a remarkably sensitive appreciation of colour for one so young.—*Western Mail*.

Ireland's Gold Star

Much is being made of the drawings by tiny tots and they are certainly extremely interesting but the really remarkable feature of the show is the high quality of what one may call the more "adult" works on view. It is all the more gratifying, therefore, that Ireland has carried off one of the principal awards in the Exhibition, a Gold Star for still life.—*Irish Times*.

THE SOCIETY'S STUDIOS.

The Royal Drawing Society has Studios in which the figure can be studied, as well as painting, anatomy, the history of art and architecture, etc. Those wishing to become teachers in the Schools connected with the Society (over 2,000) are afforded practice in actual teaching. Instruction and criticism are given by experienced teachers.

June 12th 1934.

Sir:

I enclose herewith copy of the "Report of the Royal Drawing Society's 45th Annual Exhibition of Drawings" covering the Exhibition of the Society held in the Guildhall Art Gallery at London, England last April.

This is an important art society in England under Royal Patronage and I am pleased to advise that an Indian pupil, Ernest Baptiste (14 years of age) of the Inkameep Indian Day School secured one first-class commendation, two second-class and two third-class for two sheets of Decorative Compositions. These are set out on page 28 of the Report, by which it will be observed that his gains compare very favourably with some very well known Canadian schools with excellent teaching facilities.

I consider that this pupil is worthy of congratulation on his success and the teacher of the school, Mr. Anthony Walsh, for his keen interest in the children's work, and sacrifice of a good deal of his spare time to the development of this talent in his pupils.

Practically all of the children of this school turn out excellent art work and would quite easily develop work of commercial value.

I have the honour to be,

Sir,

Your obedient servant,

Dear Capt. Barry:

Word has just been forwarded to me that there will be a vacancy in the Incaneep Indian School at Oliver next term and I beg to make application for the position.

I have a school at present, and am being very successful but it is a non Catholic centre, and I am anxious to get in the Catholic work.

Mr. Miller, my inspector visited me my first day here, but hasn't given me a second visit yet. I will send you a copy of his report as soon as he visits me again, which I expect to be very shortly.

I have my own boys in Vancouver College at Vancouver. While it is a great blessing for which I am thankful it is difficult for me finance them and keep a home here too.

I would like the Penticton school, should Miss Weydert decide to give up teaching in the future but I will be very happy if you will think well enough of me to let me have the one at Incaneep.

Please try to help me and I promise you I will teach for you with all my strength and ability.

Yours very truly,

(Mrs.) Verle Moore.

Dear Mrs. Moore:-

Your letter of February 11th, which I found here on my return to Victoria from an inspection tour, has been forwarded to the Secretary of the Department of Indian Affairs, Ottawa, together with a letter of recommendation from Rev. J. McCaffrey, O.M.I., which you had let me have in March 1933 and which has since been on file here.

Please note that I no longer make any sort of recommendation with regard to the appointment of teachers in our Indian Day Schools. I understand that your best course would be to make a full application to The Secretary, The Department of Indian Affairs, Ottawa. You might also write to your own Church authorities, in this case The Right Reverend Archbishop Duke, Vancouver, as I have no doubt that he will be consulted should a vacancy occur in any of the Catholic Indian Day Schools in the Archdiocese of Vancouver.

Yours sincerely,

Dear Sir:-

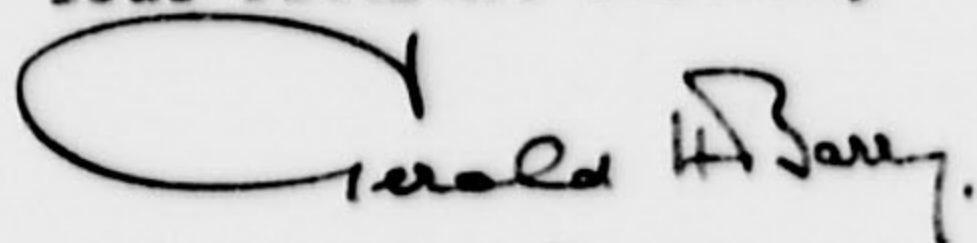

On my return from an inspection tour in the interior of the Province I found a letter of application from Mrs. Verle Moore, Graham Landing P.O., Arrow Lakes, B.C., in which she asks to be considered should a vacancy occur for a teacher at the Inkaneep Indian Day School, Okanagan Agency.

A copy of Mrs. Moore's letter to me and of my reply is attached for your information.

For the information of the Department I may say that I have had a number of letters from Mrs. Moore, since her first application for a teaching position in June 1932, but only one letter of recommendation, from Rev. J.M. McCaffrey O.M.I., which I am detaching from my file here and forwarding with this letter.

I had an interview with Mrs. Moore in Penticton late in the year 1932. She then stated that she was 37 years of age and held a Second Class Certificate having attended Vancouver Normal School. She last attended a Provincial Summer School in Victoria in 1920. Her two boys were at that time in the 8th and 9th Grades in Penticton. Mrs. Moore appears to know something of nurses work and has at one time had some First Aid training. She was very uneasy during our interview and did not greatly impress me. She is an old type teacher and would probably be better with the older children. I advised her to attend a Provincial Summer School for Teachers in Victoria. She has not done this so far since I saw her. She states she can drive an automobile and prefers to keep house for herself.

Dear Sir:-

I wish to acknowledge the receipt of your letter of the 5th instant, in which you recommend that the qualifications of Mrs. Verle Moore be considered when an appointment is being made at the Incweneep Indian Day School, Okanagan Agency.

Under instructions received from the Department of Indian Affairs in Ottawa last year, I am forwarding your Grace's recommendation to the Secretary of the Department in Ottawa. I have no longer anything to do with the making of recommendations in the case of candidates for teaching positions, all such recommendations being left to the authorities of the Church under whose auspices the Indian Day School in question is being conducted.

I received a letter from Mrs. Moore some days ago and this has since been forwarded to the Department of Indian Affairs in Ottawa for consideration. As you probably know, I also met Mrs. Moore when in Penticton some years ago. Father McCaffrey's recommendation has also been forwarded to Ottawa.

Sir:-

Replying to your letter of the 16th inst. stating that Mrs. Verle Moore has made application for appointment as teacher of the Inkameep Indian Day School. I would advise that it is not the intention of the present teacher, Mr. Anthony Walsh, to resign, although he has expressed a desire to exchange with any other Indian Day School teacher in the Province at the end of the present term if it can be arranged, consequently it does not appear that any vacancy will occur at this school.

Dear Mr. Walsh:-

On my return to Victoria I found your request for a transfer on my desk. The delay in replying to your letter of March 11th was caused by my absence on inspection duties.

I am forwarding your letter to the Department of Indian Affairs in Ottawa, and shall keep your request in mind. You know, I think, that I have nothing whatever to do with the recommendation of teachers for vacant positions.

My advice to you would be to write to His Grace the Archbishop of Vancouver, asking him to remember that you wish a transfer should he be making any nomination to the Department to fill a vacant position in one of the Indian Day Schools in his Archdiocese. It might be well for you to write to the other Catholic Bishops as well.

OKANAGAN INDIAN AGENCY REPORT FOR MONTH OF MAY 1936.

SCHOOLS:

These are all progressing as usual and doing good work. Penticton Day School has been provided with manual training tools and material and it is expected that this feature will add considerably to the value and attractiveness of the curriculum. A great deal of publicity has been given to some painting on buck-skin done by one of the pupils of Osoyoos School, this work securing the bronze medal of the Royal Drawing Society's annual exhibition at the Guildhall Gallery in London. The teacher, Mr. Walsh, is anxious to have this medal presented by the Governor-General at Vancouver when he visits the Vancouver Exhibition in August, also to have the boy working on handicrafts at this Exhibition. He has been given a prize by the Archbishop recently and he thinks it would be fitting for the Department to give some small token for his general application and attendance.

Sir,-

I have received a request from Mr. A. Walsh, teacher of the Osoyoos Indian Day School, for a small prize to be awarded to a pupil, Francis Baptiste, at the close of the school year in recognition of his excellent attendance record, as he has been absent only one and one-half days in four years. I believe an expenditure of \$2.50 would amply cover the matter and would request authority for same.

I would also advise that this pupil has attracted very considerable attention in the British and Canadian press by some art work forwarded by the teacher to the Royal Drawing Society's annual display at the Guildhall, London, where one article, a painting of the Nativity on buckskin, won the bronze star in the children's exhibition. As it is a British award and the Society is under Royal patronage the teacher is anxious to arrange, if possible, that the award be given by His Excellency, the Governor-General on the occasion of his visit to Vancouver this year. It is possible he may tour the Okanagan in which case probably it could be arranged without the expense of transporting the pupil to Vancouver.

Some of the local Women's Institute people are anxious to have this boy demonstrate his work in buckskin and modelling at the Vancouver Exhibition, but at the moment I do not feel so sure about this. While the press and the British authorities have made a great deal of comment on the exhibits, I am inclined to the opinion that they have a rather vague impression as to the type of Indian executing the work, and there is a great difference between the nomadic Indian and the rather highly civilized type on Osoyoos Reserve with cars, radios, modern farming machinery and displaying on the surface very little difference from his white brother. While granting that his work has the great value of originality and novelty, in my opinion, it falls very far short of what he is capable of performing. To visualize a half-naked aboriginal doing the work is one thing and to see a clean cut, excellent mannered and educated youth doing the work is another and might prove rather a disillusionment and consequently I would prefer to go into this matter further before making any recommendation involving expenditures.

SCHOOLS:

These are all making satisfactory progress. The children of each of the three day schools entered the annual poster competition of the Latham Humane Foundation (an organization somewhat similar to our Society of Prevention of Cruelty to Animals) to which there were over 5,500 entries from all over the world. Each school secured several certificates of merit and one young woman at Penticton Reserve managed to get into the not very extensive prize list for a small award, which was very good considering the extent of the entries. This all came about by the Foundation inviting my personal entry but as I had no time I suggested that they might be interested in the Indian children's contributions with the results stated.

SCHOOLS:

These have all been visited during the month, with the exception of Osoyoos as I was on this reserve after school was closed for the day and the teacher was absent. The schools are all making progress and have been preparing posters for the Latham Foundation, an organization in California for the encouragement of protection of animals. The Foundation set aside a special class in their annual exhibition competition for the day schools of this agency. I did not have an opportunity of seeing the Osoyoos posters, but those submitted by the Penticton school were fairly good.

INKAMEEP (OSOYOOS) DAY SCHOOL.

There were ten children in class on the date of my visit, out of a roll of 11. There were five grades, with 8th grade the highest. There was one boy who seemed good and exceedingly interested in science. The boy and girl in the 7th grade, too, were quite good as well. All the children were quite responsive to questioning and spoke up well. Things were nice and tidy, both inside and outside the school, and swings etc. had been built by the boys under the teacher's instruction. I think Mr. Walsh is doing quite creditable work here.

Dear Sir:

I have received an invitation from the universities of Toronto and Yale to attend their Seminar - Conference on The North American Indian To-day. The Seminar is to be held at the University of Toronto from September 4-16 1939.

Professor Mc Ilwraith the Canadian Director of the Conference wishes me to read a paper on the start and development of Indian art at Inkameep, and lead a discussion as to the possibility of future expansion of this type of art among the Canadian Indians. He is also anxious that I talk about the experimental work we are doing with the native dramas.

Dear Dr. Barbeau,

I venture once again to trespass on your time because a small group of those really interested in our Indians came at my invitation to meet Mr. Anthony Walsh of the Inkameep Indian School, near Oliver, to see some striking illustrations of the latent artistic gifts of the children in that school and in particular the remarkable paintings and carvings of a lad of 19, Francois Baptiste, of which a selection is being sent to Lady Tweedsmuir by Her Excellency's express wish, that she may bring them before the Director of Art at Ottawa. Further, Mr Walsh gave a most interesting demonstration of sign language, and of legends as acted by these children and told us that you know his school and have made thirty records of their songs.

We are forming a small Committee with the hope of furthering Mr. Walsh's valuable experiment in affording to Indian children opportunities to revive these latent gifts, and wonder whether you can add to our information on the subject from your personal knowledge. We have two main objectives: the spread among other Indian Schools in this Province a knowledge of Mr. Walsh's pioneer work with a view to arousing the interest of their Principals, and through the Provincial representatives of the Federal Government secure essential and sympathetic support to the movement. We realise time and perseverance must be our allies, but suggestions from so experienced an expert as yourself cannot but be of very material help.

I am, dear Dr. Barbeau,

Very sincerely yours,

Young Indian Makes Name As Brilliant B. C. Artist

By CONSTANCE SEELEY.

A little over five years ago a young Indian boy attending school at the Inkameep Indian

FRANCIS BAPTISTE

School near Oliver, B. C., started drawing pictures for his teacher, Mr. Anthony Walsh. Little did he think at that time that his artistry would receive such high awards and noteworthy praise as it has done in Canada and

Europe. The teacher recognized the artistic work of his young pupil and sent some of the pictures to be exhibited in Eastern Canada. Later the pictures went to London, where they were exhibited at the Royal Drawing Society and received honorable mention. The Indian lad is Francis Baptiste and he is now about 19 years of age. He has the distinction of being the first Canadian to attain the honor of having one of his pictures, "Indian Boys in Training," acquired by the Royal Drawing Society for its memorial collection.

HAS OWN STUDIO.

In 1939 Francis Baptiste was sent to Santa Fe, New Mexico, to study Indian art. At first the boy was very homesick, and he found difficulty in applying himself to his work. He soon recovered, however, and his mixing with young artists stimulated his ideas and before long he was producing pictures with a new and inspired aspect. Upon his return, Francis' grandfather, Chief Baptiste George, who was so interested in the boy's work and so pleased that the work had received so many awards, built him a studio of his very own. The studio is situated on the Inkameep Reserve, and Francis is continuing his work in his native surroundings.

The picture mentioned before, "Indian Boys in Training," was selected out of thousands to be taken to Buckingham Palace, where it was viewed by the King and Queen, and in the summer of 1938 it was exhibited at the Empire Fair in Glasgow.

MANY PRIZES.

Another picture, "Canadian Nativity," is painted on buckskin. It was awarded the bronze star in 1936 at the exhibition of the Royal Drawing Society in London, then later a copy of this picture was placed on exhibit in Toronto and Montreal, where it received high praise from art critics. In 1937 Francis received a silver star for his picture, "St. Francis and the Birds." Two of his pictures were loaned to one of the companies competing in the Dominion Drama Festival and were used on the stage.

A portfolio, portraying the life of the Okanagan Indian, ancient and modern, and to which Francis has contributed much of his artistry, was exhibited at the famous Cizek Juvenile Art Centre in Vienna a few years ago. Later this was sent to Prague, where it was shown at several schools.

For a young boy, not yet out of his 'teens, Francis has contributed much to the realms of art, but he is unspoiled by it and one would never think so many honors could have been acquired by a boy who likes to paint and draw.

DAILY COL

PRIDE OF RACE IS ENCOURAGED

Anthony Walsh, Teacher at
Inkameep Indian Reserve,
Describes Native Art

A fascinating talk about what is being accomplished in restoring and developing among the Indian children of the Inkameep Reserve, near Penticton, in the Okanagan Valley, love and understanding of their own traditions, legends, poetry, dances, songs and handicrafts, was given to an interested group gathered in the lounge of the Windermere Hotel yesterday to hear Anthony Walsh, a teacher from the Inkameep School.

"Developing Indian Pride of Race" might have been Mr. Walsh's subject. He approached the discussion of Indian native art from this standpoint, illustrating his talk with a delightful "composite" story of the Nativity written by his native pupils and with some symbolic plays which revealed the deep poetical nature of the people.

In the first part of his address, Mr. Walsh pictured the Indian settlement, which consists of about 100 people. Although not aware of it, theirs was an almost idealistic life, until two months ago controlled, so far as internal management was concerned, by a wise old chief who lived to the ripe age of ninety. Fishing, hunting, the management of small orchards and gardens furnished occupation and practically all they needed for food and clothing. Before he died the old chief had asked Mr. Walsh to train the young people to be good men and women before all else, showing his deep religious sense.

SKETCH OF EACH CHILD

Mr. Walsh then gave a sketch of each child in his school, indicating the strong individuality and artistic ability of each, and their unconscious inheritance of native culture. As the result of offering a prize for the pupil who brought in the largest collection of Indian songs, he had within a fortnight a priceless folio of old Inkameep melodies. Living very close to nature the boys and girls were keenly observant of all small wild creatures, and a lad of six electrified his schoolmates as well as his teacher by faultlessly whistling six Okanagan bird songs he had picked up while following his father's plough in the field.

Although in the Indian school the curriculum set by the Government has to be followed, Mr. Walsh makes time for the children to give fifteen minutes daily to creative work, when the individual abilities of each boy and girl are given free expression and encouragement, with special anxiety to bring out any characteristically Indian talent or craftsmanship. Illustrating both the poetic and dramatic instinct of the children he gave two plays, written by Isabel Christie, which are done by the Indians, masks being worn in lieu of special costumes.

Mr. Walsh was introduced by Miss Alice Ravenhill, well-known Victoria authority on British Columbia Indian mythology and art, and among the interested members of the audience was Major L. Bullock-Webster, of the community drama branch of the Department of Education.

Indian Boy's Work Attracted Many

Evidence that the exhibition of paintings by Sis-hu-ik, the young Indian artist, held last week at the Windermere Hotel, aroused very genuine interest is shown not only by the large number of daily visitors, amounting in all to upwards of 500, but by the satisfactory sale of half the exhibits. These included horses, full of action and vitality, studies of other animals, such as squirrels and skunks, mountain sheep and deer, and a variety of most attractive birds, including an eagle and wild geese, quail and blue birds.

The black and white illustrations prepared by Sis-hu-ik for the forthcoming publication of the attractive and naive "Tale of the Nativity," were also on view. This "tale" was told to their teacher by the children on the Inkameep Reserve, near Oliver. It is on this reserve that this lad has spent his 19 years, among surroundings which have inspired the form

taken by his artistic gift, which combines in a remarkable degree vivid realism and a strong sense of decorative design, which promise to carry him into the ranks of foremost Canadian artists.

Dear Mr. Walsh:

I have been very much interested in the work you are doing at the Inkameep school and at different times have thought of writing you. However you will understand better than most people just what happens to correspondence when one is trying to promote Indian handicraft.

I am arranging a display and sale of goods produced on Indian Reservations, at Winnipeg from November 15 to December 24. I shall be staying at The Mall Hotel, Winnipeg, and if you have any beadwork or other articles which you would like to send in, I shall be happy to endeavour to sell them. I think it advisable to have everything sent to the hotel, as it will not be mixed with other goods. Our method is to bring in on consignment, at wholesale rates, the different types of work produced. As my main object in the East is to get Indians off relief, our basketry etc. should really come under the heading of "Home Industries", rather than "Handicraft". I feel sure that any of the work done under your supervision would add greatly to the effectiveness of our display. If you could send in, for example, one or two dozen pairs of mocassins of assorted sizes, please send with them a wholesale price list at which prices I would consign them to the Hudson's Bay Company and they would be re-marked for retail.

I wonder also if the young Indian artist Sis-hu-lk, would care to consign any of his work.

Indians Tell Tale of Nativity

The Tale of the Nativity, as told by the Indian children of the Inkameep tribe of the Okanagan, has been published by the Committee to Promote the Revival and Development of the Latent Gifts of the Native Tribes of British Columbia, in an effort to see these ancient talents of the true Canadians come again to life.

Anthony Walsh, in charge of the Inkameep school, many years ago saw that these Indian students possessed long-dormant artistic gifts, and that with their revival they would contribute greatly to Canadian art and culture. Gradually he stimulated these innate abilities, artistry, craftsmanship and dramatic talent of the children of that reserve, until today the results are apparent in all their work.

The one who has probably progressed the farthest along the artistic path is a young lad, Sis-hu-lk, whose drawings and paintings are known throughout Canada. A tribute to their ex-

With the support of His Excellency the Lieutenant-Governor and Mrs. Hamber and many other well-known local people, the Inkameep version of the Nativity was published a short while ago. It is the story of the birth of Christ and His early years, as adapted by these Indians to fit their environment and civilization. Throughout the tale the charming, simple folklore of typical Indian stories is evident.

The money derived from the sale of the book will go to remunerate Sis-hu-lk for his illustrative contributions and to the advancement of the natural talents of these peoples.

A. M. D. Fairbairn, private secretary to His Honor Lieutenant-Governor Hamber, sent a congratulatory letter to the committee, and wished Sis-hu-lk every success in his future career. Another letter from Mr. R. A. Hoey, superintendent of Welfare Training, Indian Affairs Branch, Ottawa, commends the book and its illustrations.

Dear Sir,-

In the administration of Indian Affairs one of the most important problems confronting the Department is the repression of intemperance among Indians on the Reserves. In view of the peculiar character of the duties of Indian Agents and particularly, moreover, as they are frequently obliged to act in a magisterial capacity, it is essential that they should themselves be above reproach and that they should observe the strictest propriety in their personal conduct in every respect. So serious is the view taken by the Department with regard to this subject that any well-founded reports of inebriety will result in immediate suspension and probable dismissal.

It should be understood that this letter is intended for the advice and guidance of all Indian Agents and that no personal application is intended.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

Our Indian Culture

Recently I had the good fortune to hear a lecture by Anthony Walsh upon the work he is doing among the Indian children at Inkameep, B.C. Mr. Walsh said little in the conventional sense, what he did was to act out five short folk plays written for his pupils and treating, like all folk literature does, of beasts and birds, sun, wind and earth, the oldest ties man has with his world.

Mr. Walsh is more than a teacher, he has the restrained yet kindling air of an artist. A man who is heart and soul in the work he has labored at unselfishly for the last ten years. He believes intensely in the tradition and nationality of the Indian and has dedicated himself to the work of showing this ancient people to themselves and to the white man for what they are, a race endowed with an art, and a history that are unique.

In these Indian children he has studied closely and come to know so well, he has discovered a natural poetry and humor, a sense of music and the rhythm of the dance. The larger aim of his work is to raise the status of Canada's oldest settlers by teaching them how to develop their native culture and so adjust themselves to the difficult conditions and demands of a white man's world.

He spoke of his first meeting with the chief, a spare figure eighty with flashing black eyes and an ancient dignity. When he was ushered into his presence the old man said earnestly, "Mr. Walsh, I want you to teach my people how to meet the world upon its own terms!"

Town Crier
Opens Festival

Town Crier Amos Kubik, of Provincetown, Mass., will open and close each National Folk Festival program, as he has done for the last two years. The clanging of his heavy bell is an echo from colonial days in New England, when the crier distributed news, announced weddings and served as lost-and-found agency.

Chief War Dance

Fast War Dance

Anthropologists are making research into the life of the Indian—past and present. Archaeologists are excavating to see what light they can throw on the dim past of the race. Should we wait to read their findings from a book in some future day when folkways shall have given way to standardization? Should we not rather turn our attention now to this prehistoric lore—our most ancient—while it is still vital? Frances Densmore said: "The scientists of the future will find pottery and baskets in the graves of the Indian, but they will not find their songs."

Ancient Hawaiian Dances

Mi Rancho Bonito

Since the days when Coronado led his forces into New Mexico and Spain succeeded in establishing the first permanent Spanish settlement, the Southwest has felt the strong influence of the Spanish culture, as the Southeast has been influenced by British heritages. There they have met and intermingled with the primitive traditions of the Indian in an interesting blending in some cases. In others they have remained apart.

Sponsored by the Coronado Cuarto Centennial, New Mexico.

English Dances

By a group from the School of Organic Education, Fairport, Ala. James Lowell, Leader.

Lads a Bunchum

Sponsored by the School of Organic Education.

Fiddle Tune

By John Weaver, Folk County, N. C.
Fox Chase

No piece of Irish music is so widely known in Ireland as the Fox Chase, known to many fiddlers and harmonica players in the United States. This tune is credited to a celebrated blind piper of Dublin, Edward Keating Hyland, and was based on an ancient lamentation.

Sponsored by the Farmers Federation of Asheville, N. C.

Girl I Left Behind Me

"The Girl I Left Behind Me" was based on an old Irish tune. "Spall" is a word which was used by Irish soldiers in the 18th century. "Haste to the Wedding" is a well-known song. American soldiers continued to sing it during the Civil War.

(Fiddle Tune)

In our country, the Indian, British, Spanish-American, French, German and Negro have distinctive play party and singing games. Those most generally used came from England, or were made here by descendants of English ancestors. They were encouraged by the puritanical attitude of our forefathers, who discouraged other forms of dance and considered the fiddle an "instrument of Satan." However, the young people were allowed to sing the accompaniment and go through figures very much like those of the square dance. Their games are widely used today by our varied racial groups in many communities.

Negro Spirituals
And Folk Songs

By Negro children from Booker T. Washington School, East Chattanooga, Tenn. B. Cortez Tipton, Leader.

There's a Little 'Wheel a-Turnin'
in My Heart

My Lord What a Morning

Joshua Fit de Battle of Jericho

The Fisk Jubilee Singers, of Fisk University, Nashville, Tenn., after the Civil War, were the first to call attention to the Negro spiritual, which had come into being partly as a result of the burdens of slavery.

Sponsored by the Booker T. Washington High School.

Cake Walk

By Gertrude Blanton's group, Chattanooga, Tenn.

Walking or dancing for a cake is an old custom in our country, but the cake walk of the Negro, popular about 40 years ago, is not often found today. It, like many folk songs, was popularized by use on the stage, both in the United States and abroad.

Sponsored by Citizen's Committee, Chattanooga.

French Rondes

By group from the Central Y. M. C. A. College, Chicago, Ill. Joseph Creanza, Leader.

Sur le Pont d'Avignon
(On the Bridge of Avignon)

(This is an old ronde to the tune of which the townspeople danced on the bridge at Avignon in southern France. The gay tune expresses the gaiety of this picturesque town. The figures represent the manners and customs of the townsfolk.)

La Ronde des Quatre Saisons

"The Ronde of the Four Seasons." The ronde is so called because of its circular formation.

Sponsored by the Central Y. M. C. A. College, Chicago, Ill.

An Evening in a
Bunkhouse

By Wisconsin Lumberjacks, Mr. and Mrs. Otto Rindlsbacher, Leaders; Mayor J. H. Wallis of Rice Lake, Wis., introducing the group.

Music on Homemade Camp Instruments.

Stag Dance

Earl Schwaritztrauber and Ray Calkins, accompanied by the squeeze box, a piccolo accordion, and the Hardanger fiddle. Many of the old "jacks" brought this type of fiddle from Norway.

Kan du Glemme Gamle Norge
(Can You Forget Old Norway?)

Played by Mrs. Otto Rindlsbacher, on the Viking cello. The Viking cello evolved from the old Norwegian Salmodikon and the Irish bull fiddle.

Hell's Haling

By Otto Rindlsbacher on the Hardanger fiddle.

Peg Leg Jig

By Earl Schwaritztrauber and Ray Calkins.

The Pinery Boy

Lumberjack song by Frank Uehyt, with Viking fiddle and accordion accompaniment.

Tune on the Birch Bark

The lumberjacks made and sang their songs, told Paul Bunyan tales, recited original poems and played their homemade musical instruments as they sat around in the bunkhouses at night. Most of the songs were made during the golden age of lumbering in the 1870s. The tunes used in the early days showed the influence of the British ballads and tunes. Today, in Wisconsin, Scandinavian influence is felt, a natural result of Norwegians coming into the region.

Sponsored by Gov. Julius P. Heil of Wisconsin.

Festival day in Croatia starts in the early dawn. As the church bell tolls, the villagers read their morning prayers, accompanied by old slavic choral music. In a carefree manner the country folk start out on their journey to the city. Favorite songs are sung in groups as they trek in steady gait toward the city. *Junak iz Like*, the marching song of the Croatian heroes, is heard. Soon the festival program begins in earnest. The music is based on folk music of the Yugoslavs.

Cotton Field Songs
From Louisiana

By Dillard University Group, New Orleans, La. Frederick Hall, Leader.

Lord How Come Me Here

This is one of the earlier songs of the Negro. The melody and harmony are very close to the African. The words also are African in spirit, especially "wish I never was born." The Negro uses this expression whenever life seems difficult for him.

Poor Me

How Long Befe' De Sun Go Down
The worker goes into the field at sunrise and prays for the sun to go down so he can leave the field.

Day Is Done

When at last the sun goes down, the worker sings his thanks.

Spirituals sprang from the heart of the Negro as outbursts of religious fervor. The songs, many of which were influenced by conditions which surrounded the people who originated them, are called jubilees, spirituals, melodies and folk songs. They show the character of the people in whose hearts they were born—patience, sincerity, the capability to love rather than to hate, and a firm belief in God.

Sponsored by Dillard University, New Orleans, La.

Dutch Scrubbers Dance

By Dutch dancers from the Tulip Time Festival, Holland, Mich. Miss Mabel L. Appel, Leader.

The Tulip Time Festival, held annually in May in Holland, Mich., is truly a people's holiday. It opens with the street-scrubbing ceremony, for which citizens volunteer by the hundreds. At the signal to cease scrubbing, 300 school children, strung out for a quarter of a mile, prepare for their dance. Soon the klomp klomp of the marching wooden shoes increases the tempo of its rhythm as the radiant faced "meisjes" and the red-checked "jongens" go into their dance.

Sponsored by the Chamber of Commerce, the Board of Education, the Lions, Rotary, Kiwanis and Exchange Clubs, and the Charles Sligh Furniture Store of Holland, Mich.

Cowboy Ballads

(Square Dances)

Ladies to the Center

Swing in the Center and Swing at the Sides

Bow and Kneel to that Lady

Wave of the Ocean, Wave of the Sea

While the figures used in the square dances from Colorado are generally the same as those from in the East or South, their calls reflect the section of the country from which they come.

Cowboy Jig

The cowboys liked the Danish folk song dance, "Vester Vopelsk," and changed its name to the "Cowboy Jig," and made it their own through adaptation.

Spanish Circle

This is a simple arrangement of one of the much loved Spanish dances. The Westerner has omitted the intricate parts and added his own turns and twirls to the original form.

Five Step Schottische

The Schottische is of Polish origin and, like almost all of the old dances, came through France and England to our country. From the ballroom it was taken over and used by the folk. Some form of the Schottische is used in every dance of the folk in the West and Southwest.

La Raspa

Mexican and Indian influence is seen in this dance which has, no doubt, come to Colorado through New Mexico, where it is generally used.

Flamborough Sword Dance

By Washington Branch, English Folk Dance and Song Society of America, Gene Gowing, Leader.

The English sword dances go back in origin to primitive days and were perhaps used as ceremonial dances. They were used in many of the Mummers plays, and in the Christmas festivals in Scotland and Northern England.

Ukrainian Sword Dance

By a group of Ukrainian dancers from Washington, D. C., and Baltimore, Harry Kanev, Washington, Leader.

This sword dance originated in Zaporoske, in the Ukraine, during very early history. It was created by Ukrainian Cossack knights, volunteer soldiers about whom many heroic songs are still being made. They were responsible for the short-lived republic of Ukraine. This sword dance is erroneously known as the Russian Cossack dance, because when the Russians took over the Ukraine, they claimed it as their own.

Fiddle Tunes

From California

By Mrs. Ben S. Scott, Turlock, Calif. Turkey in the Straw
Buffalo Gals

"Turkey in the Straw" is a classic rural tune. It goes back to "Zip Coon" and was originally used as a minstrel song. Most every fiddler in the country plays the tune and often sings the words. It is one of the most popular tunes for square dances.

Robert W. Gordon in speaking of the spiritual, says: "The Negro . . . incorporated a little of everything from the Bible down to popular stage songs of the day, and unified all by instilling into it his own peculiar psychology, pathos and humor. Frequently he unconsciously hit upon a literary effectiveness that puts to shame the studied artistry of the more learned writer."

Sponsored by citizens of Chattanooga.

French Folk Dances

By a group from Central Y. M. C. A. College, Chicago, Ill. Joseph Creanza, Leader.

Gavotte de Vestris

The gavotte descends directly from the old Branle, the source of French folk dances of the peasantry of France. Its folk origin is directly traced to the Gavats, the mountain peasants of Gap, in Dauphiny, in whose costume it was first danced at the court of Louis XV. Later, as the favorite of Marie Antoinette, the gavotte became a dance of fashion and style. In France, as in other countries, the dances which reach the ballrooms sometime originate with the folk.

Sponsored by the Central Y. M. C. A. College, Chicago.

Cake Walk

By Gertrude Blanton's group, Chattanooga, Tenn.

The Cake Dance was used in Ireland as far back as the seventeenth century. The cake was displayed on the top of a pole, to stimulate the dancers' efforts. Sometimes it was decked out in flowers. Whether the Negro borrowed the idea of his cake walk from European sources, or originated it, it is distinctively his own, though the whites have also used it.

An Evening In a Bunkhouse

By Wisconsin Lumberjacks, Mr. and Mrs. Otto Rindlsbacher, Leaders. Mayor J. H. Wallis, of Rice Lake, Wis., introducing the group.

Tamarack 'er Down
(A Norwegian Polka)

The tone chamber of the cigar box fiddle is made from a cigar box, the neck from a broomstick. The Irish bull fiddle is a tin box with a 6-foot neck, strung with a piece of rawhide, and played with a saw-like bow. It is strictly a rhythm instrument. The Paul Bunyan harp was made by a lumberjack, John Mather, a descendant of Cotton Mather. The tone chamber is hollowed birch log. The bangola is a crude instrument, made from a washtub and peavy. A piece of hay wire is tautly stretched from the bottom of the tub upward and fastened to the peavy. Tones are produced by plucking the string and tipping the peavy at various angles.

Stag Dance

Earl Schwartztrauber and Ray Calkins, accompanied by the squeeze box, a piccolo accordion, of the type that belongs to the Alpine regions of Europe and was brought into the region by Norwegians.

Waulking Song
Bheir mi he robhan Ho
(Eriskey Love Lilt)

(Johnny's in the Militia)

No form of music is older than the lulling or sleep-inducing music, for even the birds croon to their nestlings. In some forms, it is common to all nations, and in all ages. But among no people were lullabies as numerous and varied as in Ireland and the Scottish Highlands.

The "waulking" songs, used while a group of Islanders pull and thump the cloth taken from the loom, are famous among occupational songs for their rhythm and beauty. They have survived among a small group of Lewis Islanders, and Hebridean people from other islands, in the Lake Superior country of Minnesota. The language in which they are sung is always Gaelic. The dance lilt is called "mouth music," and are the vocal accompaniment to the reels, danced all night by the island people.

The Tamburitza is the oldest stringed instrument in use by a Christian nation. Devised by Carpathian mountain shepherds more than 15 centuries ago, it consisted originally of two strings stretched along a piece of dry wood. From it have come all the present members of the tamburitza family of instruments. Great European composers including Brahms, Liszt, Strauss and Tchaikowsky have called upon such fundamental folk themes as these in making some of their compositions.

Creole Songs

In the section of the United States embracing Louisiana, where French and Spanish are the predominant languages the natives did not make a dialect of the French or Spanish, but built up an independent language known as Creole. It is a systematic, well-defined tongue, more beautiful than the French, and kinder to the singing voice.

La Jesucita

In old Mexico, as well as in New Mexico, folk singing and dancing hold an important place in the Christmas customs of the Spanish American people. During the nine days of the Christmas holidays, processions carrying a sacred image of Christ pass through the town, knocking at each room asking a lodging for Mary and Joseph to whom the Christ is to be born on the ninth night. The procession arrives at the home where the Holy Pair are received with great rejoicing. This dance is used at that time.

When Jesus Christ Was Here Below
A foot-washing ceremonial of a Kentucky mountain religious sect.

Oh! Death

It is the belief of Mrs. James that the chants found among certain religious groups in the Kentucky mountains were influenced by Gregorian music, which early colonists brought from England to the Kentucky hills. Through years of isolation, they have remained in their original state and have been handed down traditionally.

Barbara Allen

(With Dulcimer Accompaniment)
Hard-hearted Barbara Allen figures in hundreds of ballads. The dulcimer is one of the oldest of musical instruments. It is referred to in the Bible. Chaucer speaks of it. Just what its form was in those days is the question. One type is an elaborate instrument with steel strings, played with two light hammers. The one played by Mrs. James has only three strings, and is played with quills. Early British colonists brought it to this country and used it to accompany the singing of the "ballads" and sometimes for dancing. However, this instrument of gentle tone was soon supplanted by the fiddle for dancing when more volume was needed.

Pottsville Clog

By Thomas McDonnell, with James Muldowney, fiddler, and Anthony Connors, harmonica.

The ballads used on this program are from "Minstrels of the Mine Patch," by George Korson, director of the Pennsylvania Folk Festival, Bucknell University. Elderly minstrels, who sing them here, carry on a tradition going back to the anthracite region's golden era of minstrelsy in the last century.

The miners' songs throw interesting light on the life in the "mine patch" 50 years ago. In them is found the story of strikes, mine disasters, breaker boys, Molly McGuire, Johnny Mitchell—much of the tragedy and the comedy of life in the darkness of the coal mine.

Railroad Songs

By George Hartel, Pennsylvania Railroad, Philadelphia, Pa.

Casey Jones

This, the best-known of all railroad songs, tells the story of a wreck on the Illinois Central Railroad about 30 years ago. A Negro engine wiper, Ike Wentworth, made the song; it was generally taken over by the folk, and every fiddler and many singers now know the tune.

Sponsored by the Pennsylvania Railroad.

Cowboy Ballads And Folk Dances

By Sherwood Folk and Square Dance Club, Denver, Colo. Mary Enholm and Paul J. Kermiet, Leaders.

I Ride An Old Paint

Margaret Larkin says, "This is a typical riding song—it lopes along gently to the rhythm of the horse."

Singing Quadrille

This dance was revived by Dr. Lloyd W. Shaw, Colorado Springs, Colo. There are four different figures, two being waltz quadrilles.

Irish Washerwoman

The tune to this quadrille, known to all fiddlers, is a popular one, but it is seldom heard as a singing quadrille.

Western Schottische

The traditional figures will be shown as well as different variations from Swedish influence in Colorado.

Varsoviennne

This is the most popular of all Western dances. Its grace and rhythm combined with Western vitality is characteristic of all cowboy dances.

Sicilian Circle

The difference between the Eastern and Western Circle is the abandon with which it is danced in the West.

O Jonah

The solo theme describes the incidents in the first and second chapters of the book of Jonah, a part of which reads: "They took up Jonah, and cast him forth into the sea; and the sea ceased from her raging—I cried by reason of mine affliction unto the Lord, and he heard me; out of the belly of hell cried I, and thou heardest my voice."

Trampin'

"Trampin'" a spiritual of determination, with the ultimate hope that the end of the journey will be the heavenly kingdom.

Who Be A Witness?

This is a description of the Negro's conception of the Book of Genesis, describing the Biblical characters of Methuselah, Samson, and Delilah. It also deals with the book of Isaiah, and the characters of the Pharisees and Nicodemus.

Swing Low, Sweet Chariot

One of the legends as to how this song came into existence tells of a mother who had been sold from a Tennessee plantation to go down into Mississippi. To prevent separation from her child, she was about to drown herself and babe. An old woman, seeing the mother's intentions, said, "Wait, let de chariot of de Lawd's scroll and read it to you."

The mother was so impressed with the words that she allowed herself to be sold, and left her baby behind. The song was based on this tale, which passed from mouth to mouth.

Nethin' But Joy in Dat Land

This spiritual is typical of many religious outbursts of praise and aspirations for the heavenly kingdom. Heaven was the place where he would find contentment, peace, love, and eternal happiness.

"While being transported on slave ships across the seas from Africa to America, the slave was forced to sing as a means of helping him to bear his shackles of bondage. On the great plantations of the South, he was encouraged to sing—first his secular songs, then spirituals—by his master, who realized that the slave who sang was the one who worked harder, was most happy, and was less trouble."—Harry K. Parker.

"The sea chantey met the same need for the sailor, in the days before the steamship, that the work-song did and does for the Negro in special kinds of labor. The white sailor, like the Negro in his work-song, added or changed verses when he felt like it. With the coming of the steamship, with new improvements, which made the work of the sailor different, the songs were no longer needed as work songs. Now they survive chiefly in the memory and hearts of the few remaining old sailors who knew them in the Clipper days."

War Songs

By Memorial Chapel Choir, Army Medical Center, Washington, D. C.

Yankee Doodle

Yankee Doodle is based on a popular English music hall song, long before the American Revolution. It is thought by some to have originated with "Lucy Locket Lost Her Pocket," by others, to have sprung from the Cromwellian Wars. It seems to have been introduced to the colonies during the French and Indian War, with new words deriding the colonial soldiers. The song, as we know it now, dates from about 1775.

Tenting Tonight

Before the Civil War, Walter Kittredge, of New Hampshire, was known as a ballad singer. He was drafted into the Army in 1863. On the eve of his departure for the front, he wrote this song.

Hot Time in the Old Town Tonight

This song was composed and published in 1897—just in time for the Spanish-American soldiers to pick it up. Most fiddlers throughout the country play the tune.

Long, Long Trail

Some of the soldiers' songs have sprung up anonymously. However, many were the popular songs of the day, composed by known authors. This version was written in 1913 by Stoddard King and Zo Elliott, then seniors at Yale. Elliott, who wrote the music, took the composition to Cambridge, England, when he entered Trinity College that fall. The "Trail" seeped back to America, and became immensely popular with the American Army. It returned to French trenches in competition with "Tipperary."

Taps

The bugle calls used today are from many foreign armies. France gave us "Reveille;" Germany, the "First Sergeant's Call;" Tattoo, or "Taps-to," to notify the camp that it was time to turn the tap "to" and cease the night's beer-drinking, dates from the Thirty Years War; "Retreat," many authorities believe, can be traced back to the Crusades. The words to "Taps," written during the Civil War, seem to spring from a sentimental need within the soldier.

The early Swedish colony in America built a fort, a school, a church and homes; they established trading posts and a law-court with a jury; they tilled the soil and planted fields. When William Penn arrived, his peaceful relations with the Indians were made possible by Swedish interpreters. The colony was taken over by the Dutch in 1665, and later by the English. Under these two influences, it retained its identity, keeping alive for over 300 years the traditions of the homeland.

Away Rio

"In the old days when American sailing ships still ploughed the seas, it was the custom of their sailors to enliven both their work and the leisure time with song. The songs were traditional compositions of unknown date and authorship, growing as all folk-song does, out of the needs and experience of men. Chanteys were the work-songs of the sea."

War Songs

Yankee Doodle

Old Gray Mare

The melody of the "Old Gray Mare" is borrowed from the Negro spiritual, the "Old Gray Mare Come Tearin' Out the Wilderness." The tune was used for one of the most popular Lincoln campaign songs in 1861. Its use was continued by soldiers in camp and on the march during the Civil War, and after the war was sung by civilians and veterans at rallies and on convivial occasions.

John Brown's Body

The air was known in England, Germany and Sweden as early as the eighteenth century as a marching and drinking song. It probably came to America about the close of that century as a Methodist camp-meeting song, and a drinking song.

Hinky, Dinky, Parley-Vee

Hinky Dinky is the outstanding survivor of the World War songs. The tune and verse structure are based on a song known in the British Army for many years. The "Mademoiselle" verses are new only in the sense that new words were fitted to an age-old tune. Some authorities trace the tune back to the old German, "Die Drei Reiter," known as early as the sixteenth century. "Hinky, Dinky," like Topsy, just grewed. It is genuinely folk.

Taps

Star Spangled Banner

Many songs, not distinctly folk, are based on folk melodies, religious and patriotic songs as well as others. Francis Scott Key wrote the words of our national anthem to the tune of an old English drinking song. It first appeared in handbill form, and did not become popular, except with the soldiers near and around Baltimore, until many years after the War of 1812.

27 States Represented At Festival

Groups From All
Parts of U. S. Here
For Gala Programs

Farms, villages, Indian reservations and cities of 27 States contribute the talent to be seen at this year's National Folk Festival. Several hundred homespun Americans have poured into the Nation's Capital to portray the American scene in song and dance.

For three days, with matinee and evening performances daily, these varied folk groups will present, informally and spontaneously, the equally varied tradition which makes up American folklore.

From Colorado to the Carolinas, from Connecticut to California, communities have sent their best performers. All groups are coming on an invitation basis, selected either by folklore experts or through competition at local and regional festivals. All pay their own travel expenses or are sent to Washington by organizations in their home locality. None receives pay for his performance here.

Only one full rehearsal has been held, for the festival is not the studied performance of professional actors. The performers have come here, not to take part in a formalized pageant or to speak lines assigned to them, but to have a good time with their countrymen. This is to be a festival in the true sense of the word—an occasion for merry-making, for both spectators and participants.

For the seventh successive year, a presentation by the Kiowa Indians, unequalled for rhythm, color and sparkle, will open each of the festival programs. It is seldom that Easterners have this opportunity of watching the tribal dances which were old when Columbus set foot on this continent.

Young Coloradans have brought that spirited type of dancing known only to cowboys. Tobacco stemmers will sing the songs with which they lighten their labor. Other work songs will be sung by sailors, lumberjacks, railroaders, cotton pickers and other occupational groups.

This year's festival reaches into a comparatively new field—the many national groups which, though America has been their home for generations, still cling to the traditions of their ancestral homelands. Hence the appearance on the pro-

Whaling apparatus, Indian art, Ukrainian costumes and crafts, handwork of southern mountaineers, books and photographs also are included in the exhibit, which was arranged by Mrs. E. Adams Whyte, recorder of the General Land Office, Department of the Interior. The display will be open before and after performances of the National Folk Festival and during intermissions.

Recordings Made of Six Performances

Complete recordings of the Seventh annual National Folk Festival will soon be available for individuals and schools. Transcriptions of six performances are being made by Electroreporter, Inc., Jesse L. Ward, President, 1706 L street northwest, Washington, D. C., which, in cooperation with the National Folk Festival Association, will produce transcription records suitable for general use.

gram of Dutch, Swedish, Finnish, Lithuanian and French groups.

Most students probably will hear many an unfamiliar instrument during the current festival. The Croatian tamburitza, the Finnish kantele, the bamboo pipes, the dulcimer, and the home-made instruments peculiar to the Northwestern lumberjack are readily accessible in certain sections of the country, but rarely are so many brought together for one three-day show.

Invaluable Aid Given Festival

For their invaluable aid in making the Festival a success, special thanks are due the following: Those who served on the various Washington co-operative committees, President Franklin Delano Roosevelt, Board of Education, Congress of Parents and Teachers Association, Capitol Architect's Office, National Geographic Society, United States National Museum of the Smithsonian Institution, Columbia Broadcasting System, National Broadcasting Company, Mutual Broadcasting Company, Board of Trade, Greater National Capital Committee, Harrington Hotel.

Conferences On Folklore Being Held

Morning Sessions
Open to
Public

Folklore conferences, open to the public without charge, will be held at the Harrington, headquarters hotel for the seventh annual National Folk Festival, on Friday and Saturday from 10 a. m. until noon. Miss Elizabeth Andrews, principal of Bancroft School, will preside. Arthur L. Campa, of the University of New Mexico, will serve as discussion leader at the Saturday session.

The Friday program is as follows:
Gregorian music in relation to folk music
Rev. Denis Mooney, O. F. M., Franciscan Monastery, Washington, D. C.
Music inspiration
Miss Marjorie Edgar, Marine on St. Croix, Minn.
Gaelic songs—with demonstrations
John H. Matheson, Duluth, Minn.
Fiddle tune demonstration
Will E. Aver, Putney, Vt.
Migrant folk songs—with demonstrations
Margaret Valiant, National Youth Administration, Washington, D. C.
History of whaling
Dr. Remington Kellogg, Assistant Curator, Division of Mammals, U. S. National Museum, Washington, D. C.
Folk dances in New England
Ralph Page, Munsonville, N. H.
Sammy Sprague's group from Ohio, Mass.—demonstrating.
Saturday's program includes:
Miner's songs
George Korson, Bucknell University, Lewisburg, Pa.
The Lore of the Upper Missouri
Mrs. Edna LaMoore Waldo, Bismarck, N. Dak.
Negro folk tales
William Pickens, Association for the Advancement of Colored People, New York City.
Finnish folk songs—with demonstration
S. B. Ruohoniemi, Floodwood, Minn.
Kentucky Mountain folk songs—with demonstration
Katherine Harbison, Chicago, Ill.
Traditional ballads and square dances in North Carolina—with demonstration
Bascom Lamar Lunsford, Asheville, N. C.

Roosevelt Interested In Folk Movement

"We in the United States are amazingly rich in the elements from which to weave a culture. We have the best of man's past on which to draw, brought to us by our native folk and folk from all parts of the world. In binding these elements into a national fabric of beauty and strength, let us keep the original fibers intact."

Franklin D. Roosevelt.

Folk Festival Had Origin In St. Louis

Association Founded
There Seven
Years Ago

The 1940 edition of the National Folk Festival marks the seventh year of the festival's existence. The National Folk Festival Association was founded in St. Louis in 1933 by a group of folklore authorities who realized the need for preserving the traditional songs and dances of America.

Paul Green, Pulitzer Prize playwright and University of North Carolina professor, was named president; Sarah Gertrude Knott, director, and M. J. Pickering, business manager. This triumvirate has guided the association's policies ever since.

The first festival was held at St. Louis in 1934; the second, at Chattanooga, Tenn.; the third at Dallas, Tex., and the fourth in Chicago. The fifth annual festival took place in Washington in 1938, with such success that a repeat performance was given the following year.

"It is a tribute to the enthusiasm and discernment of Washington audiences that the National Folk Festival is being held here for the third successive year," according to Miss Knott. "We of the Folk Festival Association feel our project is national in scope and hence belongs in the National Capital, and we are gratified by the response the festival has received here."

On the national committee of the association are:

Dr. Homer P. Rainey, vice president; Dr. Vaud A. Travis, vice president; Maurice J. Speiser, general counsel; Bascom Lamar Lunsford, Julian V. Boehm, Douglas M. Johnson, Dr. Thomas E. Jones, George Korson, James G. K. McClure, Dr. Louise Pound, Thomas Quinlan, Jr., Dr. Floyd W. Reeves, Frank H. Watson, Fred L. Weede, Maurice Weil.

National Folk Festival Keeps Alive Traditions

The National Folk Festival has as its objective the bringing together of groups exhibiting the characteristic folk expressions of the various sections of the United States, in the belief that national incentive gives encouragement to regional and community folk festivals, and that continued participation in such festivals keeps alive the fine traditions used here since the early days. These traditions are needed as much now, in the new period of pioneering in search for a new way of life in a complex civilization, as when our pioneer fathers cut their way through the wilderness and established their homes.

THE PURPOSE AND AIMS OF THE
NATIONAL FOLK FESTIVAL ASSOCIATION AND
ALLIED COMMUNITY FOLK FESTIVALS

By-Sarah Gertrude Knott

THE NATIONAL FOLK FESTIVAL

Seven Annual National Folk Festivals have been held in the United States since 1934 in St. Louis, Chattanooga, Dallas, Chicago, and for the last three years in Washington. The Eighth Annual National Folk Festival will be held in the nation's capital May 1, 2 and 3, 1941, under the sponsorship of the Washington Post Folk Festival Association.

OBJECTIVE

The objective of the National Folk Festival is to bring together annually the varied racial groups from the different sections of the United States, with their characteristic folk expressions for a people's holiday and merry-making. In addition to the joy the Festival gives to participants and audiences, it reflects the social life and traditional customs used since early days. Through the inter-change of distinctive folk-songs, music, dances, myths and folk stories of different races will come, we hope, a better understanding and more tolerance which should result in stronger national unity. It hopes to create consciousness of the richness of our traditional folk-art, the basic art, which would undoubtedly help to inspire classic art built on these roots.

WHAT THE PROGRAMS INCLUDE

The programs include folk-song, music, dance and other traditional expressions handed down orally and traditionally, presented generally by rural people who have been their guardians. They reflect the age in which they are used. A National Folk Festival twenty-five years ago would have told a different story, one less touched by modern civilization. The best possible examples of survivals by groups that could work out a way to get to the festivals have been included. But as chances became less and less auspicious for survival, efforts for revival seemed necessary. At the Seventh Festival it was no longer possible to present some of the survivals which appeared on the program of the first festival in St. Louis. The participants who knew the songs traditionally were too old to come. So a few groups with revivals or with dances taught, have been accepted. Though the programs especially feature rural folk, some urban groups have been admitted because the American square dance and other traditions are needed and used by city dwellers as well as rural folk. Many people who now live in cities know and love folk-song music and dance because they are of rural birth and background.

INCENTIVE FOR COMMUNITY FESTIVALS

The chief interest of the National Folk Festival Association was, at first, the development of an annual National Folk Festival, to show a cross-section of the folk-expressions of the major racial groups which have contributed most to the folk-life of the United States.

At the beginning, community folk festivals were held only in the state or region where the National Folk Festival was presented in connection with the development of its program. From these festivals the best representatives were sent to the National. As time has passed, we have seen the importance of them for their own value to the community. We have encouraged festivals regardless of participation in the National. We have recognized the part the traditions of old and new Americans can play in community and national life. The National Folk Festival can serve only a limited number of participants since it is held only in one city each year and lasts only three days. The community festival arouses in each community an interest in and appreciation of the deeply-rooted, basic cultures peculiar to that community. It offers many a chance to participate and even more the opportunity to witness performances. It gives the community an additional cultural leisure-time activity, which costs little money and can be carried on by local leaders.

For several years there has been a growing interest in community folk festivals, especially among rural leaders, many directly or indirectly given incentive by the National Folk Festival. Those mentioned below have been directly influenced.

Before the first National Folk Festival in St. Louis in 1934, eighteen community festivals were held in the Arkansas and Missouri Ozarks with May Kennedy McCord, of Springfield, leader. Prior to the second Festival in Chattanooga in 1935, regional festivals were held in four different sections of Tennessee. Fred W. Colby of Nashville, Tennessee, has carried on

the work throughout the state since then. Preliminary to the third event at Dallas in 1936, thirty community festivals were held in Texas, and four in Louisiana. Also in that year, four Indian festivals were held in different sections of Oklahoma. In connection with the festival in Chicago in 1937, several festivals were given in Illinois and Wisconsin.

In the last three years, as a result of interest created by the National Folk Festival in Washington, a number of schools in the District have had school festivals of one kind or another. Six thousand and more school children have attended each Festival in Washington, with the result that teachers and students have become more aware of the "living" traditions. Delaware has had a state folk festival for three years. Upper Marlboro, and Frederick, Maryland; Fairfax, Virginia; University of West Virginia and other communities have presented local festivals. The annual Mountain Song and Dance Festival at Asheville, North Carolina has been carried on for the past fourteen years, directed by Bascom Lamar Lunsford, member of our National Executive Committee, and a pioneer in the folk field. Pennsylvania has had state folk festivals in addition to numerous community ones under the direction of George Korson of Bucknell University, also a member of our National Executive Committee. A California folk festival was staged in 1939 at the Golden Gate Exposition by M. J. Pickering, Business Manager of the National Folk Festival.

The interest created in many communities has continued, and festivals are regularly held in a number of places though not in all where they have been begun. Most of the leaders have set up and insisted upon definite standards. In such instances the work has gone forward. But where the leaders did not stick to genuine folk traditions, the plans have fallen through. It is our hope this year that many more leaders in different communities throughout the country will make plans for annual state or community folk festivals and that they will hold to the best in the traditions of their communities.

EXPERIMENT IN NEW MEXICO

Last year, in connection with the United States Coronado Cuarto Centennial, in New Mexico, as Supervisor of Folk Festivals, I had the opportunity, in cooperation with Arthur L. Camp, of the University of New Mexico, of proving what could be done under proper conditions. Two hundred folk festivals were held in the various Spanish-American and Anglo communities with a few Indian festivals on the Navajo reservation.

State-wide Educational Program Carried on For Six Months. If the folk festivals in New Mexico had been planned purely as entertainment, quickly arranged and soon over, they would have made no imprint on the state, but being thoughtfully planned and executed after a period of six months preparation, many of the traditions, which otherwise would have passed from the scene, were reclaimed for continued use.

The state-wide plans were made in the fall of last year, through the cooperation of teachers and community leaders in most of the schools and communities. After Christmas the plans were put into operation and continued until spring, when the festivals began.

School Plans. The music teachers in schools taught the folk-songs of New Mexico, as a regular part of the music course. Physical education directors emphasized the folk-dances. Legend and folk-tales were featured in the class room. Many projects were worked out by teachers of different departments to make the students of the state more conscious of the charm and worth of the traditional heritages of the Indian, Spanish-American and Anglo. In a number of cases, the teachers had the students collect legends, tales, superstitions, etc. to record for future use. Through this plan new impetus was given to the use of the rich folk legacies. New appreciation was felt of the privilege of living in a state with three sets of folk-traditions, expressing three philosophies of life.

There can be no doubt that the state taken as a whole still has more survivals of traditional expressions, and they are more generally used in everyday life than any other. Yet modernity is taking its toll even there. The Coronado Cuarto Centennial Folk Festival program came at the logical time to give new impetus.

Community Activities. In many communities "get-togethers" were held for several months for the adults. Teachers in the community, and people generally, came together to learn folk-dances or singing-games. Leaders who knew them taught others or if all knew them, they enjoyed a weekly evening of folk-dancing. By the time spring had come, many had learned again the dances that were giving way to newer forms which did not serve as well.

through telling the "tall" tales. Legends which were slipping out of the memories of those of the older generations and had not been taken up by the new were given new life.

The 16th century Spanish-American folk-drama of the Miracle and Morality variety was revived. This type of traditional drama has served as New Mexico's "Little Theater." It has met the need which professional drama could not meet in a state of isolated communities. It has been used since the Spanish-American came into the region in the early 17th century. In many communities where they were ceasing to be done, they were again presented through the incentive given by the state-wide interest in the return to the traditional.

Though good roads now bind together the isolated communities of the state, the Spanish-American in New Mexico is still economically bound to the soil. Until that condition is radically changed the traditions will be needed. No other form of recreation can take the place of the deeply-rooted folk-traditions which have served the state for four hundred years.

New Mexico Plan Logical for Other States or Communities. Similar plans could be carried on in many states or communities, differing according to the needs. Many contend that we are a standardized nation. We are in many ways. We are making too much of an effort to make alike each community, rural or urban. Individual differences and needs should be recognized. There are still many rural communities besides New Mexico where actual living conditions have not changed much with the rapidly changing civilization around them. There are communities where organized recreation through the National Recreation Association, City Recreation Departments or Extension Divisions of State Universities have not been able to reach. In some communities where they have reached, often their splendid programs fail to utilize the leadership and natural heritages of the folk of the community. Frequently leaders do not fully realize the possibilities of such programs. A part of the program for rural recreation surely should be one which stresses the importance of the inherent dignity of rural culture, as well as one emphasizing the fine points of urban culture. It should prepare rural folk for more joyous living, by utilizing their own resources.

During the National Recreation Association Congress in Cleveland last October, I attended the discussion sessions where rural culture and recreation were discussed. In every meeting there were those who are making use of folk expressions. But always there were some who felt that stressing the use of folk-song, music and dance was going back to the "horse-and-buggy" days. They did not recognize how much older than that is folk-culture. They did not think of it as the fountain source and well worth the return for inspiration and refreshment. These genuine natural expressions are as greatly needed now as when our pioneer forefathers used them as they cut their way through wildernesses to establish homes here. We are pioneering again searching for better ways of life in a civilization much more complex than our fathers found here. We need simple, wholesome recreation to help us keep our balance in these confused times, more, perhaps, than early colonists needed it to lighten the load and offset the prosaic, monotonous days of early trail-blazing.

The community festival is a logical way of giving a needed recreational activity, of utilizing and dignifying rich heritages to serve a definite need now generally felt.

SIGNIFICANCE OF PROGRAM

If the traditional expressions existing in the United States had no roots in the past, no possibility of life in the future, the joy that comes through their use today would be sufficient reason for national and community folk festivals. But there is value to the folk-traditions in addition to present recreational worth. There is more to the folk-song than the tune of it, more to the folk-dance than its form, more to the myth than the tale it tells. In our traditional expressions are recorded the social life of early America, and the growing, changing later America. They reflect the "living history" of our country, the struggles and joys we have had together in establishing a new nation. Through them we glimpse the life of native lands from which our peoples have come. They reach far back into the days of unrecorded history and tell us the customs and beliefs, the longings and desires of those days.

We cannot blind ourselves to the fact that the foundations of our basic cultures should be projected into the future because their forms are fundamental. Our cultural and social life, for rural and urban people, will be less rich if we lose them. As they have served the past and are used in the present, so will the future need them. They should not be blown away with a changing civilization.

PRESERVATION OF TRADITIONAL HERITAGES THROUGH USE IN THE PRESENT

This is a significant age of transition between an older, simpler America and a new, more standardized, uncertain one. If our traditional expressions are to be continued into the future, a conscious effort must be made. The chances are that many will not be continued as an unconscious art, as they have been in the past. The machine age and industrialism have brought an end to many folk-ways and traditional customs in other countries. The folk-lore of every nation passes through three stages. In the first, it is in its prime. No outside influence has touched it. In the second, it is on the down-grade because of outside influence, but it still has vitality to respond to stimulus. In the third, there is no life upon which to build revival. We are in the second stage today.

We cannot expect these expressions to survive in their purest forms when conditions that brought them into being, or kept them alive thus far, radically change. The isolated communities where folk-song, music, dance, myth and folk-tale flourished in their purest forms are now connected by radio, good roads and automobiles with the outside world. Rivals in other forms of entertainment have appeared where once the traditional alone held sway. So a new attitude toward them must be taken if they are to remain to enrich the soil from which they sprang. They must be emphasized in order that survival may continue longer and revival come sooner, while there is a "living" pattern to go by. While they are vital forces in our lives they should be incorporated in the roots of our culture.

We are thinking much about conservation of forests, wild life, and land. Land can be restored, forests brought back, but once life has gone out of the people's stories, songs and dances, the intimate reflections of their deepest sentiments and feelings, they cannot be restored to their original form. Perhaps some day in the future, when folk-ways shall have given way to standardization, men will try to piece together the fabric of song, dance, and legend, better to understand life today. But the spirit will be lost. Now, while the traditions endure, is our opportunity.

Since there is at present, almost the first general interest in traditional heritages in the United States, we should take advantage of the situation and make organized efforts to preserve them, as we are trying to preserve our forests, wild life and land. Scholarly work in collecting and recording is necessary for history and invaluable to leaders of folk groups, but it fails to pass on the vital spark which oral transmission gives.

With old ways of life breaking down in many lands, the United States has a vital part to play as guardian of European heritages. Unless the attitude in Europe changes, and if we continue our democratic way of life, they is the place where they must be preserved. Many of the nations of the Old World with civilization much older than ours have had revivals at one time or another, but usually after living forms had passed. Fabrics had to be pieced together from records and books. The original spontaneity was gone. We should not make this mistake.

COLLECTING FOLK-MATERIALS DATES BACK TO ANCIENT DAYS

Interest in collecting traditional materials of the folk goes back, we know, as far as the "Vedas", and has come on down, with great gaps, through the time of Christ to the present day, each collection reflecting certain periods. Until modern times however only comparatively few scholars were attracted to folk-lore, though earliest literature made use of the lore of the folk which had been handed down orally. As printing facilities became better, the traditions which had long been transmitted by word of mouth found their way more and more to the written page.

There has gradually developed a widening of interest in folk-lore in all countries. Though some of the European countries, especially Scandinavia, in the early 17th century, started collections and established museums of folk materials, it was not until the middle of the 19th century that folk-lore really attained the status of value as a science recognized by scholars generally in western Europe and America. In 1846 the term "traditions" or "popular antiquities" became "folk-lore" through the coinage of the word by Thoms, of England. This new word "folk-lore" was more usable, more living. No doubt it played a part in opening the way for continued interest in traditional forms, than would have been possible through the use of "antiquities" which seems to have no connection with the present.

SCIENTIFIC AND LITERARY INTEREST IN THE LAST HUNDRED YEARS.

During the latter part of the last century, through incentive given by the scientific methods laid down by the Brothers Grimm, of Germany, folklorists from England, Germany, France, Scandinavia, America and other

countries have made comparative studies analyzed and classified myths, legends, folk-tales, superstitions, music and dance. The chief concern of many of the immediate followers of the Grimm Brothers was to trace the history of the human race through scientific study of folk-lore. There was no other way except through archaeological findings to open the closed doors of the past.

Other scholars in these countries, for more specific literary purposes, have analyzed, classified and collected the folk material. Generally they have dealt with materials from purely the literary standpoint, with no thought of putting them back into circulation, or making them serve a purpose except for those interested in literary pursuits.

Since the turn of the present century, however, there has developed a steadily growing interest in collecting folk expressions among musicians, dancers, and lovers of folk-tales for their own value. These later collectors are interested in making use of them or making them available to others. Just as scientific and literary interest in folk-lore spread in earlier days throughout western Europe and America, at about the same period, so this more recent humanized approach came to the different countries.

MORE RECENT GROWTH OF INTEREST

Cecil J. Sharp, of England, had vision beyond collecting. He saw value in folk-lore for social purposes, and recognized the need for revival since many of the original forms had ceased to exist in England. He was a musician as well as a literary man. His collections, with music for songs and directions for dances, made in England and America, about thirty years ago, and his interest in teaching started a revival in England which spread to the other European countries and reached America. His contribution was teaching and "showing", as well as collecting.

The first collections of British ballads and folk-songs in the United States by Child, Kittredge, Pound and others, included texts of traditional ballads collected and discussed from the literary standpoint with little or no music. More recent collections have been made covering the traditional expressions of the Indian, British, Spanish-American, German, French and other Old World heritages, also Negro, lumberjack, cowboy, miner, sailor and other New World creations, which have contributed to American folk-life. Many of the first collections here were not made with any idea of continued use as folk expressions.

Within the last ten years, however, there has been an increasing interest in useable songs, music and dances, including music for the songs, directions for the dances, as well as myths and tales for use. Music teachers, physical education directors, rural sociologists, recreation leaders and others, have begun to draw upon these sources for materials. Even anthropologists and scientific folk-lorists are beginning to humanize their approach. This broadening of interest has not only been in evidence in our country but in Canada, Mexico and some of the South American countries as well as in Europe.

During the last ten years there has been a tendency on the part of the peoples of many nations to return to the simple fundamentals of folk-song, music and dance. National or international folk-festivals have been held in England, Sweden, Hungary, Germany, Russia, Canada, Mexico and Bolivia, as well as in the United States. The National Folk Festival preceded most of those mentioned. In 1935 I attended the International Folk Dance Festival in London. The objectives were much the same as those of the National Folk Festival, comparative study, recognition of social values, and creating better understanding through interchange of folk-dance. There was such recognition of the value of these objectives among the European countries that the majority of the governments of the participating nations officially sponsored the groups.

As I saw group after group move across the stage of Royal Albert Hall with their characteristic dances I thought, "What color! What strength! What simple natural grace! Here they represent eighteen different countries. In my land they are all part of one nation over which the Stars and Stripes wave. What opportunity is ours!"

IMPORTANCE OF FOLK TRADITIONS TO NATIONAL LIFE

We feel that the National Folk Festival, which has sunk its roots deep into American soil, has a part to play in national life if war comes to our doors. Battles are not won by battle-ships or airplanes alone. The spirit of the people counts. With a foundation in the various communities already laid, we feel that we can do much in helping our people hold their balance "behind the lines." We can play a part in "defense from within."

RUSSIA AND GERMANY USED FOR PROPAGANDA

We are being guided in many ways now by successes and failures of nations in the present European struggles. At first dictators paid no attention to the folk expressions. Hitler, however, has made use of the traditional expressions of Germany through his youth program for ten years or more. He has bound together the German youth, many now soldiers, through folk-song, music and dance. They have played an important part in helping him build up a strong national and racial consciousness and pride. His has not been a broad sympathetic philosophy. It has been the opposite of what should be the ideal use of folk traditions in a democratic nation. But his plan does show the strength of folk expressions as the ties that bind.

Russia has had a somewhat similar program, with the same general objectives. Both Germany and Russia have used the traditional expressions or revivals as propaganda to develop totalitarian states. The dictators recognize the sentimental approach which folk expressions gave them.

Czechoslovakia and Finland Used to Strengthen Loyalties. The folk traditions of Czechoslovakia kept alive the spirit of the country for four hundred years during its dismemberment before the nation was again united after the World War. The fighting spirit of the Finns owes a debt to traditional ties that gave them common ideals and purposes.

England Saw the Need in Governing Peoples of Diverse Cultures. England's scientists saw the value of traditions a number of years ago. One of the earlier scientific folk-lorists, Tylor, writing about 1870 and speaking of England said: "She who rules over vast territories of infinite diversity...of all stages of culture, cannot possibly govern without taking into account the motivating powers that actuate them." Folk-lorist Hartland, Tylor's English contemporary, said: "What a waste of precious human lives might have been avoided in our manifold dealings...if we had been acquainted with their modes of thought." Since that time, efforts have been made by scholars and scientists in our country, as well as in others, to understand the individual characteristics of various peoples which are best expressed through folk traditions.

TRADITIONAL TIES UNITE THE AMERICAS INVITATION TO OUR NEIGHBORS

Until very recent times we looked to Europe for our cultural and economic patterns. The startling events in Europe have made us see the wisdom and the necessity of developing cultural and economic relations with nations in this Hemisphere. At last we are opening our eyes to see that we are really related and tied together through strong bonds.

Since its beginning, the National Folk Festival has included on its programs many of the traditions common to Canada, Mexico, South America, the Islands and the United States. We recognize that many of the traditional expressions in the United States bind us to these countries as well as to Europe. Recognizing the value of strengthening ties through interchange of traditional heritages, last year the Territory of Hawaii was represented on the Festival program, through the cooperation of Dr. Martha Beckwith of Vassar College Folk-lore Foundation and Miss Alice Brown of Honolulu, Hawaii. This year we are eager to have South America, Mexico, Canada and the Islands send guest groups to the Eighth Annual National Folk Festival. This offers a logical medium for interchange between these countries.

The common ties of language and traditional customs are the strongest ones that we have with Canada, Mexico, South America and the Islands. Strong are the language and traditional ties of the English, French, Scotch and other stocks common to America and Canada. Invaluable in understanding Mexico and South America are the Spanish language and Spanish-American traditions which have existed on what is now United States soil for four hundred years. The "Good Neighbor" policy should begin at home. When we really come to recognize, appreciate, and claim as our own the cultural heritages of our own national family with its varied stocks, it will be much easier to establish genuine cultural relations with kinsmen in other countries.

The Cultural Division of the State Department and the Pan American Union have broad programs for developing better cultural relations between the Americas. The National Folk Festival is most concerned with the folk traditions and their cultural significances to our own country. However, we feel that with the development of appreciation of our own folk heritages and the insight into the distinctive character of each group, will come a better basis for understanding our neighbors whose presentations we are eager to include on this year's program.

TIME FOR RECOGNITION OF VALUES BY UNITED STATES

It is high time for the United States to recognize the worth of folk traditions in democratizing our peoples, in creating better understanding, more tolerance, and stronger national unity. Few nations, if any, have as many living folk expressions as we have and none has the variety which our many racial groups give us. Each group within our borders has its own peculiar temperament, its own distinctive quality and philosophy of life. Inherent characteristics of each are expressed in folk-song, music, dance, legend and folk-stories. An intelligent use of these traditions now would undoubtedly go far in making possible a richer cultural life in peace times, and a more united front in the emergency of war.

If totalitarian states have found the folk traditions of value in developing esprit de corps; if Czechoslovakia, Finland and other countries in peace as well as war-time have found joy, strength and spirit in them; if England has recognized the importance of traditions that express racial temperament, prejudices and traditional ways of life in governing her people, is it not well for the United States with its many groups of diverse philosophies of life, which may be used for weal or woe, to consider well its folk traditions? May this not be a way to understanding and unity?

From the vantage point of the mid-twentieth century, we see many significances in the individual differences of our peoples which we could not have seen earlier. Time had to give us perspective. If the white man in early days had better understood the Indian's nature...but then, he could not until he glimpsed it in his age-old ceremonials through which his soul speaks. If we had known the burdened soul of the Negro in bondage...but then, we could not until we heard his soul cry through his spirituals, which grew out of that burden. If we had become better acquainted with our Spanish-Americans whose traditions have roots four hundred years old on what is now United States soil...but it took a world crisis to attract attention to them. As last we are beginning, along with other older nations, to understand that folk traditions are not just "relics of an outlived" past. They are vital today.

Dear Sir,

For some time past a small group of people have interested themselves in our local Indian Band (Inkameep Indian Reserve) especially in the work of the talented young artist - Sis-hu-ulk. You may have heard of his work having been exhibited in London, Paris etc. Her Majesty, the Queen, purchased one of his pictures during the London exhibition.

We are very proud of the fact that Mr. Antony Walsh, the teacher on the Inkameep Reserve, has recently received an invitation to attend the "Washington Post National Folk Festival" at Washington D.C. together with a small number of his talented young pupils.

We should very much like to see Canada represented at the forthcoming Festival were it possible to finance the undertaking. There is good reason to believe that Mr. Walsh's creative work based on old Indian traditions, is quite unique, as is the extraordinary talent manifested by the Inkameep Indian Band in general.

However, before taking any further action we would ask you to kindly let us know whether this project would meet with your approval. We have already explained to Miss S.G. Knott, Director of the National Folk Festival at Washington that it would be necessary to obtain your approval before the offer could be considered.

We shall greatly appreciate your reply informing us as to your views in this matter.

Yours truly,
Okanagan Society for the Research and Revival
of Indian Arts and Crafts.

Dear Miss Knott:

Your letter of February 20, addressed to the Minister of this Department, has been passed on to me for consideration and reply.

I have read with interest the purpose and aims of the organization you represent, outlined in the memorandum enclosed with your communication. I can state without hesitation that I have nothing but words of commendation for the work in which your organization is engaged, and I feel confident that the Eighth Annual Folk Festival, to be held in Washington May 1, 2 and 3, will prove of more than ordinary educational and inspirational value to the people taking part therein.

I regret to state, however, that existing regulations make it almost impossible for us to seriously consider allowing Mr. Walsh, of the Inkameep Indian Day School, to visit Washington and take part in your festival of this year.

Since the outbreak of the war, we have been limiting travel on the part of Civil Servants to a few excursions that cannot be avoided without impairing the efficiency of our service. In addition to this, we have discouraged travel to the United States, in the hope that by so doing we could conserve funds and thus enable the Government to make greater war purchases in your country. An exception, of course, might be made in the case of Mr. Walsh, but it is

exceedingly -

exceedingly difficult to make such exceptions without at the same time creating dissatisfaction amongst other members of the service, who feel that the work in which they are engaged is of equal or even greater importance than the work in which Mr. Walsh has been so successful. In view of all the circumstances, therefore, it will not be possible for Mr. Walsh to visit Washington this year. It is scarcely necessary, however, to add that when normal conditions are restored we should be glad to again review your invitation carefully and sympathetically. In the meantime, may I thank you very heartily for the courtesy and thoughtfulness that prompted you to remember us in this connection and to extend the invitation.

Yours very truly,

A. W. Walsh

MEMORANDUM

Feb. 25, 1941

THE DEPUTY MINISTER

Eighth Annual National Folk Festival,
Washington, D.C., May 1, 2 & 3.
re- Representation from Canada

I send herewith a letter (Feb. 20) addressed to the Minister by Miss Sarah Gertrude Knott, National Director of the Eighth Annual National Folk Festival, Sponsored by Washington Post Folk Festival Association, Suite 101, Munsey Building, 1329 E. Street, Northwest, Washington, D.C., together with the material mentioned therein and received under separate cover. I quote briefly the request:

"This year we are inviting Canada, Mexico, South America and some of the Islands, to send guest groups.

"This year we heard through Frederick Koch, of the University of North Carolina, who gives a course each summer in playwriting at Banff, of the work of Anthony Walsh at Inkameep. We know from what Mr. Koch has told us and from material we have had which shows the splendid work of Mr. Walsh, that he is doing a genuinely outstanding job there. We are eager to have him bring a small group to the National Folk Festival to represent Canada here. We know that we shall have to have your approval to do this".
.....

"Will you please let us know if you would give us your approval of the plan?".

The correspondence is referred to the department for the necessary attention.

Dear Mr. Crearer:

We are holding the Eighth Annual National Folk Festival in Washington May 1, 2 and 3.. I am sending you under separate cover a program of last year's Festival and a Statement of Aims, from which you will see what we are trying to do.

From the program you will see that twenty-seven states and the Territory of Hawaii were represented last year. This year we are inviting Canada, Mexico, South America and some of the Islands to send guest groups.

We feel very sure that the National Folk Festival in the last seven years has done much in bringing about better understanding, more tolerance and stronger national unity through an interchange of the folk traditions that express the inherent characteristics of us all, so this year, since there is such need for us to understand our neighbors to the north and south, as well as those in the other America, we have invited these groups.

Each year for the last seven years we have opened our program with the Indian presentations from the United States. We have had on the programs during these years, the Kiowas from Oklahoma, the Mescalero Apaches, the Zunis, the Navajos, the Sioux, The Blackfeet and Cherokees.

We have had the cooperation and confidence of Mr. John Collier and many others in the Indian office here.

This year we heard through Frederick Koch, of the University of North Carolina, who gives a course each summer in playwriting at Banff, of the work of Anthony Walsh at Inkameep. We know from what Mr. Koch has told us and from material we have had which shows the splendid work of Mr. Walsh, that he is doing a genuinely outstanding job there. We are eager to have him bring a small group to the National Folk Festival to represent Canada here. We know that we shall have to have your approval to do this. When you have looked over the material which I am sending, will you please

let us know if you would give us your approval of the plan?

The National Folk Festival is not a commercial organization. It is a cooperative, cultural, educational one, as you will see from this letterhead. It would not be possible for us to have a budget large enough to pay the expenses, even of the groups who come from the widely separated communities of the United States. This has been done for the last seven years by civic and educational interests in the state or community from which the group comes. We have found that Chambers of Commerce, tourist associations, etc., are often interested because it calls attention to their particular community and shows that they have a part to play in the cultural folk life of the United States.

I had a letter this morning from Mrs. Daisy C. Millar, Box 2, RR 1, Oliver, B. C. She is interested in cooperating with us in working out plans, but first we must await your approval.

Of course, the Indian traditions are of great importance to Canada, as well as to the United States. Their traditions, of course, are most ancient and are most real. The Indian office here and the Indians themselves have felt that it is a good thing, as they take on the white man's civilization for them to recognize and appreciate the splendid racial background which they have. Their history and their background is, of course, told only through their traditions. We believe that many of the people of the United States understand the Indians better since they have met them as audiences in the National Folk Festival. They have felt the deep significance of the Indian tradition as they have never felt it before.

We think that Mr. Walsh is especially forward-looking in doing creative work based on the old Indian traditions. We have long believed that such a thing should be. In our Country we do not know of an instance comparable to what we think Mr. Walsh is doing at Inkameep, so we would be proud, indeed, to have him on our Festival.

All good wishes.

Sincerely,

Sarah Gertrude Knott

Ottawa, March 12, 1941.

Dear Miss Millar:

Your letter of March 6, addressed to the Honourable T. A. Crerar, Minister of Mines and Resources, has been passed on to me for consideration and reply.

I am sending forward, for your information, copy of a letter dated March 4, 1941, and addressed by me to Miss Sarah G. Knott, Director of the National Folk Festival. The subject matter of this letter, you will note, is self-explanatory.

There is little that I can add to the opinion expressed in my letter to Miss Knott. Under existing regulations it is difficult, indeed I might say almost impossible, to secure the funds necessary for excursions of any kind to the United States. We are all deeply interested in the work Mr. Walsh has undertaken and accomplished at the Inkameep School and very proud of the success of his pupils, particularly Sis-hu-lk. Under ordinary circumstances, therefore, it would be a pleasure and a privilege to permit this teacher to visit Washington. I am convinced, however, that in view of the decisions reached here from day to day, in the case of applications of citizens to visit the United States, it would be very unwise to grant permission to Mr. Walsh to attend this year's Folk Festival. As I intimated to Miss Knott, however, when conditions again become normal, there is no reason whatever why this request cannot be again

Folk Festival Will Reflect New Spirit of National Unity

By Sarah Gertrude Knott
Founder and Director,
National Folk Festival

IN these days of turbulence abroad and anxiety at home it is easy to understand the upsurge of interest in all things American. This new nationalism, whether it finds an outlet in a popular patriotic song or in the products of American dress designers, represents a return to the things of our fathers, taken for granted in times of peace but sought as a refuge when trouble comes. Then the veneer of sophistication wears thin, the superficial class barriers disappear and the foundation stone on which our land is built stands revealed. We find that Americans under pressure from a totalitarian foe are strangely similar to Americans under pressure from civil strife, as in the 1860's, and from tyranny, as in 1776. And so, even while we prepare to defend ourselves in the future, we find our thoughts irresistibly drawn to the people and the customs of the past.

Thus the eighth annual National Folk Festival, opening May 1 at Constitution Hall, seems to come at an unusually opportune moment. The thousands of Washingtonians who have attended the festival during its three previous presentations here will, we hope, welcome its return.

A People's Holiday

Those unfamiliar with the festival idea, we feel sure, will enjoy this unique opportunity to hear and see, in afternoon and evening performances May 1, 2 and 3, the varied racial groups who gather each year from many parts of the country for a people's holiday. Through the interchange of distinctive folk songs, dances, myths and music comes a better understanding and greater tolerance, which should result in stronger national unity.

The songs and dances included on the programs are presented for the most part by rural people who have been their guardians. But because no concerted effort was made until recently to preserve the traditional expressions, many died out with the gradual spread of movies and radio into rural areas. Where survival seemed unlikely, efforts for revival became necessary. So it is that the festival occasionally accepts the contributions of groups who

The eighth annual National Folk Festival will be held at Constitution Hall May 1, 2 and 3, sponsored by The Washington Post Folk Festival Association.

have revived some rural folk expression.

Festival leaders realize the value that the American square dance, for example, can have for city dwellers. We need simple, wholesome recreation to help us keep our balance in these confused times, more, perhaps, than early colonists needed it to lighten the load of trail-blazing.

UNTIL recent times we looked to Europe for our cultural and economic patterns. At last we are opening our eyes to the necessity of developing relations with nations in this hemisphere, to whom we are bound by ties stronger than mere geography. Since its beginning the National Folk Festival has included on its programs many of the traditions common to Canada, Mexico, South America, the islands and the United States. Last year the Territory of Hawaii was represented on the program. This year the festival organization is eager to have other neighbors send guest groups.

We are being guided in many ways now by the successes and failures of nations involved in the European struggle. Hitler has made use of the traditional expressions of Germany through his youth program. Folk song, music and dance have played an important part in helping him build up national and racial pride. Much as we may hate the use to which he has put them, we must admit he has shown the strength of folk expressions as the ties that bind.

Esprit de Corps

Totalitarian states have found the folk traditions of value in developing esprit de

corps. And democratic nations like Czecho-Slovakia and Finland found joy in them, during peace as well as in wartime.

FROM the vantage point of the mid-twentieth century we see many significances in the individual differences of our peoples which we could not have seen earlier. Time had to give us perspective. If the white man in early days had better understood the Indian's nature—but then, he could not until he glimpsed it in the age-old ceremonials through which the Indian's soul speaks. If we had known the burdened soul of the Negro in bondage—but then, we could not until we heard his soul cry through his spirituals, which grew out of that burden. If we had become better acquainted with our Spanish-Americans, whose traditions have roots 400 years old in what is now United States soil—but it took a world crisis to attract attention to them. At last we are beginning to understand that folk traditions are not just "relics of an out-lived past." They are vital today.

Since there is at present a general stirring of interest in American folklore, let us take advantage of the situation and make organized efforts to preserve our cultural heritage as we are trying to preserve our forests, land and wildlife. Scholarly work in collecting and recording is necessary for history and invaluable to leaders of folk groups, but it fails to pass on the vital spark which oral transmission gives.

Living History

There is more to the folk song than the tune of it, more to the folk dance than its form, more to the myth than the tale it tells. In our traditional expressions are recorded the social life of early America and the growing, changing later America. They reflect the living history of our country, the struggles and joys we have had together in establishing a Nation. Through them we glimpse the life of foreign lands from which our people came.

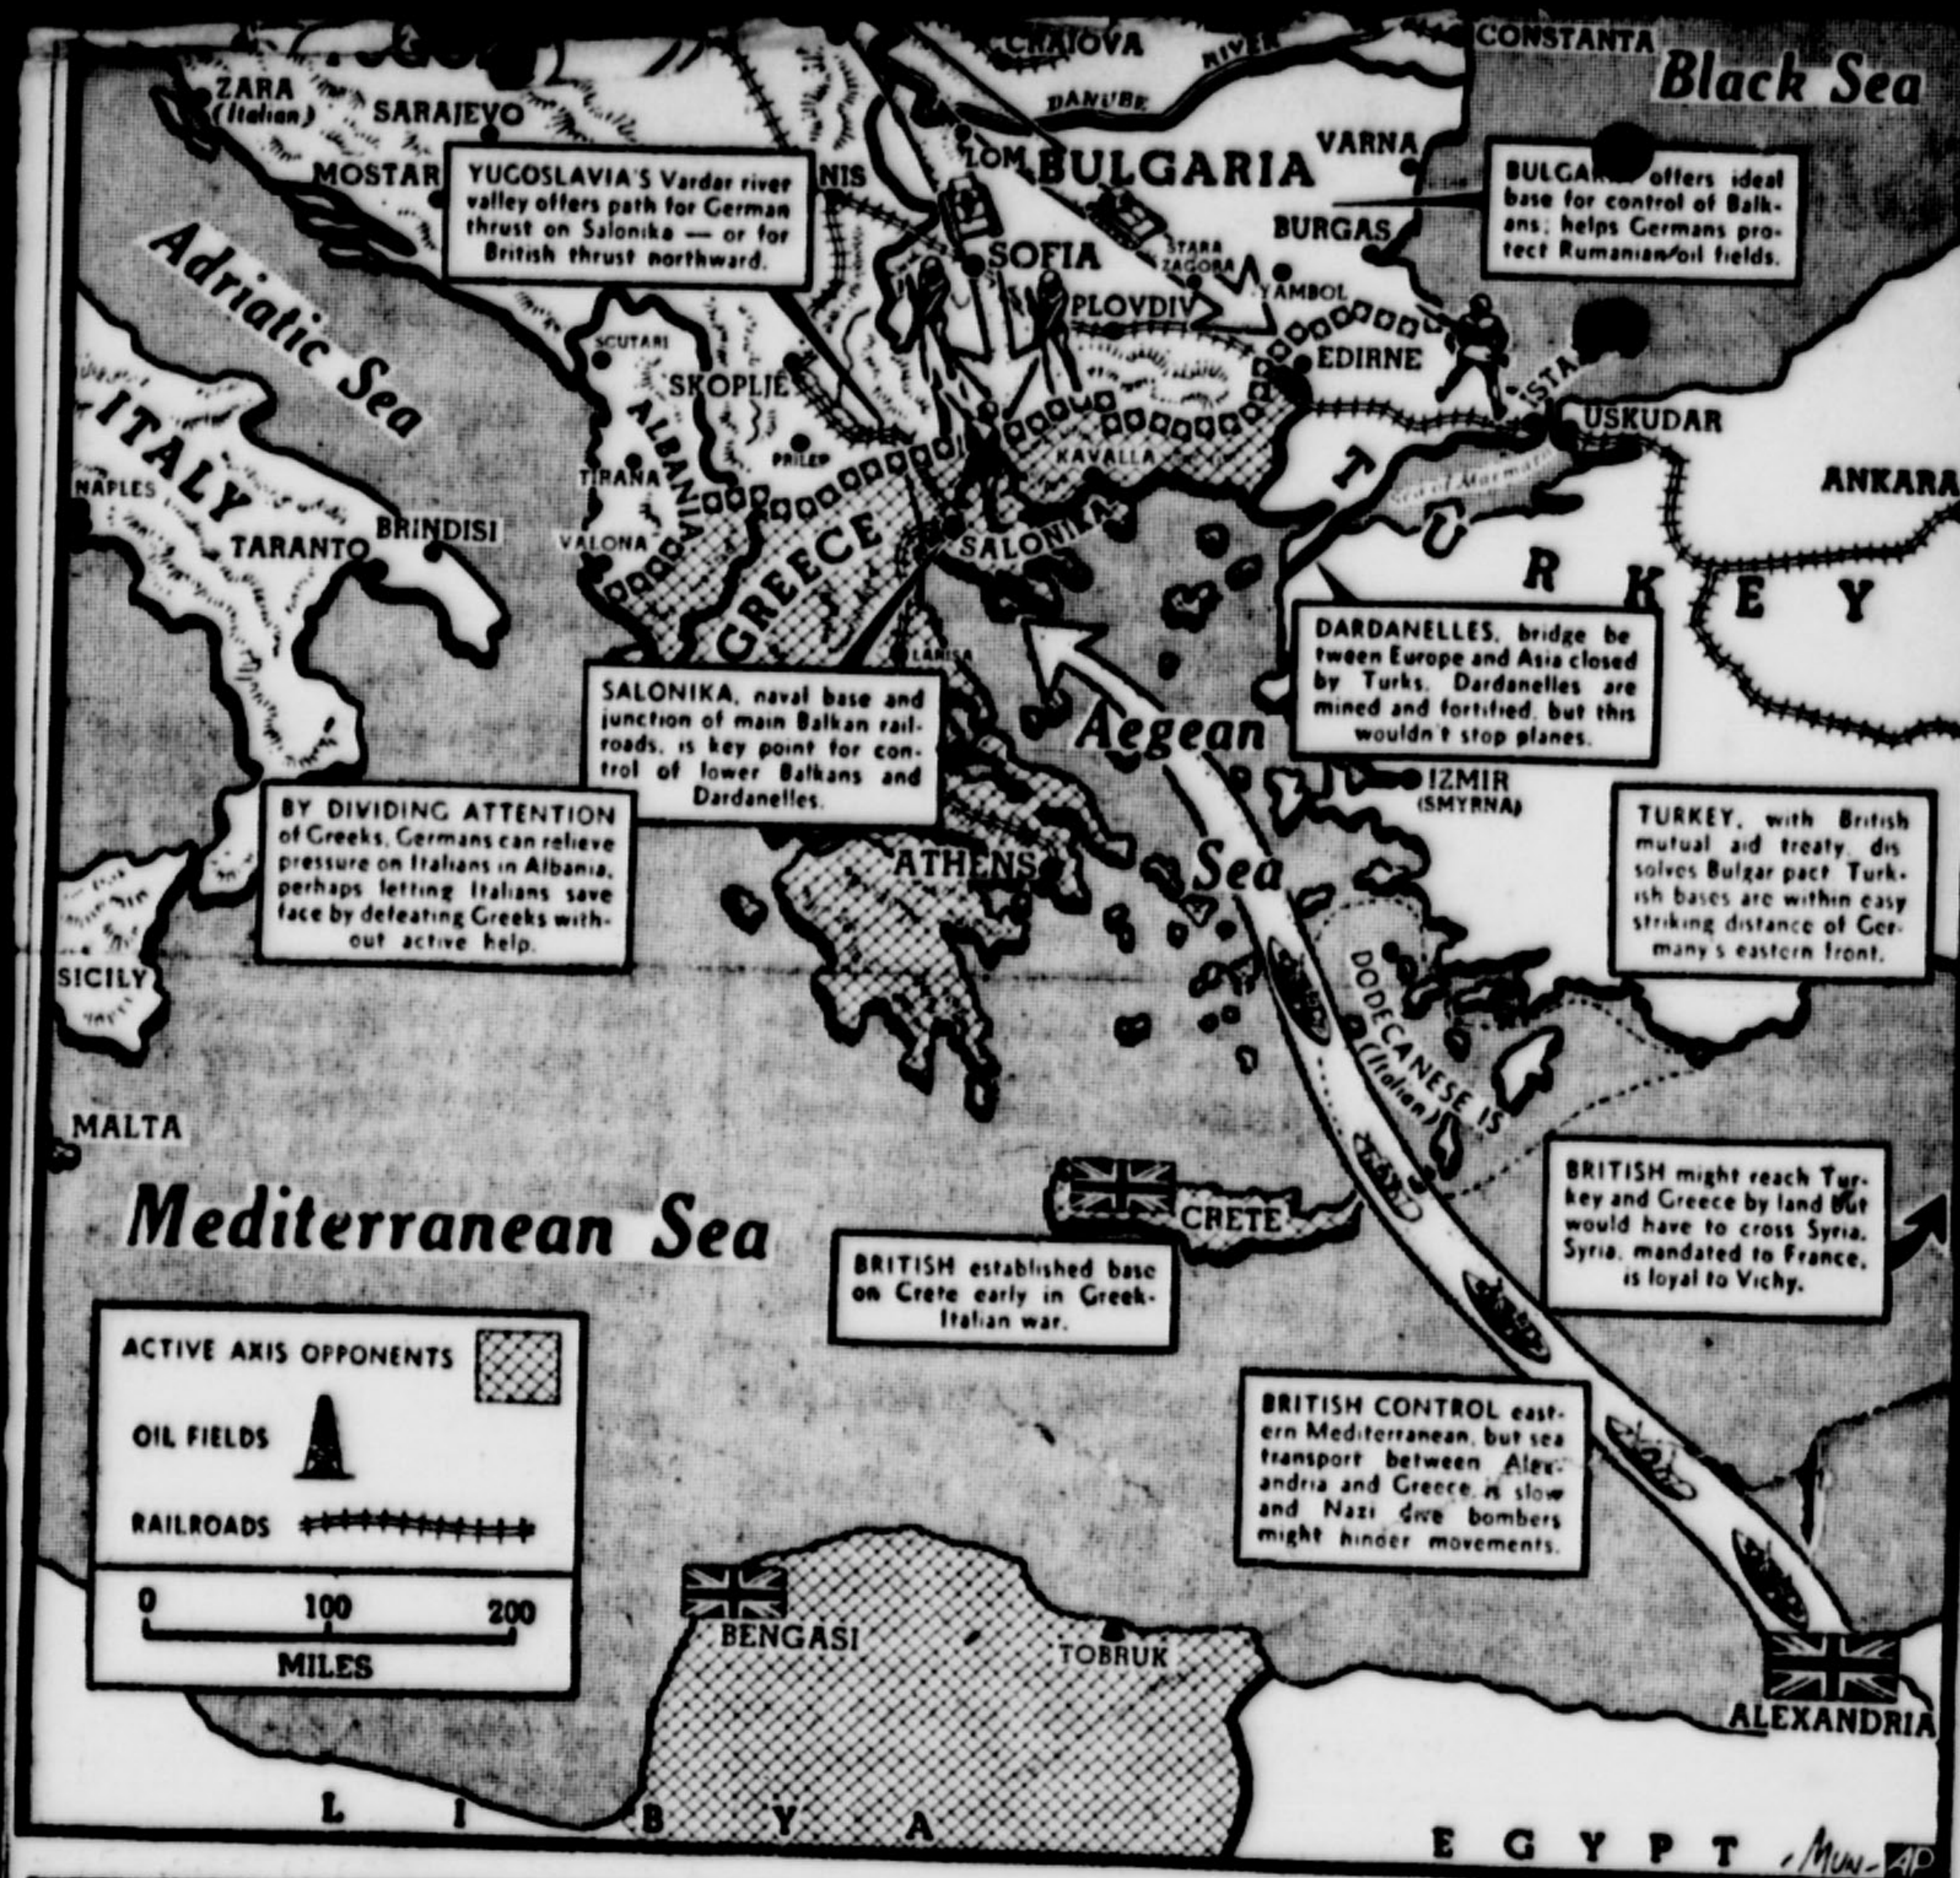

Our cultural and social life will be less rich if we lose them. As they have served the past and are used in the present, so will the future need them. They should not be blown away with a changing civilization.

Salonika— Battleground Of Many Wars

By Carl C. Cranmer
Associated Press Staff Writer

New York, March 8.—With the German thrust through Bulgaria to the Greek frontier and growing signs of British-Turkish preparedness for Balkan eventualities, the ancient Greek city of Salonika again may become the scene of decisive events.

This old city, founded in 315 B. C. and originally named Thessalonica for a sister of Alexander the Great, has been ruled by Greeks, Romans, Fracens, Normans, Emperors of Rumania, Venetians, and Turks, and has been fought for by Slavs, Bulgars and Germans.

It was from Salonika that the Allies launched their blow on Sept. 1918, which resulted in the first break in the front of Germany's allies—the capitulation of Bulgaria on Sept. 29.

When the British and French expeditionary force landed there on Oct. 5, 1915, an army of 150,000 was assembled. It dug in on a 50-mile line reaching from the Vardar River marshes on its left to the Gulf of Sarafano, on the opposite side of the Halcidice Peninsula.

Once factor which worried the French and British then would be missing today, however. Their purpose in landing was to rush aid to the Serbs. But by the time they had arrived in force the Serbs were beaten, and driven from the mainland to the little island of Corfu.

Although most of Hitler's prepa-

The War in Review Highlights of the 79th Week

A BIG QUESTION MARK stretched across Europe's sizzling Balkans last week as the world awaited Adolf Hitler's next move. Out of the swirl of events came many rumors, little fact.

Across Bulgaria streamed trainloads of German troops and "blitz" equipment moving south to positions along the Greek and Turkish frontiers. As Bulgaria's Parliament noisily hailed the Axis pact, Britain brusquely broke off diplomatic relations with King Boris' government. Soviet Russia strongly rebuked Sofia for allowing Hitler to occupy its territory and thereby threatening "extension of the war."

The Greek spotlight shone on Anthony Eden's visit to Athens. Britain's foreign minister, accompanied by Imperial Army Commander Dill, huddled over a conference table with Greece's leaders to work out joint Allied policy in the Balkan crisis. At conference's end both nations tersely proclaimed "complete agreement on all points of the situation." Meantime, Greece hastily reinforced strategic points along the Struma River, gateway from Bulgaria to the vital Greek Aegean port of Salonika.

Turkey sat precariously on the fence as Hitler sought to woo Ankara from its ties with Britain. To the Turkish capital flew five special German emissaries with an urgent message from the Fuehrer, offering German "assistance" to the Turks. Turkey's press looked coldly on the proposal. The Turkish navy, meanwhile, shut tight the Dardanelles to all ships except those with special permits and manned coastal batteries around the Straits.

Hard-pressed Yugoslavia, the last neutral Balkan nation, grimly watched war come to its doors. As Nazi troops wheeled through Bulgaria, Hitler called Regent Prince Paul to Berchtesgaden and "invited" Belgrade to join the Axis. Britain's diplomats were also busy in Yugoslavia, seeking to learn exactly where that country stood in the swiftly moving Balkan drama.

IN THE BATTLE OF BRITAIN the R. A. F. and the Luftwaffe swapped blows across the Channel. The British sowed their heavy bombs on Cologne and the

March 11, 1941

Mr. Harold W. McGill
Director, Department of Mines & Resources
Indian Affairs Branch
Ottawa, Canada.

Dear Mr. McGill:

I greatly appreciate your letter of March 4th. We so greatly appreciate your interest and are glad you think the work we are doing is of value.

We deeply regret, however, that you feel that an exception to the general rule cannot be made in the case of Mr. Walsh. Of course, we understand full well how it is to break a rule. As you say, there will be so many others who will feel that the rule ought to be broken for them. However, if there is ever justification for breaking a rule, we feel that this is one of them. Mr. Walsh has begun a plan in Canada that seems to me to be very far-reaching culturally. As important as are the immediate necessities which confront us all in our war-time activities. We absolutely believe that we cannot look just to the present. We must look to the future. If activities like the National Folk Festival, and like Mr. Walsh's plan, have to give way now to the immediate necessities, the chances are that somehow during the struggle which probably faces us we are likely to lose our spirit to carry on at this significant transition period between the old ways of life and the new in Canada and the United States.

Then we do believe, as we said in our previous letter, that this gesture of goodwill between Canada and the United States is an extremely important one, since our Festival is held in the Nation's capital and since it has its roots in every state in the United States, the coming of this group from Canada to our country would have genuine significance.

I do not know how it is in Canada, but I know that in the United States we are just coming to properly evaluate the Indian traditions which are, after all, the only history book which we can read to find out about the first Americans. In our country I know the Indian traditions are giving way to the white man's civilization, but they are so basic and fundamental, not only for us here in the United States, and you in Canada, but for people everywhere, that surely Mr. Walsh's idea of using these traditions in a creative way is one of the ways, at least, to carry them down into the future.

future.

I do not know of any such splendid plan in our country as Mr. Walsh has. We are so eager to take advantage of the work he has started there to give incentive to people in the United States to see the possibilities of what could be done here.

I have just had a letter from Mrs. Daisy C. Millar, Secretary of the Okahagan Society for Research and Revival of Indian Arts and Crafts, which was formed last week. The coming of this group to meet our Indians in the United States would no doubt give interest to further work along this line.

Mrs. Millar and a number of people in the community of Oliver are interested and are cooperating with Mr. Walsh in his plan to get to us.

We believe this goodwill tour from Canada to the United States has so many significances that I cannot put them all on paper, but I know from the tone of your letters that you will understand.

Mrs. Millar has been in touch with Mr. Crearer. Won't you please get together and reconsider the idea of giving permission to Mr. Walsh and to us to have him with us?

Greetings and all good wishes from all of us.

Sincerely,

Ottawa, March 14, 1941.

Dear Miss Knott:

I have for acknowledgment your letter of March 11, in which you ask us to review and reconsider your request that Mr. Anthony Walsh, teacher at the Inkameep Indian Day School, be permitted to take part in the National Folk Festival to be held at Washington May 1, 2 and 3.

I may state that immediately following receipt of your letter of February 20, the desirability of having Mr. Walsh visit Washington was very carefully and very sympathetically investigated, in the light of existing events and regulations. The conclusion was reached at that time that in view of all the circumstances it would be almost impossible to grant this request.

Miss Daisy C. Millar, Oliver, B. C., renewed this request in a letter to the Minister dated March 6, 1941, and again the matter was reviewed and considered. You can readily appreciate how difficult it is for the officials here and for myself to refuse this permission, for a number of reasons. First of all, we believe that the work in which Mr. Walsh is engaged should be encouraged in every way possible. Secondly, we believe the program arranged by your organization is comprehensive and of more than ordinary cultural and inspirational value. Then again, we are anxious at this time that everything

within our power should be done to bring about the closest possible co-operation between the people of Canada and the United States. In view of these reasons, the requests which first reached the Minister have been considered with unusual care and from every possible angle.

We are confronted with the fact, however, that for economic and other reasons, a number of requests from Canadian citizens who desire to visit the United States are refused daily. Each one of these applicants feels that from the standpoint of health or for some other reason he has a peculiar claim on the sympathy of the Government. Refusals, therefore, always result in a certain amount of dissatisfaction, and I am convinced that from the standpoint of Mr. Walsh's work and his future usefulness in the Indian service, it would be very inadvisable for him with a group of his pupils to make the trip from Oliver, B.C., to Washington this year.

It has occurred to me that if it is the intention of your organization to organize regional festivals in the western States at any time, it might be comparatively easy to have Mr. Walsh visit the States of Oregon or Washington. I am, however, submitting this thought wholly by way of suggestion.

May I embrace this opportunity to express the hope that your festival of this year will be successful and satisfactory in every sense?

Yours very truly,

Director.

Dear Sir,

I thank you for your "Airmail" letter which reached me on the 19th. inst. I read with interest the copy of your letter to Miss Sarah G. Knott, Director of the National Folk Festival.

I fully appreciate your remarks as regards the inadvisability of issuing permits for excursions to the United States under existing regulations, and concur that we must await more favourable conditions.

Disappointment at the children not being able to demonstrate their wonderful talent under the leadership of their teacher Mr. Anthony Walsh, is lessened by the fact that you see no reason why, when conditions again become normal, this request cannot be again sympathetically reviewed, and my associates will be greatly heartened by this intimation.

Looking forward to the time when I can write you again on this subject,

I remain,

Yours very truly,

Dear Sir:

I beg to apply for your permission to bring nine children from the Inkameep Reserve to Victoria for the opening of Thunderbird Park on May 24th.

They would be taken care of by Mr. Anthony Walsh, their teacher, and we will make suitable provision for their meals and sleeping accommodation, and look after their other expenses. They would all take their meals together, but the girls would sleep at Loretto Hall, which is operated by the nuns, and Mr. Walsh and the boys would have suitable accommodation elsewhere. I have not found just the right place yet, but it will not be difficult to do so.

The purpose of the visit is to show the Indian plays this group have evolved from tribal legends. The City would arrange for the plays to be given in Thunderbird Park. The party could either return on the night boat on Saturday, or at 2 p.m. on Sunday, which would be in time to catch the train in Vancouver.

I would appreciate an answer as soon as convenient.

Yours very truly,

Dear Sir:

I beg to forward herewith an application submitted by the Director of School and Community Drama, Department of Education, for permission to have nine children from the Inkameep school attend the opening of Thunderbird Park at Victoria on May 24th. Copies of correspondence relating to the matter are attached for your information.

The expense involved in connection with the trip would be borne jointly by the Oliver Drama Society and the Provincial Government. As satisfactory arrangements will be made for the proper care and protection of the children while absent from the Reserve, and as it will only involve the closing of the school for two days, I would recommend favorable consideration of the proposal and would appreciate a reply by air mail.

Yours faithfully,

D.M. Mackay,

Dear Sir:-

With reference to your letter No.182/1574 of the 22nd instant and attached copy of a letter received by you from Major L.Bullock-Webster, Director of School and Community Drama, I interviewed Mr.Walsh, teacher of Inkameep Indian Day School, on the 25th instant regarding he and the pupils of the school journeying to Victoria for the opening of Thunderbird Park on May 24th.

Mr.Walsh advises that seven pupils will go along if permission is granted by the Department and that he himself will be in charge of the party. He states the expense of the trip will be paid by one-half being subscribed by the local Oliver Drama Society, the remainder to be cared for by Major Bullock-Webster.

The children would attend school on May 22nd which is an authorized holiday - Ascension Day - and would leave Penticton that evening at 10:00 p.m., arriving in Victoria on the afternoon of the 23rd, returning from Victoria on the afternoon boat on the 25th, arriving Penticton early on the 26th, and reaching home at Inkameep the same morning. No schooling will be lost except that possibly the children will be too tired from travel to attend school on the 26th.

A copy of a letter received to-day from Mr.Walsh, also letter from Reverend Father Collins stating his views, are attached hereto.

Yours obediently,

Dear Mr. Barber:-

I am writing to you with regards to the possible visit of some of the Inkameep school children to Victoria for 24th of May celebrations. The children would attend school on Ascension Day, May 22nd, which is an authorized holiday this year, and leave Penticton that same night and return to Inkameep on the morning of May 26th.

There would be seven children going:

Frank Stalkia,	aged 14 yrs,
Raymond Baptiste	" 9 "
Edith Kruger	" 12 "
Bertha Baptiste	" 11 "
Elizabeth Stalkia	" 11 "
Irene Baptiste	" 10 "
Gertrude Baptiste	" 9 "

Half of the travelling expense has been collected by people in the Oliver district and the other half will be supplied by the Drama Dept., Dept. of Education, Victoria, B.C.

Should permission be granted I would appreciate it, if you could let me have forms for the "Indian rate" for travelling.

Yours truly,

Dear Mr. Barber:-

I was very glad to learn that the shingles and paint are available for the work on the Inkameep Church. I shall get down there on Monday, May 5th and will remain until the work is complete. The boys are quite willing to get on with the work.

I have no objections to the Inkameep children going down to Victoria. I think it will be a fine thing for them. I should like proper supervision of them while down there, and I feel Mr. Walsh will do his part. We tried the same thing from the Kootenay Indian Res. School and the experiment was not successful because the Indian boys and girls were put up by the white families in Nelson. They were made far too much of and were a source of continual trouble on their return.

Yours very truly,

Dear Sir:

I am forwarding herewith copies of correspondence received from Major L. Bullock-Webster, Director of School and Community Drama, Victoria, in which permission is sought to bring nine children from the Inkameep school, in your Agency, to Victoria, for the opening of Thunderbird Park on May 24th. Such an arrangement would, of course, necessitate the closing of the school for a few days. Mr. Walsh would be in charge of the party from the time the children left Inkameep until their return.

You might discuss the matter with Mr. Walsh as soon as possible and secure from him information as to the length of the time the school would be closed and also the arrangements made for the care, comfort and protection of the children, during their absence, and payment of the full expenses involved.

It would also be appreciated if you would acquaint the local Missionary of the Church under whose auspices the school is being operated with the proposal and secure his reaction.

Once your report with recommendation is received here the matter will be referred to the Department, as any arrangement involving the closing of the school or absence from duty of the teacher in connection with such matters must be submitted for Departmental approval.

Yours faithfully,

Dear Major MacKay,

Mr. John Atwood, at present employed as a teacher in the Kamloops Indian Residential School, has asked His Excellency, Bishop Johnson, to recommend him for the position of teacher in the Inkameep Indian Day School. As Bishop Johnson is not acquainted with Mr. Atwood, he wired me asking me to act in his stead in this matter.

If it is in order, therefore, I am pleased to nominate and recommend Mr. Atwood for the position. I knew him some years ago when we were attending the same college in Nova Scotia, and only renewed acquaintance when he came here this fall. He is a Catholic, a man of good moral character, and is giving satisfaction in his present work. I would say his age is around forty. He is a married man.

No doubt Mr. Atwood will send his teaching qualifications to you when he makes his formal application.

Faithfully yours,

Your file 164- 11-1.

Your letter of January 5th advising of the approval of the appointment of Mr. John Atwood as teacher of the Inkameep Indian Day School reached this office on January 7th. On the same date Mr. Atwood wrote to me advising that as he had not received a reply to his wire to the Department regarding the position he had accepted an offer to teach in the white school at Hope. Mr. Atwood's services are therefore not available to the Department and his appointment to the Inkameep school should be cancelled.

This office endeavors to deal promptly with applications for positions in our schools but despite this and the fact that the Department does not delay in taking the necessary action, it usually takes a week to ten days to get a decision. In this particular case Mrs. Atwood called at the office on January 5th regarding the application of her husband for the Inkameep school and, I assured her then that I had no doubt whatever but that Mr. Atwood would receive the appointment. It is just possible that other reasons influenced Mr. Atwood in his decision to accept the position at Hope.

Miss Mary Wadel who formerly taught at the Inkameep school intimated a few days ago that she was interested in the appointment at Inkameep but at the time Mr. Atwood's application was before the Department and I was obliged to advise her accordingly. Miss Wadel is at present on Gambier Island and it will take a few days to get in touch with her, but in the meantime I should appreciate being advised by air mail if the Department will approve of her appointment to the Inkameep school if she secures the required nomination from the church concerned.

In his report for the month of April Indian Agent Barber states that the Indians of Osoyoos appear extremely anxious to have the Inkameep School re-opened. As you are aware, this school has been closed since the end of September last, at which time the former teacher, Mr. Anthony Walsh, gave up duties. I realize that teachers are very hard to obtain, but I thought it advisable to again draw this matter to your attention in the hope that a teacher might be secured. Salary is available for this school at the rate of \$90.00 a teaching month, plus bonus at 17%. In this case also we will be prepared to approve operating the school for a ten-month period during the academic year 1943-44.

Inkameep School - Mr. P.J. Kiernan, the new teacher, opened the school on the 13th. The school was visited by me on the 15th instant when fifteen pupils were present. The Indians are pleased to have the school re-opened and I think Mr. Kiernan will probably get along well. It is noted that he is not a British subject, being a citizen of the Irish Free State.

Dear Sir,

I hereby tender my
resignation as teacher of the
Indian Day School, located on
the InKameep Reserve near Oliver,
owing to the lack of fuel.

Also, find general living
conditions intolerable.

I would refer to your letter of September 7th last, file 164-11-1, and would advise that Mr. P.J. Kiernan has resigned from his position as teacher of Inkameep Indian Day School, his resignation being enclosed herewith.

Mr. Kiernan called at this office and it would appear that he does not consider the quarters at this small school satisfactory. He also advised that the supply of fuel at the school ran out and this has been taken up with Mr. Indian Agent Barber for a report. In regard to the living conditions, it has always been recognized that the accommodation at this school is very small but there have been no complaints from the previous teachers in this respect. In my opinion, Mr. Kiernan was not a very satisfactory teacher for an Indian Day School.

Bishop Johnson of Nelson has been asked to nominate another teacher for the position.

With reference to the vacancy at the Inkameep Indian Day School, Okanagan Agency, Bishop Johnson has informed Mr. Benjamin C. Widdowson that he is prepared to nominate him for this position, and appears anxious to have him take charge of the school during the remainder of the term in order to determine his fitness as a teacher.

Mr. Widdowson has called here and states that he has no teaching qualifications other than an Oxford B.A. (1924) being of British origin. He is married, with a ten year old boy. I referred him to Major Manning, one of the Provincial School Inspectors with a request that he advise me as to his qualifications for this work, and I am now advised by him that he considers that he should be given a trial until the end of the school year in June.

As it is impossible, otherwise, to secure a teacher for this school, I would recommend approval of his appointment on a strictly temporary basis until we are able to secure an Inspector's report on his work. I will secure Bishop Johnson's formal nomination and forward same to you, but meanwhile would request that you advise me regarding his appointment.

The furnishings of the school are in need of some re-placement and a requisition will be forwarded to you in due course by Mr. Indian Agent Barber.

Dear Mr. Millar:

The Minister has sent forward to me, for consideration, the third annual report of the Okanagan Society for the Revival of Indian Arts and Crafts.

It is unnecessary to state that I have found the subject matter of this report very interesting and very suggestive. I am anxious that you should send forward a copy of this report to Major D. M. MacKay, Indian Commissioner for B. C., Box 70, Vancouver, B.C., if you have not already done so.

I was particularly interested in your reference to the Inkameep Indian Day School. This was the first information I had that the teacher's residence at this school was in an unsatisfactory condition and that the teacher had experienced difficulty in keeping it comfortably heated. I am today communicating with the Indian Commissioner in respect to this matter. I should hasten to add, however, that a comfortable residence for the time being would not be likely to secure for the school a fully qualified teacher. As a matter of fact, a number of our Indian day schools, even in the better settled districts of Ontario, have remained closed during the year for the simple reason that we have not a sufficient number of teachers in Canada to keep all our schools open and in operation in this critical period. It is my hope, however, that we shall be able to take steps in the immediate future either to remodel the Inkameep School or to erect a new school building.

I am sending forward herewith, for your

Re: Inkameep Indian Day School

The Minister is in receipt of a report from Mr. Albert Millar, President of the Okanagan Society for the Revival of Indian Arts and Crafts, which reads in part as follows:-

"Since Mr. Walsh resigned from the Inkameep Indian Day School at the end of 1942, the school has remained closed except for a very short period. In September, 1943, a teacher was appointed in place of Mr. Walsh, but he resigned shortly afterwards. He gave, as his reason for leaving, the unusually small and uncomfortable living quarters, lack of water facilities and fuel, means for reasonable lighting and the urgent need for an adequate heater for both school and living quarters. Being familiar with these quarters, I must admit it is difficult to understand how the Indian Affairs Branch can expect a qualified teacher, who has perforce to spend so much of his time away on a reserve, to live in such very primitive conditions as those existing at Inkameep.

"The parents are worried about lack of educational facilities for their children, and they do not wish their youngsters to be sent away to residential schools. Apart from the fact that the children have lost over 12 months' education, we should remember these abnormal times provide as many distractions for young Indians as for young whites. There is a pressing need for a fully qualified teacher, sympathetic towards Indians and with a knowledge of their traditions and cultural background, who is willing to provide scope for the development of their latent talent for native art".

It would be very much appreciated if we could

have a report on conditions at the Inkameep School. This is the first intimation I have received that the living quarters were unsatisfactory and that difficulty had been experienced in keeping the building comfortably heated. When submitting a report, would it be possible to secure an estimate of the cost of remodelling the present building together with any repairs that may be necessary to the school itself. If, in your judgment, a new school should be built at Inkameep, would you in your report indicate the type of school, dimensions, living accommodation for the teacher, approximate cost, etc.

A. H. Barber, Esq., Indian Agent, Vernon, B.C.

I wish to acknowledge receipt of your report of the 17th instant with reference to the resignation of Mr. P.J. Kiernan as teacher of the Inkameep Indian Day School and to enclose herewith copy of his resignation which has been forwarded to the Department from which it will be noted that he closed the school on the 11th instant.

It will be noted from his letter that the reasons given for his resignation were lack of fuel and dissatisfaction with living conditions. He complained that the furnishings of the school left much to be desired, particularly in regard to the bed, there being no pillow, two very thin grey blankets and a mattress that has rotted, apparently having been used by the Indians when this school was not occupied. Also, that the cook-stove needs some repair as it lets the ashes fall out on the floor creating a fire hazard and that the sill of the school door has become so worn that the snow blows in through the gap.

These complaints are substantiated by your report above referred to and it is not understood why the supply of fuel at this school should have become depleted to the extent that when the teacher returned from his leave there was not more than twelve hours supply inside the school and nothing but a few large knots outside. It should be realized that in the Interior where wood is depended on for fuel that the opening of the fall term at this school should see one full school year's supply of wood on hand at the very least in order that it may be seasoning fit for use and it is astonishing that the condition complained of and admitted should have been allowed to develop. If the Baptiste family showed signs of delay in the supply, the services of another Indian family should have been sought or, failing this, the white dealer in the locality approached in the matter.

It is noted that you requisitioned the Department for mattresses, etc., for this school in October, but you should be aware that such requisitions should be passed through this office and it is probably for this reason that the matter has not been dealt with by the Department. You should make out a complete requisition and re-submit this with local quotations to me in duplicate.

In respect to the proposed enlargement of this school, I am of the opinion that as this will be one of the first schools that will be replaced when the building program re-opens that no alterations should be made unless it becomes much more evident than it is at present that this is necessary. If any enlargement was required, I would consider that the classroom itself is much more in need of alteration than the living quarters which, while admittedly are small, could be much more comfortable and attractive than they appear to be at present. There is, no doubt, a necessity for reflooring all the rooms in this building and you should secure the cost of having this work done and adjoining a small porch with door to the classroom door in order to prevent the wind blowing directly on to the pupils when the door is opened in the winter. Meanwhile, it would appear to me that renewal of the door sill would remove a great of the condition complained of by Mr. Kiernan. In regard to the cook-stove, I do not understand why the purchase of this was left to Mr. Walsh. It is evident that his choice was far from satisfactory and that before long a more adequate cook-stove will be required. The matter of repainting the interior of this building is one on which you should report, submitting estimates of the cost of material and labour. It is presumed that you will endeavour to trace the two Coleman lamps and have them repaired and put into working condition.

Regarding the water supply for this building, if it is not found possible to develop any system immediately by way of digging a well or piping the water from the spring mentioned, it may be possible to instal a small wood "V" or metal flume from the spring. I understand that there is also another spring a short distance north-east of the school on the hillside which may be worth developing and possibly it could be brought into use at a low cost.

Unless Bishop Johnson has a nominee for the position as teacher at this school, there is no one in sight at the present time, teachers being at a premium, and for this reason we have had to put up with some very inferior individuals for these positions, but this should not deter you from proceeding to investigate and deal with the requirements of this school in respect to furnishings, equipment, repairs, alterations and water supply, bearing in mind that extensive alterations are not indicated in view of the temporary nature of the structure. This would also apply to having on hand an adequate supply of wood seasoning for the time it will be required which we hope will be in the near future.

In respect to locating the school at some other point, it would be necessary for you to make a survey of the number of children of school age and pre-school age at the village at Osoyoos Lake, the present location of the school and the village around the Church in order that the largest number of children will have the least distance to travel.

When a new teacher takes over this or any other of your schools, please have an inventory made of all the equipment, school books and material and have the teacher sign the same, checking it over with him when he leaves the school or commences the summer holidays if there is any likelihood of his not returning. In this manner, you will not only have a check on Departmental property but will also be kept fully informed as to the amount and condition of the furnishings and thus prevent complaints and discussions such as we have had in recent weeks in this connection.

Okanagan Indian Agency,
Vernon, B.C.,
January 17, 1944.

Major D.M. MacKay, Indian Commissioner for B.C., Vancouver, B.C.

With reference to your letter No. 215-10-9177 of December 22nd ultimo and 215-10-95 of the 8th instant together with copies of correspondence with Mr. Albert Millar, Oliver, in respect to conditions at Inkameep Indian Day School, I now advise that I visited Inkameep Day School on January 12th instant arriving about two p.m. with the intention of interviewing Mr. Kiernan in regard to conditions at the school and to go over the contents and furnishings of the school with him. I found three boys playing outside the school who informed me that the teacher had gone to town the previous evening and had not returned. I entered the school with a pass key and found the school and quarters in a very untidy state. Towels from the hooks on the walls were on the floor, books, pencils, etc. under desk, a pile of rubbish and debris from the wood behind the heater and I would say the place had not been swept for several days. The living quarters were little better. There was not more than twelve hours' supply of fuel inside the building and nothing but a few large knots outside.

I went over to see the Chief, Narcisse Baptiste, and saw his son Charlie who confirmed the fact that the teacher had not returned from town the previous night. I returned to the school and waited for the Chief who was driving cattle up from the lower place. When he was finished feeding he came over and I spoke to him regarding his failure to have the wood delivered to the school as he was asked to do and usually does each year, although at his leisure. He stated that the boys had all been too busy with the cattle but that Charlie had been bringing in a few blocks until they could get the supply cut. I told him that this was not good enough. The teacher was there to teach their children and they were paid to supply the wood and if they did not they could not expect a teacher to stay or to rustle his own wood. He replied:- "Well, we have been too busy and were going to get the wood as soon as we could get time, but the teacher told me he was not coming back after Christmas". I told him to get four cords cut and delivered at the school at once and stated he would get the boys at it the following day.

I suspected from the attitude of the Chief and his son Charlie that there was something more behind the situation than I had gathered.

On returning to Oliver, I made enquiries for Mr. Kiernan, thinking he might be sick or something, but failed to locate him, but ascertained that he had stayed at the hotel the previous night and had stated he would be in again that night. I left a message for him to telephone me at Penticton as soon as he came in.

The following afternoon, Thursday, he telephoned me

at Penticton and informed me that he was leaving and was just going out to the school to get his belongings and I arranged to see him in Penticton the following day at which time he stated he could not possibly return to the school and was leaving for Vancouver that evening, and regretted not having given a month's notice.

I suggested that he call at your office in Vancouver and he agreed to do so. He also stated that he had tried to speak to the Chief in Oliver that day and the Chief had walked away from him after saying the boys were cutting wood to-day. On my asking if he had had any trouble of any kind, he replied "No, but perhaps the children had gone home and told their parents something I may have said which they did not like" and said he had told them that he was running the school and not their grandmother (the Chief's wife). This may have had something to do with his failure to get any co-operation from the Indians.

In the evening I wired you as follows:-

"Teacher at Inkameep School resigns and left for
"Vancouver apparently difficulty over fuel and
"general conditions stop I found school closed
"on thirteenth and he informed me today could not
"continue and will call at your office. Will forward
"my report as soon as possible."

I would state before dealing with conditions at the school that Mr. Kiernan, whilst I believe he may be a very good teacher, was, in my opinion, totally out of his element at this school and did not appear to make any effort to make himself as comfortable as possible under the circumstances and I would say was not the type to care for himself in a way that it is necessary for a bachelor in such a situation. I noticed that there were no blankets on the bed, only a thin rug of some kind, and I asked him if this was all the bedding he had. He replied it was and that he used his overcoat and dressing gown and a piece of buckskin he found to help out as he did not think he should have to supply his own bedding.

note I have to advise that requisition was made for a new mattress, two blankets, floor rug and an easy chair and same was forwarded to the Department from this office on October 4, 1943, and October 15 and no word has been received from the Department to date.

Inkameep Day School was built by the Department in 1924 at a cost of \$947.00, size 30'x16', this includes the class-room, approximately 20'x16', and teacher's quarters-- kitchen 8'x9' and bedroom 8'x9'. There are three doors in the kitchen, one opening directly outside, one into the bed-room and the other into the class-room, with one window. The kitchen is furnished with a very small cook-stove with a fire-box that will hold one small stick of wood. It is actually five inches wide and totally inadequate. This stove was requisitioned for

and purchased by Mr. Walsh in 1940. There is an old kitchen cabinet of a sort badly in need of a coat of paint; one very old and dirty wash hand stand, which should be thrown out; one old table, size about 30"x20"; one set of six shelves, home made. The floor is covered by an old congoleum rug purchased in 1941, but worn out. There is one old wooden arm-chair. The bed-room is furnished with an old, single, iron bed, a very dirty mattress, a very old dresser with broken mirror, and a congoleum rug in fair shape on the floor. Both the kitchen and bed-room are very cramped, there not being space in the bed-room for a chair, whilst there is not room for two chairs in the kitchen, and whilst Mr. Walsh kept the quarters very neat, although very cramped, he appeared to be quite satisfied. These quarters were very dirty when I called on Mr. Kiernan and he did not appear to have made any effort to improve them in any way. However, the condition of the floor must be overlooked in the winter time as there is no porch at either the classroom or kitchen entrance and one steps directly out of the snow into the room, carryingsnow or mud.

The lighting is furnished by a two-burner coal-oil lamp. However, there are two Coleman lamps at the school which I have not seen, but have just recently been informed that Mr. Walsh put them in the attic (?) as he could not keep them in mantles which broke every time the door opened.

The water supply is very bad, being carried over in pails from the well at the Chief's house two hundred and fifty to three hundred yards away, or from a spring up the hill almost the same distance.

As these quarters are at the present there is no comfort whatever, but they could be improved a great deal by the throwing out and replacing of most of the furniture now there and most certainly a new mattress will have to be supplied. As to bedding, I am of the opinion that the teacher should furnish this and feel that most would prefer to do so. However, this may also be necessary.

The partition (wallboard) between the kitchen and bedroom should be removed, thereby making a fair sized kitchen and an addition built on for a decent sized bed-room and a porch screened with wire for the storing of fuel in the winter and to sit on in the summer. Some cupboards for storage could also be built on the verandah. Adding twelve feet on to the length of the school would provide the additional space. A porch and cloakroom should also be built at the school entrance. At the present snow and mud are carried into the classroom. Also when the door opens the full effect of the whole outside enters the building.

The floor of the classroom is badly worn and very thin and should be renewed. It is impossible to keep it clean and sanitary in its present condition with the wide cracks and the wide space around and under the door requires sacking be shoved against it to keep out the draught.

To sum up the whole situation, it must be admitted that the living quarters are very small and cramped, the

furnishings.....

furnishings are old and there is no upholstered easy chair for the teacher's use and a new mattress is required for the bed. Some teachers would be able to make the place far more cosy and comfortable than others and would requisition for such things as paint, a quart of which used on the furniture would make a great difference.

The water supply is the greatest inconvenience and it does not seem possible to get the Indians to co-operate in digging a well. In fact they hire white men to dig their own. In my opinion it may be difficult to locate water at the school site and the cost of digging and cribbing a well may be high, say \$3.50 per foot. In view of this I believe it would be far better to move this school to a new position approximately one-half mile north where water could be obtained from Inkameep Creek by pipe direct to the school. At the same time the school should be enlarged to provide better quarters, a new floor laid and a porch built.

I would refer you to Mr. Coleman's letter of July 21, 1936, addressed to the Assistant Indian Commissioner, which covers the water situation at the school very fully. However, in my opinion I believe it would be better to move the school closer to Inkameep Creek.

With reference to your enquiry of 18th March, 1941, and November 4, 1943, re furnishings, etc. at this Agency's day schools, I have to advise that this return was made to you on November 16, 1943.

Major D.M. MacKay, Indian Commissioner for B.C., Vancouver, B.C.

With reference to your letter No. 215-10-6541 of the 2nd instant and No. 215-10-6237 of August 17th and attached letter received by you from Reverend Father Forbes regarding the non-return of several children of Inkameep Reserve to Kootenay Indian Residential School.

I have been away from the Agency on statutory leave of absence which accounts for the delay in my acknowledgment.

I will be visiting Inkameep Reserve during the coming week and will ascertain the reason for the non-return of the Louis children and Bertha Baptiste, although I am now of the opinion that the reason is that the Indians of the Reserve have the impression that as there has been no appointment of a teacher for the day school since the retirement of Mr. Walsh that none will be made and the children will have to go to the residential school.

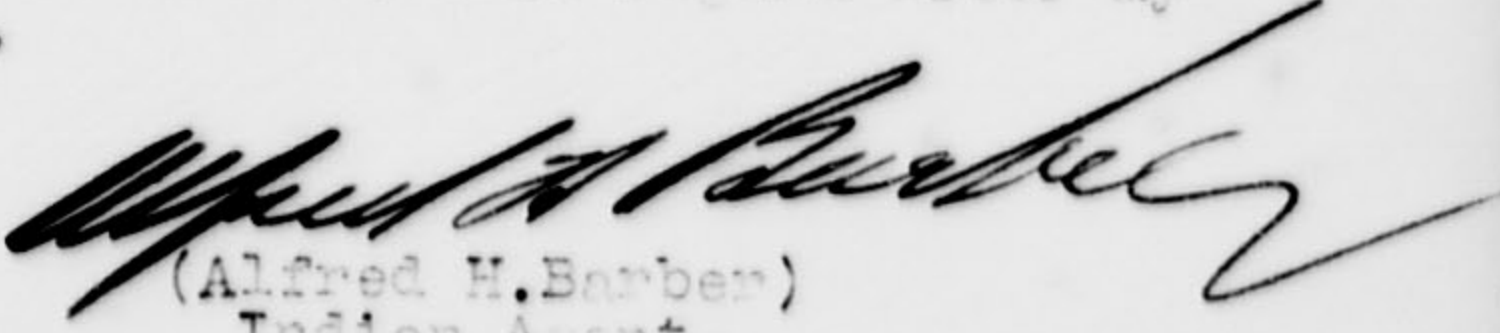

Mr. Walsh did not say so, but I believe that the admittance of these children to Cranbrook was the reason of his resignation. However, at the time they went I would not sign the applications for admission until I had interviewed the parents and ascertained the reason for their desire that the children go to Cranbrook, when they were very definite in the matter and finally told me they wished their children "to learn something and not to spend so much time at plays and concerts".

note | If there is a teacher appointed for the Inkameep Day School I am not in favour of these children being returned to Cranbrook and will apply to the Department for their official discharge. However, as there is no appointment as yet I will see the parents regarding their return.

Regarding Sandy Jack, he is with his parents who have been living at Brewster, Wash., since early in the year and the children, I am informed, are attending school there.

The Qualtier children of Lower Similkameen attended Cowston Public School fairly regularly during the past year, although they had three miles to travel on horseback, crossing the Similkameen River en route. Their mother, Julia, a young widow, bought a piece of land across the River from Cowston and the children were kept at home for company and, as stated, have attended the white day school.

I will advise further in this regard after my visit to Inkameep Reserve.

Replying to your letter of the 13th instant (file 41203-1) with reference to the report of the Okanagan Society for the Revival of Indian Arts and Crafts, I would advise that this is practically a branch of the similar organization in Victoria, B.C., until recently under the Presidency of Miss Ravenhill. Both of these came into being under the inspiration of Mr. Walsh, former teacher of the school at Inkameep.

As you are aware, Mr. Walsh had no professional qualifications and no great ability as a teacher but was an outstanding publicist and towards the end of his stay with us was putting on a one man platform show, including Indian dances, songs and narratives that had quite an appeal with the local uninformed intelligentsia. Eventually the increasingly unbalanced curriculum at the Indian school overtook him and some of the parents transferred their children to Cranbrook Indian Residential School, complaining that they were receiving no worthwhile education under Mr. Walsh, shortly after which he resigned to take a position in the Legion Auxiliary Services at Alberni, where he continues to interest himself in our affairs. This is probably the background of Mr. Millar's present interest in the matter. Mr. Barber's letter of September 11, 1943, will show why some of the children were transferred to Residential School.

The writer was Indian Agent for this Agency from 1930 to 1939 and is familiar with the situation and the building. The building is a simple frame 20' x 30' structure that was erected during the incumbency of Mr. Indian Agent Ball about 1922, at a cost of about \$1,000.00 which it is understood was borne by the Band. The building was improved about 1932 by shingling the exterior to keep out the wind, and a garage-wood shed put up for the convenience of the teacher, this being later converted into a "studio" by Mr. Walsh.

Attached is a plan of the school on which has been noted the improvements suggested by Mr. Barber after the school has been moved to another location. While admittedly the living quarters are cramped and the building was listed for early replacement at the time new construction was ended by the war, all teachers previous to Mr. Kiernan, who took over in September 1943 and resigned during the Christmas recess, managed to make themselves very comfortable indeed. I would also point out that none of the teachers at this school had professional qualifications, apart from Mr. Kiernan who was unsatisfactory, and yet we were paying them a salary of \$90.00 a month, with the small quarters complained of and fuel, at a time the locality covered by Mr. Millar's organization were paying teachers salaries somewhere in the neighbourhood of fifty dollars, without quarters. In addition to this, we were paying \$10.00 a month for janitor work. No complaints were received as to conditions until Mr. Kiernan resigned and he made none to the writer when he visited the school in October 1943.

The outstanding problem at this school has been lack of water supply. A study of this problem was made by the writer in 1936 but shortly after this plans were made to induce several of the Chiefs grandchildren who were married with fair sized families to move from his house near the school and establish themselves in their own homes about a mile north of the school, when it was contemplated the school would be moved to this new community center. This, however, was complicated by a fairly large group being in residence about a mile and a half south of the school and the fact that the proposed dispersal was slow in getting started. A careful survey of school age and pre-school age children and their location is indicated before any considerable expense is incurred in moving or remodelling the present school or building a new one. Meanwhile, some essential work could be undertaken such as renewal of the floor and addition of a porch to the class room entrance.

It is evident that almost all of the furnishings are now in need of replacement. The Department stated in their letter of April 3, 1944, (file 164-11-8) in this connection that it was no longer supplying mattresses or blankets to these schools. It is possible for teachers to provide themselves with blankets, but it is considered that taking in a mattress to many of these isolated schools presents a problem that few candidates for employment would undertake during these times when competition of the white schools for these teachers is making it difficult to even hold those we have. It is felt that the Department might reconsider the decision in respect to mattresses.

The newly appointed teacher, Mr. Widdowson, is a married man with one child and without professional standing or previous experience. Whether he will be retained depends on his success during the balance of the term. If the school is to be moved or replaced, extensive repairs should not be undertaken until this is done. If it is to remain in temporary use in its present location, the porch and flooring could be attended to during the summer vacation and perhaps the addition of an extra room considered at that time. A rough estimate of the cost of these including labour would be:-

Floor.....\$70.00
Porch.....\$80.00
Addition.....\$300.00

In addition to this I would recommend supply of the following furnishings immediately at an approximate cost of \$250.00

1 Kitchen table	1 Kitchen cabinet
3 Chairs	1 Single mattress
1 Easy chair	1 Bureau
1 Cook stove	1 Dresser
16 yds. Linoleum	Necessary pans and kitchen equipment.

Major D.M. MacKay,
Indian Commissioner for B.C.
Vancouver, B.C.

Dear Major MacKay,

Thank you for your letter of the 17th. inst. advising this Society a teacher had been appointed to Inkameep. When in town last week, one of the Indian Mothers came up to me and told me a new teacher had arrived and they all liked him very much.

Yesterday, I went with some Members of this Society to visit the school, where we met Mr. Widdowson, his Wife and young son 10 years old.

I assure you that Members of this Society and Indians on the Reserve are delighted with this appointment and we trust your Dept. will see its way clear to improve the living quarters and water supply at the School. Without wishing to intrude and with the earnest desire to be of assistance, I offer the following suggestions:-

WATER SUPPLY. The well mentioned in former correspondence is no longer used by the Indians for domestic purposes. I was told by the Indians they do not consider it is fit to use. The nearest good water is from a spring situation about 2,000 feet from the school. The approach is up a fairly steep ravine and it takes about fifteen minutes to fetch a bucket of water from this source.

I enquired of the Indians as to whether there was a possibility that this source of water would dry up, and was told that as long as the Inkameep Indians can remember, this source has never been known to run dry.

I suggest that a one inch pipeline be laid from the spring to the school. This would furnish an adequate supply for:

- a. For the schoolchildren as washing and drinking water.
- b. Domestic water supply for the teacher.
- c. Irrigation water for the school and teacher's garden.

If water, even in small volume were available for the cultivation of a vegetable garden, which apart from its

obvious utility, would make it possible to include in the school curriculum lessons in practical gardening. For these Indian children this would be a very important subject and would interest their parents as well.

Teacher's quarters.

I further suggest the possibility of re-conditioning the present schoolroom to serve as a kitchen-living room for the teacher and to build on an entirely new schoolroom to accomodate some 20 pupils.

If this addition were made so as to utilize the existing blank wall of the building, it would save expense.

In that case, instead of putting a new floor in the present schoolroom, I suggest cementing down a fairly good quality linoleum, not only would this be more hygienic and easy to keep clean, but it would be the least expensive in the long run.

Do you not consider that sufficient timber could be cut on the reserve to furnish the lumber for this addition to the school and to defray the expense in connection with the building and water-pipeline ?.

I feel sure the Indians could be prevailed upon to co-operate, especially as they are so very keen on having and keeping a Teacher in residence.

Yours sincerely,

President.

R.A. Hoey Esq.,

Ottawa, B.C.

Dear Mr. Hoey,

I thank you for your letter of the 13th. inst. enclosing the last Branch Report and other circulars, as sent out to the Indian Agents.

Regarding the third par. of your letter; I agree that even quite modern accomodation at Inkameep would not necessarily ensure the appointment of a fully qualified teacher. At the same time a more suitable dwelling and water supply would facilitate the retention of a teacher, (even though he might be a man not specially trained for that particular type of instruction) who, if appointed, could certainly do a good deal towards instructing and guiding the young folk at Inkameep.

As you are not familiar with prevailing conditions, I do not think I can do better than to give you a copy of a letter I wrote on this subject to Commissioner Mc.Kay at Vancouver, on the 14th. December last, and his reply:

"When I had the pleasure of speaking with you in September I was impressed by the keen interest you take in our Inkameep Indians. Mentioning this fact to Members of the Council, it was decided I should communicate with you in the following matter.

Whilst the Council of this Society wishes to express its gratification at the appointment of Mr. Kiernan to the position of teacher at Inkameep Indian Day School, it feels the accomodation provided for the teacher leaves much to be desired. To say that it is primitive is to put it mildly, most of the ranchers in this district have far superior accomodation for their casual labour.

In case you are not acquainted with the facts, I would point out that the teacher's quarters consist of two - so called rooms - a bedroom approximately 8'6" x 6' and a kitchen approx. 8' 6" x 8'. In the latter there are three doors and a window. In the bedroom there is a bed with a worn-out and not very clean mattress, one makeshift table. There is no room for any other article of furniture.

The kitchen has a cookstove, a rickety table and three rough wooden shelves. One delapidated wooden chair serves for both schoolroom and teacher's quarters. The floors are rough and have no covering and the only means for artificial lighting for both schoolroom and teacher's quarters is a small, old-fashioned single wick coal-oil lamp. The bedroom is unheated. The only heater available for heating the schoolroom and teacher's quarters is of the smallest and cheapest type that requires constant attention. For this reason it is impossible to maintain a steady temperature either in the schoolroom or teacher's quarters. The schoolroom door opens directly on to the range, consequently in zero weather the room becomes intolerably cold and I have seen snow drift right into the classroom. The same remarks apply to the teacher's kitchen.

A new floor is badly needed in the schoolroom, the present floor is not only very rough, but there are wide cracks which are full of accumulated dirt, this is definitely not hygienic.

"The most important thing in any public institution is the water supply. In the case of this Inkameep School, the source of supply is from an old hand-dug well situated at some considerable distance from the school. This well has not a pump and it is open at the top, therefore it is in no way protected from dust and dirt, moreover, since the Indians also use this well to meet their domestic requirements and the water is drawn up by means of a bucket, the condition of this water supply can be left to the imagination.

I feel sure you will agree with the Council's suggestion that a comfortable living room be added to the teacher's quarters. It would not cost much to add another room and to furnish it with a proper table, easy chair, etc. and to furnish floor covering and a proper modern lamp. At the same time this is done, the schoolroom could be thoroughly reconditioned.

It must be remembered how isolated the Inkameep School is, and that the seven miles of road, or rather dirt track into Oliver, is certainly a problem, because, during the fall and winter months, it becomes a quagmire and is closed to traffic. When a teacher has to go to Oliver he has to walk. This is a further reason for asking that he be provided with some of those comforts every human being is entitled to.

The present living quarters tend to make a man feel, not only depressed, but what is worse - degraded.

The work this school has turned out has caused favourable comment in Canada, the U.S.A. and in Europe, probably more so than any other school of its kind in B.C.. For this reason we would like to see the pupils and the teacher of the Inkameep Indian Day School encouraged to give of their best."

With kind regards, Yours sincerely

Signed. Albert Millar. Pres."

To this letter, I received the following reply dated the 22nd. December, 1943.

Dear Mr. Millar,

"Acknowledging your letter of the 14th. inst. re conditions at Osoyoos Indian Day School, I would advise you that I have asked Mr. Barber for a report on the questions raised by you.

Meanwhile, it would appear that there has been considerable neglect of this school in recent years by the teacher as, while space will not permit of more than the most simple furnishings, it was always considered reasonably comfortable and there have been no previous complaints. The two living rooms were covered with inlaid linoleum very shortly before Mr. Walsh took over, but for some reasons he threw it out, apparently preferring the bare boards. The table and chair may have become rickety in recent years, but they were substantial and there were, at least, three chairs. It should impose no hardship on the teacher to reach into the classroom for a chair when necessary. With the publicity this school receives for its handicrafts it is surprising the teacher could not have provided himself with something better than three rough shelves. The former Agent gave the School a small set of book shelves from his own furnishings. There were two Coleman gasoline lamps in the school as well as a coal oil lamp for night use. If the floor is now dirty with dirt embedded in the cracks, it would appear to be a reflection on existing housekeeping, particularly as the teacher is given an allowance for janitor service for the classroom, for which he may employ Indians or do the work himself. In respect to the stove, this has previously been found adequate by the teachers, one teacher keeping the windows permanently open for about a foot at the

sheet 3.

"bottom, covering the opening with cotton to prevent drafts.

Mr. Kiernan was given very full details of conditions at this school before he accepted the appointment and that it was situated some seven miles from Oliver. I understand that the Indians have been extremely co-operative in giving the teachers lifts to and from town. Our officials, inspectors and others have gone in and out of this Reserve at all times and seasons for years and have found no great difficulty due to mud except for a few days in the spring and then only at one spot.

Mr. Kiernan was fully advised regarding the domestic water situation and that the customary source of supply was a short distance behind the school. When Mr. Inspector Coleman visited this school in October last he asked both Mr. Kiernan and the Agent to explore the possibilities of having a local man dig a well at the school if Indians could not be found for the work. If the Indians of this Band expect this Branch to defray the cost of educating their children and find teachers at a time when they are very scarce I am sure you will agree that they themselves should be prepared to give some co-operation in such matters as this. We have schools vacant elsewhere with more commodious quarters, or where the school is close enough to a town to make teacher's quarters unnecessary, to which Mr. Kiernan could be transferred and Osoyoos School closed until such time as building material and funds are available. Despite the favourable comments from outside, the fact remains that some of the parents were sending their children to Residential School on the grounds that this local school was not providing the children with the education they expected of it. In the event of its being closed the remaining children would also be transferred. Perhaps I would add here that provision has been made in the post-war program of worthwhile works for a new school with teacher's quarters to replace the existing accommodation.

Your letter does not disclose what representations Mr. Kiernan may have made to the Indian Agent in respect of these problems. Certainly, none were made to the Inspector of Agencies other than a discussion of water supply, which originated with the Inspector. However, on hearing from the Indian Agent I will write you again.

Yours faithfully,

signed. D.M. MacKay, Indian Comm."

To this letter I replied as follows:-

January 3rd. 1944.

Dear Mr. MacKay,

"Replying to your letter of the 22nd. December, I am pleased to note you have asked Mr. Barber to report on the conditions of the Osoyoos Indian Day School, as raised by this Society.

For fear of prejudicing even that poor case our Indians appear to be entitled to, I will refrain from commenting on the remarks contained in the fourth paragraph of your letter pointing out other condition under which the Inkameep teacher might operate and in which event the Osoyoos School could be closed..... and in the event of its being closed the children would be transferred to Residential Schools. All I would say is that this is hardly the answer this Society expected from the Indian Commissioner for B.C. in charge of our Indian wards of the Canadian Government.

"Is it not a fact that the Allies, including this Canada of ours, are fighting to uphold among other things, justice and equitable treatment, to all persons and minorities, and it is the individual and minorities that go to make up Canada. The responsibility for the future good conduct and well-being of the citizen is, to a large extent dependant on the attitude of those placed in authority over him.

So one should ask oneself, how should I feel being expected to give good service as a teacher in an outlying district in circumstances such as those existing at the Inkameep Indian Day School? Then I would ask myself - How would I like my children to be educated in surroundings and under conditions such as prevail at Inkameep? Could I conscientiously answer that I would be satisfied especially being aware of the fact that neither the teacher or the individual child is in a position to alter the situation.

This, I believe is the test each individual in authority should put to himself when meting out something to those dependant on his sense of justice and equity.

On one point, I would make myself clear. If the teacher is expected to clean the schoolroom floor, I might mention that I have never seen it so well scrubbed or the schoolroom so tidy. But even those in authority cannot expect a teacher to take a chisel and rake out the accumulated dirt of years from cracks of nearly 1/4" separating each board. And supposing he did so, with what would he refill the cracks?

Regarding the Indians doing something for themselves: In the first place, as wards of the Government they are not expected to do things for themselves, and yet, I seem to think it was the late Indian Chief who, at his own expense built the Inkameep Indian Day School as it now stands, because he did not wish the Indian wards to grow up illiterate. Since that time, some twelve years ago considerable progress towards more ample and more hygienic schoolrooms has been witnessed elsewhere, except at Indian Schools, especially the Indian Day School at Inkameep where a few little native children have shown to the world the wonderful latent art and cultural background waiting to be developed so as to ~~contribute~~ contribute something worthwhile to Canada and yet there seems the desire to throttle this inherent beauty through sheer neglect.

Yours sincefely,

Signed. Albert Millar. President.

I might mention that I received no further communication on this subject from Major D.M. Mackay.

For your further information I enclose copy of ^aletter I am mailing to the Commission today, from which you will note the suggestions I make for meeting the immediate requirements of the School. In order to save time, I am sending a copy of this letter to both Major D.M. MacKay and the Indian Agent, Mr. A. Barber at Vernon.

By the way, I did not notice any of your admirable little booklets "The Beaver" at the School, were some sent there, I am sure they would prove interesting and instructive to the pupils.

Yours sincerely,

I am in receipt of a copy of Mr. Indian Agent Barber's report for the month of April in which he refers to the appointment of Mr. Widdowson as teacher at Inkameep Indian Day School, stating that he arrived, with his wife and child, on April 16th. Mr. Barber also states that he "cannot understand three people being recommended to live in accommodation which is somewhat cramped for a bachelor". This would no doubt leave the impression with the Department that some person other than Mr. Barber, presumably this office, advised Mr. Widdowson that the accommodation at the school was sufficient for three people. This was not the case. Mr. Widdowson was given detailed measurements of the classroom and two rooms comprising the quarters at this school by the Inspector of Agencies and I personally informed him that the accommodation was very small. Since arriving at Inkameep, Mr. Widdowson wrote the Inspector informing him that he found things exactly as described except that the rooms were one foot larger than the measurements given. It was my understanding that Mr. Widdowson's wife and child would visit him but not that they would take up residence.

This man was appointed on a temporary basis, subject to indications that he was capable of teaching a small Indian Day School.

Dear Mr. Millar:

I desire to acknowledge receipt of your letter of April 24 and to thank you for the information contained therein.

I am today communicating with Commissioner MacKay, requesting him to do everything humanly possible to make the living quarters at the Inkameep School reasonably satisfactory to the recently appointed teacher.

I have reviewed very carefully the correspondence on file in respect to the Inkameep School, and I am convinced that a fully modern school, with ample accommodation for a teacher, should be built as part of the Government's works program in the immediate post-war period. In the meantime, Commissioner MacKay will undertake certain minor repairs and purchase the furniture that appears to be necessary. It would be appreciated if the Indians themselves, in this critical period, took the steps necessary to secure an adequate supply of water for the school.

It is scarcely necessary to state that your personal interest in this matter is very much appreciated.

Re: Inkameep Indian Day School.

May I refer to a letter dated January 17, 1944, received by you from Indian Agent Barber. In this letter Mr. Barber states:-

"I have to advise that requisition was made for a new mattress, two blankets, a floor rug and an easy chair, and same was forwarded to the Department from this office on October 4, 1943, and October 15, and no word has been received."

I have made a careful study of the files and have discovered a requisition dated September 20, 1943, asking for mattresses, blankets, easy chair, etc., at the Inkameep School. This requisition was apparently sent in with another requisition for textbooks, classroom supplies, etc., and was evidently overlooked by the officials here. I have been wondering if it would be possible to persuade Indian agents, in the future, to send in requisitions for textbooks and classroom supplies and the furnishings for teachers' residences on separate forms, and perhaps in separate envelopes. I agree with you that requisitions for furnishings, repairs, etc., should be sent to your office.

I am frankly a little disturbed at the condition of a number of our Indian day and residential schools. We have had a number of resignations during the last two or three months, and unless we can do a great deal more than we are doing now to keep these buildings and teachers' residences in a good state of repair, additional resignations are likely to reach us in the immediate future.

There is, as you know, an acute shortage of teachers throughout the Dominion. Principals of normal schools and educationists generally believe that this shortage is likely to continue for perhaps a decade. If such is the case, the competition for teachers in the future is apt to be very keen and unless the salaries paid by this Branch and the accommodation provided compare favourably with the salaries paid at white schools and the accommodation available in white centres, I am afraid we are likely to secure what might be termed the dregs of the teaching profession during the decade ahead of us. We have altogether too many teachers lacking professional standing in our schools at the moment.

Would it be possible to have Indian agents report on the condition of these buildings and not wait until the president of some Indian Handicraft Society reported their condition to the Minister? It would appear that we require a new building at Inkameep, which should consist of a spacious classroom, full basement accommodation and a teacher's residence. In the meantime and until such a building is constructed, I am anxious that you should do everything humanly possible to make the living quarters at this school reasonably comfortable.

REPORT ON OKANAGAN INDIAN AGENCY FOR THE MONTH OF APRIL, 1944.

X X X
Inkameep Day School;

Mr. Widdowson, wife and child arrived at the School on April 16th and the school was in session on my visit on the 19th. They appear willing to make the best of the situation, but I cannot understand three people being recommended to live in accommodation which is somewhat cramped for a bachelor. Whilst so far they appear to get along well with the Indians, Mrs. Widdowson assisting in the teaching, I gather that he is expecting another appointment before September.

A further report regarding this school will be made in due course.

Re - Inkameep Indian Day School.

I beg to report to the Department that this School which opened for the Fall term on October 1st was closed for October 16th to October 26th inclusive owing to the teacher, Mr. Widdowson, having been called to the Coast where his son was ill.

The school is again closed from December 5th instant owing to Mr. Widdowson finding it necessary to return home owing to the ill health of Mrs. Widdowson and he expects to return for re-opening of the school on January 3, 1945.

Mr. Widdowson is aware that an adjustment covering these periods will be made on his next salary cheque.

The closing in October occurred during my absence on annual leave.

Dear Mr. Lacey,

Thank you for your letter of , I fear, not very recent date. I was waiting to see the School Inspector before replying: hence the delay.

I saw the Inspector this afternoon, and he recommends that, in the first place, I should use the Provincial Readers (Dignowos to Readers): I requested these books in my last requisition, which is, I suppose, on file, but I was not sent them: perhaps the Branch would reconsider the matter.

The Inspector further recommends the use of "The New Work-Play Books", as listed on page 6 of the Macmillan Company's Catalogue of Elementary and Junior High School Texts. If I am allowed these I will inform you as soon as possible of the quantities required.

With regard to the other things you mention in your letter: I am indeed glad that more attention is being given to Indian affairs (was living in Canada I have lived in a remote spot and have learned little of Canadian politics). I only hope that what is done will be in accordance with the recommendations of well-informed persons, and that those responsible will not find themselves compelled to accept recommendations of well-meaning but not so well informed parties.

The problem of the obsolete textbook is indeed a great one. I wish I knew what to do with mine. To destroy them seems now

But surely this problem would be relieved by the adoption of a

I am sorry to have to tell you that I have some disquieting

Your letter of the 4th instant has been
referred to me for a reply.

I have noted your remarks re the
provincial readers. For your information, I wish
to state that the Corona Readers have been adapted
as the text books in the Catholic schools. I might
add that these readers are the only Canadian Catholic
readers on the market. They have been revised and
compare very favourably with other sets of readers.
Along with these, the Department sends supplementary
reading material. Readers are sent out in groups
of six. This will allow the teacher to diagnose the
reading ability of the pupils, grade those with the
same difficulties together and teach them in groups of
six. You will readily understand this system. I am,
therefore, sending some Highroads and some of the new
Work and Play Books. It is difficult for me to say
when you will receive these as shipping conditions
today are very unsettled.

I wish to draw your attention to the fact
that text books are only tools and should not have too
much effect on the methods of teaching. I hope that
the material you will receive will prove satisfactory.

AGENT'S REPORT ON OKANAGAN AGENCY FOR MONTH OF NOVEMBER 1944.

INKAMEEP SCHOOL

This school has been improved by the re-flooring of the class room and the addition of a large bedroom, also necessary furniture. Also the water is now piped to the school door from the spring 1000 feet away. The school reopened on October 1st. However, it was closed from October 16th to 26th inclusive owing to the teacher, Mr. Widdowson, having to go to Vancouver where his son was ill. Many of the Indians of this reserve are still away and the attendance is poor, being an average of about seven pupils.

The teacher, in my opinion, is hardly suitable for teaching young Indian children, although no doubt very capable in his own line.

Dear Mr. Hoey,

Further to my letter of Dec. 4th, I have to say that I have now received from the Macmillan Co. their list, with extra particulars of the Work. Book series recommended by the Provincial Inspector of Schools. They are very good, and quite on the lines of the books I have described to you in my previous letters. But the expense is very great.

I am sending a formal requisition through the Agent for a single set that I can examine, and from which I can determine what my requirements would be for the Inhaman children. But I shall quite understand if the requisition is disallowed on the score of cost. This single set will be about \$25 (last price) and if the school was equipped with the series the immediate further expense would be about \$75, quite apart from subsequent expenditure on higher grades. Frankly, though, as the children do not take any interest in their work (having been spoiled by excessive handwork and ornaments) I would not expect any good results commensurate with the expenditure.

Yours sincerely

I have your letter of January 25th regarding
Mr. B.C. Widdowson, teacher of the Inkameep Indian
Day School.

According to reports recently received the
situation at this school is not satisfactory and I have
asked Mr. Inspector Coleman, who is now on his way to
the Kootenay Agency, to look into the matter.

Mr. Widdowson is somewhat odd in both appearance
and manner and in addition has a slight impediment of
speech which makes it difficult for the children to under-
stand him and probably accounts for the absence of the
progress expected.

The Department will be further advised regarding
this school on receipt of Mr. Coleman's report.

I have reviewed our file and find that this man was absent from the school from October 16 to October 26, owing to the illness of his son. In a letter received from him dated December 4, 1944, he stated that owing to the condition of his wife's health he had closed the school and was on his way home. Your letter of the 23rd instant states that he did not return until the 28th of January. In other words, he was absent from the school for over a month.

Unless Mr. Widdowson intends to remain more steadily on the job, I do not see a great deal of use in continuing his employment. Reports from the Indian Agent indicate that he is not very well satisfied with Mr. Widdowson's services. I would appreciate hearing from you at your convenience regarding this man.

I have had a note from Mr Widdowson in which he writes "at the moment I am staying on here. The wording of my resignation was not quite right, and the agent wrote for confirmation."

In view of the possibility of Mr Widdowson's early withdrawal from the school I am nominating Rev. Michael O'Reilly to be his temporary successor. Father O'Reilly is at present stationed in Nelson at the above address. He is well qualified and in my opinion will do much to reestablish good relations at Kamloops. Further to my letter of February 2nd, I enclose herewith Mr. Indian Agent Barber's letter of February 26th and a letter from Mr. B.C. Widdowson tendering his resignation as teacher of the Inkameep Indian Day School. It is recommended that Mr. Widdowson's resignation be accepted effective March 31st.

I am also enclosing a letter from Bishop Johnson dated February 17th wherein he nominates the Reverend Michael O'Reilly to the position at Inkameep for the balance of the academic year. It is thought that the appointment of Father O'Reilly to this position will have a good affect on the Indians as there has been a tendency recently to break away from the Church and the school.

Sir,

I give notice that it is my intention to terminate my services as teacher at this school at the end of the current term. It is my desire to leave the school on March 27.

I trust this will be acceptable to the Department.

If it should be desired to put in another teacher prior to the end of this term, that will be quite acceptable to myself.

Yours faithfully,

Major D.M. MacKay, Indian Commissioner for B.C., Vancouver, B.C.

Herewith is the resignation of Mr. B.C. Widdowson from the position of teacher at Inkameep Indian Day School of this Agency which he gave to me when I visited the school on the 22nd instant.

In view of the fact that Mr. Widdowson has had some considerable trouble and has failed to gain the respect or co-operation of the Indians, either pupils or parents, I recommend that his resignation be accepted by the Department.

With reference to your letter of the 19th instant in this regard, I was informed by Mr. Widdowson that the Bishop had made the nomination mentioned, and I trust that the next appointee may be able to accomplish something to the end of re-establishing this little school on an educational basis without spending too much time on other phases of Indian welfare.

Welfare and Training.

Inkamseep Indian Day School - As the Department is now aware, the teacher, Mr. Widdowson, has resigned, and Reverend P. O'Reilly is appointed for the balance of the year. The appointment of Mr. Widdowson was an unfortunate one in every way and he is totally unfit for teaching young Indian children despite his undoubted ability as a scholar. It is a relief to me that his services are terminated, and I only hope that his successor will be such that the confidence of the Indians and others will be regained and some progress made in the school work.

Dear Mr. MacKay,

I have been doubtful as to the form into which I should throw the remarks which I have to make on the improvement of Indian education: but have finally decided to write them in the form of a letter, which you can have transcribed in any way which you may wish if they are to be transmitted to Ottawa.

The first point which I should like to make is that, just as in white education the city school with a class room for each grade may be taken as normal, in Indian Education, the small school with several or all grades at work in one room under one teacher must be taken as normal. This means that, although one wishes to depend as little as possible upon the text-book, there must be long periods of time when the teacher is occupied with other grades, in which the pupil must of necessity be left largely to textbook or work-book: blackboard work for any one grade is in the same way only possible for a small part of the total school time.

Again, I must criticise the present ^{policy} of the Branch to depend upon the Provincial textbooks. In the present state of Indian education there is far more in common between the needs of the Indians in the several provinces than there is between those of Indians and whites within the same province. Leaving out of the question differences of psychology between peoples of different colour, there remain two factors of far-reaching importance: first, very few Indian children have any intellectual background, such as most white children have: second, English is a foreign ^{to them} language, and it is an inefficient proceeding to use the same textbooks as are used for children to whom English is their mother-tongue.

The teaching of arithmetic requires special textbooks, with the directions to the pupil in very much simplified language. One notices in present-day arithmetic texts an unfortunate tendency to use complicated and difficult words in place of simple and readily understood ones. That is unfortunate in any case, with Indians doubly so. There are many books available in which the distribution of arithmetical facts is good enough, but ^{which} need rewriting as to the English used to convey the facts, to bring it down at least two grades in its comprehensibility.

Apart from Arithmetic, it is my view that the whole of the necessary subjects for the first three grades - which are by far the most important - could and should be embodied in a single course roughly corresponding to Reading. All that need be taught in the way of Social Studies, and the elements of the scientific knowledge

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

of things, could be included in a judicious choice of pieces for inclusion in the readers. That will of course mean that the readers will have to be larger than at present. The plan of Macmillan's New Work-Play Books is as good as any that can be devised: but the bulk requires increasing, and the reading matter adapted to the needs of the Indians.... This, by the way, does not mean that they should be about Indians, or be interlarded with "Indian" words derived from the languages of all but or quite extinct tribes of the East; but that they shall be about topics to a large extent those that appeal to Indians, such as animals and riding: a considerable proportion of the authentic fairy tales of the Near East (which possess these interests, would seem to be indicated). In fact, for the real education of the children, the environment should be rather that of which we wish to inform the children, and not their own, with all that it implies of resistance to civilised ways. The illustrations also, should attain to a high artistic level (here again the Work-Play Books may be referred to approvingly) as Indian children are apt to use the illustrations in their readers as artistic raw materials: it would also be as well that the technique of the drawings should be such as to help in this way (that is to say, not involving the use of light lines and washes) and that the range of subjects should include a great quantity in which bathing scenes are depicted, or some related subject which would provide the excuse for giving the children plenty of unconscious instruction in the anatomy of the human body (When teaching I have suffered considerable discomfort from the ignorance of the children in this matter.)

I would further suggest that the use of these readers should be made compulsory in all Indian schools: and that religious interests should be represented by the permission and encouragement of religious bodies to provide supplementary readers of considerable bulk (if desired), planned to fit in with the general scheme of the main readers. The Provincial interests could also be represented by a further series of locally provided supplementary readers. And I would in addition advocate the provision, at each grade level, of "home readers" which would be given to the children to take home with them, which might lead to a gradual raising of the level of the homes themselves. Here also, religious and provincial supplementaries would be invited.

In all these readers I would suggest that a uniform system of lettering be insisted upon, such as I have written out upon the enclosed sheet. As it is to be presumed that the readers for the first three grades would be reproduced photographically, there

would be

would not be the slightest difficulty in getting the words done for reproduction along with the drawings. It is further to be desired that at the first level only those capital letters should be used whose forms are identical with those of the small letters, other capitals, and also forms of some of the small letters which in letterpress are different from those in the attached alphabet being introduced gradually.... The merit of the attached alphabet lies in the fact that the proportions of the letters are given a definite rationale, which appeals to the logical Indian mind. Thus the O is an exact circle, the C is derived from it by drawing the circumscribed square and its diagonals: a good many letters are based upon it, and it is taken as the measure for the width of most of the other letters. I was myself surprised at the speed with which the children at Inkaneep, who had never before been introduced to a properly constructed alphabet, took to this one and marvellously increased the neatness of their work at all grades.... For this can well be taught as a preliminary to writing, which in my opinion should not be expected of Indians too soon.... It would be a great advantage to have properly ruled paper for practicing lettering, and reducing ~~its size~~ ^{the width of the spaces} with the increasing age of the pupil, such as is unfortunately not done at all in Canada. The cost would be trifling.

To turn to practical life, I would like to see the Indian customs used as a basis for the teaching of cleanliness. There is no reason why the Indians should not be told - as it is the truth - that their own sweat-house method of keeping clean is superior to our European method. But that for European clothes they should turn to European methods. I would advocate the adoption of uniforms which, as Government property, the Government could insist upon being kept clean, probably by a laundry class of the girls: shirt-and-shorts for the boys and short ~~trousers~~ frocks for the girls, with not too much extra piled on for the winter, would be in addition conducive to health.

I am aware that much of this would involve the outlay of considerable amounts of money. But in the rehabilitation schemes which are now rife, I understand that money is going to be spent anyhow, and I consider that some such scheme as I have outlined (and as to any part of which I could of course supply further details) would be very productive of good.

Yours sincerely,

B. W. Dawson

I enclose herewith some observations on Indian Education by Mr. B. Widdowson, former teacher at Osoyoos Indian Day School, for what they are worth. In view of Mr. Widdowson's very brief experience teaching in one small Indian school and his lack of training in pedagogics, it is unlikely that the Department will regard the report as sufficiently authoritative to warrant much consideration.

Apart from the above, it is pleasurable to note Mr. Widdowson's continued interest in Indians. Our personal relations with him were very satisfactory, although it is regretted he was not considered temperamentally fitted for the duties of an Indian school teacher.

With the replacement of Mr. Widdowson by Reverend O'Reilly after Easter, this school is doing much better. He is well liked by the Indians and gets the co-operation of the parents. The attendance is now fourteen and whilst Father O'Reilly has no teaching experience, he is young and appears to be able to handle the pupils very well and with a little more discipline than has been the rule at this school at any time previously. Welfare and Training:

Inkameep Indian Day School. There is a good attendance at this school, and Reverend Father O'Reilly, the young priest who is teacher, is doing very well, and appears to be well-liked by the pupils and parents. With sixteen pupils, the school is a little too crowded.

REPORT FOR THE QUARTER ENDING JUNE 30th, 1946. of
INDIAN AGENT ALFRED H. BARBER, VERNON, B.C.

INKAMEEP DAY SCHOOL-

The Rev. Father O'Reilly, has been very satisfactory and as far as he is presently aware, will be returning to the school on re-opening, however, this is dependant upon the Bishop not making other arrangements for him.

Inkameep Indian Day School

We have received a letter from Mr. Albert Millar, President of the Okanagan Society for the Revival of Indian Arts and Crafts, in which he states as follows:-

"Unfortunately, the Inkameep is going from bad to worse, drink and general immorality. Their wonderful artistic talent developed under Mr. Anthony Walsh has been discouraged under the young Irish Priest's tuition (two years) and so they now delight in reproducing 'pin-up' pictures and art of that description. "

It is possible that Major Davey could investigate this reported situation when he visits this school.

In your letter of July 16, 1947, enclosing application from Mrs. Rock for appointment at the Penticton School, you forwarded a letter dated July 13 which you had received from Right Reverend M. M. Johnson, Bishop of Nelson. The last paragraph of the Bishop's letter read as follows:

"Unless you are able to procure a suitable teacher for Inkameep, I shall have Father O'Reilly open the school."

It would be appreciated if we could be definitely advised in this connection.

APPLICATION FOR CLASSIFICATION
ON REVISED SALARY SCHEDULE.

Our files here indicate that we have not as yet received from you a copy of the form attached to the June 1948, issue of the Bulletin, and entitled, - "APPLICATION FOR CLASSIFICATION ON 1948 REVISED INDIAN SCHOOL TEACHER'S SALARY SCHEDULE".

It is essential that we have complete and up to date information on every teacher's qualifications and experience before setting their salary for the 1948-49 academic year. If you have not already completed this form, I would ask that you do so immediately and forward it to the office of your Indian Superintendent. Unless this is done, your salary for September, 1948, will be the same as that salary you received for June, 1948.

If you have already sent this form in to your Indian Superintendent, check with him to ensure that it has not been mislaid. If necessary, you can complete the attached forms, (duplicates of those sent you in June) and return them at once through the office of your Indian Superintendent.

I have noted the contents of your letter and also that of Mr. Sampson. It would be indeed unfortunate if we were to close this school, as at one time it was one of the best day schools in British Columbia.

I realize that it has deteriorated greatly, and will await with interest Mr. Sampson's report on present conditions. I am attaching the pupil forms which we use when doing a survey on a condition such as exists on this Reserve.

Re: Inkameep Indian Day School
834- 1 (E) of March 2nd

I enclose herewith results of a survey recently made by Mr. Superintendent Sampson in connection with the above-mentioned school. It will be noted that there are sufficient pupils to justify the operation of a one room school on the Inkameep Reserve. The very unsatisfactory operation of this school during the last four or five years is undoubtedly due to our inability to secure and retain a competent teacher. It is felt that the unsatisfactory living conditions at the school and the acute shortage of qualified Catholic teachers are the main factors in our difficulty in securing suitable teachers and it is hoped that it will be possible to construct a new school at Inkameep during the current fiscal year.

Mr. Davey recently visited this reserve with Mr. Sampson and came to the conclusion that the existing site is the most suitable location for a new school.

Attention of Mr. R.F. Davey, Inspector of Indian Schools

Re: Inkameep Day School

Further to our recent discussion about this school, the following information is submitted:

(a) There are currently 12 children available for attendance at this school.

(b) The 6 children in attendance at Omak School could attend at Inkameep if the school is opened. They were sent to Omak early in the term when it was thought the school was not going to operate.

(c) There are four children at Kamloops Residential School who apparently have no reason for not attending the Inkameep School, as there are other children in the family who are living at home and the family circumstances are more or less normal.

(d) There are 13 preschool children and 13 children who will be discharged during the next six years, so attendance will apparently remain about the same.

Owing to the distance from the public schools in Oliver and the difficult road over which children would have to travel, it does not seem practical to entertain the idea of

transporting the children from the Reserve into the Oliver schools, although the School Board has signified their willingness to accept these children.

The present school building at Inkameep is inadequate for our purposes, both as to living quarters and classroom. The original construction was very poor, there having been no insulation applied, with the result the school is hot in the summer and cold in the winter; both the school and the living quarters are far too small; the lighting is very poor, there being insufficient window area; the water system is impractical in its present state owing to improper installation.

Owing to the impossibility of carrying out practical improvements to the existing building, it is strongly recommended that a new building, including living quarters and inside sanitation be constructed, and that a new water system be installed which will provide adequate storage and proper insulation of the pipes from freezing.

With regard to the water supply, the Indians inform me that spring from which the school has been drawing water is open all year round and that the water is of good quality.

R.H.S. Sampson,

Inkameep Indian Day School

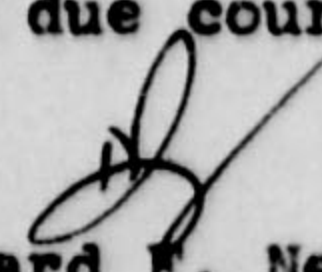

We have read with interest Inspector Davey's survey on the above school and it seems evident that there is sufficient population to warrant the operation of a small school.

We suggest two alternatives:

- (a) The conversion of the present school into a teacherage or into a proper classroom. If it can be converted better to a full classroom then we can erect a small teacherage. From Mr. Sampson's letter of March 14 it seems that it would be better to convert the present building to a proper teacher's residence by putting in proper installations and carrying out other improvements. Then we could provide a pre-fabricated one-room school which would provide proper classroom facilities
- (b) The provision of a standard one-room school and teacher's residence as per plan 888

I attach Construction Project Report Forms to be completed and forwarded here in due course.

Dear Tony:

I am just leaving for Western Canada and will not return until Christmas. I hope to look in on the Inkameep School and will endeavour to contact some of your former pupils. I will bring back what news I can, of their progress.

You will be interested to know that we are now building a new school after having overcome many difficulties.

Dear Bernard:

Thank you so much for your note. I was glad to know that you'll soon be in your new house, and thus escape moving before the coming of the hot weather. It is only now that we are getting warm weather in these parts. From the top of the Mount, I've been watching throughout the last week, the trees assuming their green clothes. It was a marvellous experience to watch the change of colouring from day to day. I'm fascinated by the Mount, because six minutes walk takes me away from the rush of the city and I'm in peaceful surroundings as in the Okanagan.

Since I last wrote to you, I've done much writing. My three-act play on St Noel Chabanel, 'Triumphant Failure' is now ready for pruning. I've just received a letter from the head of Dramatics Dept at Penn State College, (We were at Banff together for a couple of years.) He states.

"Sorry to have kept the enclosed manuscript so long. I have read it with great interest but have been hoping to get a little more time to write you concerning it. I am truly hardly competent to judge it. It does not follow the usual pattern of a play- it is episodic with a broad sweep- almost a movie scenario. But I believe it will be very moving if performed well. I am wondering whether your Catholic patrons will like the bitter note at the ending. Despite any faults the whole concept has a kind of magnificence about it. And I wish you very much luck with it."

With regards to the bitter ending, it brings out the point that for the time being the Church is crushed, but ofcourse we know that She returns. Non Caths find it very hard to accept failure. I've also completed a short story, an hour long radio play, 'Symphony of the Plains' and am now at the tail end of a one-act. It is about very serious matters, but is turning into a comedy, there is a wonderful old gal, Nora Donnelly, who has taken the bit in her teeth and is running away with the show, so I'm having quite a time between chuckles, trying to keep her in her place.

Last Friday night, I did a show for the Montreal Branch of Fed of Can Artists. They were a wonderful audience, but as they have no funds, there was no remuneration in cash. Wasn't there a some gal name Marie Antoinette who stated, when she heard people were starving for bread, suggested giving them cake? Well, I also need bread, but in place of cake, got a beautiful picture by an artist of Montreal who made many studies of the Caughnawaga Indians. I also got a script accepted by the International Service of the CBC, but it is going to be nip and tuck whether I can scrape up enough cash to keep me going through June.

C. J. Smith
On July 2nd, I become manager for the Montreal Summer Theatre at Loyola College. I'm also to have charge of experimental childrens productions. As they are starting from scratch, I'll just be getting a pittance. But it will bring me in touch with people of influence with the Cath Schools Commission, and may

lead to some part-time work with Eng Cath schools. And who knows
is this is successful, there may be an opportunity of part time
work teaching Indian art and drama at Caughnawaga.

All my friends and associates have run into some kind
of trouble or other, either personal, family or business, so our
projects have had to be postponed.

I hope that Betty, the youngsters and yourself
are all well, and that the number of headaches in the Department
are diminishing.

I see little likelihood of visiting Ottawa, because
its a case of cents these days, not dollars.

Sir,-

I have to acknowledge the receipt of your letter of the 31st ultimo, requesting that a cheque be forwarded for the salary of Miss Christine McLeod, teacher of the Osage Indian Day School, for her services for the three months ending November 30th, last.

In reply I beg to say that a cheque for \$125.00 is being sent you under separate cover for Miss McLeod, being an advance on her salary for the period she taught this school from September 10th to December 31st, last.

A supply of blank quarterly day school return forms is enclosed herewith and you will be good enough to instruct Miss McLeod to prepare returns showing the attendance and days taught for the periods ending September 30th and December 31st and forward them to you for transmission to the Department. I may say that salaries are only paid upon receipt of the quarterly returns of attendance. The quarters end on the 30th of September, 31st of December, 31st of March and 30th of June, respectively, and in preparing her returns she should comply with these periods. She should prepare a return promptly at the end of each quarter and forward it through your office. You will be good enough to see that she prepares returns and forwards them immediately for the ^{September and} December quarter last in order that the balance of salary due for that period can be paid.

Sir:

I have your letter of the 11th instant, enclosing copy of an application which you received from Miss Mary Wadel for the position as teacher of the Osoyoos Indian Day School, and stating the qualifications which she possesses.

In reply I beg to say that, if the Roman Catholic Church authorities, under whose auspices this school is conducted, approve of the appointment of this girl, the Department will consent to her appointment, temporarily, with salary at rate of \$75 per teaching month, her retention in the position, however, to depend upon the success which she meets in the work.

We are informing Mr. Agent Ball of the application of Miss Wadel, and of the necessity of obtaining the approval of the Church authorities for her appointment. Please take this matter up with the Church authorities, and inform the Department and Mr. Agent Ball as to whether they approve of the appointment of Miss Wadel, and, if so, if you have arranged with her to begin duties on September 1st, next.

Sir:

I have your letter of the 25th instant, informing the Department that, owing to a case of chicken pox or smallpox having occurred at the Osoyoos Indian Day School, the school has been closed on the advice of the Medical Officer. We note that the Reserve has been quarantined and that all who were not previously vaccinated in recent years are being vaccinated. It is hoped that no further cases will develop and that it will be possible to reopen the school at an early date. I shall be pleased to hear later regarding this matter.

Sir:

I have your letter of the 21st instant, relative to an application which you received from Miss Mary Wadell, teacher of the Osoyoos Indian Day School, for an increase in salary. In reply I beg to say that this application, which you stated you were enclosing, did not accompany your letter.

The Department will allow Miss Wadell an increase of \$10 per teaching month from the 1st instant. This will make her salary from that date at the rate of \$85 per teaching month. This increase is made in view of your recommendation that her services have been satisfactory and also taking into account the living conditions at this point. I shall be pleased if you will inform Miss Wadell of the increase in salary allowed her.

Madam:-

I beg to acknowledge the receipt of your letter of the 14th instant in which you advise that you have not yet received your cheque for the month of September last. On looking up this matter, I find that, while your cheque is usually sent to Mr. F.J. Ball, Indian Agent, Vernon, B.C., it was, in error, forwarded addressed to yourself at Vernon. The cheque left here on October 17th and, no doubt, is still lying at the post office at Vernon. Please write the postmaster at that point and ascertain if it is there. If not, you should advise me.

Sir:

I have your LSG. 10 of the 21st instant, with reference to a temporary day school for the Lower Similkameen Reserve. In reply I wish to confirm official night letter of today's date, as follows:-

"Reference your letter 21st instant, re temporary Lower Similkameen Indian Day School, you may make recommended arrangements with Mr. Grist, whose salary will be increased forthwith one hundred dollars. Building may be rented and necessary repairs and furnishing, as estimated, provided."

Your scheme for an experiment at Lower Similkameen is approved. It is understood that Mr. Grist will give three days per week at this school and three at the Osoyoos School. His salary, as from the first proximo, will be at the rate of \$100 per teaching month. Twelve cents a mile expenses will be allowed for his travelling. I note he is using his own car.

You will receive a second letter with reference to the repairs and the equipment.

Dear Mr Ball.

Received your letter and your request of explaining why I have resigned so sudden as teacher of the Sukameep Reserve School.

I am sure that you have been Indian agent long enough to know how hard it is to deal with the Indians when they are angry at you. and also that the "word" of the priests is law to them.

This is where my trouble started with the Sukameep Indians when I married Sall outside of the Catholic Church. I heard before I reached the Reserve that I was going to be put out of my position if necessary by force. I was ordered out of one house in fact for the same reason. I want you to know that I am married by law and have my papers to show for same.

Under these circumstances I am sure you will find it in your heart and also Mr McGraw to forgive me. I didn't mean

to be harsh to you nor the office, but
I just wanted to "beat" the Indians in
their intentions of making an object of
laughter of me among themselves and
the white-people. I have never explained
nor complained of what I had to bear
in the last two years trying to educate
my people.

At the time I saw you at Croville
I fully intended returning to work, or
else I would have told you differently.
It was at the ^{very} latter part of August when
I found out on my way to Sukamneep what
the Indians thought of my marriage, which
they classed as not been married at all.

Many of the members would not speak to me
when I reached the Reserve. I spoke to Chief Bates
and told him that I was giving up my
work, and went on to Penticton and call up
Mrs and Mr McGraw's office which I failed
to find either one of you home.

Thanking you for your past kindness and
interest in me. Yours sincerely
If I can help you in any way I shall be glad to do so. Christina M. Haller.

Your File 470825/5

I beg to enclose herewith the resignation of Christine McLeod teacher of the Osooyoc Day School as requested in your letter of the 11th ult. This is dated September 16th but has only reached the office today.

I have recently learned that Christina McLeod was married and divorced several years ago and has now re-married. The Superintendent of the Colville (Washington) Indian Reservation has known her 20 years and she has always borne an exemplary character. Since her re-marriage the Indians have objected to her returning as teacher though they have doubtless been influenced by the priest, Father Bellot, who might also use his influence to prevent so many Indians living together without being married at all either by law or by the priest, and I have called this state of things to his notice several times. He is strongly opposed to the Osooyoc or any other day school, as he plans to start an Industrial school at Penticton where all the Reserves shall send their children and their maintenance to be paid for by the Department. This is quite impracticable as the majority of the Indians will not allow their children to leave the reserve and the expense to the Department would be out of proportion to the education given.

I have continually worked for more

Father Bellot was formerly in the Stuart Lake Agency B.C.

Sir,-

Mr. Inspector Cairns, in a recent report on his inspection of the Oweyoc Indian Day School, states that an old building which stands near the church building is used as a class-room. It will need considerable repairs to make it comfortable for the winter.

I have to request that you will be good enough to state who owns the building in which the school is conducted and also state what repairs are required to place it in a comfortable condition and the probable cost of the same. You should give this matter your early attention, in order that, if this building is the property of the Department and it is decided to have the repairs made, they can be carried out before the cold weather sets in.

I have to acknowledge the receipt of your letter of the 2nd instant enclosing the resignation of Christine McLeod as teacher of the Osoyoos Day School.

In reply I beg to say that her resignation is accepted. It is regretted that she was unable to get along satisfactorily with the Indians and the missionary.

It is not the intention of the Department to open a residential school at Penticton, and it is, therefore, desired, if possible, that you will obtain the services of a suitable teacher at an early date to take up the work at the Osoyoos Day School. As requested in official letter of the 11th instant, the name, age and qualifications of any applicant which you receive for the position should be forwarded for the approval of the Department.

Sir,—

With reference to your letter of the 27th. ult. regarding repairs to the school at Inkameep, I beg to advise that the building used as a school is really the priests's house close to the church and is the property of the Band. It is a 12 x 15 room and the priest never uses it. The school building proper is a much larger building near by, but for several reasons has not been used. The foundations have rotted and it is in a dilapidated condition, but the real reason is that it is too close to the graveyard, some of the graves being within a few feet of the wall and it was claimed that the children are nervous and afraid to enter the building.

The priest's house, now used as the school, requires new flooring and the ceiling repaired, and the whole work would need lumber to the value of \$75.00 to make it comfortable for winter. This lumber could be obtained from the Provincial Irrigation Works within five miles of the school and the Indians promise to haul it and repair the building without further expense.

Next year there will be a large quantity of lumber available when the big ditch is completed and I would suggest that the present building be repaired to make it habitable for the coming winter, but advantage taken of the opportunity to

Sir,-

I have to acknowledge the receipt of your letter of the 24th ultimo regarding the repairs required to be made to the building used for school purposes at the Osoyoos Day School.

In reply I beg to say that the Department will approve of the repairs mentioned by you being done to this building, in order to make it habitable for the coming winter and the lumber required for the purpose may be purchased from the Provincial Irrigation Works at a cost not to exceed your estimate, namely, - \$75.00. It is noted that the Indians will haul the lumber and make the repairs to the building without any expense to the Department. You should arrange with the Indians to have these repairs completed at an early date and the house used for the school made as comfortable as possible. Properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred in the purchase of the lumber required.

The question of erecting a new school building next year will receive consideration.

MEMORANDUM

Mr. Paet.

Referring to the attached letter from Mr. Agent Ball, I wish to state that the Osoycos Band have had a school on and off for the past two years. There are roughly ten children of school age. The school was closed the end of June, last, as we were unable to secure a teacher - lack of boarding accommodation was the chief reason for our failure.

There is a very old school building on the Reserve which is not suitable for any purpose. Of late, school has been held in the priest's house, which was given for the purpose. I am of the opinion that \$300 or \$400 will put this building in good shape as a school house, but, in addition, we will have to provide a small teacher's residence, if school activities are to be continued.

Sir,—

I beg to acknowledge receipt of your letter of the 3rd instant and in reply would say that the Priest's house on the Osoyoos Reserve is constructed of hewn logs and on account of its age is quite unfit to be used for any purpose whatever. Permission was granted by the Department last year to expend \$75.00 on it to fix it up, but it was found that nothing could be done on account of the unstable condition, and the amount was not applied for.

The members of the Osoyoos Band are widely scattered at present. Not more than eight children of school age reside in the vicinity of the settlement so that it is not desirable to build a substantial residence and school on this Reserve. I would suggest however that a building quite good enough for a combined school and residence could be erected locally for about \$500.00. This would be a plain frame building large enough for ten or twelve pupils and two rooms for a teacher. On account of the remoteness of this Reserve from white settlements, I do not think we shall ever be able to obtain a white teacher and it would not be advisable to put up any substantial building where the school population is not likely to increase but rather diminish. The proposed new school at Penticton will probably be large enough to accommodate the Osoyoos children, although the Osoyoos Band have not taken kindly to the idea so far. In any event the temporary school located in the Priest's house at Penticton is filled so that no effort has been made to have the Osoyoos children brought over to Penticton. I believe the best plan will be to hold over the building of any school at Osoyoos until after the Penticton School is completed. It may be that when they see a substantial

school building on the Penticton Reserve the parents of the few who have attended at Osoyoos in the past will be willing to bring their children over.

I have just received a wire from the Chief's son, at Osoyoos, which reads as follows:-

"We have teacher, she is starting next week".

I have written for full particulars about this teacher and have asked her to make an application to the Department for the position as the information contained in the telegram was very meagre. The teachers who have taught school on the Osoyoos Reserve so far have been half-breeds who lived with the Indians and where such teachers are available and satisfactory, this is the best arrangement and, I believe that this new teacher will also prove to be a half-breed. Previous teachers have either lived in one of the Indian houses or put up a frame with tent roof and have been quite satisfied, although a white teacher, of course, would not live under these conditions throughout the year.

I do not know what building the Osoyoos Band intend to use in future as a temporary school. The last time I visited the Reserve the Chief's son said he might use a room in his house as the only children attending school at present were his family and near relatives.

I hope the new proposed school at Penticton will be commenced as early as possible.

Ottawa, January 3, 1923.

Sir:-

I have to acknowledge your letter of the 19th ultimo, enclosing a cheque for \$350 - an amount which was requested some months ago by the Osoyoos Band in order to paint their church. I have noted that it will be impossible to use this money for the purpose intended until a later date.

With reference to the suggestion that a portion of the band funds be used to build a small house, the Department is of the opinion that the old priest's home, which was given for the purpose, might be put in good condition for a small sum and that, if any building activity ~~was~~ undertaken, it should be a residence. You will remember that we could not open school this last fall, because there was no residence for a teacher.

Will you make a recommendation to the Department, indicating whether or not a new school at Penticton will cater to the educational needs of the children of the Osoyoos Band. If not, and if there are sufficient children to warrant the expense, consideration will be given to taking some of the Osoyoos Band funds - augmented, perhaps, by parliamentary appropriation - for the erection of a teacher's residence and, if necessary, a new school house.

Sir:

I am directed to acknowledge your letter of the 30th ultimo, relative to the provision of a small school house and residence at the Oseyoos Indian Day School. The Deputy Superintendent General has authorized the erection of a building, as indicated by the rough sketch which you enclosed. You may make arrangements with Mr. H. Parsons, the local contractor, to erect a plain, substantial building to be used for the purposes of a classroom and a teacher's residence. Mr. Parsons' rough sketch called for a building 26 ft. by 14 ft. The Department Architect suggests dimensions of 30 ft. by 16 ft., so that the living accommodation will be more adequate.

Please make arrangements with the contractor to have the building erected, under your supervision, on a proven cost plus ten per cent basis. All accounts will have to be certified by yourself, and proper time sheets should be kept for the labour employed. As a guide, the Department suggests to you and to Mr. Parsons that the total cost be between \$850 and \$900. The cost of the building will be charged to the interest at the credit of the Band.

Your obedient servant,

J. D. McLEAN

Sir,—

FILE 164-11-1.

I beg to refer to your letter of December 12th last authorizing the erection of the Osoyoos Indian Day School with two rooms as a residence.

This work has been very satisfactorily completed along the lines suggested by the Department's architect of a building 30' x 16'. The work was handled by Mr. Henry Parsons and one assistant and time sheets for the labour are attached. I also enclose all shipping bills and itemized accounts for inspection. The building is a very substantial building on concrete piles and has met with the approval of the chief of the Band.

As will be seen by the statements, the total cost is \$947.30. I tried to have the cost kept below \$900.00 and would have done so except for the painting, the expense of which was overlooked in figuring out the cost of the building with Mr. Parsons.

Without extra expense, I have had this account checked over by an architect friend and he states that the prices are as charged on work in Penticton and vicinity. Labour is charged at 70¢ an hour both by Mr. Parsons and his assistant. This also is the wage paid at this point.

The work has been carefully and conscientiously performed by Mr. Parsons, and it is regretted

Sir:

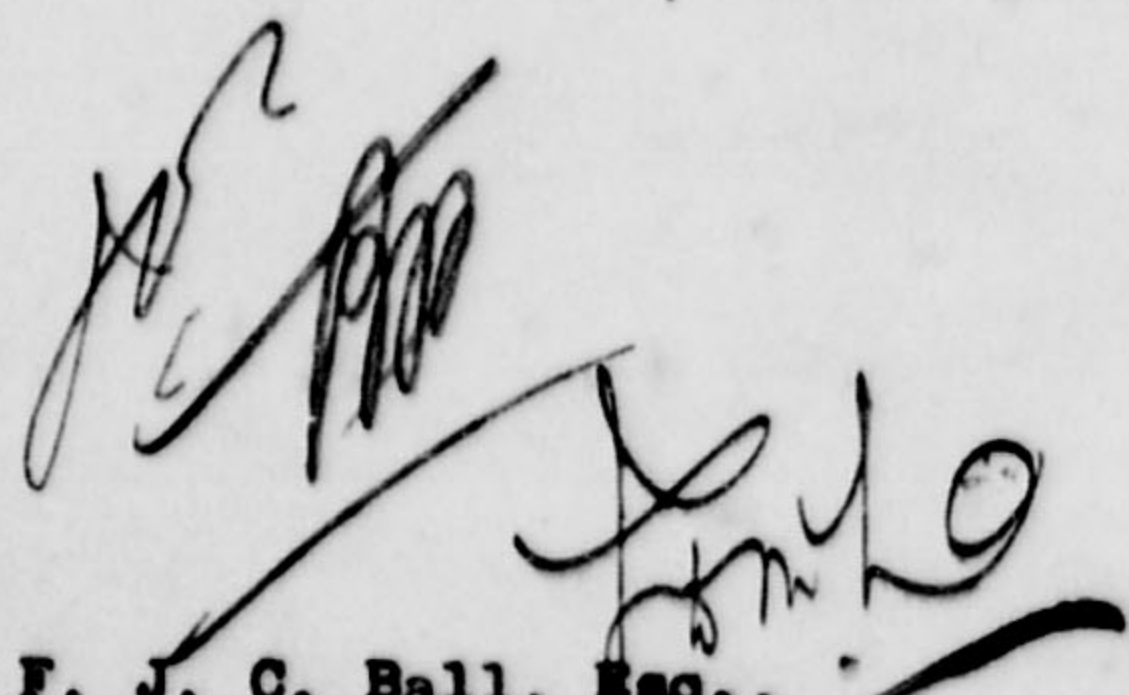

I have your letter of the 26th ultimo advising the Department of the necessity of furnishing a new stove for the use of the Osoyoos Indian Day School and giving an estimate of the cost of same.

In reply I beg to say that you may arrange for the purchase and delivery of a stove of the type and size mentioned by you. You may also purchase any new stove pipe required. The new stove and stove pipe should be obtained at the lowest possible cost, and properly certified vouchers, in duplicate, should be forwarded covering the expenditure incurred. Please arrange to have the stove delivered and set up in the school as soon as possible.

Sir:

RE OSOYOOS INDIAN DAY SCHOOL.

I beg to advise that it will be necessary to purchase a stove for the above school. There is, at present, a stove which was loaned by the former teacher who intends to remove it in the near future. A satisfactory stove can be purchased at Oliver, B.C., the nearest settlement to the above school, the description being a No. 31 Herald Cast Iron Box Stove, taking 28" wood for \$19.00 at Oliver.

The stove-pipe is old and should also be renewed. I respectfully request the authority to have these matters attended to.

I have the honour to be,

Sir:

I have your letter of the 13th instant, enclosing a requisition from the teacher of the Osage Indian Day School for certain equipment for the use of the residence.

In reply I beg to say that you may purchase and have delivered the following, viz: -

2 Knives,	1 Wash Tub,
2 Yds. Oilcloth,	1 Wash Board,
1 Sugar Bowl,	2 Saucers,
1 Cream Pitcher,	3 Small Plates,
2 Bake Pans,	1 Scrub Brush,
2 Vegetable Dishes,	1 Dipper.

Accounts, in duplicate, properly certified, should be forwarded covering the expenditure incurred.

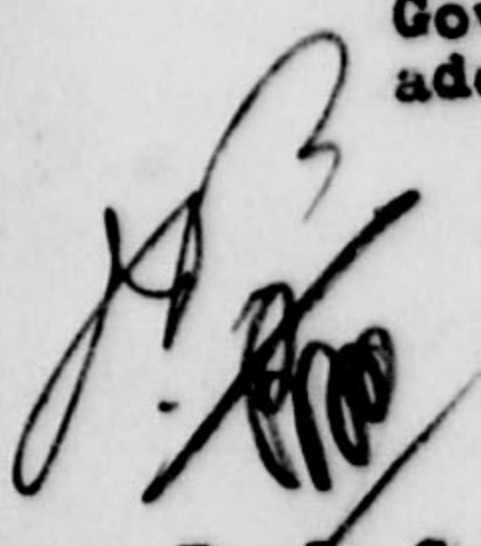

We are not prepared to supply the pair of blankets and the sheets asked for. It is expected that the teacher will arrange to supply this equipment.

The requisition for school material has also been received, and an order is being forwarded to the Government Stationery Office to send to the teacher's address the supplies considered necessary.

Sir,—

I beg to enclose herewith a requisition from the school teacher of the Osoyoos Indian Day School for a number of articles for the residential part of the school. Miss Wadell forwarded this requisition to Mr. R.H. Cairns, Inspector of Schools, who writes me as follows:

"I have received from Miss Mary Wadel a list of articles needed in connection with the teacher's residence. In this list there is an application for a pair of blankets and a pair of sheets. I do not feel that I would be justified in recommending the purchase of these.

Should there be a change of teachers blankets and sheets would be very easily lost sight of, so that I think it would be better for the teacher to own her own blankets and sheets.

As far as the other items on the requisition blank are concerned I would recommend that these be purchased. The cost will be very little.

I am enclosing the requisition for School Material and would suggest that you make any changes therein that you may deem necessary, and forward it to the Department."

As the articles mentioned will be inexpensive, I respectfully recommend that they be supplied to the school.

I have the honour to be,

I beg to acknowledge the receipt of your letter of the 2nd. inst., authorizing the purchase of a stove for the Osoyoos Indian Day School and enclose herewith voucher covering the same.

Instead of the \$19.00 stove I have purchased one for \$12.50 which is the same kind of stove but smaller, and we consider it quite large enough for the small school-room.

As per your instructions the stove pipe was renewed and a sheet of galvanized iron at \$3.40 was also purchased as a fire guard around the stove to prevent the children falling against it.

Sir,-

On a requisition recently forwarded for the Osoyoos Indian Day School, it is noted that the teacher requests a cook stove. Please advise if you consider this is required and, if so, estimate the probable cost of securing a suitable one. You may purchase five cups for use at this school.

Your obedient servant,

A.F. MacKensie

TO DATE OF THIS LETTER

Sir,—

I beg to enclose herewith a voucher in favour of Victor Fairweather of Oliver, B.C. for two brooms and five screens, etc., delivered to the Osoyoos Indian Day School. These screens were not applied for until they were immediately necessary and the teacher, Miss Mary Wadel, made strong representations for them to be put in on account of the mosquitoes in this district. The prices are very reasonable and doubtless these articles were absolutely necessary.

I respectfully recommend that the voucher be paid, although authority has not been received previously for the purchase of the screen door. The brooms were included in a former requisition and authority given for their purchase.

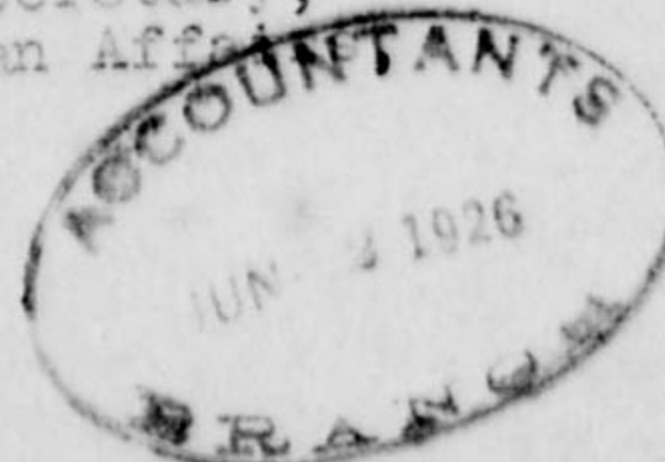

I have the honour to be,
Sir,
Your obedient servant,

Sir:

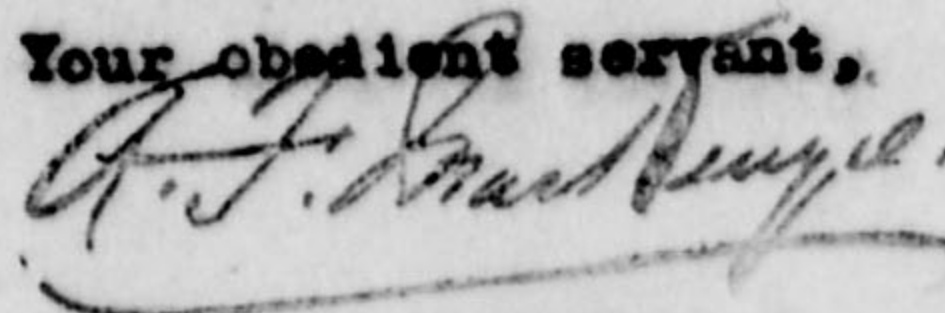

I have your letter of the 27th ultimo, relative to the construction of a cupboard for the Osoyoos Indian Day School, and giving information as to the type required and the cost of same.

In reply I beg to say that you may arrange to have built a cupboard of the dimensions mentioned in your letter. We note that the cost will be approximately \$16.50 delivered at the school.

After this work has been completed, please forward an account, in duplicate, properly certified, covering the expenditure incurred.

Please have this cupboard installed at an early date.

Sir,

Re Your File 164-11-4

I beg to refer to your letter of the 21st ultimo instructing me to obtain an estimate of the cost of constructing a cupboard for the Osoyoos Indian Day School.

The specifications asked for by the teacher are as follows: Height 6 feet, width 3 feet, depth 1'6", 4 drawers, 2 doors at the bottom and a series of pigeon holes in the upper half, as per sketch attached. I have received an estimate of \$16.50 delivered at the school, or \$14.50 in Oliver, B.C.. This accommodation is needed badly at the school and the estimate is respectfully submitted for your approval. The price appears to be reasonable and is submitted by Henry Parsons, the man who built the school.

Sir:

I have your letter of the 20th instant, relative to the request of the teacher of the Osage Indian Day School to have a cellar built in which to store food supplies and giving an estimate of the cost.

In reply I beg to say that the Department will approve of you arranging to have the construction of this cellar carried out. You should purchase any material required and arrange for the labour. It is noted that you estimate the cost of the material and labour to be approximately \$50.. After the work is completed, you should forward accounts, in duplicate, properly certified, covering the expenditure incurred.

Sir,-

I have received a request from the teacher of Osoyoos Indian Day School for a cellar to be built at the school. He states that in summer he cannot keep food on account of the heat and in winter it freezes.

This school is quite small and was built from Osoyoos Band funds. All available children attend and it is strongly supported by the Chief and his son, which is in contrast to some of the schools here. It is rather an isolated place and not very convenient for the teacher.

I have obtained the following estimate from Narcisse Baptiste of this Reserve to construct a cellar 7' x 7' x 6' lined with plank and well roofed for \$50.00 and would respectfully request authority to have the cellar built.

I have the honour to be,

Sir,

I beg to enclose herewith the monthly reports and requisitions for various schools in this Agency. and in connection with the Osoyoos School requisition the teacher has requested that a bed and mattress and two Aladdin lamps be supplied. I inspected this bed recently and a new one is certainly required. The only lighting in this school is by one old fashioned oil lamp, and as Mr. Grist, the teacher, is giving instruction to some of the adult Indians in the evening, a better light is required, and I respectfully recommend that these articles be authorized.

The schools are now all doing particularly good work, principally on account of the keenness of the teachers.

On visiting the Osoyoos Indian School recently the teacher and the Public Health Nurse pointed out that the children were using a common drinking cup and dipping it in a pail and that this was detrimental to health where there is danger of infection. The Nurse suggested that a water cooler (similar to No.35 on page 202 of Christie's catalogue) and 12 drinking cups (similar to No.10 on page 209), be supplied, and I respectfully request advice as to whether this can be granted. 186

Mr Perry in my presence, examined the progress of the children here, and expressed his appreciation of the work Mr. Grist, the teacher in charge, is doing. The school is well kept and clean. There were seven children present on the day of our visit. Mr. Grist always seems a very capable teacher. A shed for wood should be erected, as he is now forced to use the woodshed to garage his car. I mentioned the necessity for a garage here, in my last report.

Sir:

I have your Os. 1-10-1 of the 21st instant, with reference to painting and repairs to the Osoyoos Indian Day School. You may cover the siding with tar paper and shingles, as recommended in your letter. Then, one coat of shingle stain should be applied to both roof and walls. I note that the total cost in this connection, including windows and doors, will be approximately \$225. You may also tint the interior walls, or, if you consider it advisable, decorate by painting. Further, you may erect a woodshed, at an approximate cost of \$100.

I note that this work can be done by Indians, under the supervision of the teacher, and that the materials will be purchased by yourself. The accounts for materials should be properly certified by yourself and forwarded to the Department for payment. You may apply, when timely, for an accountable cheque, with which to pay labour.

Your obedient servant,

T. R. L. MacInnes,

TO DATE OF THIS LETTER

Sir,— Re Painting Osoyoos Day School
File 164-11-5.

Replying to your letter of June 27th, I beg to advise that I have inspected the Indian Day School on Osoyoos Indian Reserve No.1 and by measurement find that this building is 16'6" x 30' x 10', and, in my opinion, of very poor construction, being little more than a rather badly built shack.

The outside appears to be common siding nailed direct to the studding and the inside three-ply cottonwood veneer applied direct to studding. The outside siding has shrunk rather badly and, in places, it is possible to insert the fingers. The veneer lining has been put on so badly, that it forms very poor protection and the result is that the high winds prevalent in this district blow clean through the school.

In view of this condition, I would recommend that the outside be covered with tar paper, and shingled on top of the siding, which if properly done would give a weatherproof building. The total cost of this work, with one coat of shingle stain to walls and roof, should not exceed \$200.00 with an additional \$25.00 for windows and doors. I would also strongly recommend interior re-decoration at a cost not to exceed \$75.00, the inside being unpainted except the strips holding veneer panels and the whole being in a very dingy condition.

For a paint job alone, I estimate the cost not to exceed \$225.00 for outside work, and \$75.00 for interior, or a total of \$300.00 in all; but apart from the roof, I do not consider the outside worth the expenditure in its present condition, other than from a decorative viewpoint; particularly, as there would be very little difference in the comparative costs. I would further suggest that paint and material be purchased by the Department and not by the individual performing the work, ensuring first-class material. As the Indians of this reserve are rather above the average in intelligence, and they have done excellent paint work on their own houses, I believe we would secure a perfectly satisfactory job to have one of them do the work under the supervision of the teacher, Mr. Grist, and, if this was done, we would eliminate a daily taxi charge for a sixteen mile return trip

from the nearest town, which would run quite high and would, of course, be charged to the job. I can personally undertake to see that the work is completed in a good shape.

This school also requires a woodshed, there being no outbuilding whatever, apart from latrines. The cost of this will not exceed \$100.00, if authorized.

This school has been giving me considerable cause for thought on account of low attendance and high costs per pupil, and I have advised the Indians of this Reserve that every child of school age and within reasonable distance of the school must attend. I do not wish to recommend closing the school for the reason that the majority of the Indians are very keen on keeping it open, this school being the first in this agency, and, I understand, originally opened by the Indians themselves at their own expense, but with the present average attendance, it appears to me that it would be better to run the school for three days per week, and utilize the services of the teacher in the Similkameen, for part time, as they have been calling for a school there for the past two or three years.

I am reporting fully on this matter in a separate letter, and would appreciate your instructions in regard to both subjects. I have deferred the painting of Osoyoos School until such time as Mr. Grist returned, in order that we would have a check on the work.

I have the honour to be,
Sir,
Your obedient servant,

(James Coleman)

Sir:

Mr. Perry, Assistant Indian Commissioner for British Columbia, in a report on his recent visit to the Osoyoos Indian Day School, suggests that the school building be painted on the outside, in order to preserve it.

In this connection I have to request that you will furnish an estimate of the cost of painting the exterior of this building. Please also state how you would recommend that the work be carried out. Could you arrange for the purchase of the paint and other materials required and for the labour? Our funds for the present fiscal year are limited but, if the painting of the building would not involve too large an expense, favourable consideration will be given to authorizing the work after full information is received from you as to the cost, etc.

The Indian day school at Osoyoos, was visited and the work of the teacher Mr. Grist, and of the children was examined. We found that good results were being obtained here. We addressed the children who were clean and intelligent.

It is thought the school building should be painted outside in order to preserve it. We heard good reports of the former work of Miss Waddell, who was teacher here and who is now at Seabird Island Indian Day school in the Lytton Agency.

Sir:

re: Vouchers 3937, 3938, 3939 & 3940.

As none of these Vouchers appear to have been paid, I have prepared duplicates of same, and enclose them herewith. These vouchers dealt with Janitor's Supplies for Osoyooos Indian Day School (No. 3937), and payment for Janitor's services, one voucher for each of the three teachers attached to this Agency, and as they were all issued on the same day, it may be that they were mailed in the same envelope and have gone astray. At any rate, none of the three teachers have received cheques and I am just in receipt of another bill from Victor Fair-weather Ltd., who supplied the Janitor's supplies.

Sir,-

Referring to your letter of the 3rd instant, stating that because Vouchers Nos 3937, 3938, 3939 and 3940 were not paid at the time you expected action to be taken, you issued duplicates, I have to inform you that you should have made enquiry of the Department in the matter before proceeding as stated. The delay in payment is consequent upon the fact that the money appropriated for expenditure in connection with Schools for the current fiscal year is nearly exhausted, and therefore cheques will not be drawn until Parliament votes further funds.

Your action in this matter might have resulted in duplication of payment. You should not at any time issue duplicate vouchers, without communicating in the matter with the Department. Kindly make a note of these instructions.

Sir:

Mr. Inspector Barry, in a report on his recent inspection of the Osoyoos Indian Day School, has recommended that a new stove be supplied previous to the opening of the school next fall. He states that the stove at present in use is in a very bad state. He also states that two pieces of linoleum, approximately 10' x 8', are badly needed for the teacher's two small rooms.

The Department will approve of you arranging for the purchase of a new stove for the school and the linoleum required for the two rooms in the teacher's residence. You should obtain a stove of the type that would be satisfactory to heat the school, and the same should be obtained at the lowest possible cost. This stove should be purchased during the coming summer and installed in time for use next fall. You may arrange for the purchase and delivery of the linoleum for the two rooms, incurring no unnecessary expenditure for the purpose, and you may forward an account, in duplicate, properly certified, covering the cost. You should forward an account, in duplicate, covering the cost of the stove after the purchase has been made next summer.

Your obedient servant,

A. F. Mackenzie,
Secretary.

Sir:

Your File No.164-11-5.

With reference to the exterior and interior decoration of Osoyoos Indian Day School, it was found necessary to purchase a small additional amount of shingle stain to make a complete job of outbuildings as well as the school building itself, although it was at first thought possible to paint these from material left over from the school. Mr.Grist, the teacher, performed the work without charge and the entire school and outbuildings have been completed, and much improved, both in appearance and weathering capacity.

I would respectfully recommend payment of the attached voucher, in view of the fact that the amount expended completes the job of re-decoration at a low cost.

OFFICE OF
INDIAN AGENT

Vernon, B.C.

April 14th 1931.

File V-1.

Sir:

I enclose herewith Voucher No.4026 for \$5.04, being automobile expenses incurred by Mr.F.Grist teacher of the Indian Day School at Osoyoos I.R.No.1, during the recent visit of Mr.Barry, Inspector of Indian Schools in B.C.

On March 27th I requested Mr.Barry to investigate the question of a school on Lower Similkameen Indian Reserves No.7 & 8, and arranged to take him over there, but unfortunately was unable to do so by reason of the visit of Miss Craig, Western Supervisor of the V.O.N. on the same date, and I was very anxious that she should include the nurse at Keremeos in her inspection, and as there was no direct way for her to reach that point from Oliver, asked Mr.Grist to take Mr.Barry to the Similkameen, and I took Miss Craig to Keremeos. Mr.Grist's return trip amounted to over 140 miles.

It was also necessary for Mr.Grist to make an emergency trip from the Reserve to Penticton, a return trip of over 70 miles, on the 24th of March with an Indian girl requiring medical treatment.

This account covers only the actual out of pocket expenses for gasoline and oil, and I would respectfully recommend payment of these very reasonable charges.

I have the honour to be,

Sir,

JC/DH.

Your obedient servant,

(James Coleman)

Dear Sirs:-

We are advised that it is probable at an early date you will require building material for delivery to the Indian Reserve at Oliver and/or Osoyoos, B.C.

We have at our Oliver, B.C. retail yard, under title "Oliver Lumber Company" a complete stock of lumber and builders' supplies, and if you are in the market for this class of stock in that particular area, we would very much appreciate being favored with an opportunity to tender on your requirements, which can be submitted to either our Wholesale office here in Vancouver, the Cosmopolitan Lumber Co. Ltd., or direct through our retail yard the Oliver Lumber Company at Oliver, B.C.

Might we say that we have been favored with considerable business from the Department of Public Works and the Department of National Defence through our wholesale office, the Cosmopolitan Lumber Co. Ltd.

Thanking you in anticipation, we are,

Yours very truly,

E X T R A C T from Inspector Barry's Report
regarding his visit to the OSOYOOS INDIAN DAY
SCHOOL on January 24th, 1933.

Original on File 164-11-6.

The desks should be placed on strips of wood
to make it easy to clean the room and, at the same
time, to preserve the distance between the seats and
the desk.

Again I have to recommend that a PYRENE FIRE
EXTINGUISHER be put in this school without delay.
This was recommended in March, 1931, and again in
December, 1931, with full details of the lack of a
water supply at the school. I consider the lack of
some Fire Extinguisher a very serious matter here and
must decline entirely to take any responsibility in
the case of any loss or hurt to the children as a
result of lack of action on the part of the Department.

Sir:

I enclose herewith requisition for material for Osoyoos Indian Day School, and would advise that Mr. Inspector Barry, on his recent inspection, recommended that the school desks be fastened together in pairs by 2" x 1" strips of wood fastened underneath the base, which will require about 125' of this material and one gross of wood screws, with possibly a labour cost and haulage of material of not more than \$5.00.

The Inspector also again recommended the installation of one "Pyrene" fire extinguisher, as there is absolutely no other protection for the school, and a very small fire would result in it's total loss, the nearest water being one-quarter to one mile distant, depending on the time of year.

Requisition for School Material

Date February 16th 1933

For Osoyoos Day School OKANAGAN Agency

NOTE:—Teachers should secure from the Department of Education, of the Province in which the Indian School is located, a list of the text books authorized for use in the white schools. In ordering text books, only those authorized in this list should be requested.

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "No. Authorized".

Ottawa, March 2, 1933.

Sir:

I have your letter of the 24th ultimo, enclosing a requisition for material for use at the Osoyoos Indian Day School.

In reply I have to say that you may arrange for the purchase and delivery of the following: 1 mop with handle; also 125 feet wooden strips and one gross wood screws, for fastening school desks in pairs, as recommended by Mr. Inspector Barry. You may also arrange to have the work carried out in fastening the desks to the wooden strips. It is noted that the labour, cost and haulage of the material will be approximately \$5.

Regarding the gasoline and coal oil asked for, I have to say that, while in the past these supplies have been allowed, I would request that you state whether the oil and gasoline are for the teacher's use in his residence or for lighting purposes in the school. As our funds are limited, the question of authorizing the purchase will be considered when we have your reply as to the use for which the above is required.

Regarding the Inspector's recommendation that a fire extinguisher be supplied, I have to say that it is not the policy of the Department to provide fire extinguishers for use at Indian day schools.

We are not prepared to authorize the supplying of toilet paper.

A. F. MacKenzie,

Sir:

re: Your File No.164-11-5.

Replying to your letter of the 2nd instant enquiring whether coal oil and gasoline ordered for Osoyoos Indian Day School is for use in the residence of the the teacher or the school, I beg to advise that it is intended mainly for the teacher's quarters, which are built into the school - with occasional use in the class room on dull winter days.

Probably, under the circumstances, it might be equitable to supply one four gallon can of either the gasoline or the coal oil. In any event, the teacher has been notified that these will not be furnished after the close of the present fiscal year, and it is unlikely that further requisitions for same will be received.

Sir:

I have your letter of the 8th instant, regarding the requisition which you forwarded from the teacher of the Osoyoos Indian Day School for gasoline and coal oil. In this connection it is noted that supplies of this nature are mainly for the teacher's quarters, with occasional use in the classroom on dull winter days.

You may supply one 4-gallon can of either the gasoline or the coal oil for use in the classroom when required. However, the Department cannot continue supplying either coal oil or gasoline for the teacher's own use in his living quarters. After you have made the purchase of the 4 gallons authorized, you should forward an account, in triplicate, properly certified, covering the expenditure incurred. It should not be necessary to supply any further quantity for lighting the classroom for a considerable length of time.

Sir:

I beg to acknowledge receipt of your letter of the 2nd instant, enclosing Inspector Barry's report regarding his inspection of the Eukameep Indian Day School. You might obtain and forward, for the Department's consideration, an estimate of the cost of piping the water in the manner suggested by the inspector. The matter will then receive further thought, but, at the present time, I am not in a position to state whether or not funds will be available for the purpose.

E X T R A C T from Inspector Barry's Report on his inspection of the INKANNEEP INDIAN DAY SCHOOL on February 15, 1934. - Original on File 164-11-6.

The water supply is not sufficient in that it is from a small surface spring and is little more than seepage. It would be an advantage if this water could be piped a distance of about 400 yards from the little spring to the school. I do not suppose that there is any money for such a purpose at the present time.

-,- - - -

E X T R A C T from letter of Asst. Indian Commissioner Perry, dated March 2nd, 1934, enclosing above report. Original on File 164-11-6.

In the event of the Indian Agent not making such requisition, however, it is considered advisable that a suitable fire extinguisher should be provided for this school as a means of fire protection in view of the hazard called to the Department's attention by Inspector Barry.

In regard to the small water supply for this school, an item could be included in the Estimates for the fiscal year 1934-35 under the heading of B.C. Special Vote either under Medical or Irrigation if this item is approved by the Department, the Agent to be asked to submit an estimate and give the necessary particulars of the spring referred to by the Inspector. We have certain water rights in this reserve and I feel we should do everything possible to see that this school is supplied with suitable water particularly in view of the other favourable conditions reported to exist at this school.

(INKANEEP)

SCHOOLS:

These are all progressing satisfactorily. OSOYOOS and OKANAGAN are engaged in spring work on gardening projects, which the teachers use as a method of imparting agricultural principles to the children. It is rather unfortunate that this extremely valuable work does not receive better recognition.

Sir:

With reference to your letter of the 14th instant, enclosing a letter received from Mr. James Coleman, requesting authority to expend \$3 in the purchase of garden seeds for the Inkaneep Indian Day School, I beg to say that, owing to lack of funds, this amount cannot be allowed.

It is felt that the Indian parents should be sufficiently interested in their children to supply the seeds required for the school garden.

Sir,

I am enclosing herewith requisition for kalsomine and some garden tools for Inkameep Indian Day School, and I would recommend that same be approved. The teacher hopes to have a better school garden than last year, as the children are very interested in the work. The School has not been kalsomined for some time, and Mr. Walsh hopes to have it done during the Easter vacation.

With reference to your letter of the 29th ultimo, enclosing a requisition for supplies for the Inkaneep Indian Day School, I beg to say that you may arrange for the purchase and delivery of 10 pounds kalsomine and 1 brush. It is presumed that the work will be done by the teacher without cost to the Department.

If you consider the school garden work should be encouraged, and if the school garden is looked after during the holiday period, the Department approves your arranging for the purchase of one spade and five trowels.

Mr. Inspector Pragnell, in a report on his recent inspection of the Inkaneep Indian Day School, has drawn attention to the source of the water obtained for use at the school. He states there is a spring a little way up the hill, back of the school, and recommends that a pipe-line be installed from the spring to the school.

I shall be pleased if you will report regarding the suggestion of the Inspector, stating the approximate cost involved for material and labour.

EXTRACT FROM REPORT OF INSPECTOR G. S. PRAGNELL,
dated May 10, 1935. (P.O. Box 752, Kamloops, B.C.)

Original on 77-16

XX

INKANEET DAY SCHOOL:

I found everything very satisfactory under Mr. Walsh at this day school. There were ten in class on the date of my visit, out of eleven on the roll. The reading and writing of all the children was quite good. They were sending an exhibit of handicraft made by the pupils to an exhibition of handicraft held in Vernon, and I understood that this exhibit was very favourably commented on. Part of it was pottery work. This school has also exchanged handicraft with a school in Czecho Slovakia. One small improvement that should be done at this day school is to pipe the water from its source, a spring a little way up the hill back of the school, down to the school building. This is necessary from the health point of view, instead of the children and the teacher having to take their water out of the creek flowing near the school, which the cattle also use. However, as the teacher lives at the day school, it would be a great convenience to him, which should receive consideration. In addition I might say that this spring runs all the time, but the creek itself dries up about the beginning of July, and it means quite a climb up hill to get water after the creek has stopped running.

*Noted for
Estimates
June 17/35
G.M.*

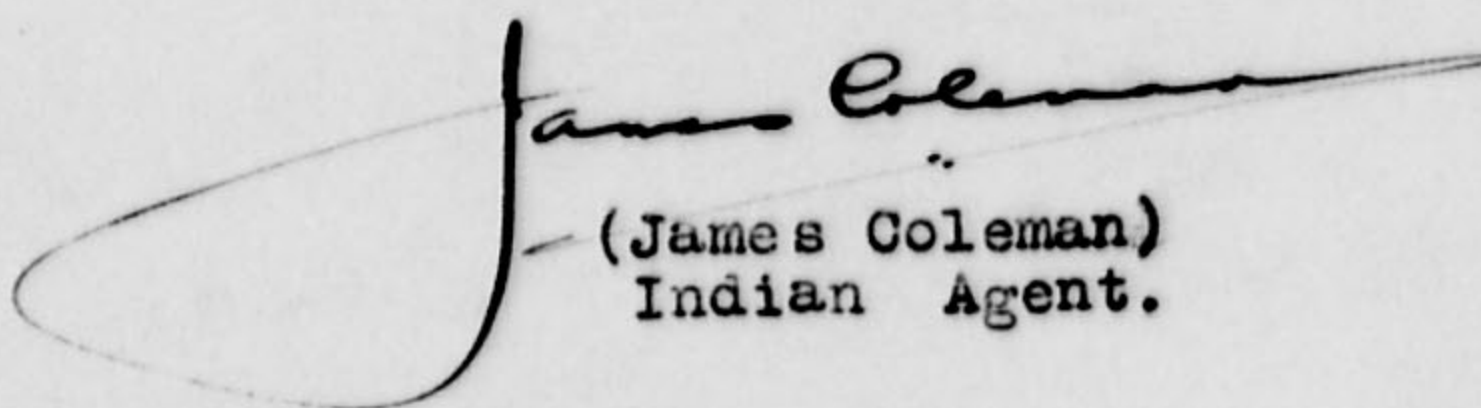

Replying to your letter of the 6th instant regarding Mr. Inspector Pragnell's report regarding water for Osoyoos Day School, I would advise that I provided for an expenditure of \$385.00 in my 1935-6 Estimates for this purpose.

Unfortunately, the spring is not so close to the school as would be gathered from the Inspector's report; as it is about a quarter of a mile up a rocky gulch where excavation would be difficult. The water supply amounts to only a mere trickle during the summer months, but the school is closed during that period. The only other supply is about a mile distant and difficult to bring to the school. Sinking a well would be problematical, owing to rock formation, an Indian well nearby being dry most of the year.

It might be possible to curtail the expenditure somewhat and the cost would be kept as low as possible.

Sir:

I have your letter of the 12th instant, regarding the water supply for the Osoyoos Indian Day School and giving an estimate of the cost of installing a pipeline from a spring located about one quarter mile from the school.

In this connection I have to say that the Department will have no funds this year to cover the cost of having this work carried out. A note has been made to provide the expenditure - approximately \$385.00 - in our Estimates for the next fiscal year. Before incurring any expenditure, however, the Department would require to be definitely assured that there would be an ample supply of water obtained from the spring and also that the pipe could be installed in a manner to prevent freezing in winter. It is noted that the result from the sinking of a well would be problematical, owing to rock formation. You might furnish full information with your estimates for the next fiscal year.
